9 Essential Skills for the Love and Logic
Classroom®

OUR STORY

Andy's been teaching and working with kids, families, and schools for over 30 years. *One thing he's learned is that there's great hope for adults AND kids when we set firm, loving limits and give our kids as much freedom as possible.*

He came to the practical skills he delivers out of necessity. Stepping into a public school classroom as a young teacher in the 1990s, it became very clear that the examples and techniques used by adults in his own childhood of the 70s and 80s were no longer state-of-the-art nor culturally relevant to students.

From this necessity has grown a unique, practical, and humorous perspective that equips adults with the skills and understanding they need to give all kids their very best shot at success in the real world.
