

2013 Matrix

The 2013 Matrix, designed to make things better.

With stunning curb-appeal, renowned Toyota fuel efficiency, available 158 hp and cargo room to spare, Matrix is everything you need in a car. Proudly built at our Cambridge, Ontario assembly plant,⁷ every Matrix is built to be enjoyed and more importantly, to last.

The 2013 Matrix is a car without compromise. So, whether you're looking to raise the hairs on the back of your neck, helping a friend move, or simply enjoying a Sunday drive, Matrix delivers a sporty ride wrapped in a thoughtfully engineered package.

Toyota's commitment to safety is demonstrated through our innovative Star Safety System™, and our dedication to reliability is proven by the fact that over 80% of Toyotas sold in Canada in the last 20 years are still on the road today*. Those are just a few reasons why you'll feel more confident than ever sitting behind the wheel.

The 2013 Matrix, like every single one of our vehicles, was built to make things better. It's just how we approach everything we do, every day.

FRONT COVER
Matrix XRS shown in
Nautical Blue Metallic.

*Based on R. L. Polk Canadian Vehicles In Operation and new registrations MY 1993-2012 as of June 30, 2012.

Matrix AWD with S Package
shown in Black Sand Pearl.

It does what you do

Versatility comes standard

Matrix with S Package shown in Nautical Blue Metallic.

What's on the inside is as impressive as what is on the outside. Everywhere you look inside the Matrix, you'll find a little something extra to help you do what you need to do. With seats that can be configured to create extra storage, front and rear door pockets, centre console and a host of other storage compartments, Matrix has the space and the refined comfort to make every trip an enjoyable one.

SPACIOUS INTERIOR
Your day is not routine and neither is Matrix. With an easy to configure interior, it can handle whatever comes your way.

IMPRESSIVE CARGO SPACE
60/40 split rear bench seats fold down flat to give you an incredible 1.4 m³ [49.4 cubic feet] of cargo space.

DUAL GLOVE COMPARTMENT
From your important documents to your MP3 player, the dual glove compartment is comprised of two large, deep bins that keep whatever you need organized and close at hand.

OVERHEARD STORAGE
An available overhead storage compartment means you'll never sit on or lose your sunglasses again.

SEATING

Go first-class all the way. With large bolsters that hold the driver and front passenger firmly in place, these seats are designed for the utmost in comfort. And with a gated-shifter mounted high on the centre console, control is always in reach.

Sit back and enjoy the ride

The drive isn't the only thing that's entertaining

Fun. No other word better describes what it's like every time you get behind the wheel of a Matrix. And that's a good thing because whether you're on errand duty, commuting to work or chauffeuring

friends for a night on the town, the Matrix has the comfort and the entertainment to keep you moving in more ways than one.

MOONROOF

Moon, sun, stars, blue-sky, the best view might be the one that's above you. [Standard on XRS, optional on Touring and S Packages]

USB PORT AND AUXILIARY AUDIO JACK

Plug your MP3/WMA players into the standard auxiliary audio input and bring your favourite driving tunes with you.

DISPLAY AUDIO SYSTEM

Available 6.1-inch touch screen audio display with Bluetooth®3 wireless music streaming means all your entertainment is literally a touch away.

Matrix XRS shown in Barcelona Red Metallic.

Performance

In perfect harmony

With fuel-efficient engines that deliver maximum performance and finely tuned automatic and standard transmissions, Matrix will leave you grinning from ear-to-ear. But that's not where the performance ends: available Active Torque Control

helps ensure controlled performance on every road surface, while Dual Variable Valve Timing with intelligence, automatically adjusts valves to optimize power and reduce emissions – that means performance on the road and at the pumps.

INDEPENDENT DOUBLE-WISHBONE REAR SUSPENSION
The Matrix AWD and XRS come with an independent Double-Wishbone Rear Suspension that allows each rear wheel to act and react to forces independently. The result? Both rear wheels are kept in maximum contact with the road surface, enhancing cornering grip when driving over rough or uneven road surfaces.

ACTIVE TORQUE ALL-WHEEL DRIVE
Perfect for Canadian weather conditions, Matrix is available with an 'Active Torque On Demand' AWD system, which functions as a Front Wheel Drive under normal driving conditions for enhanced fuel economy. During start-up, or when the system detects a front wheel slip, torque is automatically diverted to the rear wheels in the exact amount required for smooth acceleration and all-wheel traction.

SUPER COOLING SYSTEM
The aluminum-alloy AWD and XRS 2.4 L engine uses lightweight, high-compression (9.8:1) pistons, kept cool by a "water jacket" that surrounds the cylinder walls to help make the engine block lighter and more compact.

There's safety in numbers

Matrix is loaded with numerous safety features

When it comes to advanced safety engineering, the 2013 Matrix has got you covered, by offering some of the most sophisticated active and passive safety equipment in the industry. Augmenting the protection of 3-point seatbelts at every seating position, Matrix comes standard with a Supplemental Restraint System (SRS)¹ that consists of six airbags, active front headrests, and front and rear crumple zones.

ACTIVE FRONT HEADRESTS
In the event of a rear end collision, driver and front passenger headrests automatically move up and forward to help reduce whiplash effects.

TIRE PRESSURE MONITOR SYSTEM (TPMS)
Maintaining proper tire pressure is important. TPMS automatically monitors your tire pressure, alerting you if it falls critically low (standard on AWD and XRS, optional on FWD).

SEATBELTS
Matrix features a 3-point Emergency Locking Retractor seatbelt for the driver's seat and Automatic/Emergency Locking Retractors for all passenger belts.

FRONT AND SECOND ROW SIDE CURTAIN AIRBAGS¹
The standard side curtain airbags cover the length of the cabin from the front seats to the back seats.

SIDE AIRBAGS¹
Matrix comes standard with front seat-mounted side airbags.

ADVANCED AIRBAG SYSTEM¹
In a collision, the standard dual-stage front airbag system senses impact severity while adjusting airbag deployment accordingly.

STAR
SAFETY SYSTEM™

2013 Matrix comes standard with the Star Safety System™. This integration of active safety features is designed to protect occupants by helping drivers avoid accidents in the first place.

- VSC** **VEHICLE STABILITY CONTROL**
Helps prevent slips and loss of traction by reducing engine power and applying the brake force to the wheels that need it.⁴
- TRAC** **TRACTION CONTROL**
Helps maintain traction on wet, icy, loose or uneven surfaces by applying brake force to the spinning wheel(s).
- ABS** **ANTI-LOCK BRAKE SYSTEM**
Prevents brakes from locking up by "pulsing" brake pressure to each wheel to help you stay in control in emergency braking situations.
- EBD** **ELECTRONIC BRAKE-FORCE DISTRIBUTION**
Redistributes brake force to help keep the rear wheels from locking up during sudden braking situations.
- BA** **BRAKE ASSIST**
Detects sudden or "panic" braking and adds the full pressure needed to help prevent a collision.⁵
- SST** **SMART STOP TECHNOLOGY**
Smart Stop Technology is designed to reduce engine power when the brake is firmly applied helping to bring the vehicle to a stop, even if the accelerator pedal is fully depressed.⁶

Toyota was the first full-line manufacturer to make all of the elements of the Star Safety System™ standard on every new vehicle. Visit toyota.ca for more details.

- All Toyota vehicles shown in this brochure, have Supplemental Restraint Systems (SRS). For important safety information about the Supplemental Restraint System in a particular vehicle, please see the Owner's Manual or contact your local Toyota Dealer.
- Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors.
- Toyota tests certain Bluetooth[®] capable phones for compatibility with Toyota vehicles. Note that the recommendation of Toyota is not a warranty of the performance for any phone and that some problems may occur with any type of handset based on the phone software version or the service coverage available in your area. Some vehicles equipped with Bluetooth technology are available with bilingual compatibility. Please see your Toyota Dealer for details.
- Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control.
- Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions.
- Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping.
- Toyota Canada is proud to say that all Toyota vehicles built in Canada are made from Canadian and imported parts.

Toyota Canada Inc. Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of printing. In some cases, certain changes in production capacity, standard equipment, options or product delays may occur which would not be reflected in this brochure. Toyota Canada Inc. reserves the right to make these changes without notice or obligation. The Toyota website toyota.ca – or your Toyota Dealer is your best source for up-to-date information.

New vehicle warranty summary

No deductibles – no transfer fees

COMPREHENSIVE COVERAGE –

3 YEARS OR 60,000 KM This warranty includes 24 hour Roadside Assistance and other benefits, as well as coverage of repairs on any part of the vehicle that is defective in material or workmanship under normal use and maintenance. Different warranties apply to original tires.

POWERTRAIN COMPONENTS –

5 YEARS OR 100,000 KM This warranty covers repairs to powertrain components that are defective in material or workmanship under normal use and maintenance.

MAJOR EMISSION CONTROL COMPONENTS –

8 YEARS OR 130,000 KM This warranty covers repairs to specified major emission components that are defective in material or workmanship under normal use and maintenance.

CORROSION PERFORATION –

5 YEARS UNLIMITED DISTANCE This warranty covers any sheet metal found, under normal use, to have developed a perforation from corrosion due to defects in material or workmanship.

Accessories

Personalize your Matrix to enhance both its appearance and performance. Many of Toyota's Accessory Parts can be residualized or advanced through Toyota Financial Services when purchased at the same time as your new vehicle, and yes, they are all backed by a Toyota Warranty. For a complete list of vehicle-specific accessories, visit customizemytoyota.ca, your local Dealer or toyota.ca.

Committed to Canadians, today and tomorrow

Being a leader in the automotive industry does not simply start and finish with making great vehicles. It also means being a leader in the community. Toyota Canada and its dealerships across the country fund non-profit programs that work to make a difference for Canadians through direct community involvement.

As part of our ongoing commitment to the environment and education, we established the Toyota Evergreen Learning Grounds program. This program is designed to transform Canadian school grounds into natural learning environments so that students can have a healthy place to play, learn and develop a genuine respect for nature. We also support Special Olympics Canada, which helps athletes reach their full potential through participation in events from a local to a national level.

Visit us at toyota.ca to learn more about our programs and commitment to make things better for Canadian communities, today and tomorrow.
