Battery Use & Safety

- Don’t dry a wet or damp battery with an appliance or heat source.
- Don’t let the mobile device or battery come in contact with liquids.

Disposal is not only important for the environment, it is also required by law in many places. Batteries should be disposed of in an approved recycling area. For more information on proper disposal, including recycling centers, please visit: www.motorola.com/recycling

Power adapters, chargers, and batteries can be hazardous if not handled properly. Follow these guidelines:

- Don’t use damaged power adapters, chargers, or batteries.
- Don’t put power adapters, chargers, or batteries near heat or open flames.
- Don’t disassemble power adapters, chargers, or batteries.
- Don’t expose power adapters, chargers, or batteries to water or rain.
- Don’t use power adapters, chargers, or batteries if you notice any bulging or deformed parts.

Exposure to RF Energy

Motorola wireless products are designed to comply with the appropriate RF exposure guidelines in effect in the countries in which they are sold. These guidelines include a substantial safety margin designed to ensure the safety of all users, regardless of age and health. There is no evidence of health concerns from using products that comply with RF exposure guidelines. For more information on RF exposure, please visit: www.motorola.com/rfhealth

Specific Absorption Rate (FCC & IC)

Motorola wireless products are designed to comply with the U.S. Federal Communications Commission (FCC) and Industry Canada (IC) RF exposure guidelines. These guidelines include safety margins intended to assure the safety of all users, regardless of age and health. The guidelines include a substantial safety margin intended to ensure the safety of all users. There is no evidence of health concerns from using products that comply with RF exposure guidelines. For more information on RF exposure, please visit: www.motorola.com/rfhealth
