BE IT ORDAINED BY THE COUNCIL OF THE CITY OF TOPEKA, KANSAS:

Section 1. That The Code of the City of Topeka, Kansas, is hereby amended by adding a section, to be numbered 18.270.010, which said section reads as follows:

Purpose.

The governing body recognizes that there are several unique and distinctive older residential neighborhoods which contribute significantly to the overall character and identity of the city, and are worthy of preservation, appropriate maintenance, and protection. As a matter of public policy, the city, in partnership with its distinctive neighborhood organizations, aims to preserve, protect, enhance, and sustain the value of these residential neighborhoods through the establishment of neighborhood conservation districts (NCD). The purpose of an NCD is to promote compatible new construction, alterations, and demolitions within the district’s built environment in order to strengthen and build upon those desirable physical features already existing.

Section 2. That The Code of the City of Topeka, Kansas, is hereby amended by adding a section, to be numbered 18.270.020, which said section reads as follows:

Designation.

The governing body may designate certain residential neighborhoods, or portions thereof, as neighborhood conservation districts. Neighborhood conservation districts shall be overlays to existing zoning districts. Property within an NCD must also be
designated as being within one of the existing zoning district classifications. Such
property shall comply with all applicable use restrictions unless further restricted by the
NCD. Separate ordinances shall designate each NCD which shall be distinguished as
separate zoning districts. Ordinances designating each NCD shall identify the
designated district boundaries, and specify the individual purposes and design
standards for that district. Where any conflict exists between zoning districts, the
provisions of the NCD shall control.
