Section 4. That section 10.10.190, Traffic control signal legend, of The Code of the City of Topeka, Kansas, is hereby repealed.

Traffic control signal legend.

Whenever traffic is controlled by traffic control signals exhibiting different colored lights, or colored, lighted arrows, successively one at a time or in combination, only the colors green, red and yellow shall be used, except for special pedestrian signals carrying a word legend, and such lights shall indicate and apply to drivers of vehicles and pedestrians as follows:

(a) Green Indication.

(1) Vehicular traffic facing a circular green signal may proceed straight through or turn right or left, unless a sign at such place prohibits either such turn; but vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited.

(2) Vehicular traffic facing a green arrow signal, shown alone or in combination with another indication, may enter the intersection cautiously only to make the movement indicated by such arrow, or such other movement as is permitted by other indications.
shown at the same time. Such vehicular traffic shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.

(3) Unless otherwise provided by a pedestrian control signal, pedestrians facing any green signal, except when the sole green signal is a turn arrow, may proceed across the roadway within any marked or unmarked crosswalk.

(b) Steady Yellow Indication.

(1) Vehicular traffic facing a steady yellow light is thereby warned that the related green signal movement has been terminated and that a red signal (indicative that vehicular traffic shall not enter the intersection) will be exhibited immediately thereafter. Vehicular traffic facing a steady yellow signal shall stop before entering the nearest crosswalk at the intersection, or if none, at a clearly marked stop line, or if none, then before entering the intersection. Any driver of any vehicle who enters such crosswalk, or if none, such clearly marked stop line, or if none, such intersection, while facing a steady yellow signal and thereupon turns or proceeds through the intersection, during which time the signal changes to red prior to such vehicle completely clearing the intersection, shall be guilty of a yellow light violation. Nothing in this subsection shall prohibit a driver from executing a lawful right turn on red after a complete stop in accordance with subsection (c)(2) of this section.

(2) Pedestrians facing a steady yellow signal, unless otherwise directed by a pedestrian control signal, are thereby advised that there is insufficient time to cross the roadway before a red indication is shown and no pedestrian shall then start to cross the roadway.

(c) Steady Red Indication.

(1) Vehicular traffic facing a steady red signal alone shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection, or if
none, then before entering the intersection, and shall remain standing until an indication
to proceed is shown, except as provided in subsections (c)(2) and (c)(3) of this section.
Any turn provided for in subsections (c)(2) and (c)(3) of this section shall be governed
by the applicable provisions of ordinance.

(2) Unless a sign is in place prohibiting a turn, vehicular traffic facing a steady red signal
may cautiously enter the intersection to make a right turn after stopping as required by
subsection (c)(1) of this section. Such vehicular traffic shall yield the right-of-way to
pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the
intersection.

(3) When appropriate signs are posted, vehicular traffic upon a roadway restricted to
one-way traffic facing a steady red signal at the intersection of such roadway with
another roadway restricted to one-way traffic which is proceeding to the left of such
vehicular traffic, may cautiously enter the intersection to make a left turn after stopping
as required by subsection (c)(1) of this section. Such vehicular traffic shall yield the
right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic
lawfully using the intersection.

(4) Unless otherwise directed by a pedestrian control signal, pedestrians facing a steady
red signal alone shall not enter the roadway.

If an official traffic control signal is erected and maintained at a place other than an
intersection, the provisions of this section shall be applicable except as to those
provisions which by their nature can have no application. Any stop required shall be
made at a sign or marking on the pavement indicating where the stop shall be made,
but in the absence of any such sign or marking the stop shall be made at the signal.
Section 5. That original § 10.15.010 and § 10.15.020 of The Code of the City of Topeka, Kansas, is hereby specifically repealed.

Section 6. This ordinance shall take effect and be in force from and after its passage, approval and publication in the official City newspaper.

Section 7. This ordinance shall supersede any ordinances, resolutions or rules, or portions thereof, which are in conflict with the provisions of this ordinance.

Section 8. Should any section, clause or phrase of this ordinance be declared invalid by a court of competent jurisdiction, the same shall not affect the validity of this ordinance as a whole, or any part thereof, other than the part so declared to be invalid.

PASSED AND APPROVED by the Governing Body February 15, 2011.
