

## RESEARCH STUDY

# DOES YOUR WORK INVOLVE TOURETTE'S SYNDROME?

---

*Deep brain stimulation is an emerging therapy for severe Tourette's. We want to know what you think about it - complete our web survey to help further progress in the treatment of Tourette's.*

- **All information will be collected anonymously**
- **Survey takes 5-10 minutes of your time**
- **Interested? Follow this link:**
