Introduction
How can I use Canvas on my mobile device as an observer?

Canvas is built on open web standards and uses minimal instances of Flash, so most features are supported on mobile devices.

Mobile Browsers

You can access Canvas from any browser on your Android/iOS device. However, mobile browsers are not supported, and features may not function as expected compared to viewing Canvas in a fully supported desktop browser.

On mobile devices, Canvas is designed to be used within Canvas mobile applications. Canvas pages within a mobile browser are only supported when an action in the app links directly to the browser, such as when a student takes certain types of quizzes. Support is not extended to pages that cannot currently be used in the app, such as Conferences or Collaborations.

Mobile Applications

We are actively improving our native mobile applications to support as many Canvas features as possible. Instructure has one native mobile application for observers free for download on both phones and tablets.

- **Canvas Parent** (iOS 8.0+, Android 4.2+). This app is designed for you to engage in your students' education and view assignments, events, and grades. Access to Canvas Parent is managed by your student’s institution.

You can learn more about mobile applications in the Canvas Mobile Guides.
How do I sign up for a Canvas account as a parent?

Parents can sign up as an observer in Canvas. Observers can link their Canvas account to their student's account so they can see assignment due dates, announcements, and other course content. Observers can view the course content but cannot participate in the course.

This lesson is for parents who do not have a Canvas account and want to observe their students in their courses.

If you already have an account from your student's institution, log in to Canvas using the credentials given to you.

Notes:

- If the registration banner is not available in the login page, the institution has not enabled this feature. Please contact your student's institution for assistance. The registration banner is enabled through Canvas authentication.
- To observe a student, you must have a student pairing code.
- Once you have an account, you may be able to view student information through the Canvas Parent app. Access to the Canvas Parent app is controlled by the student's institution. If you already have an account from your student's institution as an observer, you can always view student information through the Canvas Parent app.

Open Canvas URL

In a browser window, enter the institution's Canvas registration URL (e.g. canvas.instructure.com).
Create Canvas Account

Click the Need a Canvas Account? link.
Sign Up As a Parent (Free Account)

Click the Parents sign up here link.
Enter Signup Details

Enter the following information:

1. Enter your name in the **Your Name** field.
2. Enter your email in the **Your Email** field.
3. Enter your password in the **Password** field.
4. Re-enter your password in the **Re-enter Password** field.
5. Enter a paring code to link your account to your student in the **Student Pairing Code** field.
6. Agree to the terms of use by clicking the **You agree to the terms of use** checkbox.
7. Click the **Start Participating** button.

**Note:** Students can generate pairing codes from their User Settings. Depending on institution permissions, admins and instructors may also be able to generate pairing codes.
Begin Observing

You can begin observing your student in Canvas immediately.

Learn how to observe additional students in your account.

Learn how to modify your Canvas notification preferences.
How do I log in to Canvas as an observer?

This lesson will show you how to log in to Canvas from an internet browser. If you are using Canvas with your student's institution, you will log in either from the institution's webpage or by using their direct Canvas URL. Canvas Network accounts also log in with a Canvas URL. You can also log in to Canvas on the Canvas Mobile apps.

You must have an account to log in to Canvas:

- If you are observing a student associated with an institution using Canvas and you do not know your username and password, please contact the institution's site administrator.
- If you do not yet have an account, learn how to create a Canvas account.

Note: If you are having trouble signing into Canvas, please see the troubleshooting section in this lesson.

Login Troubleshooting

If you are having trouble logging in to your account, here are some tips:

- Verify you are using the correct Canvas URL for your account.
- If you use more than one Canvas URL (such as one for your student's institution and one for Canvas Network), make sure you are using the correct login and password for each Canvas URL.
- If your login and password were given to you by your student's institution and you are having trouble logging in, please contact the institution. (They may have changed your login credentials.)
- If you do not have a login and password, you may need to create an account.
- If you have forgotten your password, you may be able to reset your password.
Access Canvas via Institution

Some institutions host Canvas within their website. You may only need to sign into the internal system at your student's institution to access Canvas.
Access Canvas via Canvas URL

Some institutions have you log in to Canvas using the direct link to their Canvas URL. In a browser window, enter the institution's Canvas URL. The institution's Canvas login page will appear in the window.

**Note:** The URL for Canvas Network is learn.canvas.net, The URL for Free-For-Teachers (FFT) is canvas.instructure.com.
Find Canvas URL via Course Invitation

You've been invited to participate in the course, Canvas Course.
Course role: Student
Name: Emily Boone
Email: emily.boone.canvas@gmail.com

Get Started

You can find a link to your student's institution Canvas URL in your course invitation email by clicking the Get Started button.
Log in to Canvas

The Canvas login screen requires your login [1] and password [2]. Depending on your student’s institution, login information may vary.

Click the Log In button [3].

*Each screenshot is acknowledged by its respective university for use in this lesson.*
How do I accept an invitation to join a course as an observer?

Instructors invite observers to join their courses. By default, when you are added to a course, you will be able to view the course without having to accept a course invitation.

Note: If you do not receive an invitation to join the course, please contact the instructor.

Receive Email Invitation

You've been invited to participate in a class at canvas.instructure.com. The class is called US History. Course role: Observer

Name: Caroline Jones
Email: c.jones.canvas@gmail.com
Username: none

You'll need to register with Canvas before you can participate in the class.

Get Started

You will receive the course invitation via email. The invitation will include the course name [1] and your user role in the course [2]. To complete registration, click the Get Started button [3].

Note: You will have to sign in to Canvas to accept the course invitation. If you don't have a Canvas account you'll be able to create one as part of the course invitation.
Complete Registration

Welcome Aboard!

In order to finish signing you up for the course US History, we'll need a little more information.

- Login: cjones.canvas@gmail.com
- Password: Enter your password here
- Time Zone: Mountain Time (US & Canada)

Options:
- [ ] I want to receive information, news and tips from Instructure
- [ ] I agree to the terms of use and privacy policy

Buttons:
- Back
- Register

If you need to set up an account, you will need to create a password [1], enter your time zone [2], and view the privacy policy [3]. Then click the **Register** button [4].
How do I link a student to my user account as an observer?

If you signed up for a Canvas account as a parent, you can add students to observe within the same institution. Additionally, if an institution created an observer account linked to a student for you, you can add students to observe.

To link yourself to a student, you will need to enter a student-specific pairing code. Pairing codes are case sensitive and are valid for seven days. Students can generate pairing codes from their User Settings. Depending on institution permissions, admins and instructors may also be able to generate pairing codes. For more information on pairing codes, view the Pairing Codes - Frequently Asked Questions PDF.

Notes:

- You cannot add students whose accounts are not within your same institution (Canvas URL). To observe students in another institution, you must sign up for an account using that institution's Canvas URL.
- If you are not able to access all of a student's courses, the option to link to additional students is not available to you.
- Once you have linked to a student from the Observing page, you cannot remove the student. To remove a student, please contact the student’s instructor.
Open User Settings

In Global Navigation, click the **Account** link [1], then click the **Settings** link [2].
Open Observing

In User Navigation, click the **Observing** link.

Add Student

Type the pairing code in the **Student Pairing Code** field [1] and click the **Add Student** button [2].
View Student

Calendar
How do I use the Calendar as an observer?

The Calendar is a great way to view everything a linked student has to do for all their courses in one place. You can view calendar events by day, week, month, or agenda list. The calendar also includes access to the Scheduler, which is an optional scheduling tool in Canvas. However, observers cannot reserve appointments on behalf of a student.

Observers cannot view events in a student's personal calendar or appointments reserved through the Scheduler. Please note that an observer can view a student's reserved appointment(s) in the Canvas Parent App.

Open Calendar

In Global Navigation, click the Calendar link.
View Calendar

The Calendar displays everything you are enrolled in since the Calendar spans across all courses. In the navigation bar, you can choose to view the calendar in Week, Month, or Agenda view [1]. The view you choose dictates the style of the calendar window [2]. By default, the calendar appears in **Month** view.

The sidebar [3] shows a quick-view calendar, your list of courses and groups, and undated items for your courses and groups.

**Add Calendar Items**

Each calendar view shows any assignments or events that have been added to the calendar. You can add personal events at any time in the navigation bar by clicking the **Add** button.
Each personal, course, and group calendar is identified by a separate color that populates the calendar view. Associated assignments for each course or group will appear within the calendar view for each calendar [1]. For instance, in the above example, assignments and events from the US History course will appear as purple in the calendar view.

By default, the first 10 course and group calendars will be selected and appear in the calendar view. To hide a calendar, click the box next to the name of the calendar [2]. Calendars that are not active within the calendar view display as faded text [3].

**Note:** Canvas will assign an arbitrary color for each calendar unless a custom color is chosen. Each calendar contains 15 default colors, but you can insert a Hex code to create any color of your choice. Colors set in Dashboard course cards also update in the calendar.
View Undated Events List

Expanding the Undated items link will show you a list of events and assignments that are not dated. The assignments and events will be differentiated by icons and by the personal, course, or group calendar color.
View Calendar by Month

In the Month view, click the arrow buttons [1] to move from month to month. To view events for the current date, click the Today button [2].

To view a specific date, click the month link [3] and type a date in the date field [4] or select a date from the calendar [5].
View Assignments and Events

Assignments are shown with an icon next to the assignment title. The icon reflects the assignment type: Discussion [1], Assignment [2], Quiz [3], or Events [4].

Each item on the calendar is color-coded to match the courses or calendars in the sidebar.

To view full details for an assignment or event, hover over the item [5].
View All-Day Events

All-day events display the Events icon and do not include a specific event time.

If you want to extend an all-day event across multiple days, hover over the edge of the event until you see a black arrow. Drag your event across all required dates in the current month.
View Wrapped Assignments and Events

</tbody>
</table>

Your calendar view may show entire assignment and event titles as part of the calendar entry. This calendar view is only available in the Month view and can only be enabled by your institution. The wrapped assignment and event title view allows you to view the entire calendar item without having to hover over the title.
View Calendar by Week

To view the calendar by week, click the **Week** button. The Week view shows all calendar items by date and time. Note that some assignments may be due at 11:59 pm, which appear at the bottom of the calendar view.

View All-day Events

All-day events appear at the top of the calendar week. These events do not include a specific event time.

Like in the Month view, if you want to extend an all-day event across multiple days, hover over the edge of the event until you see a black arrow. Drag your event across all required dates. In Week view, you can only drag your event to the end of the week that you are viewing.
**View Calendar Agenda**

To view all your calendar items in an agenda format, click the **Agenda** button.
Conferences
How do I join a conference in a course as an observer?

You can join a conference that has already been started by the conference host.

To use your microphone, you must give Conferences access to your microphone settings. As part of joining the conference, you must verify these settings in your browser.

Note: It is recommended that users use Chrome or Firefox browsers to access the Conferences interface.

Open Conferences

Outcomes
Quizzes
Modules
Conferences
Collaborations
Chat

In Course Navigation, click the Conferences link.

Join Conference

Next to the conference you want to join, click the Join button.

Note: You cannot join a conference until the conference host has started the conference.
Join the Audio

To use your microphone during the conference, click the Microphone icon [1]. To join the conference without enabling a microphone, click the Listen only icon [2]. You will be able to change your audio preference once you've joined the conference.

View Chrome Microphone Permissions

To enable a microphone in a Chrome browser, click the Allow button.
View Firefox Microphone Permissions

To enable a microphone in a Firefox browser, select your microphone in the Microphone to share menu [1]. Then click the Allow button [2].

Complete Audio Test

This is a private echo test. Speak a few words. Did you hear audio?

1. Yes
2. No
To ensure your audio is working correctly, complete the private audio echo test. Speak a few words and if you hear audio, click the **Yes** icon [1]. To choose a different microphone and repeat the audio test, click the **No** icon [2].

**Note:** It is recommended that you use a headset with a microphone for best audio experience.

**View Conference**

View the conference.

Course Navigation
How do I navigate a Canvas course as an observer?

Navigating a Canvas course as an observer is simple.

Open Course

In Global Navigation, click the Courses link [1], then click the name of the course [2].

Courses

- History 210
- Biology 101
  SUMMER 2017
- Biology 102
- History 101
  SUMMER 2017
- History 310
- Notifications for Beginners
- All Courses

Welcome to your courses! To customize the list of courses, click on the “All Courses” link and star the courses to display.
View Canvas Interface

- The Global Navigation helps you get to where you want to go across all of your Canvas courses [1].
- The Course Navigation helps you get to where you want to go within your canvas course [2].
- The Breadcrumb Navigation shows you where you have navigated to inside of a course and gives you a quick and easy way to move backward [3].
- The Sidebar will be mostly empty for Observers, but will come in handy when its time to edit a course Page [4].
- The Help link is very important. When you need assistance from your instructor or the Canvas Support Team, click the Help link [5].

The Course Navigation links on the left side of your screen help you get to where you want to go inside of Canvas. As an Observer, you will see up to 11 links. They are:

- Announcements
- Assignments
- Discussions
- Pages
- Files
- Syllabus
- Outcomes
• Quizzes
• Modules
• Conferences
• Collaborations

If you ever have trouble in Canvas and need to communicate with the Instructor about what you are looking at, use these terms and he or she will understand exactly what you mean.
Files
How do I view my user files as an observer?

Personal files include profile pictures and other files uploaded to your personal Canvas file storage area. By default, each user has 50 MB of storage space in Canvas.

Open Files

In Global Navigation, click the Account link [1], then click the Files link [2].
View User Files and Upload a File

Click the Options icon [1] and then click the Download link [2].
Grades
How do I view the Grades page for a student as an observer?

As an observer, you can view grades for students you are observing. The Grades page in a course displays your student's current course grade as well as all current grades for course assignments. You can also view assignment scoring details, comments, and rubrics. If the instructor is using multiple grading periods, you can also filter grades by grading period.

You can also view grades for your student's concluded courses from the Global Navigation Menu Courses link.

**Note:**
- Some details in the Grades page, such as scoring details and the total grade, may be restricted in your student's courses.
- You can also access the Grades page using the Dashboard View Grades link.

Open Course

In Global Navigation, click the **Courses** link [1], then click the name of the course [2].
Open Grades

In Course Navigation, click the Grades link.

View Course Grade

The grade summary displays your student's total grade [1], and allows you to show or hide all scoring details, comments, and rubrics shown in the Grades page [2].

Depending on the grade calculation for the course, your student's total grade may display as a point value or as a percentage.

Note: Your instructor may restrict you from viewing your student's total grade [3].
View Current and Total Grades

By default, the Grades page displays your student’s current course grade. The current grade is calculated by adding the score for graded assignments according to their weight in the course grading scheme. This grade is calculated with the Calculate based only on graded assignments checkbox [1].

The total grade is calculated by adding all assignments, both graded and ungraded, according to their weight in the course grading scheme. To view the total grade, deselect the Calculate based only on graded assignments checkbox [2].

Note: If your student’s instructor has restricted you from viewing the current and/or total grades, selecting or deselecting the sidebar checkbox still affects individual assignments. You may be able to see small changes with assignment shading indicating that a grade may be dropped from the course.
View Assignment Grades

From the grades page you can select the course for which you want to view grades by clicking the Course drop-down menu [1]. By default, the Grades page displays assignments chronologically by assignment due date. To sort grades by module, assignment title, or assignment group, click the Arrange by drop-down menu [2]. However, if modules or assignment groups aren't used in the course, they won't be included as sorting options. To apply selected sort options, click the Apply button [3]. Assignments that are not part of a module display at the end of the assignments list in alphabetical order.

You can view assignment names [4], due dates [5], status [6], scores [7], and total point values [8]. You may also be able to view whether the assignment includes a comments, scoring details, or a scoring rubric [9].

You may see various grade icons in the score column indicating the assignment type [10]. Assignments that display a grade icon have not been graded by the instructor. Once the assignment is graded, the icon will be replaced by your student’s score.

To print your student's grades, click the Print button [11].

**Note:** The Status column only appears if one or more assignments have an associated status.
View Grading Periods

If grading periods are enabled in your student’s course, you can view their grades according to grading period [1]. By default, the Grades page displays the current grading period. If an assignment does not include a due date, it will display as a part of the last grading period. To view grades for another course, click the Course drop-down menu [2]. To see the specified grading period and course, click the Apply button [3].

If your student’s course includes weighted assignment groups, assignment groups may vary in the sidebar depending on which grading period you are viewing [4]. An assignment group displays if the group has at least one assignment due in the selected grading period.

When grading periods are weighted and you select the All Grading Periods option, the sidebar displays the weights of each grading period.
View Grade Info

Some assignments display a black warning icon [1], which alerts you that points earned from this assignment will not count toward your student’s final grade [2]. Your student should still submit this assignment unless it has been excused by their instructor.

View Comments

If your student’s instructor left a comment on the assignment, the assignment displays a comment icon [1]. To view comments, click the icon. Comments display chronologically [2]. To close comments, click the close link [3].
View Scoring Details

If you can view scoring details, click the **Check Mark** icon [1]. You can view the grade distribution for the assignment and view the mean, high, and low scores [2].

The graph's horizontal line extends from 0 to the assignment's highest possible score [3]. The white box extends from the lowest to the highest student scores. Your student's score appears as a square on this plot [4].

You will only see scoring details if more than five other student submissions are also scored. If you do not see the scoring details, then fewer than five other students submissions are scored.

To close scoring details, click the **Close** link [5].
If an assignment includes a rubric, the assignment may display a rubric icon [1]. To view your student's results, click the icon. View your student's score based on the rubric [2]. To close the rubric, click the Close Rubric link [3].

**Note:** The total rubric score may be restricted by your student's instructor.

The Grades page lists assignment groups included in your student’s course [1]. Assignment groups allow instructors to organize assignments, discussions, and quizzes into groups and apply specific grading rules or weights to those groups. You can view the percentage score for each group [2] and the points your student has earned versus the total points possible [3].

**Note:** Assignment group percentages may be restricted by your student’s instructor.
View Percentage Grade Calculation

The sidebar displays information about how your student’s grades are calculated.

If assignment groups are weighted, the sidebar displays the breakdown of weighted assignment groups [1].

Assignment group weights always display as a percentage. If your student’s instructor allows you to view total grades, you can see a breakdown in the points your student has earned versus the total points possible [2].

**Note:** Your student’s instructor may restrict you from viewing your grade totals in assignment group percentages [3].

If your student’s course does not use assignment groups, their total grade can be displayed in points or as a percentage. If the total grade displays in points, you can view your student’s overall grade percentage.

**Note:** Your student’s instructor may restrict you from viewing grade totals.
View Current and Total Grades

By default, the Grades page displays your student’s current course grade. The current grade is calculated by adding the score for graded assignments according to their weight in the course grading scheme. This grade is calculated with the **Calculate based only on graded assignments** checkbox [1].

The total grade is calculated by adding all assignments, both graded and ungraded, according to their weight in the course grading scheme. To view the total grade, deselect the **Calculate based only on graded assignments** checkbox [2].

**Note:** If your student’s instructor has restricted you from viewing the current and/or total grades, selecting or deselecting the sidebar checkbox still affects individual assignments. You may be able to see small changes with assignment shading indicating that a grade may be dropped from the course.
View Learning Mastery Gradebook

Learning Mastery scores may be used by your student's instructor to measure performance based on classroom learning standards, or outcomes. Outcome scores may be tied to assignments and other items throughout Canvas.

To view your student's standards-based scores, click the Learning Mastery tab.

Click the title of the page you wish to edit.

Edit Page

Click the **Edit** button.

**Note:** You will only see the Edit button if you are allowed to edit the page.
Edit Content

Edit content on the page using the Content Selector [1]. You can also edit the content using the Rich Content Editor [2] or switch to HTML view to edit [3].

Note: Depending on your course setup, the Files tab may not display in the Content Selector.

Save Changes

You can notify users that content has changed by selecting the **Notify users that this content has changed** checkbox [1]. Click the **Save** button [2].
Laboratory Bench

To-Do Date: Oct 23 at 10:59pm

General information on your laboratory notebook, laboratory safety and the use of laboratory equipment.

**Laboratory Notebook:**

A significant portion of this course will be devoted to laboratory. As a part of the laboratory experience you will be expected to keep a laboratory notebook. The information available on the page [What is a Lab Notebook and what goes in one?](#) will detail what is expected from you in the lab notebook. Please review the materials provided and take the corresponding quiz: [What is a Laboratory Notebook](#).
Profile and User Settings
How do I reset my password as an observer?

If you created your own Canvas account, you can reset your password through a link in the password request email.

If your login credentials were provided to you by your institution, you may not be able to reset your Canvas password on your own. Additionally, if you log in to Canvas using your institution's authentication system, you may need to reset your password using your institution's website. If you request a password reset and the email does not have a password reset link, it will include your Canvas email address and the institution that provided you with your password. To change or verify your password, contact the system administrators at your institution.

Notes:
- A password reset email may take up to five minutes to arrive in your email inbox.
- Password reset emails expire after two hours.
- If you can log in to Canvas and want to change your password, you may be able to change your password in your User Settings page.

Email Errors

If you enter your email address and never get a password reset email, review the following password tips.

- Have you typed your email address correctly? Sometimes email addresses can be misspelled.
- Are you accessing the correct Canvas URL? You will not get the reset email if you are trying to reset your password on a site where you are not enrolled (such as canvas.instructure.com instead of myinstitution.instructure.com).
- Is your Canvas email sponsored by your institution? If your mail email address is part of a campus firewall system that blocks emails from mass senders, you won't be able to receive the email. Contact your institution's IT department for assistance.
- Are you the owner of your email address? If your email address is owned by someone else and you can't receive email for that address, you won't be able to get the reset email. Contact the owner of the email address for assistance.
Reset Password

In a new browser window, open to your Canvas login page. Click the **Forgot Password?** link.

**Note:** If your login screen does not show the password reset link, contact your institution for assistance.
Request Password

Enter your Email and we'll send you a link to change your password.

Enter the login information associated with your Canvas account and click the **Request Password** button.

**Note:** The password reset field verifies password reset information by user login. Depending on your institution, login information may vary.

Check Email

Return to your email account and sign in. Open the *Forgot Password* email. (If the email is not in your Inbox, check your Spam folder.)

If your user login is associated with multiple email addresses, password reset instructions will be sent to each address.
Open Password Link

Click the **Click here to set a new password** link.

Change Password

Change login password for Caroline Jones

c.jones.canvas@gmail.com

New Password:

Confirm New Password:

[Update Password]

Type in a new password and then confirm that password by typing it again. Click the **Update Password** button.
Log in to Canvas

With your login credential and new password, log in to Canvas.
How do I set my Canvas notification preferences as an observer?

Canvas includes a set of default notification preferences you can receive for the courses you are observing. Notifications are sent to Canvas contact methods as specified in your account User Settings. However, you can change the default settings by setting your own notification preferences. These preferences only apply to you; they are not used to control how course updates are sent to the student you are observing.

Some notifications may not apply to the observer role. To learn more about each notification, default settings, and notification triggers, view the Canvas Notifications PDF.

Notifications are sent as one of four delivery types: notify me right away, daily summary, weekly summary, or don’t send. If you change a setting, the change is made immediately to your account.

Notification settings apply to all courses you are observing; you cannot change settings for individual courses.

You can reply directly to email notifications outside of Canvas and have the reply appear in Conversations. However, please be aware that attachments added as part of an external reply are not included with the message shown in the Canvas Inbox.
Open Notifications

In Global Navigation, click the Account link [1], then click the Notifications link [2].
Set Notification Preferences

You can select to view an observed student’s name in a notification. Select the **Show name of observed students in notifications** checkbox [1]. Currently only grade update notifications include observed student names.

Each notification is set to a default preference. To change a notification for a contact method, locate the notification and click the icon for your preferred delivery type.

To receive a notification right away, click the **check mark** icon [1]. These notifications may be delayed by up to one hour in case an instructor makes additional changes, which prevents you from being spammed by multiple notifications in a short amount of time.

To receive a daily notification, click the **clock** icon [2].

To receive a weekly notification, click the **calendar** icon [3]. The date and time of your weekly notifications are posted at the bottom of the notifications page.

If you do not want to receive a notification, click the **remove** icon [4].

**Notes:**
- Each set notification preference will automatically apply to all of your courses. They cannot be set individually.
- Twitter and SMS notification preferences do not support daily summary or weekly summary options.
• Unregistered contact methods will appear in notification preferences but will not receive notifications until you confirm the registration.

View Notification Details

View Privacy Notice

Privacy Notice

Notice: Some notifications may contain confidential information. Selecting to receive notifications at an email other than your institution provided address may result in sending sensitive Canvas course and group information outside of the institutional system.

If you've set a notification preference for an email address that is outside your institution, you may see a privacy warning. You can close the warning by clicking the OK button. Once the warning has been displayed, it will not display again.
How do I add contact methods to receive Canvas notifications as an observer?

In Canvas you can add contact methods to receive notifications. Contact methods allow you to select how you want to be notified when various events occur within a course. Notifications are applied to all courses in Canvas. Canvas supports notification through email, SMS text message, and Twitter.

Once you add contact methods, you can set your own Notification Preferences to select how often you want to be notified of course events.

Open User Settings

In Global Navigation, click the Account link [1], then click the Settings link [2].
Add Ways to Contact

In the Ways to Contact sidebar, your account displays the default email associated with your account, if any. However, if you want to add an additional email address, click the Add Email Address link [1].

If you have multiple Canvas accounts, you can view the Add icon [2], which allows you to merge the address with another Canvas account that uses the same email address.

If you want to add SMS text messages as a contact method, click the Add Contact Method link [3].
View Communication Warnings

Canvas does not send notifications to communication channels that have bounced, which means the channel can no longer attempt to generate or send a notification. Bounces can occur from invalid addresses (caused by address typos, changed addresses, etc.) or blocked servers.

In User Settings, Canvas may display the following icons to indicate a contact method's status:

- **Warning [1]**: indicates a bounced contact method. To correct the error, you can remove then re-add the contact method to your profile.
- **Check Mark [2]**: notifies you of an unconfirmed email address.

To delete a contact method, click the **Delete** icon [3].

Link to Web Services

The Web Services portion on your settings page is divided into two columns. Services you have already registered, such as through the Ways to Contact section of your settings, or through course Collaborations and assignments, appear in the left column under the Registered Services heading [1]. Other services that are available for registration appear in the right column under the Other Services heading [2].

Learn how to add web services in Canvas.

View Approved Integrations

Approved Integrations:

These are the third-party applications you have authorized to access the Canvas site on your behalf:

<table>
<thead>
<tr>
<th>App</th>
<th>Purpose</th>
<th>Dates</th>
</tr>
</thead>
<tbody>
<tr>
<td>Inst-FS (Production)</td>
<td>Expires: never</td>
<td>Last Used: --</td>
</tr>
</tbody>
</table>

When you allow third-party integrations to access your account, the Approved Integrations section will appear and display the authorized integrations. Each integration will show you the name of the app, the purpose (if one is noted), the date the app was last used, the date the app expires, and a link to view further details.
How do I edit my profile in my user account as an observer?

Some institutions may enable a feature in Canvas called Profiles. Profiles allows you to update your name, preferred contact methods, and any personal links for your account. Your profile information can be viewed by all users in courses you are observing.

**Note:** If you do not see the Profiles tab in your user navigation menu, this feature has not been enabled for your institution.

Open Profile

In Global Navigation, click the **Account** link [1], then click the **Profile** link [2].
Edit Profile

No registered services, you can add some on the settings page.

Biography
Mr. Bill hasn't added a bio

Links
Mr. Bill hasn't added any links

To upload a profile picture, click the profile picture icon.

Note: Profile pictures are a separate permission from profiles. If you do not see a placeholder picture, your institution has not enabled this feature.

Edit Name and Title

Name:
Mr. Bill

Title:
If you are allowed to change your name, type your name in the name field [1]. Type your title in the title field [2].

**Add Contact Methods**

If you have connected to any web services, click the checkbox underneath the web service to indicate how you wish to be contacted via that service [1]. To add additional services, click the Manage Registered Services link. Please note that any selected services will not be shared with other course/group members unless you have previously selected the sharing checkbox in the Manage Registered Services page.

The Discussion icon [2] automatically appears as a contact method for Admins so users can contact you through Canvas Conversations. It cannot be selected by any other users.

**Note:** As created in your user profile, email addresses do not appear as a contact method and are only used for Canvas notifications. Canvas users should contact each other via Conversations.

**Edit Bio**

Type your biography in the bio field. You can add hobbies and interesting facts about yourself.
Edit Links

To add personal links to your profile, such as personal websites, blogs, or portfolios, enter the title of the link in the title field [1]. Type the URL in the URL field [2]. Click the remove icon to delete the link [3]. Click the Add another link button to add another link [4].

Save Profile

Click the Save Profile button.
How do I change the language preference in my user account as an observer?

English is Canvas’ language default, but you can choose to view the Canvas interface in another language.

**Note:** Instructors have the option to change the language preference for their courses. If you observing a student in a course where the instructor has made this change (most often for a foreign language course), the course language will override the language in your user settings.

### Open User Settings

In Global Navigation, click the **Account** link [1], then click the **Settings** link [2].
Edit Settings

Click the Edit Settings button.

Select Language

In the Language drop-down menu, choose your preferred language.
Update Settings

Click the **Update Settings** button.

View Preferred Language

View Canvas in your preferred language.
How do I set up multi-factor authentication for my user account as an observer?

Your institution may enable multi-factor authentication for your user account. Multi-factor authentication adds security to your account by verifying you are the user accessing your account. Multi-factor authentication may be optional or required.

You must have a mobile device to set up multi-factor authentication for your user account. Your device must be able to send text (SMS) messages, or if you have a smartphone, you can download the Google Authenticator app for iPhone or Android.

Note: This lesson shows how to set up multi-factor authentication if it is an optional setting in your user account. However, if multi-factor authentication is required by your institution, you will be shown the multi-factor authentication page directly after you log in to Canvas.

Open User Settings

In Global Navigation, click the Account link [1], then click the Settings link [2].
Set Up Multi-Factor Authentication

Click the **Set Up Multi-Factor Authentication** button.

Verify via Google Authenticator

To verify multi-factor authentication with Google Authenticator, download the app for your device (iPhone or Android) [1]. Use the app to scan the QR code and generate a code. Enter the code in the **Verification Code** field [3].

If you want multi-factor authentication to remember the computer you are using to log in to Canvas, click the **Remember this computer** checkbox [4].
Click the Verify button [5].

Verify via Text Message

To verify multi-factor authentication via text message, any existing SMS notification type displays in the drop-down menu [1]. This is the number where your multi-factor verification code will be sent. To select a new text (SMS) number, select the drop-down menu and enter the option to add a new phone number. You will need to know the phone number and mobile carrier (provider).

Once you have set up your new phone number, or selected an existing phone number, click the Send button [2]. Your mobile device will receive a verification code. Enter the code in the Verification Code field [3].

If you want multi-factor authentication to remember the computer you are using to log in to Canvas, click the Remember this computer checkbox [4].

Click the Verify button [5].
Manage Multi-Factor Authentication

Once multi-factor authentication is enabled, your User Settings page may display additional options to manage your authentication.

You can choose to create multi-factor authentication codes to use as backup in case your authentication device is not available [1]. This option is available to all users with multi-factor authentication.

If multi-factor authentication is optional for your account, you can also choose to reconfigure authentication [2] or disable authentication [3].
Web Services
How do I connect to web services outside of Canvas as an observer?

Canvas is integrated with a number of third party web services. Most of these services can be configured from the user settings page.

Open User Settings

In Global Navigation, click the Account link [1], then click the Settings link [2].
Link Services to Profile

Web Services

Canvas can make your life a lot easier by tying itself in with the web tools you already use. Click any of the services in "Other Services" to see what we mean.

- Let fellow course/group members see which services I've linked to my profile

When you register other web services with Canvas, you can integrate your account with services you already use. Each of these services also generates a contact method for other people in your course or group.

If Profiles is enabled for your account, and you want to show any of your registered web services on your profile page, click the Let fellow course/group members... checkbox. You can select specific services to display by editing your profile.

Note: If you do not have a profile page, your institution has not enabled this feature.

Connect to Web Services

Other Services

Click any service below to register:

- Google Drive
- Skype
- LinkedIn
- Twitter
- Delicious

You may be able to integrate Canvas with the following web services:

- Google Drive
