

This document is for **course role permissions**; to view account role permissions, please visit the [account permissions PDF](#).

This document is designed as a complete reference for the Permissions page in Canvas. Using the information in this document, you may be able to troubleshoot permissions-related questions from your users or create custom roles for your account.

Permissions are listed below alphabetically, matching the order in the Canvas UI. Each permission includes the following information:

- The default status (enabled/disabled) for default user roles in Canvas
 - A non-editable status is indicated by an **asterisk***. *Student's section*
- A table indicating the main effect(s) of the permission, listed specifically in reference to Canvas features
- An additional considerations table, if applicable
 - This includes information about cross-functionality with other permissions and course and/or account settings that may impact the permission

Things to keep in mind when working with permissions:

- You cannot change a permission that has a transparent check mark or X without a button. These are permissions that are locked by default and cannot be modified by anyone.
- When you change a permission, it can sometimes take 30 minutes or longer for that permission to take effect. If the expected changes do not appear immediately, try again after some time has passed.
- Enabling a permission doesn't take effect as quickly as disabling a permission.
- Admins who are given student roles in a course may still be able to view admin features. To avoid permission conflicts, admins should create a separate account.

The following permissions never apply to subaccounts:

- Become other users (Account)
- Import SIS data
- View notifications (Admin Tools)

Important: This document matches the content shown in the Permissions sidebar and is subject to change. Updates are posted to the Canvas Permissions document in the Canvas Community Admins group. If you find something that does not make sense or does not work as intended, please contact our Canvas support team.

Alerts - add / edit / delete

Default Role Status

Student	TA	Teacher	Designer	Observer
x *	x	✓	x *	x *

Features Affected	What it Does
Course Settings	Allows user to configure alerts in Course Settings. Alerts are a seldom-used feature designed to send an alert to students, teachers, or admins for specific triggers (e.g., no student/teacher interaction for 7 days). They are checked every day, and notifications will be sent to the student and/or the teacher until the triggering problem is resolved.

Additional Considerations

Feature	Related Information
Account Settings	This is an account setting that must be turned on by your Customer Success Manager.

Analytics - view pages

Default Role Status

Student	TA	Teacher	Designer	Observer
x	✓	✓	x *	x *

Features Affected	What it Does
Analytics	Allows user to view course and student analytics from the Course Home Page or People page.

Additional Considerations

Feature	Related Information
Analytics	To view student analytics in course analytics, Grades - view all grades must also be enabled.
Account Settings	The analytics feature must be enabled in Account Settings to view analytics pages.

	To see the Analytics link in the user sidebar from the People page, Profiles must be disabled in your account.
People	To view student analytics, Users - view list and Grades - view all grades must also be enabled.

Announcements - view

Default Role Status

Student	TA	Teacher	Designer	Observer
✓	✓	✓	✓	✓

Features Affected	What it Does
Announcements	Allows user to access the Announcements link in Course Navigation. Allows user to view course announcements. Allows user to view recent announcements on the course home page.

Additional Considerations

Feature	Related Information
Announcements	To add announcements, Discussions - moderate must also be enabled. To view recent announcements on the home page, the Show recent announcements on Course home page checkbox must be selected in Course Settings.

Assignments and Quizzes - add / edit / delete

Default Role Status

Student	TA	Teacher	Designer	Observer
✗ *	✓	✓	✓	✗

Features Affected	What it Does
Assignments	Allows user to add, edit, delete, and publish/unpublish assignments. Allows user to manage assignment settings. Allows user to add assignment groups in a course. Allows user to enable and edit assignment group weighting in a course.

Blueprint Courses	Allows user to edit blueprint lock settings on the Assignments and Quizzes index pages in a Blueprint Master Course.
Commons	Allows user to share a quiz to Commons.
Discussions	Allows user to edit assignment details on individual discussions.
Modules	Allows user to add new assignments to a module.
Quizzes	Allows user to add, edit, delete, and publish/unpublish quizzes.

Additional Considerations

Feature	Related Information
Assignments	To differentiate assignments to individual students, Users - view list must also be enabled.
Blueprint Courses	Blueprint courses must be enabled for an account by an admin. Course roles can only manage content in Blueprint Courses if they are added to the Blueprint Course as an teacher, TA, or designer role. If this permission is disabled, a user can still adjust content lock settings on individual assignments or quizzes in a Blueprint Master Course
Course Settings	To import assignments and quizzes using the Course Import Tool, Course Content - add / edit / delete must be enabled.
Grades	To manage moderated grading, the Grades - moderate permission must also be enabled.
Quizzes	To moderate a quiz, Grades - edit must also be enabled.
Rubrics	Disabling this permission will override (if enabled) the Rubrics - add / edit / delete permission, preventing the user from creating or editing rubrics from an individual assignment. However, if Learning Outcomes - add / edit / delete is enabled, user can still add rubrics via Outcomes - Manage Rubrics.

Conversations - send messages to entire class
Default Role Status

Student	TA	Teacher	Designer	Observer
✘	✔	✔	✔	✘

Features Affected	What it Does
Conversations	Allows user to send a message to “All in [course name],” or “All in [course group].”

Conversations - send to individual course members

Default Role Status

Student	TA	Teacher	Designer	Observer
✓	✓	✓	✓	✗

Features Affected	What it Does
Conversations	Allows user to send messages to individual course members

Additional Considerations

Feature	Related Information
Conversations	When disabled, students can still send individual messages to course teachers, course TAs, and students that belong to the same account-level groups.
People	To edit a student’s section, Users - add / remove students in courses and Users - view list must also both be enabled. To edit a section for a teacher, course designer, or TA, Users - add / remove teachers, course designers, or TAs in courses and Users - view list must also both be enabled.

Course Calendar - add / edit / delete events

Default Role Status

Student	TA	Teacher	Designer	Observer
✗	✓	✓	✓	✗*

Features	What it Does
Calendar	Allows user to add, edit, and delete events in the course calendar.
Scheduler	Allows user to create and manage appointments on the calendar using Scheduler.

Additional Considerations

Feature	Related Information
Calendar	Regardless of whether this permission is enabled or disabled, the user will still be able to manage events in their personal calendar.
Scheduler	Scheduler must be enabled by your Canvas admin.

Course Content - add / edit / delete
Default Role Status

Student	TA	Teacher	Designer	Observer
✗ *	✓	✓	✓	✗

Features Affected	What it Does
Attendance	Allows teacher/TA-based roles to access the Attendance tool.
Chat	Allows teacher/designer/TA-based roles to access the Chat tool.
Collaborations	Allows user to view previously created collaborations. Allows user to edit title, description, or remove collaborators on all collaborations.
Commons	Allows user to import resources from Commons into a course. Allows user to share assignments to Commons or edit previously shared content.
Conferences	Allows users to edit Conferences.
Course Home Page	Allows user to view Course Status, Choose Home Page, and Course Setup Checklist buttons in the home page.
Course Settings	Allows user to import content using the Course Import Tool.
Modules	Allows user to manage modules (create, add items, edit module settings, publish/unpublish, etc.).
Syllabus	Allows user to edit the course syllabus.

Additional Considerations

Feature	Related Information
Attendance	The Attendance tool must be enabled by your Canvas admin.

Chat	The Chat tool must be enabled by your Canvas admin.
Commons	To share a Discussion to Commons, Discussions - view must also be enabled.
Course Settings	The Course Status buttons (unpublished and published) are only displayed until a student submission is received. Courses cannot be unpublished with student submissions.
Modules	Module items cannot be unpublished if there are student submissions.

Course Files - add / edit / delete

Default Role Status

Student	TA	Teacher	Designer	Observer
✗ *	✓	✓	✓	✗

Features Affected	What it Does
Blueprint Courses	Allows user to edit blueprint lock settings on the Files page in a Blueprint Master Course.
Course Files	Allows user to add, edit, and delete course files and folders. Allows user to download files into a zip file, import a zip file, and lock/unlock files.
Rich Content Editor	Allows user to access the Files tab in the Content Selector

Additional Considerations

Feature	Related Information
Blueprint Courses	Blueprint courses must be enabled for an account by an admin. Course roles can only manage content in Blueprint Courses if they are added to the Blueprint Course as a teacher, TA, or designer role.
Course Files	If disabled, user can still view and download files into a zip file.
Course Settings	To import files using the Course Import Tool, Course Content - add / edit / delete must be enabled.

Course Sections - add / edit / delete

Default Role Status

Student	TA	Teacher	Designer	Observer
✗ *	✗	✓	✓	✗ *

Features Affected	What it Does
Course Settings (Sections tab)	Allows user to add, edit, and delete course sections. Allows user to cross-list sections.

Additional Considerations

Feature	Related Information
Course Settings (Sections tab)	The user must also be enrolled as an instructor in the courses they are trying to cross-list.

Course State - manage

Default Role Status

Student	TA	Teacher	Designer	Observer
✗ *	✗	✓	✓	✗ *

Feature	What it Does
Course	Allows user to publish, conclude, and delete courses.
Course Setup Checklist, Course Homepage	Determines whether a Publish Course option is included in the Course Setup Checklist and in the Course Home Page.

Additional Considerations

Feature	Related Information
Course Settings	Affects viewing the Publish Course, Conclude Course, and Permanently Delete this Course buttons. The Permanently Delete this Course button only appears for manually created courses.

Modules	The Course State - manage permission allows users to publish courses that do not contain modules. To publish/unpublish module content, Course Content - add / edit / delete must also be enabled.
---------	--

Course - view usage reports

Default Role Status

Student	TA	Teacher	Designer	Observer
x *	✓	✓	✓	x *

Features Affected	What it Does
Course Settings	Allows user to view the Course Statistics button in Course Settings.
People	Allows user to view Last Activity and Total Activity information on the People page
Reports	Allows user to view Last Activity, Total Activity, and Student Interactions reports

Additional Considerations

Feature	Related Information
People	To access the People page, Users - view list must be enabled.

Discussions - moderate

Default Role Status

Student	TA	Teacher	Designer	Observer
x	✓	✓	✓	x

Features Affected	What it Does
Announcements	Allows user to view the New Announcement button in the Home page. Allows user to add announcements in the Announcements page.
Blueprint Courses	Allows user to edit blueprint lock settings on the Discussions index page in a Blueprint Master Course.
Discussions	Allows user to add discussions in the Discussions page.

	Allows user to close for comments, move, pin/unpin, edit, and delete discussion topics created by other users.
--	--

Additional Considerations

Feature	Related Information
Announcements	To view announcements, Announcements - view must also be enabled.
Blueprint Courses	Blueprint courses must be enabled for an account by an admin. Course roles can only manage content in Blueprint Courses if they are added to the Blueprint Course as an teacher, TA, or designer role. If this setting is disabled, and Discussions - view is enabled, a user can still adjust content lock settings on individual discussions in a Blueprint Master Course
Discussions	To view discussions in a course, Discussions - view must be enabled. To reply to a discussion, Discussions - post must also be enabled. To edit assignment details on a discussion, Assignments and Quizzes - add / edit / delete must also be enabled.

Discussions - post
Default Role Status

Student	TA	Teacher	Designer	Observer
✓	✓	✓	✓	✗

Features Affected	What it Does
Discussions	Allows user to reply to a discussion post.

Additional Considerations

Feature	Related Information
Discussions	To view discussions in a course, Discussions - view must also be enabled. To manage discussions, Discussions - moderate must be enabled.

Discussions - view

Default Role Status

Student	TA	Teacher	Designer	Observer
✓	✓	✓	✓	✓

Features Affected	What it Does
Blueprint Courses	Allows user to edit blueprint content lock settings on individual settings if the user is enrolled in a Blueprint Master Course.
Discussions	Allows user to view the Discussions link in Course Navigation. Allows user to view course discussions.

Additional Considerations

Feature	Related Information
Blueprint Courses	Blueprint Courses must be enabled for an account by an admin. Course roles can only manage content in Blueprint Courses if they are added to the Blueprint Course with a teacher, TA, or designer role. To edit blueprint lock settings from the Discussions index page, Discussions - moderate must also be enabled.
Commons	To share a discussion to Commons, Course Content - add / edit / delete must also be enabled.
Discussions	To manage discussions, Discussions - moderate must also be enabled. To reply to a discussion, Discussions - post must also be enabled.

Grades - Select final grade for moderation

Default Role Status

Student	TA	Teacher	Designer	Observer
✗ *	✓	✓	✗ *	✗ *

Features Affected	What it Does
Grades	Allows user to select final grade for moderated assignments.

Additional Considerations

Feature	Related Information
Grades	To manage moderated grading, Grades - moderate must also be enabled. <i>Note: This permission will replace Grades - moderate, which is being deprecated.</i>

Grades - View audit trail
Default Role Status

Student	TA	Teacher	Designer	Observer
X *	X *	✓	X *	X *

Features Affected	What it Does
Grades	Allows user to review an audit trail in assignments, both moderated and anonymous.

Additional Considerations

Feature	Related Information
Grades	To allow user to moderate grades, Grades - Select final grade for moderation must also be enabled.

Grades - edit
Default Role Status

Student	TA	Teacher	Designer	Observer
X *	✓	✓	X *	X

Features Affected	What it Does
Analytics	Allows user to view student-specific data in Analytics.
Course Settings	Allows user to edit grading schemes.
Discussions	Allows user to like discussion posts when the Only Graders Can Like checkbox is selected.

Gradebook	Allows user to edit grades in the Gradebook. Allows user to access Gradebook History.
Quizzes	Allows user to moderate a quiz.
SpeedGrader	Allows user to edit grades and add comments in SpeedGrader.

Additional Considerations

Feature	Related Information
Analytics	To view student analytics in course analytics, Analytics - view must also be enabled.
Gradebook and SpeedGrader	Gradebook and SpeedGrader will be inaccessible if both Grades - edit and Grades - view all grades are disabled.
People	To view student analytics, Users - view list and Analytics - view must also be enabled.
Quizzes	To moderate a quiz, Assignments and Quizzes - add / edit / delete must also be enabled.
Settings	Course Grading Schemes can be enabled/disabled in Course Settings.

Grades - moderate
Default Role Status

Student	TA	Teacher	Designer	Observer
x *	x	✓	x *	x *

Features Affected	What it Does
Assignments	Allows user to view the Moderate button for moderated assignments. <i>Note: This permission is being deprecated. To enable users to view the Moderate button, enable Grades - Select final grade for moderation.</i>

Additional Considerations

Feature	Related Information
Assignments	To allow a user to add students to a moderation set, Grades - view all grades must also be enabled.

	To allow a user to add students to a moderation set, review a moderated assignment in SpeedGrader, and publish final grades for a moderated assignment, Grades - edit must also be enabled.
--	--

Grades - view all grades

Default Role Status

Student	TA	Teacher	Designer	Observer
✗ *	✓	✓	✗	✗ *

Features Affected	What it Does
Analytics	Allows user to view student-specific data in Analytics.
Assignments and SpeedGrader	Allows user to access SpeedGrader from an assignment.
Gradebook	Allows user to view the Gradebook. Allows user to export the Gradebook to a comma separated values (CSV) file.
Grades	Allows user to view student Grades pages.
Modules	Allows user to access the Student Progress page.
People	Adds Analytics link on the user settings menu.
Quizzes	Allows user to view student results and/or access a quiz in SpeedGrader.
Rubrics and SpeedGrader	Allows user to view grader comments on a rubric in SpeedGrader.
Student Context Card	Adds analytics to a student's context card.

Additional Considerations

Feature	Related Information
Analytics	To view student analytics, Analytics - view pages must also be enabled.
Gradebook	If both Grades - edit and Grades - view all grades are disabled, Gradebook will be hidden from the course navigation.
Modules	To view module progression, Grades - view all grades must be enabled.
Student Context Card	Student Context Cards must be enabled by an admin.

Groups - add / edit / delete

Default Role Status

Student	TA	Teacher	Designer	Observer
✗ *	✓	✓	✓	✗ *

Features Affected	What it Does
People (Groups tab)	Allows user to create, edit, and delete course groups. Allows user to create, edit, and delete course groups created by students.

Additional Considerations

Feature	Related Information
Collaborations	Allows user to view all course groups, not just those they are enrolled in, in the Collaborate With window.
Groups	If this permission is disabled, users can only view existing groups, including groups created by students. By default, students can always create groups in a course. To restrict students from creating groups, Course - add / edit / delete must be enabled and the Let students organize their own groups checkbox in Course Settings must be deselected.
People	To access the People page and view Groups, Users - view list must also be enabled.
Course Settings (Course Details tab)	To restrict students from creating groups, deselect the <i>Let students organize their own groups</i> checkbox in Course Settings.

Groups - view all student groups

Default Role Status

Student	TA	Teacher	Designer	Observer
✗	✓	✓	✓	✗

Features Affected	What it Does
Groups	Allows user to view the group home pages of all student groups. Allows students to access other student groups within a group set with a direct link.

Additional Considerations

Feature	Related Information
Groups	By default students are able to create groups; to restrict students from creating groups, deselect the Let students organize their own groups checkbox in course settings.

LTI - add / edit / delete
Default Role Status

Student	TA	Teacher	Designer	Observer
x *	✓	✓	✓	x *

Features Affected	What it Does
Course Settings	Allows user to manually add and delete an app in Course Settings.
External Apps (Course Settings)	Allows user to edit configurations for manually added external apps.

Additional Considerations

Feature	Related Information
External Apps (Course Settings)	If this permission is disabled, users can still install approved apps through the Canvas App Center (if enabled for your institution). Additionally, if this permission is disabled, users cannot delete manually added external apps.

Learning Outcomes - add / edit / delete
Default Role Status

Student	TA	Teacher	Designer	Observer
x	x	✓	✓	x *

Features Affected	What it Does
Outcomes	Allows user to create, import, edit, and delete outcomes and outcome groups at the course level.
Rubrics	Allows user to manage rubrics.

Additional Considerations

Feature	Related Information
Outcomes and Rubrics	If disabled, the Outcomes page becomes read-only and hides the Manage Rubrics button. User can still access individual assignment rubrics through Assignments.

Learning Outcomes - import
Default Role Status

Student	TA	Teacher	Designer	Observer
✗ *	✗	✓	✓	✗

Features Affected	What it Does
Outcomes and Rubrics	Allows user to import learning outcomes to rubrics.

Additional Considerations

Feature	Related Information
Outcomes and Rubrics	To view a Course Outcomes page as read-only, Course Content - view must be enabled. To import learning outcomes from the Outcomes page, Rubrics - add / edit / delete must also be enabled. Users can access and create (but not edit) individual assignment rubrics through Assignments when Course Content - view and Assignments and Quizzes - add / edit / delete are enabled.

Pages - add / edit / delete
Default Role Status

Student	TA	Teacher	Designer	Observer
✗ *	✓	✓	✓	✗

Features Affected	What it Does
Blueprint Courses	Allows user to edit blueprint lock settings on the Pages index page in a Blueprint Master Course.
Pages	Allows user to view, create, edit, delete, and publish/unpublish pages. Allows user to view page history and set front page.

Additional Considerations

Feature	Related Information
Blueprint Courses	<p>Blueprint courses must be enabled for an account by an admin.</p> <p>Course roles can only manage content in Blueprint Courses if they are added to the Blueprint Course as a teacher, TA, or designer role.</p> <p>If this permission is disabled, a user can still adjust content lock settings on individual pages in a Blueprint Master Course.</p>
Pages	Students can edit and view page history if allowed in the individual page options.

Question banks - view and link
Default Role Status

Student	TA	Teacher	Designer	Observer
✗ *	✓	✓	✓	✗

Features Affected	What it Does
Question Banks	<p>Allows user to view and link questions in a quiz to account-level question banks. If disabled, user will only be able to view and link to course question banks</p> <p>Enables the Manage Question Banks link on the Quizzes Index Page</p>

Additional Considerations

Feature	Related Information
Quizzes and Question Banks	This permission does not affect ability to manage course level question banks in Quizzes. Instead, Manage Question Banks is dependent on the Assignments and Quizzes - add / edit / delete permission.

	For full management of course question banks, this permission and Assignments and Quizzes - add / edit / delete must both be enabled.
--	--

Rubrics - add / edit / delete

Default Role Status

Student	TA	Teacher	Designer	Observer
x *	✓	✓	✓	x *

Feature	What it Does
Rubrics	Allows user to create, edit, and delete course rubrics in the Rubrics link.

Additional Considerations

Feature	Related Information
Assignments	If this permission is disabled, users can still create or add rubrics to assignments if Assignments and Quizzes - add / edit / delete is enabled.

SIS Data - read

Default Role Status

Student	TA	Teacher	Designer	Observer
x	x	✓	x *	x *

Features Affected	What it Does
Course Settings	Allows user to view course SIS ID.
People	Allows user to view user SIS IDs.

Additional Considerations

Feature	Related Information
People	To view the list of users in the course, Users - view list must also be enabled. To add users via SIS ID, Users - add / remove students in courses and/or Users - add / remove teachers, course designers, or TAs in courses to the course must also be enabled.

Student Collaborations - create

Default Role Status

Student	TA	Teacher	Designer	Observer
✓	✓	✓	✓	✗

Features Affected	What it Does
Collaborations	Allows user to create collaborations. Allows user to view, edit, and delete collaborations they created.

Additional Considerations

Feature	Related Information
Collaborations	<p>To allow view, edit, and delete functionality of collaborations created by other users, Course Content - add / edit / delete must also be enabled.</p> <p>If Course Content - add / edit / delete is enabled and Student Collaborations - create is disabled, user will not be able to create new collaborations but will be able to view, edit, and delete all collaborations.</p> <p>To add students to a collaboration, Users - view list must also be enabled. To add a course group to a collaboration, Groups - add / edit / delete must also be enabled.</p>

Submissions - view and make comments

Default Role Status

Student	TA	Teacher	Designer	Observer
✗	✓	✓	✓	✗*

Features Affected	What it Does
Assignments	Allows user to view all student assignment submissions and add comments.

Additional Considerations

Feature	Related Information
Assignments and	To access assignment submissions through Assignments or the Gradebook

Gradebook	and view in SpeedGrader, Grades - view all grades or Grades - edit must also be enabled.
Gradebook and SpeedGrader	To edit a grade or add comments in SpeedGrader or Gradebook, Grades - edit must be enabled.

Users - Generate observer pairing code for students

Default Role Status

Student	TA	Teacher	Designer	Observer
x *	x	x	x	x

Features Affected	What it Does
People	Allows user to generate a pairing code on behalf of a student to share with an observer.

Additional Considerations

Feature	Related Information
People	To generate a pairing code from a student's User Details page, the Users - add / remove students in courses permission must also be enabled.

Users - add / remove students in courses

Default Role Status

Student	TA	Teacher	Designer	Observer
x *	✓	✓	✓	x *

Feature	What it Does
People	<ul style="list-style-type: none"> Allows user to add/remove students to the course. Allows user to add/remove observers to the course. Allows user to view login ID information for students. Allows user to view prior enrollments. Allows user to view settings menu for students. Allows user to view user details for students. Allows user to conclude or delete enrollments on a student's details page. Allows user to resend course invitations.

Additional Considerations

Feature	Related Information
People	<p>To access the People page, Users - view list must be enabled.</p> <p>If the Open Registration account setting is enabled, users with this permission can add students to a course via email address if the user does not already have a Canvas account.</p> <p>To view SIS IDs, SIS Data - read must be enabled.</p> <p>To edit a student's section and course role, Users - view list and Conversations - send to individual course members must also be enabled.</p> <p>To link an observer to a student, Conversations - send to individual course members must also be enabled.</p>

Users - add / remove teachers, course designers, or TAs in courses
Default Role Status

Student	TA	Teacher	Designer	Observer
x *	x	✓	x	x *

Feature	What it Does
People	<p>Allows user to add/remove other teachers, course designers, or TAs.</p> <p>Allows user to add/remove observers.</p> <p>Allows user to view login ID information for teachers, designers, and TAs.</p> <p>Allows user to view settings menu for teachers, course designers, TAs, and observers.</p> <p>Allows user to view user details for teachers, course designers, and TAs.</p> <p>Allows user to limit students to only view fellow section members.</p>

Additional Considerations

Feature	Related Information
People	<p>To access the People page, Users - view list must be enabled.</p> <p>To view SIS IDs, SIS Data - read must be enabled.</p> <p>To edit a teacher or TA's section, Users - view list and Conversations - send to individual course members must also be enabled.</p> <p>To link an observer to a student, Conversations - send to individual course members must also be enabled.</p>

Users - view list

Default Role Status

Student	TA	Teacher	Designer	Observer
✓	✓	✓	✓	✗

Features Affected	What it Does
Assignments	Allows user to differentiate assignments to individual students.
Collaborations	Allows user to view and add users in a collaboration.
Course Navigation	Allows user to view the People link in Course Navigation.
Groups	Allows user to view groups in a course.
People	Allows user to view the list of users in the People page. Allows user to view the Prior Enrollments button in the People page.
Settings	Allows user to view enrollments on the Sections tab.

Additional Considerations

Feature	Related Information
Conversations	To send a message to an individual user, Conversations - send to individual course members must also be enabled.
Groups	To add, edit, or delete groups, Groups - add / edit / delete must also be enabled.
People	To add users to a course, Users - add / remove students in courses and/or Conversations - send to individual course members to the course must also be enabled. To edit a student's section, Conversations - send to individual course members and Users - add / remove students in courses must also both be enabled. To edit a teacher, course designer, or TA's section, Conversations - send to individual course members and Conversations - send to individual course members must also both be enabled.

Users - view login IDs

Default Role Status

Student	TA	Teacher	Designer	Observer
✗ *	✓	✓	✗ *	✗ *

Features Affected	What it Does
People	Allows user to search for other users by Login ID in the course People page.

Additional Considerations

Feature	Related Information
People	<p>To access the People page, Users - view list must be enabled.</p> <p>If this permission is enabled, and if Users - view primary email address is disabled, users will see email addresses used as login IDs.</p> <p>To view login IDs, Users - add / remove students in courses and Users - add / remove teachers, course designers, or TAs in courses must also be enabled.</p>

Users - view primary email address

Default Role Status

Student	TA	Teacher	Designer	Observer
✗	✓	✓	✗	✗

Features Affected	What it Does
People	Allows user to search for other users via primary email addresses in the People page.

Additional Considerations

Feature	Related Information
People	<p>To access the People page, Users - view list must be enabled.</p> <p>If this permission is disabled, and Users - view login IDs is enabled, users will still see email addresses used as login IDs.</p>

Web Conferences - create

Default Role Status

Student	TA	Teacher	Designer	Observer
✓	✓	✓	✓	✗

Features Affected	What it Does
Conferences	Allows user to create new conferences. Allows user to start conferences they created.

Additional Considerations

Feature	Related Information
Conferences	<p>To allow full management of conferences created by the user or others, Course Content - add / edit / delete must also be enabled.</p> <p>To end a long-running conference, Course Content - add / edit / delete must be enabled.</p> <p>If Course Content - add / edit / delete is enabled and Web Conferences - create is disabled, user can still manage conferences.</p> <p>This permission controls a user's ability to create conferences in courses and groups.</p>
