Purpose

This Plan is intended to promote the revitalization of the inner urban area hereinfter described as the "Neighborhood Revitalization Area" of the City of Topeka through the rehabilitation, conservation and redevelopment of the area in order to protect the public health, safety welfare of the residents of the City. More specifically, in accordance with KSA 12-17, 118 (d), a tax rebate incentive will be available to property owners for certain improvements that raise the appraised value of residential property 10% and commercial property 20%.

In accordance KSA (2000 Supp.) 12-17, 114 et. seq., the City Council has held a public hearing and considered the existing conditions and alternatives with respect to the described area, the criteria and standards for a tax rebate and the necessity for interlocal cooperation among the other taxing units. Accordingly, the Council has reviewed, evaluated, and found that the described area meets one or more of the conditions contained in KSA (2000 Supp) 12-17,115 (c).
PART 1
DESCRIPTION OF NEIGHBORHOOD REVITALIZATION AREA

The Neighborhood Revitalization Area (Map #1) follows the boundaries of Intensive Care and At Risk neighborhoods as identified in the Neighborhood Element of the Comprehensive Plan. This element, originally approved in 2000, establishes four (4) health classifications for neighborhoods (intensive care, at risk, out patient, and healthy) to determine priorities for re-investment and planning assistance. They are described below in order of priority:

- **Intensive Care** - areas with seriously distressed conditions that need immediate attention and intervention
- **At Risk** - areas with emerging/existing negative conditions that need attention before they succumb to seriously distressed conditions
- **Out Patient** - areas with favorable conditions in need of minor isolated treatments
- **Healthy** - areas with optimal conditions

The four health classifications were based on five (5) vital signs that measured the relative health of all neighborhood areas in Topeka. This neighborhood health assessment was used to develop a “triage” approach to revitalization. Those areas that had more “life-threatening” or urgent needs as measured by the vital signs should receive higher priority for treatment over those areas with less urgent needs. These higher priority areas (intensive care/at risk) are the focus for neighborhood planning efforts and public re-investment. A summary of the vital signs include:

- **Poverty (2000 U.S Census)** - High concentrations of poverty are one of the most reliable indicators of performance in school, crime rates, family fragmentation, job readiness, housing conditions, etc.
Public Safety (2001-2002, Topeka Police Dept.) – Public Safety, as measured by number of Part I crimes reported for the last three years, is a symptom indicating the local environmental conditions conducive to crime and how well a neighborhood is organized to prevent crime from occurring.

Residential Property Values (2002, Shawnee County Appraisers Office) – Property values are in part a reflection of the quality of housing supply and the image of a neighborhood. The median value of a house purchased in Shawnee County was $79,000 in 1998.

Single Family Housing Tenure (2002 Shawnee County Appraisers Office) The percentage of homeowners residing in a neighborhood can be an indication of the willingness (or confidence) to invest in the area. The most relevant measure of this is how many single-family dwellings are owner-occupied since these homes were built for individual ownership.

Boarded Houses (2001-2002, City of Topeka Code Compliance) - A boarded-up house is one of the most, if not most, evident physical displays that will undermine confidence in an area for investment and precipitates a downward spiral for the block and/or neighborhood.

Area Profile

Health rankings are determined by averaging all vital sign levels for each neighborhood area. Intensive care and at risk neighborhoods have the lowest vital sign measurements, and hence are being targeted as the Neighborhood Revitalization (NR) Area.
