Introduction
How do I accept an email invitation to join a Canvas course as a student?

If you are using Canvas through your institution, you will most likely already have a Canvas account and need to accept a course invitation before you can log in. Your institution will email your login information.

However, you may also receive a course invitation where you have to create a Canvas account as part of the registration process.

Note: If your institution is using Canvas and you are having trouble with your account, contact your instructor for assistance.

Accept Course Invitation

You've been invited to participate in a class at canvas.instructure.com. The class is called Your Guided Course Template. Course role: Student

Name: Bethany Sanderson
Email: bethany.sanderson.canvas@gmail.com
Username: none

You'll need to register with Canvas before you can participate in the class.

Get Started

If you've enrolled in or been invited to a Canvas course, you will receive an email that contains your institution's Canvas URL [1] and your email address to use for your login [2]. To accept the course invitation, click the Get Started button [3].
Accept Course

You have been invited to join History of Civilization as a student

Decline Accept

Canvas will take you to your course and ask you to accept the enrollment. Click the Accept button.

Create Canvas Account

Welcome Aboard!

You've been invited to join History of Civilization. To accept this request you need a Canvas account. Click the link below to create a Canvas account.

I Have a Canvas Account Create My Account

Click the Create My Account button.

Note: If you already have a Canvas account, click the I Have a Canvas Account button. You’ll be directed to the Canvas login page.
Complete Registration

Create a password [1] and enter your time zone [2]. Depending on your account type, you may be asked if you want to receive information, news, and tips from Instructure [3].

Select the Acceptable Use Policy checkbox [4], then click the Register button [5].
How do I sign up for a Canvas account with a join code or secret URL as a student?

If you do not already have a Canvas account, you need to create an account before you can log in to Canvas.

If you are using Canvas through your institution, you will most likely already have an account and need to accept a course invitation. Your institution will email your login information. If you do not yet have an account, you can create an account when you accept the course invitation.

If you are not using Canvas through your institution, you can create your own account. Your instructor will provide you with a join code to link you directly to the course. This code will be sent to you separately from the Canvas email that invites you to join the course. If you need to create an account in Canvas but have not received your join code via email, please contact your instructor or institution for help with logging in.

Note: Once you create an account, you can request to delete your account at any time. Deleting your Canvas account cannot be undone and will delete all Canvas information including courses, assignments, grades, and participation. Do not request to have your account deleted unless you are certain you absolutely no longer require any access to your prior Canvas activity. To request to have your account deleted, open the Help menu and submit a ticket to Canvas support through the Report a Problem link.

Enter URL

If you don't yet have an account, you can set one up for yourself without an email link.

To create your account, open a browser and type canvas.instructure.com into your browser.

Note: You must have a join code from your instructor or institution to create your account.

Complete Registration

Complete the following fields:

1. Enter the course join code in the **Join Code** field. This code will be emailed to you by your instructor or institution—the email is separate from your email invitation to join the course.
2. Enter your name in the **Full Name** field.
3. Enter your username in the **Username** field.
4. Set your password by typing in the **Password** field.
5. Confirm your password by typing your password in the **Confirm Password** field.
6. Agree to the terms of use by clicking the terms of use checkbox.
7. Confirm that you are not a robot by completing the Captcha form (if enabled by your institution)
8. Click the **Start Learning** button.
How can I use Canvas on my mobile device as a student?

Canvas is built on open web standards, so most features are supported on mobile devices. With the growing use of mobile devices, instructors should build their courses with best practices for mobile in mind.

Mobile Browsers

You can access Canvas from any browser on your Android/iOS device. However, mobile browsers are not supported, and features may not function as expected compared to viewing Canvas in a fully supported desktop browser.

On mobile devices, Canvas is designed to be used within Canvas mobile applications. Canvas pages within a mobile browser are only supported when an action in the app links directly to the browser, such as when a student takes certain types of quizzes. Support is not extended to pages that cannot currently be used in the app, such as Conferences or Collaborations.

Additionally, Canvas offers limited support for native mobile browsers on tablet devices. For details, please reference the limited-support mobile browser guidelines.

Mobile Applications

We are actively improving our native mobile applications to support as many Canvas features as possible. Instructure has two native mobile applications for students free for download on both phones and tablets.

- **Canvas Student**: This app provides access to Canvas while on the go. Depending on your device, not all Canvas features may be available on the app at this time. View Canvas Student mobile features by version and device.
- **Polls for Canvas**: If your instructor uses polls in your courses, this app allows you to participate and share your opinion without any extra devices.

How do I view Announcements as a student?

The Announcements Index Page allows you to view and filter announcements in your course. You can also receive new announcements via Canvas notifications, view announcements on the Recent Activity Dashboard, or view announcements in the To Do list.

If the steps in this lesson do not match what is displayed in your course, learn how to use the Announcements Redesign interface.

View Announcements

In Announcements, you can view all the announcements in your course.

Announcements are listed in reverse chronological order with the newest appearing first and the older announcements appearing towards the bottom.

Each announcement includes the title of the announcement [1], the picture of the user who posted the announcement [2], an unread indicator near unread announcements [3], the announcement post date [4], and the number of unread/total replies in the announcement [5].

**Note:** If an announcement shows the letter U in place of a profile picture, the announcement was imported or copied from another course in Canvas. Additionally, copied announcements do not include a posted date and time.

Filter Announcements

To view only unread or all announcements, use the filter drop-down menu [1]. Additionally, to search for an announcement, you can type an announcement title, a user name, or a keyword in the **Search** field [2].

How do I add an external RSS feed to an announcement as a student?

RSS, also known as Rich Site Summary or Really Simple Syndication, is a web feed format that publishes frequently updated information from external websites such as blogs, news headlines, audio, and video. RSS feeds benefit users who want to receive timely updates from favorite websites or to aggregate data from many sites.

You can add an external RSS feed in a group announcement. The RSS feed will display the 15 most recent posts within Announcements. Please note that the feed will only display content created after you added the RSS feed. Moreover, the RSS feed only displays active announcements. Delayed announcements do not display until they are posted.

Notes:

- Adding an RSS feed will create an announcement for every new item added to that feed. Users that have chosen to be notified of new announcements in their Canvas notification settings may see a substantial increase in the amount of notifications they receive.
- External RSS feeds are not supported in courses using Announcements Redesign.

Assignments
How do I view Assignments as a student?

You can view all your course assignments on the Assignments page.

Notes:

- Your instructor may choose to hide the Assignments link in Course Navigation. If the Assignments link is not available, you can still access Assignments through your user or course dashboard, the Syllabus, Gradebook, Calendar, or Modules.
- If the assignment you are accessing displays differently, your assignment may be using the Assignment Enhancements feature. Please view this guide for more information.

Open Assignments

In Course Navigation, click the Assignments link.

Note: If the Assignments link is not available in Course Navigation, you can access course assignments through the Modules page.
View Assignments

In Assignments, you can view all the assignments in your course.

By default, assignments are grouped by overdue assignments, upcoming assignments, undated assignments, and past assignments.

- Overdue Assignments: assignments and discussions that are past the due date, are still available, have not been submitted, and have not been graded.
- Upcoming Assignments: assignments, discussions, and quizzes that have an upcoming due date.
- Undated Assignments: assignments, discussions, and quizzes that do not have a due date.
- Past Assignments: assignments and discussions that are past the due date and either are not available, have been submitted, or have received a grade; quizzes that are past the due date.

Each assignment also includes an icon with the assignment type: assignment [1], discussion [2], or quiz [3].

Note: The Assignments page supports keyboard shortcuts. To view a window with a list of keyboard navigation shortcuts, press the Shift+Question Mark keys simultaneously on your keyboard.

The first dates you may see are called availability dates. Sometimes your instructor only wants you to submit an assignment during a specified date range, so the available dates are the range of time that the assignment is accessible to you.

1. If the assignment does not have a date listed, the assignment is open; you can submit the assignment at any time during your course.
2. If the assignment says **Available until** [date], you can submit the assignment until the specified date.
3. If the assignment says **Not Available Until** [date], the assignment is locked until the specified date.
4. If the assignment says **Closed**, the assignment cannot accept submissions.

**Note:** If a date does not include a time, the listed date defaults to 12 am. Therefore, the last day for the assignment is the full day before the listed date. For instance, if an assignment is Available until December 15, you can access the assignment until December 14 at 11:59 pm.

**View Due Dates**

The second set of dates are the Due dates [1] for each respective assignment. Any assignments submitted after the due date are marked as late; some instructors may deduct points for late submissions. Again, not all assignments may include a Due date.

You can still submit late assignments before the **Available until** date.

*Please be aware that the Due date may be before or on the Available date.*

Due dates also include a time [2]. If your instructor does not set a specific time, the assignment due time defaults to 11:59 pm and submissions will be late if submitted after 11:59:59 pm.
Filter Assignments

If your course includes Multiple Grading Periods, you can view assignments by grading period [1]. You can search for an assignment by typing an assignment title or a keyword in the Search for assignment field [2]. You can also group assignments by type [3].

Open Assignment

To view the details of an assignment, click the name of the assignment.
View Open Assignment

When an assignment is open to you to submit at any time, you can view the due date, points, and the type(s) of submission(s) you can use for the assignment [1]. Not all assignments may have a due date.

You can also view additional details:

- **Instructions** [2]: any instructions that your instructor has about the assignment. Please note that you cannot download assignment instructions unless your instructor has included a link to download them. You can also print the screen or copy and paste the directions into a word processing program, or you can also view the assignment in the Canvas mobile app.
- **Rubric** [3]: any grading criteria that your instructor has provided for the assignment. An assignment may or may not include a rubric. Before submitting your assignment, you may want to review the assignment rubric.

For example, an assignment may have a due date but may not list any other dates. If you were to miss the due date, you could still submit the assignment for late credit before the last day of the course. If the assignment does not have a due date, you can submit the assignment at any time before the last day of the course.

To submit your assignment, click the Start Assignment button [4].

**Note:** You can always re-submit an assignment unless your instructor has set availability dates for the assignment.
View Assignment with Availability Dates

When an assignment is open to you during availability dates, you can view all available assignment information in addition to the specific dates the assignment is available to you. Availability dates may include a first available date (open date), last available date (locked or closed), or both dates to create an overall date range. The Due date may be before or on the last available date (if one is set).

If you were to miss the assignment submission due date [1], you could still submit the assignment until the last available date [2]. Once the last date passes, you can no longer submit the assignment.
View Assignment with Limited Attempts

Your instructor may limit the number of submission attempts you are allotted for an assignment. If your assignment has a limited number of submissions, you can view the number of submission attempts you have made [1] and the number of submission allowed for the assignment [2].

Once you have used all your submission attempts, the New Attempt button displays as disabled [3].
View Locked Assignment

**Allowed Attempts** Unlimited

**Instructions**

Using the To Plant or Not to Plant page available [here on the NASA website](#), provide your answer to the question: Where would you plant this?

There is no time limit on this quiz and you have 3 attempts.

**This quiz was locked Jun 30 at 11:59pm.**

When an assignment is closed, you can still view the rubric, if any, and any existing submission details in the sidebar, but you can no longer view the assignment details or submit/re-submit the assignment. You can also view the date the assignment was locked to submissions.

Assignments close when they are only available until a specific date.
How do I filter assignments by type as a student?

As a student, if your instructor puts assignments into groups, you can view the assignments grouped by type.

Open Assignments

In Course Navigation, click the Assignments link.

Group Assignments by Type

Click the Show By Type button.
View Assignments by Type

Now you can view all the Assignments for the course in the groupings rather than just all at once. You can also see how much each grouping will be worth in the final grade.
How do I view the rubric for my assignment?

Your instructor may include a rubric as part of your assignment. The Rubric is a set of criteria that your instructor will use to grade your assignment. Before submitting your assignment, you can use the Rubric to evaluate your own work and make sure your assignment fulfills your instructor's requirements.

You can view rubric results for a graded assignment in the Grades page or from the assignment details page.

Notes:
- Not all assignments may include a rubric.
- Rubrics for external tool assignments can be viewed in the submissions detail page, before or after the assignment is submitted.
- If the assignment you are accessing displays differently, your assignment may be using the Assignment Enhancements feature. Please view this guide for more information.

Criterion may include a description [1].

The rubric may also include an outcome associated with the course [2]. Outcomes are identified by a small flag and are used to assess learning mastery in a course. The outcome also shows the threshold for the outcome, or the number of points you must achieve to meet expectations. Your instructor may allow you to view outcomes results in your course grades.
How do I view the rubric for my external tool assignment?

If your instructor creates an assignment with an external tool, such as a Google Drive or Microsoft Office 365 assignment, they may include a rubric as part of your assignment. Before submitting your assignment you can review the rubric's definitions.

How do I submit an online assignment?

You can submit online assignments in Canvas using several submission types. Instructors can choose what kind of online submissions they want you to use. You may also have the option to resubmit assignments if your instructor allows.

Any attachments added as part of a graded assignment submission are also copied to your user files but are not counted against your user quota. However, once the file has been uploaded as a submission, you cannot delete the file. Files are stored in the Submissions folder.

Before submitting an assignment, you may want to review all assignment information, such as the assignment rubric, if any.

This lesson shows how to turn in a standard online assignment. Learn how to submit a peer review assignment.

Third-Party File Application Submissions

You can submit assignments from Google Drive, Dropbox, or another third-party service via your desktop computer in one of two ways:

1. Download the file to your computer and submit as a File Upload
2. Share the file, copy the file URL, and submit as a Website URL

Mobile Submissions

You can also submit assignments using your Android or iOS device.

Notes:

- Not all file types may be available for your assignment, depending on the assignment submission type set by your instructor.
- Not all of your assignments may be submitted online. If you cannot see the Submit Assignment link, your instructor may want you to submit your assignment in a different way or the availability date has passed. View the description of the assignment for instructions, or contact your instructor for assistance.
- Canvas does not support file uploads larger than 5 GB.
- If enabled in your account, Canvas plays a celebration animation when you submit an assignment on time. However, if you prefer, you can disable this feature setting in your user settings.
- If the assignment you are accessing displays differently, your assignment may be using the Assignment Enhancements feature. Please view this guide for more information.
- Group assignments do not support the student annotation submission type.

If allowed by your instructor, you may choose to resubmit another version of your assignment by clicking the New Attempt button [2]. You will only be able to view the details of your most recent submission in the Sidebar, but your instructor will be able to see all of your submissions.

Once the instructor has graded your submission, the Grades link in Course Navigation displays a grading indicator. You can also see details about the group assignment and links to additional feedback in your Grades page.

Notes:

- After submitting an assignment, the assignment will still appear in Assignments and in the Syllabus; the listing is not removed with assignment submissions.
- When you resubmit an assignment, you can only access and view your most recent submission. However, instructors can view all of your submissions.
How do I know if I have a peer review assignment to complete?

Your instructor can assign you to review another student's assignment. You can view peer review notifications in Canvas in the Recent Activity Stream, the To Do list, and from the individual assignment page. Once peer reviews are assigned, you will also be notified via email.

View Dashboard

Once a peer review is assigned to you, a notification will appear in several dashboard areas.

View Recent Activity

On your Dashboard, you can view recent activity in your Global Activity stream. Recent activity will display a peer review and the name of the course. Click the Show More link to access the assignment and view the name of the peer review student.

If a peer review is anonymous, the name will show as Anonymous User.
View To Do List

On both the Dashboard and the Course Home Page sidebar, the To Do list shows the peer review assignment. Peer reviews are identified with the Peer Review icon. To view the assignment for review, click the Peer Review for [Assignment Name] link.

**Note:** Currently the Due Date in the To Do List does not accurately display the due date for completing your peer review. If details about your peer review are not already included in the details of your assignment, please contact your instructor.

Open Assignments

You can also view peer reviews when viewing assignments. In Course Navigation, click the Assignments link.
Note: You can also access your Assignments through your Dashboard, Course Activity Stream, the Syllabus, Gradebook, Calendar, or Modules.

Open Assignment

The assignments page does not display an icon if you have a peer review. If you know the name of the peer review assignment, click the title to open the assignment.

View Assigned Peer Review

In the sidebar under Assigned Peer Reviews, you will see any peer reviews assigned to you. The caution sign icon [1] indicates the peer review has not been completed. A check mark icon [2] indicates that you have completed the peer review.

If your peer review is anonymous, you cannot see the name of the student. The peer review will be shown as Anonymous User.

Notes:
• If your instructor includes a rubric, which is a pre-determined outline of how an assignment is graded, you must assign a grade using the rubric. However, your instructor may also ask you to leave a comment in the comment sidebar.
• If your instructor has assigned an On Paper or No Submission assignment, the assigned peer review will not be displayed on this page. However, it can still be viewed from the Dashboard.
How do I submit a peer review to an assignment?

Your instructor may require you to submit a peer review of another student's assignment. To complete the assignment, you must review the student's assignment and add a comment in the comment sidebar.

If your instructor includes a rubric, which is a pre-determined outline of how an assignment is graded, you must assign a grade using the rubric. However, your instructor may also ask you to leave a comment in the comment sidebar.

Some peer reviews may also be anonymous, which means you cannot view the name of the student whose assignment you are reviewing. Additionally, the student cannot see your name as the reviewer when you leave a comment to complete the review.

2 View Feedback

As a peer reviewing student, you will only see comments written by you.

To download the assignment, click the name of the assignment [1]. To preview the submission, click the View Feedback button [2].
Create Annotated Feedback

If the assignment supports annotated feedback, the Preview button will display as View Feedback.

To open the document with Canvas DocViewer, click the View Feedback button [1]. You can add comments directly to the submission through DocViewer [2].

You can leave direct feedback on the assignment using DocViewer, but you cannot view any existing feedback submitted by another student or the instructor.

Note: In anonymous peer reviews, you cannot leave comments in DocViewer.
Complete Rubric

If the assignment has a rubric attached, you are only required to complete the attached rubric for the peer review to be considered finished.

To view the rubric, click the Show Rubric link [1].

To score the assignment with the rubric, select rubric ratings [2] or enter a score for each criterion in the Points column [3]. To deselect a rubric rating, click the rubric rating [4].

Each criterion score will create the total points for the assignment [5].

When you're finished, click the Save Comment button [6]. You may need to refresh your browser to see that you've completed the required steps for the peer review.

Notes:

- Depending on how your instructor set up the rubric, it may or may not include point values. If the rubric does not include point values you will still need to fill out the rubric to complete the peer review.
- After you save the rubric, you cannot edit it to change your comments or ratings.

How do I upload a file as an assignment submission in Canvas?

If your instructor allows file uploads as a submission type, you can upload a file from your computer as an assignment submission.

Any attachments added as part of a graded assignment submission are also copied to your user files but are not counted against your user quota. However, once the file has been uploaded as a submission, you cannot delete the file. Files are stored in the Submissions folder.

If your institution has enabled Google Docs as a submission type, you can also upload a file from Google Drive.

Notes:

- Canvas does not support file uploads larger than 5 GB.
- If enabled in your account, Canvas plays a celebration animation when you submit an assignment on time. However, if you prefer, you can disable this feature setting in your user settings.
- If the assignment you are accessing displays differently, your assignment may be using the Assignment Enhancements feature. Please view this guide for more information.

How do I upload a file from Google Drive as an assignment submission in Canvas?

If your institution has enabled Google Docs or Google Drive as a submission type, you can upload a file from Google Drive for an assignment. Unlike other assignment submissions, files from Google Drive are not uploaded into your Canvas user files.

Canvas accepts Google Doc, Google Sheet, and Google Slide files. You can also upload any uploaded Word (.doc/.docx), Excel (.xls/xlsx), PowerPoint (.ppt/.pptx), and PDF files not converted to Google Docs formatting.

Notes:

- If the Google Docs or Google Drive tab is not available in your submission, your institution has not enabled this feature.
- If your course displays a link to your Google Drive in the Course Navigation Menu, your course has enabled Google Drive directly. Otherwise, you must enable Google Drive a web service in your user profile to upload Google Drive files.
- In Google Drive assignments, you can only submit one file for your submission.
- When Google Drive files (docs, sheets, and slides) are uploaded as a submission, the files convert to their Microsoft counterpart file types and appear in the submission as respective Word, Excel, or PowerPoint files. This conversion essentially preserves the submission in its current state; any changes made to the file in Google Drive will not be updated in the submission.
- If enabled in your account, Canvas plays a celebration animation when you submit an assignment on time. However, if you prefer, you can disable this feature setting in your user settings.
- If the assignment you are accessing displays differently, your assignment may be using the Assignment Enhancements feature. Please view this guide for more information.

How do I view assignment comments from my instructor?

You can see comments from your instructor in the Grades page. Most comments are located in the assignment sidebar. However, your instructor may also leave comments in your assignment submission as annotations.

Open Grades

In Course Navigation, click the Grades link.

View Assignment Comments

Locate the assignment and click the comment icon [1]. View the comments in the assignment [2]. You can also view the author, date, and time of the comment.
Open Assignment

Your assignment submission also displays comments. Click the title of the assignment.

View Comments

Any instructor comments added to your submission, as well as any comments added by you, appear in the Comments portion of the sidebar [1].
If your assignment includes a rubric [2], your instructor may also leave comments in the rubric. The Show Rubric link displays an indicator if comments have been added in a rubric [3].

**View Annotated Comments**

If you submitted the assignment with a file upload, your instructor may have included annotated feedback in your assignment.

Files that support annotations display a **View Feedback** link next to the submission. The View Feedback link displays an indicator if annotated comments have been added to a supported assignment. Learn how to view annotated comments.
Add Comments

You can add comments to your assignment submission [1]. All comments left on a group assignment submission are sent to the instructor and the whole group.

If your group assignment submission includes commenting options, each member of your group is being graded individually. To send your comment to your instructor, select **Send comment to instructor only** [2]. To send your comment to your instructor and the whole group, select **Send comment to the whole group** [3].

To submit your comment, click the **Save** button [4].

To add a media comment to your submission, click the Media Comment link. You can record a video or record an audio comment to send to your instructor.
How do I use DocViewer in Canvas assignments as a student?

Canvas DocViewer is a tool that allows annotations on online assignment submissions in Canvas. You can use DocViewer to view annotated feedback in the assignment details section of the sidebar from your instructor or from other students in peer review assignments.

DocViewer has a 10-hour session limit that begins when you open a submission. If you start to make an annotation but do not submit it before the session expires, the annotation will not be saved. Submitted annotations are saved and are not affected by the session limit. Canvas will display a session expiration warning at 9 hours 50 minutes, followed by a 5-minute and 1-minute warning until the 10-hour limit has been reached. You can restart a DocViewer session at any time by refreshing the submission page.

If your browser includes a built-in PDF viewer, select the option to view the PDF in the system viewer.

Compatible DocViewer Files

If a submission includes a file that can be rendered in DocViewer, but the submission preview is not yet complete, Canvas will generate a message stating the document is still processing.

Notes:

- If you cannot annotate a document in DocViewer, your institution may have restricted this feature.
- Files over 100 MB and password-protected files will not be converted by DocViewer.
- DocViewer annotations can be viewed in the Canvas Student app.
- Your instructor can delete any comment or annotation at any time.
- If your instructor anonymously grades an assignment, annotations in DocViewer will not be available until the assignment is unmuted.
To access DocViewer, view feedback from your instructor or peer review feedback on the assignment details page. The View Feedback link displays an indicator if annotated comments have been added to a supported assignment.
The DocViewer Toolbar helps you manage the assignment submission.

To download a PDF of the annotated submission, click the Download button [1].

If there are multiple pages, the Page number field [2] will let you advance through the submission to find the page you want to annotate. To go to another page, enter the page number in the Page field. You can also use the arrow icons [3] to advance through the submission.

To rotate the current page 90 degrees clockwise, click the Rotate button [4]. Pages with annotations cannot be rotated.

To zoom in and out on the submission, use the Zoom buttons [5].

To view the submission in full screen, click the Full Screen button [6].

To annotate the submission, use the annotation tools [7].

Note: If you cannot use the annotation tools in DocViewer, your institution may have restricted this feature.
Add Point Annotation

To leave a point annotation, select the **Point** annotation type [1].

Select the color for the point annotation in the color panel [2].

Click the desired area of the submission [3]. The point annotation icon will appear indicating the location of the annotation. To add a comment to the point annotation, type the comment in the Comment field [4]. To start a new line in your comment, click the Shift+Enter/Return key. To submit your comment, click the Enter/Return key.

You can reply to DocViewer comments by clicking the **Reply** button [5].

To move the annotation, hover over the point annotation icon in the document. Click and drag the annotation to the new area.

To delete a point annotation, click the annotation and then click the **Delete** icon [6]. DocViewer will confirm you want to delete the annotation. Deleting an annotation will also delete any associated comments.
Add Highlight Annotation

To highlight text within the document, select the Highlight annotation type [1].

Select the color for the highlight annotation in the color panel [2].

Click and drag to highlight text within the submission [3].

To add a comment to the highlight annotation, click the Comment button [4]. To start a new line in your comment, click the Shift+Enter/Return key. To submit your comment, click the Enter/Return key.

To delete a highlight annotation, click the highlighted area and then click the Delete icon [5]. DocViewer will confirm you want to delete the highlight. Deleting an annotation will also delete any associated comments.
Add Text Annotation

To add text directly in the submission, select the Free text annotation type [1].

Select the color for the text annotation in the color panel [2].

Select a white or transparent background for the text annotation [3] as well as the font size for the annotation [4].

Click in the desired area of the submission, then type your entry [5]. To start a new line in your comment, click the Shift+Enter key.

To move the annotation, hover over the text box in the document. Click and drag the annotation to the new area.

To delete the text annotation, click the text box and then click the Delete icon [6]. DocViewer will confirm you want to delete the text box.
Add Strikeout Text Annotation

To indicate that text should be deleted, select the Strikeout annotation type [1].

Select the color for the strikeout line in the color panel [2].

Click and drag to strike out within the submission. A line will appear indicating the text has been struck out [3].

To add a comment to the strikeout annotation, click the Comment button [4]. To start a new line in your comment, click the Shift+Enter/Return key. To submit your comment, click the Enter/Return key.

To delete a strikeout annotation, click the strikeout area and then click the Delete icon [5]. DocViewer will confirm you want to delete the strikeout line. Deleting an annotation will also delete any associated comments.
Add Draw Annotation

To make freehand drawings and annotations, select the **Free Draw** annotation type [1].

Select the color for the drawn annotation in the color panel [2].

Select your annotation line width from the line width panel [3].

Click and drag to start a drawing. Free-form lines will appear indicating the drawing area [4]. You can add multiple strokes to a drawn annotation.

To add a comment to your drawn annotation, click the **Comment** button [5]. To start a new line in your comment, click the Shift+Enter/Return key. To submit your comment, click the Enter/Return key.

To accept the drawn annotation, click the **Check** icon [6].

To move a drawing, hover over the outline of the drawing, then drag and drop the drawing to the new area of the document.

To delete a drawing at any time, click the drawing and then click the **Delete** icon [7]. DocViewer will confirm you want to delete the drawing. Deleting an annotation will also delete any associated comments.
Note: Draw annotations can only have one line width per annotation. Individual annotations must be saved before creating a new line with a different width.

Add Area Annotation

To leave an area annotation, select the Area annotation type [1]. Select the color for the area annotation in the color panel [2]. Click and drag the rectangle around an area of the submission [3]. A box will appear indicating the area for the annotation. To add a comment to the area annotation, type the comment in the Comment field [4]. To start a new line in your comment, click the Shift+Enter/Return key. To submit your comment, click the Enter/Return key.

You can reply to DocViewer comments by clicking the Reply button [5].

To move the annotation, hover over the border. Click and drag the annotation to the new area of the document.

To delete an area annotation, click the annotation and then click the Delete icon [6]. DocViewer will confirm you want to delete the comment. Deleting an annotation will also delete any associated comments.
Individual comments include an icon that displays the type and color of the annotation [1]. The annotation icon displays next to the commenter's name and only displays in the primary comment for an annotation. Replies to a comment do not include the icon.

Instructors may leave additional comments or reply to your comments. When an annotated comment includes more than five content lines, the content box displays an ellipses link [2]. To expand a comment, click the ellipses link. If a comment includes multiple replies, all replies will be expanded.

Comments with replies are stacked [3]. When you click on a comment, all replies are expanded in the group. The number of stacked replies is indicated below the first comment.

Comments remain on the page where the annotation was made. If there are too many comments to display on a single page, the comment section becomes scrollable and some comments are hidden. An indicator shows how many comments have been hidden [4].

You can delete your comments by clicking the delete icon [5].
If your instructor has enabled Anonymous Instructor Annotations, annotations and comments on your submission will not display the name of the instructor or grader.

View Other User Annotations

When another user adds an annotation within a document, you can view the author of the annotation by clicking the annotation [1].

You can also leave a comment on any annotation created by other users [2].
View Deleted Items

Your instructor can delete any comment or annotation at any time. If a comment or annotation is deleted, the deleted item displays in the sidebar [1]. You can view the name of the user who made the deletion and the date of the deletion. Items can only be deleted by instructors or admins.

If multiple comments or annotations are deleted, including comment replies with the same comment thread, each comment or annotation will include its own heading information about the deletion.

To permanently remove the deleted item, click the Remove icon [2].

**Note:** Permanently deleted items cannot be recovered.
How do I view annotation feedback comments from my instructor directly in my assignment submission?

Your instructor may choose to include comments directly in an assignment submission using inline comments, or annotations. If an assignment's submission details page includes a View Feedback button, you can view these annotated comments through a preview tool called Canvas DocViewer. You can also use Canvas DocViewer to reply to any comments or make your own annotations.

Some browsers may not initially render comments correctly when viewing feedback. If your browser includes a built-in PDF viewer, select the option to view the PDF in the system viewer. You can also download PDF files with comments to view on your computer. The settings required to view or print the annotations in the PDF vary based on the software installed on your computer.

Notes:

- If the assignment attachment displays a Preview button instead of the View Feedback button, your file is not DocViewer compatible and will not include any annotated comments.
- If you submitted a group assignment but are not a member of a group, instructor comments may not display in the Submission Details page. You can view comments from your Grades page or the Submission Comments folder of the Inbox.

Some good ideas here. For the most part, you stay on topic. I think improving the transition into this paragraph would really strengthen the point you're trying to make. T [...]

How do I view my Roll Call Attendance report as a student?

If your Assignments page includes a Roll Call Attendance assignment, your instructor is taking attendance in your course. As part of the assignment, you can view your attendance record in your course. Like any other Canvas assignment, you can also view or leave comments in the submission details page.

If the Roll Call Attendance assignment is available to you, this lesson shows you how to view your attendance report through the Grades page. However, if your instructor allows you to view the Assignments link in Course Navigation, you can also access the submission details through the Assignments page by opening the Attendance assignment.

Note: If the Roll Call Attendance assignment does not appear in the Grades page, your instructor has chosen to not use Attendance for grading.

You can also view an overview of your attendance record through a graph [2], with the graph key displayed to the right [3]. Attendance is identified by color, where green shows the days you were on time and present, yellow shows the days you were late, and red shows the days you were absent.

You can also view the total percentage of days you have been marked as on time in your class [3].
View Late and Absent Dates

Below the overview information, you can also view the specific days that you were marked late or absent. For each attendance record, you can view the date [1], day of the week [2], status [3], and percentage points earned [4].
How do I download assignment submissions from all my courses?

As a student, you can download all your assignment submissions in Canvas. Submissions are for both current and concluded courses and only includes any files that were submitted to fulfill an assignment; they do not include any submissions modified by instructors, such as annotated submissions.

The download also includes submissions for group assignments, even if the submission was made by another student in your group.

When the export has finished generating, submissions are downloaded as a ZIP file.

Assignment Enhancements
How do I view an assignment in a course using Assignment Enhancements as a student?

You can view all your course assignments on the Assignments Index page.

Notes:

- Your instructor may choose to hide the Assignments link in Course Navigation. If the Assignments link is not available, you can still access assignments through your user or course dashboard, the Syllabus, Gradebook, Calendar, or Modules.
- Observers can view all content from submitted assignments. However, observers cannot view assignment drafts.
- Assignment Enhancements does not support the following assignment types: Peer Reviews and Cloud Assignments.
- If the assignment you are accessing displays differently, Assignment Enhancements may not be enabled in your course or your instructor may not have used a supported assignment type. Please view [this guide](#) for more information.

In the Assignments Index page, you can view all the assignments in your course.

By default, assignments are grouped by overdue assignments, upcoming assignments, undated assignments, and past assignments.

- **Overdue Assignments** [1]: assignments and discussions that are past the due date, are still available, have not been submitted, and have not been graded.
- **Upcoming Assignments** [2]: assignments, discussions, and quizzes that have an upcoming due date.
- **Undated Assignments** [3]: assignments, discussions, and quizzes that do not have a due date.
- **Past Assignments** [4]: assignments and discussions that are past the due date and either are not available, have been submitted, or have received a grade; quizzes that are past the due date.

Each assignment also includes an icon with the assignment type: assignment [5], discussion [6], or quiz [7].

Note: The Assignments Index page supports keyboard shortcuts. To view a list of keyboard shortcuts, press the Shift+Question Mark keys simultaneously on your keyboard.
View Assignment Summary

Each assignment displays the assignment name [1], availability dates (if any) [2], due date (if any) [3], and points possible [4].

View Availability Dates

The first dates you may see are called availability dates. Sometimes your instructor only wants you to submit an assignment during a specified date range, so the available dates are the range of time that the assignment is accessible to you.

- If the assignment does not have a date listed [1], the assignment is open; you can submit the assignment at any time during your course.
- If the assignment says Available until [date] [2], you can submit the assignment until the specified date.
• If the assignment says **Not Available Until** [date] [3], the assignment is locked until the specified date.
• If the assignment says **Closed** [4], the assignment cannot accept submissions.

**Note:** If a date does not include a time, the listed date defaults to 12 am. Therefore, the last day for the assignment is the full day before the listed date. For instance, if an assignment is Available until December 15, you can access the assignment until December 14 at 11:59 pm.

An assignment may display a second date, which is the **Due date** [1]. Any assignments submitted after the due date are marked as late; some instructors may deduct points for late submissions. Again, not all assignments may include a Due date.

Due dates also include a time [2]. If your instructor does not set a specific time, the assignment due time defaults to 11:59 pm and submissions will be late if submitted after 11:59:59 pm.

You can still submit late assignments before the **Available until** date [3].

*Please be aware that the Due date may be before or on the Available date.*
If your course includes Multiple Grading Periods, you can view assignments by grading period [1]. You can search for an assignment by typing an assignment title or a keyword in the Search for assignment field [2]. By default, assignments on the Assignments Index page display by due date. To view assignments by type (assignment, discussion, quiz), click the Type button [3].

To view the details of an assignment, click the name of the assignment.
View Assignment

The **Assignment Summary** header displays the assignment title, due date, and points possible [1]. Not all assignments may have a due date.

The **Attempt** drop-down allows you to view your submission attempts for the assignment [2]. By default, the Attempt drop-down displays your most recent submission attempt.

The **Progress Tracker** displays the assignment submission and grading status [3].

To **add an assignment comment for your instructor**, click the **Add Comment** button [4].

View the number of allowed attempts [5] and availability dates [6].

If your instructor added assignment instructions, they display in the **Details** section [7].

If a rubric has been added to the assignment, the **View Rubric** section automatically expands to display the assignment rubric [8].

If the assignment is accepting submissions, you can select a permitted submission type from the **Choose a submission type** section [9].
Notes:

- If your assignment is part of a module, you can view the previous module item by clicking the Previous button [10] and the next module item by clicking the Next button [11].
- Assignment instructions can only be downloaded if your instructor has included a link to download them. You can also print the screen or copy and paste the directions into a word processing program. You can also view the assignment in the Canvas mobile app.
- If the assignment allows multiple attempts and is within its set availability dates, you can resubmit the assignment.

If your assignment has been graded by your instructor, you can view the score for each attempt in the Attempt Score field [1]. If your assignment has been graded without a submission, you can view your score in the Offline Score field [2].
How do I view the rubric for an assignment in a course using Assignment Enhancements?

Your instructor may include a rubric as part of your assignment. The rubric is a set of criteria that your instructor will use to grade your assignment. Before submitting your assignment, you can use the rubric to evaluate your own work and make sure your assignment fulfills your instructor's requirements.

Notes:

- Not all assignments may include a rubric.
- If the assignment you are accessing displays differently, Assignment Enhancements may not be enabled in your course or your instructor may not have used a supported assignment type. Please view this guide for more information.

How do I submit an online assignment in a course using Assignment Enhancements?

You can submit online assignments in Canvas courses that have enabled Assignment Enhancements. Instructors can choose what kind of online submissions they want you to use. This lesson shows how to turn in a standard online assignment in a course using Assignment Enhancements. If your instructor allows, you may also have the option to resubmit assignments.

Any attachments added as part of a graded assignment submission are also copied to your user files but are not counted against your user quota. However, once the file has been uploaded as a submission, you cannot delete the file. Files are stored in the Submissions folder.

Before submitting an assignment, you may want to review all assignment information, such as the assignment rubric.

Third-Party File Application Submissions

You can submit assignments from Google Drive, Dropbox, or another third-party service via your desktop computer in one of two ways:

1. Download the file to your computer and submit as a File Upload
2. Share the file, copy the file URL, and submit as a Website URL

Notes:

- If the assignment you are accessing displays differently, Assignment Enhancements may not be enabled in your course or your instructor may not have used a supported assignment type. Please view this guide for more information.
- Assignment Enhancements does not support the following assignment types: Peer Reviews and Cloud Assignments.
- Not all file types may be available for your assignment, depending on the assignment submission type set by your instructor.
- For instruction on completing an assignment, view the assignment details or contact your instructor for assistance.
- Canvas does not support file uploads larger than 5 GB.
- Group assignments do not support the student annotation submission type.
- Observers can view all content from submitted assignments. However, observers cannot view assignment drafts.

- Once you've submitted your work, the assignment will still display in the Assignments page and the Syllabus.
How do I submit an assignment on behalf of a group using Assignment Enhancements?

A group assignment allows students to work together on an assignment and submit it as a group using Assignment Enhancements. Only one group member needs to submit the assignment on behalf of the group.

Any attachments added as part of a graded assignment submission are also copied to your group files but are not counted against your user quota. However, once the file has been uploaded as a submission, you cannot delete the file. If you upload a file from your computer, the file is stored in the group Submissions folder. However, please note that if you submit a file that was previously uploaded to your group files, the file is stored in your Submissions folder.

Notes:

• When a group assignment is submitted, any submission drafts belonging to other group members are deleted.
• Previously uploaded group files cannot be accessed in the assignment details page. To submit a previously uploaded group file as an assignment submission, you must move the group file to user files.
• Group assignments do not support Student Annotation assignments.

- Download the file to your computer and submit as a File Upload
- Share the file, copy the file URL, and submit as a Website URL

Notes:

- If the assignment you are accessing displays differently, Assignment Enhancements may not be enabled in your course or your instructor may not have used a supported assignment type. Please view this guide for more information.
- Assignment Enhancements does not support the following assignment types: Peer Reviews and Cloud Assignments.
- Not all file types may be available for your assignment, depending on the assignment submission type set by your instructor.
- Not all of your assignments may be submitted online. If you cannot see options to submit your work, your instructor may want you to submit your assignment in a different way or the assignment is not within its availability dates. View the assignment header and details for instructions, or contact your instructor for assistance.
Open Assignments

In Course Navigation, click the Assignments link.

Open Assignment

Click the name of an assignment.
Select Submission Type

Your instructor may specify which submission types are appropriate for each assignment.

If your instructor allows multiple submission types for the assignment, accepted submission types display in the Choose a submission type section [1].

Click the Web URL option [2].

If your instructor only allows URL submissions, the Website URL field displays in place of the Choose a submission type section.

**Notes:**

- If the URL submission type does not display in the Choose a submission type section, your instructor has restricted this submission type.
- Not all of your assignments may be submitted online. If you cannot see options to submit your work, your instructor may want you to submit your assignment in a different way or the assignment is not within its availability dates. View the assignment header and details for instructions, or contact your instructor for assistance.
Submit a Website URL

Type or copy and paste the URL into the **Enter Web URL** field [1].

You can submit assignments from Google Drive, Dropbox, or another third-party service by sharing the file, copying the URL, and submitting as a website URL. Alternatively, you can download the file to your computer and [submit as a file upload](#) if the assignment allows.

To preview your URL in a new browser tab, click the **View** icon [2].

To submit your URL submission, click the **Submit Assignment** button [3].

If you are working on an additional assignment attempt, you can cancel your submission your assignment attempt by clicking the **Cancel Attempt** button [4].

When your submission is successfully submitted, the Progress Tracker displays a Submitted status [1] and your most recent submission displays [2].

If you choose, you may resubmit another version of your assignment by clicking the Try Again button [3].

If you’ve submitted multiple assignment submissions, you can view previous submissions by clicking the Attempt drop-down [4].

To add an assignment comment for your instructor, click the Add Comment button [5].

Notes:

• If you’re not able to resubmit work, your instructor may have limited the number of allowed submissions or the assignment may no longer be accepting submissions due to the assignment's availability dates.
• Once you’ve submitted your work, the assignment will still display in the Assignments page and the Syllabus.
How do I submit a Google Drive file or URL as an assignment submission using Assignment Enhancements?

If your institution has enabled Google Drive or Google Docs as a submission type and enabled Assignment Enhancements in your course, you can upload a file from Google Drive for an assignment. Unlike other assignment submissions, files from Google Drive are not uploaded into your Canvas user files.

Canvas accepts Google Doc, Google Sheet, and Google Slide files. You can also upload any uploaded Word (.doc/.docx), Excel (.xls/.xlsx), PowerPoint (.ppt/.pptx), and PDF files not converted to Google Docs formatting.

Notes:

- If the assignment you are accessing displays differently, Assignment Enhancements may not be enabled in your course or your instructor may not have used a supported assignment type. Please view this guide for more information.
- If the Google Apps submission type does not display, your instructor has not installed the app in your course.
- If your course displays a link to your Google Drive in the Course Navigation Menu, your course has enabled Google Drive directly. Otherwise, you must enable Google Drive a web service in your user profile to upload Google Drive files.
- In Google Drive assignments, you can only submit one file for your submission.
- When Google Drive files (docs, sheets, and slides) are uploaded as a submission, the files convert to their Microsoft counterpart file types and appear in the submission as respective Word, Excel, or PowerPoint files. This conversion essentially preserves the submission in its current state; any changes made to the file in Google Drive will not be updated in the submission.
- Assignment Enhancements does not support the following assignment types: Peer Reviews and Cloud Assignments.
- Canvas does not support file uploads larger than 5 GB.
In Course Navigation, click the **Assignments** link.

**Note:** You can also access your Assignments through your user or course dashboard, the Syllabus, Gradebook, Calendar, or Modules.

How do I submit a Microsoft Office 365 file as an assignment submission using Assignment Enhancements?

If your course has enabled Microsoft Office 365 and Assignment Enhancements, you can upload a file from your Microsoft OneDrive for an assignment.

Files uploaded from Office 365 are added to your Canvas user files submissions folder.

Canvas accepts Microsoft Word, Microsoft PowerPoint, Microsoft Excel, and PDF types.

Notes:

• If the assignment you are accessing displays differently, Assignment Enhancements may not be enabled in your course or your instructor may not have used a supported assignment type. Please view this guide for more information.
• If the Microsoft Office 365 submission type does not display, your instructor has not installed the app in your course.
• Canvas will require you to authorize access to your OneDrive account.
• You can only attach one file for your submission.
• When Office 365 files are uploaded as a submission, changes later made to the file in OneDrive will not be updated in the submission.

How do I view assignment feedback from my instructor using Assignment Enhancements?

You can see comments from your instructor in the Assignment Details page. Most comments are located in the Feedback sidebar. However, your instructor may also leave comments in a rubric or as annotations on your assignment submission.

Open Assignments

In Course Navigation, click the Assignments link.

Open Assignment

To open the assignment, click the assignment title.
View Feedback

If your instructor has added assignment feedback, the Feedback sidebar displays by default [1]. You can view up to the 20 most recent comments for the submission attempt.

You can view comments [2] as well as the author, date, and time the comment was written [3]. Comments may also include media or file attachments [4].

**Note:** The feedback sidebar is specific to the submission attempt viewed in the assignment page. Opening a new submission attempt will display a separate sidebar.

How do I use the Calendar as a student?

The Calendar is a great way to view everything you have to do for all your courses in one place. You can view calendar events by day, week, month, or agenda list. The calendar also includes access to the Scheduler, which is an optional scheduling tool in Canvas.

Note: If you change your language or locale preferences, the Calendar week start date may also change. Certain languages or locales change the Calendar week start date to Monday.

Open Calendar

In Global Navigation, click the Calendar link.
View Calendar

The Calendar spans all courses and displays information for each of your enrolled courses and groups. In the navigation bar, you can choose to view the calendar in Week, Month, or Agenda view [1]. The view you choose dictates the style of the calendar window [2]. By default, the calendar appears in **Month** view.

The sidebar [3] shows a quick-view calendar, your list of courses and groups, and undated items for your courses and groups.

**Add Calendar Items**

Each calendar view shows any assignments or events that have been added to the calendar. You can add events and to-do items to your personal calendar at any time in the navigation bar by clicking the Add button.
Each personal, course, and group calendar is identified by a separate color that populates the calendar view. Associated calendar items for each course or group display when selected in the calendar view [1].

By default, the first 10 course and group calendars will be selected and appear in the calendar view. To hide a calendar, click the box next to the name of the calendar [2]. Calendars that are not active within the calendar view display as faded text [3].

**Note:** Canvas will assign an arbitrary color for each calendar unless a custom color is chosen. Each calendar contains 15 default colors, but you can insert a Hex code to create any color of your choice. Colors set in Dashboard course cards also update in the calendar.
View Undated Events List

Expanding the Undated items link will show you a list of events and assignments that are not dated. The assignments and events will be differentiated by icons and by the personal, course, or group calendar color.
View Calendar by Month

In the Month view, click the arrow buttons [1] to move from month to month. To view events for the current date, click the Today button [2].

To view a specific date, click the month link [3] and enter a date in the date field [4] or select a date from the calendar [5].
View Assignments and Events

Assignments are shown with an icon next to the assignment title. The icon reflects the assignment type: Discussion [1], Assignment [2], Quiz [3], or Events [4]. Non-graded items with a to-do date may display in the calendar for a course.

Each item on the calendar is color-coded to match the courses or calendars in the sidebar.

To view full details for an assignment or event, hover over the item [5].

Calendar assignments can also be crossed out [6], which is a simple way to keep track of assignments. Assignments are crossed out once the assignment has been submitted. However, assignments that have been awarded a grade but do not contain an actual submission will not be crossed out.

Your calendar view may show entire assignment and event titles as part of the calendar entry. This calendar view is only available in the Month view and can only be enabled by your institution. The wrapped assignment and event title view allows you to view the entire calendar item without having to hover over the title.
View Calendar by Week

To view the calendar by week, click the **Week** button. The Week view shows all calendar items by date and time. Note that some assignments may be due at 11:59 pm, which appear at the bottom of the calendar view.

View All-Day Events

All-day events appear at the top of the calendar week. These events do not include a specific event time.

Like in the Month view, if you want to extend an all-day event across multiple days, hover over the edge of the event until you see a black arrow. Drag your event across all required dates. In Week view, you can only drag your event to the end of the week that you are viewing.
To view all your calendar items in an agenda format, click the **Agenda** button.
Find Appointments

If your institution has enabled Scheduler appointment groups, you can sign up for an appointment in the Calendar sidebar.
How do I filter the Calendar view by course as a student?

By default, the Calendar displays your personal calendar and course calendars for each class in which you are enrolled. However, you can filter which calendars display, including group and course calendars as well as your personal calendar.

Open Calendar

In Global Navigation, click the Calendar link.
After clicking the Calendar link, you will see the Calendar for all your enrolled courses and groups.
Choose Courses to View

In order to filter your Calendar by courses or groups, click the color box next to the Calendar [1]. The calendar can show up to 10 courses and/or groups at a time. In this example, not all of the calendars are being shown.

Note: Canvas will assign an arbitrary color for each calendar unless a custom color is chosen. Each calendar contains 15 default colors, but you can create any color of your choice by selecting the More icon [2] and inserting a Hex code [3].
How do I view the Calendar iCal feed to subscribe to an external calendar as a student?

The Calendar iCal feed is located in the sidebar of your Calendar. You can import the iCal feed into any calendar app that accepts the iCal format, such as Google Calendar, Apple Calendar, Outlook, and Yahoo Calendar. You can also download the calendar feed as an ICS file. The calendar feed will contain events and assignments from all of your Canvas calendars.

Notes:

- Future events up to 366 days in the future, and past events within 30 days, are included when exporting a Canvas calendar to another calendar program. The calendar feed includes up to 1,000 items.
- To Do items are not included in the Calendar iCal feed.

Open Calendar

In Global Navigation, click the Calendar link.
Open Calendar Feed

Click the Calendar Feed link.

Copy Calendar Feed

Copy the link below and paste it into any calendar app that supports iCal feeds (Google Calendar, iCal, Outlook, etc.)

1. https://documentation.beta.instructure.com/feeds/calendar

To copy the link, copy the link in the text field [1].
To download the feed as an ICS file, click the **click here to view the feed** link [2].
How do I add an event to my calendar as a student?

You can add a personal reminder to your own Calendar for an upcoming event.

Open Calendar

In Global Navigation, click the Calendar link.
Add Event

Click any date on the calendar to add an event [1]. Or, click the arrows next to the month name to navigate to a different month [2] and select a date.

If you don't want to manually locate the date, you can click the Add icon [3].
Add Event Details

Enter a title for the event [1].

Depending on how you added your event, the date may be populated for you. If not, enter a date in the date field [2].

The calendar times may also be populated for you in the From fields [3]. Edit or enter the start and end time for your event. To create an all-day event, leave the From fields blank so there is no start and end time for your event.

If a location is required, enter a location for the event [4].

Submit Event
To add additional details to your event, click the **More Options** button [1]. You can use the Rich Content Editor to add a description or resource links, add an address location, and duplicate the event.

Otherwise, click the **Submit** button [2].
How do I add a to-do item in the Calendar as a student?

You can add a to-do item to your Calendar.

You can also create to do items from the Dashboard List View.

Notes:

• To Do items are not included in the Calendar iCal feed.
• Your personal calendar must be selected before you can add a to-do item in the Calendar.

Open Calendar

In Global Navigation, click the Calendar link.
Add Event

Click any date on the calendar to add an event [1]. Or, click the arrows next to the month name to navigate to a different month [2] and select a date.

If you don't want to manually locate the date, you can click the Add icon [3].
**Add To Do Details**

Click the **ToDo** tab [1].

In the **Title** field [2], enter a title for the To Do [2].

The Date field defaults to the current date [3]. To change the date when you want to complete the item, type the new date or select a date by selecting the Calendar icon.

If you want to set a specific time for the item, enter the time in the Time field [4]. If no time is entered, the Time field defaults to 11:59pm.

The To Do will associate with your personal calendar by default if your calendar is selected in the sidebar. You can also associate a To Do with a specific course. To select a course calendar for your To-Do item, click the Calendar drop-down menu [5].

In the Details field [6], any other details about your to-do item.
Submit To Do

Click the Submit button.

View To Do

View your to-do item in the calendar.
Manage To Do

To edit or delete a to-do item, click the name of the item [1] and click the Edit button [2] or Delete button [3].
How do I add and duplicate an event in the Calendar as a student?

When creating a new event, if you want to create the same event multiple times for yourself or for a group, you can create a duplicate event. Duplicating events creates multiple copies of the event every day, week, or month. For example, you may create a duplicate group event for a weekly study group. This may help keep you organized and prepared for your course.

Once created in a calendar, duplicate events are not linked together and are independent events. Therefore, if you need to modify an event, each event has to be modified individually. Additionally, duplicate events can only be created when creating a new event; editing an existing event does not display the duplicate option.

Tips for duplicate events:

- Weekly events are duplicated on the day of the week of the first event. For instance, if an event is created on a Monday and repeats weekly, the next instance of the event will appear on the following Monday, regardless of the actual date.
- Monthly events are duplicated on the day of the month of the first event. For instance, if an event is created on July 6 and repeats monthly, the next instance of the event will appear on August 6.
In Global Navigation, click the **Calendar** link.

**Add Event**

Click any date on the calendar to add an event [1]. Or, click the arrows next to the month name to navigate to a different month [2] and select a date.

If you don't want to manually locate the date, you can click the **Add** icon [3].
View More Options

Enter the details as you would when creating a personal reminder [1]. In the Calendar drop-down menu [2], select your calendar or the group calendar for the event. Click the More Options button [3].
Duplicate Event

Click the **Duplicate** checkbox.

**Note:** If you cannot see the checkbox, you selected the wrong calendar when creating the new event.
Add Duplicate Details

By default, events are set to repeat every week [1].

If you want to change the repeating event to daily or monthly, click the **Week(s)** drop-down menu and select your preferred time range. You may also have to change the number that precedes the time period.

By default, events are set to create one occurrence [2], meaning it will create the initial event plus one additional (two total events). If you want to change the number of additional occurrences, enter the number in the text field. The calendar event supports up to 200 additional occurrences.

If you want to automatically add a number to the end of each event title (such as Event 1, Event 2, etc.), click the **Count** checkbox [3].

Create Event

Click the **Create Event** button.
View the events in your calendar.

Remember, once created, duplicate events are not linked together and are independent events. Therefore, if you need to modify an event, each event has to be edited individually.
How do I view a group calendar?

If you have been added to a group, you can view the group calendar.

Open Groups

In Global Navigation, click the Groups link [1], then click the name of the group [2].
View Calendar

In the Group sidebar, click the View Calendar link.

Only your group calendar will be visible in the list of Canvas calendars. Feel free to add any events or reminders to your group calendar.
How do I subscribe to the Calendar feed using Outlook as a student?

You can subscribe to the Calendar Feed using Outlook on your desktop. The calendar feed will contain events and assignments from all of your Canvas calendars. Once you have subscribed to the calendar feed, you can remove the calendar feed at any time in Outlook by opening the Tools menu, clicking Account Settings, and selecting the Internet Calendars tab.

If you are using an earlier version of Outlook, these steps may differ.

You can also subscribe to the Canvas Calendar Feed using Outlook.com.

Notes:

- Future events up to 366 days in the future, and past events within 30 days, are included when exporting a Canvas calendar to Outlook. The calendar feed includes up to 1,000 items.
- Outlook periodically updates but may take up to 24 hours to sync with the Canvas Calendar. Canvas update may not be immediately visible in Outlook.
- If your institution/organization uses a Microsoft Exchange Server account, you can also subscribe to the calendar feed using the Outlook Web App in Exchange Server. This allows you to access your Outlook calendar online if you are away from your desktop. Please contact your IT administrator at your organization/institution for more information.
- For scheduler items, appointments must be viewed in the Canvas calendar for full appointment details.
- To Do items are not included in the Calendar iCal feed.

Chat
How do I use Chat as a student?

The Chat tool can be used for real-time conversation with course users. Any user in the course can participate in a chat conversation. All content in a course chat can be viewed by anyone in the course. Currently there is no load limit for a course chat, but larger numbers of course users may affect performance.

A user must be actively viewing the chat tool to appear in the chat list. You can open Chat in a new browser window while viewing other areas in Canvas.

Note:

- If you cannot view the Chat tool, Chat has not been enabled for your institution.
- You cannot delete chat messages.
- Safari 13.1 contains an update that may cause issues with chat alerts. You can avoid errors with files and images by disabling cross-site tracking prevention in Safari when using Canvas.

Open Chat

In Course Navigation, click the Chat link.
View Chat

When you open the Chat page, you immediately join the chat. Chat discussion appears in the content window [1].

To receive alerts for new chat messages, click the **New message alerts** button [2]. If this option is turned on, you will receive alerts if Chat is open in Canvas but your browser window is minimized or you are viewing another browser tab. Alerts will not send if you leave Chat to view another area in Canvas.

Message history each course is included in the chat. Chat history can be accessed indefinitely by loading more results and scrolling through previous course chats.
**View Online Users**

Chat displays the number of users who are in the chat [1]. To view a list of these users [2], hover your cursor over the number.

**View Time Stamp**

When a user sends multiple chat messages without another user sending a message, all messages will appear under the first message's time stamp. To view additional time stamps, hover your cursor over the message.

**Send Message**

What should we study for the test next week?
To send a chat message, enter your message in the chat window [1]. To add an emoji to your message, click the Emoji icon [2]. Then click the Send button [3].
How do I use inline chat as a student?

If configured for your institution, inline chat allows you to communicate with other users in a course from areas other than the Chat page.

When inline chat is enabled, any user viewing the course will appear as online on the Chat page. Currently there is no load limit for a course chat, but larger numbers of course users may affect performance.

You can also chat with course users from the Chat page.

Notes:

- If you cannot view inline chat, it has not been enabled for your institution.
- Chat alerts are not available for inline chat.

Open Course

In Global Navigation, click the Courses link [1] and click the name of your course [2].
Open Chat

View inline chat in your course [1]. To open your chat, click the Expand icon [2]. Chat must be reopened whenever you navigate to a new page within your course.

Collaborations
How do I view Collaborations as a student?

If you've been invited to join a collaboration, you can access the collaboration from Canvas. Collaboration files can also be viewed your online account for the collaboration type (OneDrive or Google Drive, respectively).

If your institution grants permission, you can create collaborations in the course. Your instructor can always view any collaboration you create, though other students can only view collaborations that have been shared with them. If your instructor has added you to a course group, you can always create collaborations within a group.

You can choose to receive notifications about collaborations in your Canvas notification settings.

**Note:** Depending on your institution's preference, your Collaborations page may not match the images shown in this lesson. However, functionality of the page remains the same.

Open Collaborations

In Course Navigation, click the **Collaborations** link.
View Collaborations

The Collaborations page displays all collaborations where you have been invited to participate. For each collaboration, you can view the name of the collaboration [1], the description [2], the person who created the collaboration [3], and the date and time the collaboration was created [4].

Add Collaboration

If you have permission, your institution may allow you to create collaborations in your course.

To create a new collaboration, click the Start a new collaboration button.
Depending on your institution's preference, you may be able to create a Google Drive collaboration or create a Microsoft Office 365 collaboration.

If your collaborations page does not match the image shown in this lesson, you can still create a Google Docs collaboration.

How do I create a Google Docs collaboration as a student?

You can start a new collaboration using Google Docs in Canvas. Google Docs allows you to add up to 50 users per collaboration, and all users can view and edit a document at the same time. However, a Google file may be shared with up to 200 email addresses including viewers, commenters, and editors.

Google Docs collaborations are separate from Google Drive collaborations. If your collaboration options include Google Spreadsheets and Presentations in addition to Documents, your course has enabled Google Drive collaborations.

Notes:

• This lesson is for creating a collaboration in a course; when collaborations are created in a group, only group members and users with instructor-based roles (including TAs) can be selected as collaborators. However, your instructor can always view your collaboration.
• Creating a collaboration is a course permission. If you cannot create a collaboration in a course, your institution has restricted this feature.
• When creating a collaboration you cannot link to a previously created collaboration.
• Each collaborator will need a Google account and will need to connect Google Drive as a registered service in Canvas.
• Google Apps for Education (integration with your school) works with Google Docs in Canvas. Please note, if your school email does not allow access to Google Docs, you will need to use a regular Google account (i.e. example@gmail.com).
• Email notifications for collaborations relate directly to the account used to connect to Google Drive.

Authorize Google

Google Docs is a great place to collaborate on a group project. It’s like Microsoft Word, but lets you work together with others on the same file at the same time without having to email it around.

**Warning:** you (and all your collaborators) will need a Google account in order to participate in any Google Docs collaborations.

Before you can collaborate on documents, you need to authorize Canvas to access your Google Drive account:

- **Authorize Google Drive Access**
- **Cancel**

If you have not previously authorized Google Drive access in Canvas, you may be prompted to authorize access. Click the **Authorize Google Drive Access** button to log in to Google.

How do I delete a collaboration as a student?

If you are the creator of a collaboration, you can delete the collaboration from Canvas. Deleting the collaboration only removes access to the collaboration in Canvas. Users can still view the collaboration in their online account for the collaboration type (OneDrive or Google Drive, respectively).

Once a term ends or a course is concluded, the collaboration document will still be available from Canvas and the collaboration's source drive. If the document settings remain unchanged, users can still access the collaboration file, but any updates are not reflected in course notifications.

If you want to retain the collaboration document as part of the course or for your records, you may consider changing the sharing settings so the document is only available for viewing (and possibly disabling options to download, print, and copy). You can also change the sharing settings so that the document is no longer available to any users.

**Google Drive and OneDrive**

When deleting a Google Drive or OneDrive collaboration, the collaboration is immediately removed from the course. However, users can still access the file in their online account for the collaboration type.

**Google Doc**

If you are deleting a Google Doc, you can choose to delete the collaboration only from the course, or you can delete it from the course as well as Google Docs. However, deleting the document from Google Docs immediately deletes the collaboration and cannot be recovered.

**Note:** Depending on your institution's preference, your Collaborations page may not match the images shown in this lesson. However, functionality of the page remains the same.

If you want to remove the document from Google Docs as well, click the Also Delete From Google Docs button [2].

Note: The Also Delete From Google Docs option immediately deletes the document from Google Docs, and the document cannot be recovered. If you want to retain the document for your records, open the Google Doc and change the sharing and owner settings, or create a copy of the document before deleting.
How do I use Conferences in a course as a student?

The Conferences page allows you to view all the conferences within a course. As a student, you can join conferences where you have been invited to participate.

In student groups, you can create new conferences, start conferences, and manage concluded conferences.

**Note:** Creating a conference is a course permission. If you cannot create a conference, your institution has restricted this feature.

Open Conferences

In Course Navigation, click the link for your web conferencing tool. The link name reflects the conferencing tool used by your institution.
View Conferences

You can view conferences where you have been invited to participate.

Conferences are grouped in two parts: New Conferences [1] and Concluded Conferences [2]. Both always display the conference name [3] and description [4].

**View Recorded Conference**

When your conference has concluded, click the name of the recorded conference [1]. To replay the conference, click the recording format link [2]. The recording format displays as either a presentation or a video.

The recording format link does not appear until the conference has been rendered for playback. The rendering process may take some time to complete. The length of the conference is indicated in hours:minutes (e.g. 0:18 is 18 minutes).

If your conference included closed captioning, the playback bar for the video displays a CC button to view the available captions.

**Note:** For all basic Conference accounts, recordings are automatically deleted 7 days after the conference ends.

**View Statistics and Notes**

If you created a conference in a group, you may be able to view statistics and notes for your conference.
If your institution has upgraded to the Canvas Conferences premium tier, you can view conference statistics by clicking the Statistics link [1].

If your conference included shared notes, you can view the notes by clicking the Notes link [2]. The shared notes will display in a new browser tab, where they can be viewed and copied.

Note: Notes are only available for recorded conferences.
How do I create a conference in a student group?

You can create a conference in your student group. Conferences can be created with as many users as needed, though the recommended guideline is a limit of 100 users.

You can create multiple conferences, which are listed in chronological order by the date they were created. The most recently created conference will appear at the top of the list.

Notes:

- Creating a conference is a course permission. If you cannot create a conference, your institution has restricted this feature.
- Users invited to a conference will not receive a notification in Canvas. However, depending on the user’s notification settings, they may receive a notification via their preferred notification method(s). To notify group users of a conference in Canvas, consider adding a group announcement or calendar event.

Note: If your institution is likely to need more than 10 concurrent Conferences powered by BigBlueButton, consider upgrading to Premium BigBlueButton or exploring alternative conferencing solutions Canvas partners with, such as Zoom, Hangouts, Teams, and other video conferencing tools who are offering free or discounted services.
Open Conferences

In Group Navigation, click the link for your web conferencing tool. The link name reflects the conferencing tool used by your institution.

Add Conference

Click the Add Conference button.
Add Conference Details

To create a new conference, type a name for the conference in the name field [1].

If you want to set a time limit on how long invited members are able to join the conference, enter the number of minutes in the duration field [2]. The time limit will begin when the presenter starts the conference. Once the duration has expired, new participants will be unable to join and the conference will continue until the last person leaves the conference room or the conference organizer concludes the conference.

If you want to enable recording options for this conference, select the Enable recording for this conference checkbox [3].

If you don't want to set a time limit for the conference, you can create a long-running conference by selecting the No time limit (for long-running conferences) checkbox [4].

To create a description of your conference, type a description in the description field [5].
Invite Course Members

You can add any user in your group to your conference. However, once a user has been invited, the user cannot be removed from the conference.

By default, all members in the group will be invited to the conference [1].

To remove all group observer members from the conference invitation, select the Remove All Group Observer Members checkbox [2]. When this checkbox is selected all course members except observers are invited to the conference.

Notes:

- Conferences can accommodate as many users as needed, though the recommended guideline is a limit of 100 users. If your group contains more than 50 people, you will have to invite group members individually.
- If the Remove All Group Observer Members checkbox does not display, observers are unable to access groups in the course.

Invite Individual Members

Delete Conference

Click the settings icon [1] and click the **Delete** link [2].

Confirm Deletion

Click the **OK** button.
How do I edit a conference in a student group?

You can edit conferences within your student groups. Conferences can be edited by any group member. You can add new users to the conference, but you cannot remove any users who have already been invited.

Notes:

- When a conference has been recorded and the conference is concluded, you cannot edit the conference recording.
- New users invited to a conference will not receive a notification in Canvas. However, depending on the user's notification settings, they may receive a notification via their preferred notification method(s). To notify group users of a conference in Canvas, consider adding a group announcement or calendar event.

How do I record a conference in a student group?

As part of creating or editing a conference, you can choose to set up your conference to be recorded. Once this setting is enabled, you can start and stop the recording as necessary in the Conferences interface.

After the conference has concluded, you can view recorded segments in the group Conferences page. If you recorded multiple segments in your conference, each segment will be a separate recording.

Recording Restrictions

• When creating your conference, you must select the record option to record the conference.
• Canvas' standard recording feature will store your recordings in Conferences for 14 days and then remove them automatically.
• Recorded conferences cannot be downloaded.
• Recorded conferences can only be viewed inside the group where the conference was recorded; URLs cannot be shared outside Canvas.

Note: Creating a conference is a course permission. If you cannot create a conference, your institution has restricted this feature.
In Group Navigation, click the link for your web conferencing tool. The link name reflects the conferencing tool used by your institution.

**Add Conference**

Click the **Add Conference** button.

While completing the details for the conference, click the **Enable recording for this conference** checkbox.
Update Conference

Click the **Update** button.

Once you [start your conference](#), you can start and stop the recording as necessary in the Conferences interface.
How do I start a conference in a student group?

You can start conferences that you have created for your group.

Open Conferences

In Group Navigation, click the link for your web conferencing tool. The link name reflects the conferencing tool used by your institution.

Start Conference

Next to the conference you want to start, click the Start button.

Canvas will direct you to the conference room for your conference.
How do I join a conference in a course as a student?

You can join a conference that has already been started by the conference host.

To use your microphone, you must give Conferences access to your microphone settings. As part of joining the conference, you must verify these settings in your browser.

Note: It is recommended that users use Chrome or Firefox browsers to access the Conferences interface.

Open Conferences

In Course Navigation, click the link for your web conferencing tool. The link name reflects the conferencing tool used by your institution.
Join Conference

Next to the conference you want to join, click the **Join** button.

**Note:** You cannot join a conference until the conference host has started the conference.

Join Audio

To use your microphone during the conference, click the **Microphone** icon [1]. To join the conference without enabling a microphone, click the **Listen only** icon [2]. You will be able to change your audio preference once you’ve joined the conference.
View Chrome Microphone Permissions

To enable a microphone in a Chrome browser, click the Allow button.

View Firefox Microphone Permissions
To enable a microphone in a Firefox browser, select your microphone in the **Microphone to share** menu [1]. Then click the **Allow** button [2].

**Audio Test**

This is a private echo test. Speak a few words. Did you hear audio?

1. Yes
2. No

To ensure your audio is working correctly, complete the private audio echo test. Speak a few words and if you hear audio, click the **Yes** icon [1]. To choose a different microphone and repeat the audio test, click the **No** icon [2].

**Note:** It is recommended that you use a headset with a microphone for best audio experience.

How do I use the Conferences interface as a participant?

Once you have joined a conference as a participant, the Conferences interface contains multiple tools to help you participate in the conference. Any student who joins a conference that was started by someone else will be considered a participant.

You may also start a conference or be given the role of presenter or moderator. Learn more about using the Conferences interface as a moderator or presenter.

The Conferences interface is displayed using BigBlueButton's HTML5 conferencing system. This guide provides a basic overview of the Conferences interface. To learn more about specific features, view BigBlueButton's HTML5 user documentation.

It is recommended to use Chrome or Firefox browsers to access the Conferences interface. Screen sharing is not supported on Safari browsers.

View Conferences Interface

![Image of the Conferences interface showing the BigBlueButton welcome screen and interface tools.](image-url)
The Conferences interface contains a variety of tools to help you moderate and participate in your presentation. The interface consists of the following areas:

- User Menu [1]
- Presentation Window [2]
- Conference Tools [3]
- Options Menu [4]

**View User Menu**

From the User Menu, you can view all the users in the conference [1]. Each user is represented by their display name in Canvas.

You can also chat with conference participants and contribute to shared notes. To open the conference chat, click the Public Chat link [2]. To open the Shared Notes, click the Shared Notes link [3].

The User Menu is open by default. To close the User Menu, click the User Menu icon [4].
View Presentation Window

The Presentation Window displays the presentation that has been uploaded by the moderator or presenter [1]. If the conference is being recorded, the recording time will display at the top of the screen [2].

The Presentation Window also includes several tools that control how you can participate in the conference. To mute or unmute your microphone, click the **Microphone** button [3]. To leave or join the conference audio, click the **Audio** button [4].

To enable your webcam, click the **Webcam** button [5]. If webcams are enabled, you can hide the presentation window and display only webcams by clicking the **Hide** icon [6].
If the moderator allows, participants can use tools to annotate the presentation window. To use a pencil to draw in the presentation window, click the **Pencil** icon [1].

To view all annotation tools, click and hold the Pencil icon. In addition to the pencil tool, you can also create text annotations [2], line annotations [3], or shape annotations [4].

To pan a document that has been zoomed in, click the **Pan** icon [5].

To adjust the thickness of an annotation, click the **Thickness** icon [6]. To adjust the color of the annotation, click the **Color** icon [7].

To undo the most recent annotation, click the **Undo** icon [8]. To delete all annotations that you have created, click the **Delete** icon [9].

**Note:** If you cannot view the annotation tools, they are not enabled for participants in your conference.
Open Options Menu

To open the Options menu, click the Options icon [1].

To view the conference in fullscreen mode, click the Make fullscreen option [2].

To view information about the interface, click the About option [3]. To view help tutorials, click the Help option [4]. To view hotkeys, click the Hotkeys option [5].

To logout of the conference, click the Logout option [6].

View Settings Menu
To open the Settings menu, click the Settings link.

Manage Application Settings

To manage applications settings, click the Application link [1].

To enable or disable animations that display when a user is speaking, click the Animations button [2].

To enable or disable chat alerts, click the Audio Alerts for Chat or Popup Alerts for Chat buttons [3].

To select a language for the interface, click the Application Language drop-down menu [4] and select the language. To adjust the font size, click the Decrease or Increase buttons [5].

Note: Chat alerts only function within the same browser in which the Conferences interface is open.
Manage Data Savings Settings

To manage data saving settings, click the Data savings link [1].

To enable or disable webcams, click the Enable webcams button [2]. To enable or disable desktop sharing, click the Enable desktop sharing button [3].
Course Navigation
How do I use the Course Home Page as a student?

If you are enrolled in a course as a student, the Course Home Page helps you navigate your course and manage your coursework. The Course Navigation Menu is always visible on its respective pages.

Note: Your instructor may choose to display a different font for your course.

Open Course

In Global Navigation, click the Courses link [1], then click the name of the course [2].
The Course Home Page involves Course Navigation [1], the content area [2], and the sidebar [3].
View Course Navigation

The Course Home Page is viewed from the Course Navigation Home link [1].

Course Navigation includes links that help you and your students get to specific locations in the course. Instructors can customize what links are shown in a course, so if you don't see links that may display in other courses, your instructor has hidden those links from your view.

The active link of the page you are viewing is highlighted with different color text and a line indicator. This highlight helps you quickly identify the feature area you are currently viewing in Canvas.

You may also see course indicators [2] that show updates to your course grades when your instructor grades your assignments.
Collapse Course Navigation Menu

To expand or collapse the Course Navigation Menu, click the **Menu** icon.
View Content Area

Home Page content (and all Canvas content) is displayed in the content area. The content can be a page, the syllabus, discussions, announcements, quizzes, or imported content [1]. The content can also show the Course Activity Stream, which is a list of all recent activity in the course. Your Home Page may also display recent announcements at the top of the page [2].

The Home Page content also defines what sections display in the sidebar.
View Breadcrumbs

- HIST101
- HIST101 › Assignments
- HIST101 › Assignments › Position Paper

Breadcrumbs appear above the course content area.

As you view course content, the breadcrumbs leave a trail to show where you are inside the course. You can follow these links backward to visit prior course content.

**Note:** If you have created a nickname for a course, the breadcrumbs display the nickname to identify the course. Otherwise, the breadcrumbs display the course code.
View Sidebar

The sidebar functions the same as the [Dashboard sidebar](#) but only shows content for the specific course and includes additional options.

If your Course Home Page displays a page other than the Course Activity Stream, you can view the course activity stream by clicking the sidebar [View Course Stream](#) button [1]. When the Home Page is set as the Course Activity Stream, this button will not appear.

If you have been added to a group in your course, the [Course Group](#) section [2] includes links to your course groups.
The sidebar always shows the To Do section, which shows all recent announcements and up to seven assignments that are due in the upcoming weeks, including ungraded quizzes and assignments that do not require a submission. Each item in the To Do list displays the assignment name, the number of points, and the due date for the assignment. Once the due date has passed, items remain in this section for four weeks.

The sidebar can also include a variety of other sections, depending on the layout your instructor sets for the Course Home Page. Additional sidebar options include the Assignment list, Calendar and Assignment Groups, and Recent Feedback.
Manage Sidebar Items

Each section item displays an icon [1] to differentiate between assignments and peer review assignments. If a section contains more items than are listed, a link will appear under the list that you can use to view additional items [2].

The To Do section shows up to seven items with due dates in the upcoming weeks. To view more items, you must manually remove items from the list. To remove a To Do item, click the remove icon [3].

Note: Assignments submitted through Canvas disappear automatically from the To Do list; no-submission assignments (submitted on paper/in class) can only be removed from the list manually.
How do I use the Course Activity Stream as a student?

The Course Activity Stream shows you important recent activities from a single course including announcements, discussions, assignments, and conversations. This stream is similar to the Global Activity Stream in the Dashboard when you first log in to Canvas.

The following activities will cause notifications to appear in the Course Activity Stream:

- New Announcements
- Replies to Announcements
- New Discussions
- New Discussion Posts
- New Assignments
- Assignments, Quizzes, or Discussions Changed from Ungraded to Graded
- Due Date Changes to Assignments, Quizzes, and Discussions
- New Graded Assignments
- New Peer Review Assignments
- New Conversation Messages

Notes:

- Notifications in the Course Activity Stream will not appear for activity in Files, Collaborations, Grades, Pages, or Conferences; ungraded quizzes and surveys; or edits to Discussions.
- Edits to Quizzes and Assignments will only appear in the Course Activity Stream when the **Notify users that this content has changed** button has been selected.
- If your Course Home Page is already set to view the course stream, the View Course Stream link does not appear in the course sidebar.
In Global Navigation, click the Courses link [1], then click the name of the course [2].
Open Course Activity

In the Home Page sidebar, click the View Course Stream button.

Note: If your Course Home Page is already set to view the course stream, the View Course Stream link does not appear in the course sidebar.

The Course Activity Stream contains recent notifications in the course, including announcements, discussions, assignments, and conversations. This activity stream helps you see all recent activity in your course and easily ask questions and post to discussion forums. Unlike course cards on the Dashboard, the activity stream does not mimic visibility of Course Navigation links.

You can manage recent activity in a course the same way you can on the Dashboard. Activities are indicated by activity type and display an icon [1] for the activity. New activity in your account is indicated by a blue dot [2]. Discussions and Announcements indicate new activity items published in a course, and Conversations indicate a new message received from a user in a course. Recent Activity items remain for four weeks.

**Note:** To receive notifications for Discussions, you must actively post in the discussions at least once every two weeks. If you stop participating in a discussion after two weeks, Canvas will no longer display discussion notifications.

How do I drop a self-enrolled Canvas course?

If you decide you want to drop a course you self-enrolled in using Canvas, follow these steps.

**Note:** You can only drop a self-enrolled Canvas course while it is in progress (between the course participation dates). Also, if you did not enroll in the course using the given URL or join code, meaning you were manually or automatically added to the course, you will have to ask your teacher or institution to be removed from the course.

Welcome to HIS101, American History!

This course is a short 5 week review course that covers US History from 1775 to 1791, including the Declaration of Independence, Revolution, Articles of Confederation and the Constitution, and the Bill of Rights. My name is Arend Jurel and I will be your instructor for this course.

The table below contains all the due dates for the course. Throughout the course, you will be engaged in peer interactions on discussion boards and peer reviews, collaborative work in teams, groups, and circles, watching videos, writing, and completing quizzes. The variety of activities should provide you with a wide range of opportunities for learning.

Use the discussion on course questions if you need explanation of any of the course assignments or activities.

A note on working with others... in this course, you will see that you may sign up to work with a team, a group, and a circle to edit three different wiki pages. These working organizations will allow you opportunities to work with a variety of people, and will help differentiate between the wiki page assignments. You are expected to work collaboratively within these structures. You may choose your own team, group or circle as the class starts the module in which they are assigned. The wiki page edits are due at the same time as the quiz for the module.

Click the Modules button on the left menu of the Home button to get started. Good luck on the course!

Mr. Jurel

The Syllabus sidebar includes a mini calendar [1]. Any date that includes an event or assignment due date are shown with a gray background. To view an associated assignment or event in the Syllabus table, click the calendar date.

If your course includes weighted assignment groups, the sidebar may also shows the percentages of each group [2].

**Note:** If you cannot view assignment group totals, your instructor has restricted this feature.
How do I view New Analytics in a course as a student?

As a student, you can view New Analytics in a course. Available analytics include course grade, weekly online activity, and communication. By default, the analytics page displays an interactive chart graph of all data. However, you can view data within a table at any time.

Notes:

- If you cannot view an option to access New Analytics, your institution may not have enabled this feature.
- Data is refreshed in New Analytics every 24 hours. Please confirm the time data was last updated in the course, as content may be outdated compared to recent activity and submissions.

Open Course

In Global Navigation, click the Courses link [1], then click the name of the course [2].
Open New Analytics

To open New Analytics, click the New Analytics link in Course Navigation [1] or the New Analytics button in the Course Home page [2].

Note: If you cannot view an option to access New Analytics, your instructor may not have enabled this feature.
By default, student analytics opens to the **Course Grade** tab [1]. The **Course Grade** graph shows your submission status and grade for all the assignments in the course. Your current course grade is shown above the chart graph [2].

The x-axis displays an icon to indicate if the activity is an assignment, quiz, or discussion. The y-axis indicates the grade percentage.

To download a CSV of your course grade data, click the **Download** button [5].
View Assignment Details

To view more details about an assignment, click the dot [1].

Each assignment will display the title [2], due date [3], grade [4], and status label [5]. The status label may display as on time, missing, late, or excused.
To view course grade data in a table, click the **Options** icon [1] and select the **Data Table** option [2]. The data table shows the assignment name [3], due date [4], status [5], and grade [6]. The table can be sorted by clicking any column heading.
View Weekly Online Activity Graph

To view your weekly online activity, click the Weekly Online Activity tab [1]. Your total page views and total participations are displayed above the chart [2].

Data is displayed as a chart with two rows: average page views [3] and average participations [4]. The following actions will generate participations:

- Announcements: posts a new comment to an announcement
- Assignments: submits an assignment
- Collaborations: loads a collaboration to view/edit a document
- Conferences: joins a web conference
- Discussions: posts a new comment to a discussion
- Pages: creates a page
- Quizzes: submits a quiz
- Quizzes: starts taking a quiz

Data for the week that is currently in progress is indicated by a dotted line [5].

To download a CSV of the weekly online activity data, click the Download button [6].
To view weekly online activity in a table, click the **Options** icon [1] and select the **Data Table** option [2]. The data table shows the week start date [3], number of page views [4], and number of participations [5]. The table can be sorted by clicking any column heading.

To view weekly online activity in a table, click the **Options** icon [1] and select the **Data Table** option [2]. The data table shows the week start date [3], number of page views [4], and number of participations [5]. The table can be sorted by clicking any column heading.
View Communication Graph

To view an overview of messages, click the **Communication** tab [1]. The Communication graph shows the number of conversations that have taken place between you and your instructor(s) in the Canvas Inbox. The total number of messages sent by you and your instructors is displayed above the graph [2].

The x-axis shows the date range and the y-axis shows the number of messages sent. Student and instructor messages are differentiated by different colors. To improve contrast in the chart, click the **Chart Options** icon [3] and select the **Display Shapes** option [4].

To view the details of the bar graph, hover over the specific bar you want to view. You can view the total number of messages sent for the date range. Click the bar to view the specific days and number of messages that were sent in the range.

How do I use the Microsoft Immersive Reader in a course as a student?

The Microsoft Immersive Reader enhances your reading experience by improving accessibility and boosting reading comprehension. You can use the Microsoft Immersive Reader when viewing the Course Home Page or Syllabus or when viewing an individual assignment or page. For more information about the reader, visit the Microsoft Immersive Reader website.

Note: In User Settings, Microsoft Immersive Reader is available for users to enable individually, regardless of the preference set at the account level. However, if the feature is on for the entire account, the account preference overrides the user preference, and the user setting has no effect.

Open Immersive Reader

When viewing pages, assignments, course home pages, and the syllabus in a course, click the Immersive Reader button.
View Immersive Reader

The Microsoft Immersive Reader displays a variety of tools and options to enhance your reading experience.

You can manage text, grammar, and reading preferences using the toolbar [1]. To expand the reader display, click the Full Screen button [2].

To hear the page text read aloud, click the Play button [3]. To adjust audio settings, click the Voice Settings button [4].

To close the reader and return to Canvas, click the Exit button [5].

Note: For more details about the Microsoft Immersive Reader functionality, visit the Microsoft Immersive Reader website.
Discussions
How do I view Discussions as a student?

The Discussion Index page allows you to view all the discussions within a course.

Notes:

• Your instructor may choose to hide the Discussions link in Course Navigation. If the Discussions link is not available, you can still access Discussions through other areas of Canvas.
• If your discussion looks different than what is displayed in this lesson, you can reference the Discussions Redesign guides for more information.

Open Discussions

In Course Navigation, click the Discussions link.

Note: If the Discussions link is not available in Course Navigation, you can access course discussions through the Modules page.
View Discussions

Discussions are organized into three main areas.

**Discussions [1]:** These are current discussions within the course. Discussions are ordered by most recent activity. You will only see this section heading if there are discussions within this section.

**Pinned Discussions [2]:** These are discussions that your instructor wants you to pay specific attention to and will appear at the top of the Discussions page. You will only see this section heading if there are discussions within this section as designated by your instructor.

**Closed for Comments [3]:** These discussions have been manually closed for comments, or the discussion is past the available from/until date. These are discussions that are only available in a read-only state and are ordered by most recent activity. You will always see this section heading, even if there are no discussions within this section.
View Individual Discussion

Each discussion displays whether or not it is a graded discussion [1], the name of the discussion [2], the date on which the last discussion reply was posted [3], the due date (if any) [4], the number of unread/total posts in the discussion [5], and whether or not you are subscribed to the discussion [6].

You can also view availability dates for individual discussions [7].

An unread icon next to a discussion indicates an unread discussion [8]. The number of unread/total posts will not appear for group discussions and discussions that have no discussion replies [9].

There will also be a peer review icon if a graded discussion has been assigned peer reviews [10].
The first dates you may see are the availability dates. Your instructor may use availability dates to restrict discussion replies to a specified date range. The availability dates are the range of time that the discussion is accessible to you. Availability dates also appear on the Assignments page for all discussions with assigned availability dates.

- If the discussion does not have a date listed, the discussion is open; you can reply to the discussion at any time during your course [1].
- If the discussion says **Not Available Until** [date], the discussion is locked until the specified date [2].
- If the discussion says **Available until** [date], you can reply to the discussion until the specified date [3].
- If the discussion is in the **Closed for Comments** section, the discussion cannot accept submissions [4]. Discussions in this section may show a “Was locked at [date]” to indicate when the discussion was closed for comments [5].

**Note:** If a date does not include a time, the listed date defaults to 12 am. Therefore, the last day for the discussion is the full day before the listed date. For instance, if a discussion is Available until March 29, you can access the discussion until March 28 at 11:59 pm.
View Due Dates

The second set of dates are the due dates for each respective discussion [1]. However, due dates only apply to graded discussions. Any replies to discussions after the due date are marked as late; some instructors may deduct points for late replies. You can still reply to late discussion before the Available until date.

Please be aware that the Due date may be before or on the Available date.

Due dates also include a time [2]. If your instructor does not set a specific due time, the graded discussion due time defaults to 11:59 pm and submissions will be late if submitted after 11:59:59 pm.

Filter Discussions

There are a few ways to filter Discussions:

1. View All or only unread discussions by selecting an option from the drop-down menu.
2. Search for a discussion by typing a discussion title, a user name, or a keyword in the Search field.
3. Start a new discussion by clicking the Add Discussion button. (Note: Some instructors may choose to disable this option.)
4. Change the discussions settings to manually mark posts as read by clicking the Settings icon.
Open Discussion

To view the details of a discussion, click the name of the discussion.

View Open Discussion

When a discussion is available for participation, you can view the Reply field beneath the discussion topic [1]. To reply to the discussion, click the Reply button.

The discussion also shows the discussion topic [2] and the name of the person who created the discussion [3].

Notes:
• If your discussion looks different than what is displayed in this lesson, you can reference the Discussions Redesign guides for more information.

• The Discussions page supports keyboard shortcuts. To view a window with a list of keyboard navigation shortcuts, press Alt+F8 (on a PC keyboard) or Option+Fn+F8 (on a Mac keyboard) simultaneously on your keyboard.

View Graded Discussion

If your discussion is a graded discussion, you can view the discussion the same way as regular discussions with additional information:

• Graded Discussion details [1]: points and due date for the graded discussion, if any. Not all graded discussions may have a due date.

• Rubric [2]: any grading criteria that your instructor has provided for the graded discussion. A graded discussion may or may not include a rubric. Before submitting your reply, you may want to review the discussion rubric.

If you were to miss the due date, you may be able to submit a reply to the discussion before the last day of the course. If the graded discussion does not have a due date, you can submit a reply any time before the last day of the course.

Articles of Confederation vs. Constitution Topic Discussion Copy

Based on the materials in this module, describe the key similarities and differences between the Articles of Confederation and the Constitution. In your description, be sure to include the weaknesses of the Articles of Confederation and discuss the need for the Constitution.

Your response should be at least 5 paragraphs and use correct spelling and grammar. You will not be able to see the responses of your classmates until you have submitted your post. Once you have submitted, read and respond to at least two peer posts. After the due date, you will be assigned to review two of your peers' posts.

Replies are only visible to those who have posted at least one reply.

If you are unable view responses from other students, you may be required to make a reply before you can view them. Once you reply to the discussion, any other replies will be visible.
View Group Discussion

If a discussion is a group discussion, you will be directed to Discussions in your group.

View Locked Discussion

When a discussion is locked, you can't view any details in the discussion topic. However, you can view the date when the discussion will be open.
Both graded- and non-graded discussions can be closed at any time. Your instructor may note in the description topic or syllabus if a discussion is only scheduled to be available for a specific period of time.

When a discussion has been closed for comments, you can still view the details of the discussion topic and any replies, but you can no longer reply to the discussion.

The discussion was either available until a specific date, or your instructor manually closed the topic.
How do I view the rubric for my graded discussion?

Your instructor may include a rubric as part of a graded discussion. The rubric is a set of criteria that your instructor will use to grade your discussion. Before submitting your discussion, you can use the rubric to evaluate your own work and make sure your discussion fulfills your instructor’s requirements.

Note: Not all graded discussions may include a rubric.

How do I know if I have a peer review discussion to complete?

Your instructor can assign you to review another student's discussion post. You can view peer review notifications in Canvas in the Recent Activity Stream, the To Do list, and from the individual discussion page. Once peer reviews are assigned, you can also be notified according to your Canvas notification settings.

Learn how to submit a [peer review discussion](#) or a [peer review discussion in Discussions Redesign](#).

View Dashboard

Once a peer review is assigned to you, a notification will appear in several dashboard areas.

View Recent Activity

On your Dashboard, you can view recent activity in your [Global Activity Stream](#). Recent activity will display a peer review and the name of the course. Click the Show More link to access the assignment and view the name of the peer review student.

If a peer review is anonymous, the name will show as Anonymous User.
View To Do List

On both the Dashboard and the Course Home Page sidebar, the To Do list shows the peer review discussion. Peer reviews are identified with the Peer Review icon. To review the discussion, click the **Peer Review for [Discussion Name]** link.

**Note:** Currently the Due Date in the To Do List does not accurately display the due date for completing your peer review. If details about your peer review are not already included in the details of your graded discussion, please contact your instructor.

How do I submit a peer review to a discussion?

Your instructor may require you to submit a peer review of another student's discussion reply. To complete the peer review, you must review the student's discussion reply and add a comment in the comment sidebar.

If your instructor includes a rubric, which is a pre-determined outline of how an assignment is graded, you must assign a grade using the rubric. However, your instructor may also ask you to leave a comment in the comment sidebar.

Discussion peer reviews cannot be anonymous.

How do I subscribe to a discussion as a student?

You can subscribe to entire discussion threads in your courses and be notified when new comments are posted to the topic. If you reply to a discussion, you will automatically be subscribed to discussions and will be notified of updates unless you manually unsubscribed to that discussion. Please note that you cannot subscribe to individual threads within a threaded discussion.

You will automatically be subscribed to discussions you create in your student groups. You will also be subscribed to any new discussions you create in your course, if your instructor has set course permissions that allow you to do so.

Discussion replies are shown in order of post date. In discussion replies, the unread icon indicates the reply is new and unread [1]. The read icon indicates a reply is read [2]. When you navigate away from the Discussion or refresh the page, Canvas automatically marks the replies as read. After Canvas has changed the reply status, you can manually mark discussion replies as read or unread at any time.

You can also change your Discussion Settings so you can manually mark discussion replies as read.
Threaded Discussions are discussions with replies within replies. In addition to post date, replies are shown in hierarchal order, with replies naturally indented to indicate when a student replies to another student’s reply.

When viewing threaded discussion replies, you can collapse and expand individual threaded discussions. Hover over the top of a discussion reply and click the up arrow to expand or collapse a threaded discussion reply [1]. When a threaded discussion reply is collapsed, you can view the reply indicators showing the number of unread and total replies [2].

How do I attach a file to a discussion reply as a student?

If your instructor allows file attachments, you can attach a file to a discussion reply using the attachment icon. Attachments can be added to both graded and non-graded discussions.

Any attachments added as part of discussions are copied to your user files. Attachments for graded discussions are not counted against your user quota and cannot be deleted.

Notes:
- If the attachment icon does not display, this option is not available in your course.
- If your attachment causes you to exceed your user file quota, the file may fail to attach to an ungraded discussion.
- If you have permission to edit or delete discussion replies, editing a reply also allows you to remove an attachment.

How do I subscribe to a discussion in Discussions Redesign as a student?

You can subscribe to entire discussion threads in your courses and be notified when new comments are posted to the topic. If you reply to a discussion, you will automatically be subscribed to discussions and will be notified of updates unless you manually unsubscribed to that discussion. Please note that you cannot subscribe to individual threads within a threaded discussion.

You will automatically be subscribed to discussions you create in your student groups. You will also be subscribed to any new discussions you create in your course, if your instructor has set course permissions that allow you to do so.

Notes:
- You must specify your notification settings to receive updates for subscribed discussions.
- You cannot subscribe to a discussion if you're required to reply before viewing other replies and have not replied to the discussion. You must reply first and then subscribe to the discussion.

How do I view and sort discussion replies in Discussions Redesign as a student?

Discussion replies are sorted by date in descending order (newest to oldest) by default. Sorting discussion replies applies to both the root replies and any threaded replies. Threaded replies are collapsable and expandable.

You can also search for discussion replies by author or entry keywords and filter discussion replies by all or unread.

Open Discussions

In Course Navigation, click the Discussions link.

In a discussion, you have several options to view and sort discussions. Use the search field [1] to search for replies or specific authors. To filter discussion replies by All or Unread replies, select an option from the View drop-down menu [2]. To sort discussions by date posted, click the Sort button [3]. Discussion replies are sorted newest to oldest by default.

You can view how many total replies and unread replies are in a thread [4]. The number on the left indicates total replies, while the number on the right indicates the number of unread replies.

To subscribe to a discussion, click the Subscribe icon [5]. Subscribing to a discussion allows you to follow the discussion and receive notifications as set in your notification settings. You are automatically subscribed to any discussions you reply to. When you create a discussion in a group—or in a course if you have permission—you are also automatically subscribed to the discussion. If your instructor allows you to like replies in a discussion, a Like icon appears next to each reply in the discussion [1]. A solid blue like icon indicates replies that you've liked [2]. The number of total likes also appears next to the icon [3].
To search for a discussion reply, enter any term in the **Search** field [1]. Search results include matches for user names [2] and reply text [3].

To clear search results and view all replies, remove your search term from the Search field.

Each discussion reply has its own options menu.

To mark the selected post as read or unread, click the **Mark as ...** option [1].

In original discussion replies, you can return to the main discussion topic by clicking the **Go To Topic** option [2].

If you are allowed to edit and delete your own discussion posts, you will also view **Edit** and **Delete** options [3].

In threaded discussions, if you are viewing a reply within a reply, return to the original reply by clicking the **Go To Parent** option [4].
To reply to a discussion, reply to the main discussion topic by clicking the **Reply** button [1]. If your discussion is threaded, you can reply to any other post in the discussion by clicking the **Reply** link [2].
How do I mark discussion replies as read or unread in Discussion Redesign as a student?

By default, as you read new Discussion posts, Canvas will mark them as read as you scroll down the page. However, you can manually mark each posts back to a read or unread state.

You can tell Canvas not to automatically mark all your posts as read in your Discussion settings.

Note: Once a post's state is manually changed, the post will not change states (become read or unread) until you manually change it again.

How do I use Files as a student?

As a student, Files allows you to store files and assignments within Canvas. You can upload one or multiple files, view all details about your files, and preview files. Files is built with responsive design to adjust for browser scaling. The folder navigation window, file displays, and even file names adjust to the width of the browser window.

View a video about files.

You may have access to files (documents, images, media, etc.) in three different feature areas:

- **User files**, located in your user account
- **Course files**, located in each course where you are enrolled (if your instructor allows you to view Course Files)
- **Group files**, located in each group where you are a member

View Files

The basic functionality within Files is the same within each files location, but some features may differ according to feature area.

The left panel [1] shows all folders for quick navigation. Some folders may be housed within other folders. To expand all folders, click the arrows next to the folder name.
When you click the name of a folder, all contents within the folder you are viewing display in the right panel [2]. You can also click folder names in the right panel to view folder content.

For each file, you can view the name of the file [1], the date the file was created [2], the date the file was modified [3] the name of the person who modified the file (if modified by another user) [4], and the size of the file [5].

You can also view the published status [6] for your user files.

Files are sorted alphabetically. To sort files, click the name of any column heading.

Manage Files

Depending on the file area, files may contain several options to manage files:

**Search for files** [1]. Files is fully searchable by file name.

**Add a folder** [2]. Add a new folder to Files to store files. Folders can also house other folders.

**Upload a file** [3]. Upload a file to Files.

Change the state of the file [4]. Files can be published, unpublished, or include a restricted status.
Manage Selected Files

To select a file, click the name of the file. You can also select multiple files at the same time by holding the command (Mac) or control (PC) key.

When a file is selected, Files displays the file toolbar at the top of the window. Depending on the files area, the toolbar may contain several options to manage the selected file(s):

- **Preview the file** [1]
- Restrict access to the file [2]
- **Download the file** [3] (when selecting more than one file, option appears to download as a zip file)
- **Move the file** [4]
- **Delete the file** [5]

You can also manage some or all options for a selected file within the file's **Options** menu [6].
View Usage Rights

Course Files and Group Files may display a column for usage rights. If enabled, the column displays the usage right (copyright) for the file [1]. Files that do not contain a usage right display as a warning icon [2].

To change the usage right for a file in Group Files, click on the usage right icon for that file [3].
How do I view my user files as a student?

User files include profile pictures, uploaded assignment submissions, and other files uploaded to your personal Canvas file storage area. By default, each user has 50 MB of storage space in Canvas. Administrators can change the quota for user files for the entire institution. No other users can view files in your user files.

Open Files

In Global Navigation, click the **Account** link [1], then click the **Files** link [2].
View User Files

All your user folders display in the left panel [1]. View files in the right panel by clicking the name of a folder.

You can view your user quota and what percentage of that quota has been used [2]. Files that have been submitted as assignments and graded discussions do not apply to the user quota.

Learn more about how to use files as a student.
View My Files

The My Files folder creates folders based on default events in Canvas. Once you upload a file related to one of these areas, the folder and accompanying file will be created for you.

- The **Conversation attachments** folder \[1\] stores files that you attach to Conversations messages.
- The **Data Exports** folder \[2\] contains ZIP files created when you download assignment submissions from all your courses.
- If your institution enables you to upload a profile picture, the **Profile pictures** folder \[3\] stores photos that you upload as a profile picture.
- The **Submissions** folder \[4\] contains copies of your assignment submissions; assignment are organized by course folder and displayed alphabetically. However, assignments submitted through an external tool are not copied to the Submissions folder.
- The **Unfiled** folder \[5\] stores files that you attach to discussion topics or discussion replies (if attachments are allowed by your instructor).

My Files also includes any additional folders you create to organize your files, as well as any files not uploaded to a specific folder. Any files in the My Files folder that are not related to assignment submissions count toward your user quota.

**Note:** For online assignment submissions, if you submit a file that you've previously uploaded, you can delete the previously uploaded file after it has been submitted and free up extra storage in your user files.
View Course and Group Files

If your instructors allow you to view the Files link in Course Navigation, course folders display below your user files [1]. Any course groups also display below the course folders [2].

You can easily move and organize files from your group files and user files. Unless you have permission to manage course files, course files can only be viewed and downloaded.

You can also view course files and group files directly from the course or group.
How do I view course files as a student?

Course files include any content uploaded to a course. If your instructor allows you to view the Files link in Course Navigation, you can view the files in your course.

Open Files

In Course Navigation, click the Files link.
View Course Files

All published course files can be viewed by all course users [1]. However, some files may restrict access to specific users.

You can preview and download all published files in Course Files.

If you want to see the files for all your courses, click the All My Files link [2].

View Files for All Courses

Canvas displays your User Files page with all available course folders displayed below your user files.
How do I view group files as a student?

As a student, you may be added to a group within your course. Groups files include any content uploaded to your group workspace.

Group files include uploaded assignment submissions and other group-related files uploaded to your group storage area. By default, each group has 50 MB of storage space in Canvas. All published files can be viewed by all group members.

Group files are automatically published when they are uploaded to the group.

As groups are essentially mini courses, all group members have the same permissions to moderate files, including uploading files, publishing files, restricting access, and deleting files.

Open Group

Click the Groups link [1], then click the name of the group [2].
Open Files

In Group Navigation, click the Files link.
View Group Files

All your group folders display in the left panel [1]. View files in the right panel by clicking the name of a folder.

You can view your group quota and what percentage of that quota has been used [2]. Files that have been submitted as group assignments and group graded discussions do not apply to the user quota.

If you want to see the Files for all your courses and/or groups, click the All My Files link [3]. Canvas will refresh the page to show your user files page with all courses and group folders.
The Groups folder creates folders based on default events in Canvas. Once you upload a file related to one of these areas, the folder and accompanying file will be created for you.

- **The Submissions** folder [1] contains copies of your assignment submissions; assignments are organized by course folder and displayed alphabetically.
- **The Unfiled** folder [2] stores files that you attach to discussion topics or discussion replies (if attachments are allowed by your instructor).

Group files also includes any additional folders you create to organize your files, as well as any files not uploaded to a specific folder. Any files in the group folder that are not related to assignment submissions count toward your user quota.

All files can be viewed by all group members. Please note that all group members hold the same permissions, so one group member can delete or move files uploaded by another group member. Group files are published by default.

**Note:** For group assignment submissions, if you submit a file that has previously been uploaded to the group, you can delete the previously uploaded file after it has been submitted and free up extra storage in your group files. However, to submit a previously uploaded file in group files, the file must be [moved to the user files folder](#) for the student submitting the assignment on behalf of the group, as the assignment submissions page can only access user files and not group files.
How do I move and organize files as a student?

You can move and organize your personal and group files. Files are organized in alphabetical order. While you can still move files into folders, you cannot rearrange the alphabetized structure of the files and folders.

Learn how to locate your [user files](#) and [group files](#).

**Note:** Files that have been submitted as part of an assignment cannot be moved.

**Move File via Move Button or Options Icon**

In user or group files, locate the file you want to move. Click the line item for the file [1].

To move the file via the toolbar, click the **Move** button [2].

To move the file via file settings, click the **Options** icon [3], then click the **Move** link [4].
Select the folder where you want to move the file [1] and click the **Move** button [2].
Move File via Drag and Drop

You can also manage your files using a basic click-and-drag method. Click the file name and drag the file to the desired folder. Once you see the folder highlighted, release your mouse. The file has been moved.

You can also move a file from the right pane to the left pane.

**Note:** You can only move a file within the right pane or from the right pane to the left pane. Files are organized in alphabetical order. While you can still move files into folders, you cannot rearrange the alphabetized structure of the files and folders.
Move Multiple Files

To select multiple files, press the command key (Mac) or the control key (Windows) while clicking the line for each file you want to select.

To select all files, click the command + A keys (Mac) or the control + A keys (Windows).

To select a range of files click the first file you want to select, hold down the Shift key, and then click the last file you want to select. All files between the first and the last file will be selected.

**Note:** You can also use the same key command to deselect a file.
How do I rename a file as a student?

You can rename your files at any time using the Rename option in the file's settings menu. You can rename files in both user and group files.

Learn how to locate your user files and group files.

Notes:

• If you add a file to another area of Canvas (e.g. Groups or Assignments) and then rename the file in your user files, the file rename will not update in any other Canvas location and must be changed manually. Please ensure that your file names are correct in your user files before using them in other content areas.
• Files that have been submitted as part of an assignment cannot be renamed.
• Files with a lock icon cannot be renamed.

Rename File

In user or group files, to rename a file, click the line item for the file [1].

Click the Options icon [2], then click the Rename link [3].
In the text field, change the name of the file [1]. To save the name of the file, press the Return (Mac) or Enter (PC) key or click the Check button [2]. To return to the previous title, click the Cancel button [3].

**Note:** Renaming or removing the extension in the file name may strip the extension from the file when it is downloaded.

**Note:** Deleting a folder will also delete all files in that folder.
How do I upload a file to my user or group files?

You can upload files to both user and group files. Files can be used for assignments, discussion replies, and conversation attachments. Additionally, files in your user or group files can always be embedded in Canvas using the Rich Content Editor.

Learn how to locate your user files and group files.

Notes:

- For assignment submissions, you can upload a file from your computer or select a file that has been previously uploaded to your user files. If you select a previously uploaded file, you can delete the file after it has been submitted and free up extra storage in your user files.
- Canvas does not support file uploads larger than 5 GB.
- Group files are automatically published when they are uploaded to the group.

Upload File

In user or group files, click the Upload button.
Open File

Click the title of the file(s) you want to upload [1] and click the Open button [2].

Upload Files via Drag and Drop
Some web browsers contain a feature that allows the user to add to files by simply dragging and dropping the files from a file window directly into the Canvas file repository. Click the title of the file you wish to add [1] and drag the file to your open browser [2]. Your file will automatically upload.

**Replace Duplicate File**

If a file with the same name already exists in the folder where you are uploading your file, you will be asked if you want to replace or rename it.

To rename the file, click **Change Name** button [1]. This option will create a duplicate copy of the file with a different name.

To replace the file, click the **Replace** button [2].

How do I bulk upload files to my user or group files?

You can upload several files at the same time to your user or group files.

Notes:

- You can also bulk upload files by dragging and dropping the files into Canvas from your computer. However, sometimes too many files can cause problems. If you have more than 50 files, try zipping the files and uploading the ZIP file into your course.
- Canvas does not support file uploads larger than 5 GB.

What types of media files can I upload in Canvas as a student?

Canvas can upload specific image, video, and audio files as user content.

When you upload audio and media files using the media tool in the Rich Content Editor, Canvas converts files up to 500 MB. If a file exceeds the 500 MB limit, you can host the file through an external source such as YouTube and embed it using the Rich Content Editor. To learn more about available options for using media files in Canvas, view the Canvas Media Comparison PDF.

When you upload a file to your group or user files, Canvas converts the file into a format supported by your browser. However, Canvas does not support uploading files larger than 5 GB to your user files. Media playback is determined according to browser, so if you cannot view the file, you may need to try to view the file in another browser.

Canvas files have quota limits set for user (personal) files and group files. Files uploaded directly to your user files or group files count against each specific quota, except for uploading a profile picture. Any attachments added as part of a graded assignment submission are uploaded into user files but are not counted against the user quota.

Supported Image Formats

Canvas will accept the following image files:

- BMP - Windows Bitmap
- GIF - Graphics Interchange Format
- JPEG - Joint Photographic Experts Group
- PNG - Portable Network Graphics
- SVG - Scalable Vector Graphics
- TIFF - Adobe Systems

Note: While TIFF files can be uploaded to file storage, they will not display within any area of Canvas.

Supported Video Formats

The Canvas media player supports H.264 video playback. Canvas will accept the following video files for playback:

- FLV - Flash Video
- ASF – Windows Media
- QT – Apple QuickTime
- MOV – Apple QuickTime
- MPG – Digital Video Format
- MPEG – Digital Video Format
- AVI – Digital Video Format
• M4V – Digital Video Format
• WMV – Windows Media
• MP4 – Digital Video Format
• 3GP – Multimedia Mobile Format

For tips about media compressions and playback quality, view Vimeo’s Video Compression Guidelines.

**Supported Audio Formats**

Canvas will accept the following audio files for playback:

• MP3 – Digital Audio Format
• WMA – Windows media audio
• MWV – Windows Media
How do I view my Google Drive files in Canvas as a student?

If your course has enabled Google Apps, you can view all files in your Google Drive account in Canvas. The Google Drive folder is accessed from the Course Navigation Menu.

Notes:

- You can only view one Google Drive account at a time in Canvas. Make sure you are logged in to the account you want to view in Canvas. If necessary you can log out of your account and authenticate with a different account.
- If you are already logged into a Google account in Chrome, Canvas will use that Google account to authorize Google Drive access. If you want to authenticate using a different Google Drive account, you must log out of the Google account in Chrome and sign in to the account you want to use with Canvas.
- If your Canvas authorization has failed, try logging in to Google Drive in Canvas using an incognito browser, which removes all browser cookies and extensions. If you are able to log in with the incognito browser, you are most likely logged in to Google Drive and/or Canvas with different Google accounts. Confirm the account you are using for each location and try again. You may also need to confirm any Google extensions installed in your browser’s settings.
- The location where you access your Google account may affect your access to Canvas. If you successfully authenticate with your account at your institution, you may have to reauthenticate when you log in to Canvas at home.
- Currently, Google Drive files cannot be accessed from course or personal files in Canvas. They can only be accessed from the Google Drive link in Course Navigation.

Open Google Drive

In Course Navigation, click the Google Drive link.
Log in to Google Drive

Log In

You need to authorize this integration in order to use it.
Please sign in to your Google account and authorize this integration.

You may be asked to authenticate your account. Click the Authorize button.

In an external window, enter your Google App email and password.

Note: If you are unable to authenticate, please see the troubleshooting information in the description of this lesson.
View Google Drive

View the files and folders in your Google Drive folder.

Google Drive displays the name of each folder [1]. You can view the contents of each folder by clicking the folder name.

For individual files, you can view the file name [2] and the date it was modified [3].

To view the linked Google Drive email or to sign out of your Google account, click the Account button [4].

How do I view my Microsoft Office 365 files in Canvas as a student?

If your course has enabled Microsoft Office 365, you can view all files in your Microsoft Office 365 (OneDrive) folder in Canvas. The OneDrive folder is accessed from the Course Navigation Menu.

Notes:
- You can only view one OneDrive account at a time in Canvas. Make sure you are logged in to the account you want to view in Canvas. If necessary you can log out of your account and authenticate with a different account.
- Currently, OneDrive files cannot be accessed from course or personal files in Canvas.

Open Office 365

In Course Navigation, click the Office 365 link.
Log in to Office 365

Log In

Click the "Log In" button to log in.

This screen will refresh after successfully logging in.

Log In

You may be asked to authenticate your account. Click the Log In button.

In an external window, enter your Office 365 email (or phone number) and password.

How do I log in to Canvas as a student?

This lesson explains various ways you can find out how to log in to Canvas from an internet browser. If you are using Canvas with an institution, you will log in either from your institution's webpage or by using their direct Canvas URL. Canvas Network accounts also log in with a Canvas URL. You can also use the Canvas URL to log in to the Canvas Mobile Student app.

You must have an account to log in to Canvas.

- If you are associated with an institution using Canvas and do not know your username and password, please contact your site administrator.
- If you are given a join code or a secret URL to join a course, learn how to create a Canvas account.

Note: If you are having trouble signing into Canvas, please see the troubleshooting section in this lesson.

Login Troubleshooting

If you are having trouble logging in to your account, here are some tips:

- Verify you are using the correct Canvas URL for your account. You can search for your Canvas URL by using the lookup tool on the Instructure website or from the Free-for-Teacher login page.
- If you use more than one Canvas URL (such as one for your institution and one for Canvas Network), make sure you are using the correct login and password for each Canvas URL.
- If your login and password were given to you from your institution and you are having trouble logging in, please contact your institution. (Your institution may have changed your login credentials.)
- If you do not have a login and password, you may need to create an account.
- If you have forgotten your password, you may be able to reset your password.
Access Canvas via Institution

Some institutions host Canvas within their website, so you may only need to sign into your institution's internal system to access Canvas.
Access Canvas via Canvas URL

Some institutions have you log in to Canvas using the direct link to their Canvas URL. In a browser window, enter your Canvas URL. Your Canvas login page will appear in the window.
Find Canvas URL via Course Invitation

If you do not know your institution's Canvas URL, you can find a link to the page in your course invitation email by clicking the **Get Started** button.

Access Canvas via School Search

If you cannot locate your institution's Canvas URL, open a browser window and enter **www.instructure.com/canvas/login/free-for-teacher**.
Log In to Your School’s Canvas Account

Are you an educator or student at a school that uses Canvas? Awesome! Find your school and log in here.

Search school

Find your school by searching for its name in the **Search School** field.
When the full name of your school appears, click the name. You will be directed to your school’s Canvas login page. Once you are logged in to Canvas, the Canvas URL will display in the browser menu.

Access Canvas via Free Account

To log in to a free Canvas account, open a browser window and enter www.instructure.com/canvas/login/free-for-teacher.

![Log In to Your Free Canvas Account](image)

Enter your Email address [1] and Password [2]. Click the Login link [3]. You will be directed to the free account page using your credentials.

How do I use the Canvas Welcome Tour as a student?

Canvas provides a welcome tour which provides quick tips to get started with a Canvas course.

Start Canvas Welcome Tour

Hello, Emily Boone!

Here's some quick tips to get you started in Canvas!

1. How do I find my courses?
2. How do I contact my instructor?
3. How do I download the Student App?

After logging in to Canvas, you can view a short message about the Canvas Welcome Tour.

The Canvas Welcome Tour shows you how to find your courses, contact your instructor, download the Canvas Student app, and get help with Canvas.

To start the Canvas Welcome Tour, click the Start Tour button [1].

To dismiss the Canvas Welcome Tour, click the Not Now button [2] or the Exit icon [3].

Note: Dismissing the tour will disable the tour for your account.
Reopen Canvas Welcome Tour

If you previously dismissed the Canvas Welcome Tour, you can reopen the tour by clicking the Help link in Global Navigation [1] and clicking the Show Welcome Tour link [2].

Note: Depending on your institution, the Help menu and links within the Help menu may not display or may display differently.
Find Courses in Dashboard

The first stop of the tour shows you where to find your courses or subjects using the Dashboard link in Global Navigation.

To proceed to the next item on the tour, click the Next button [1].

To go to a previous item on the tour, click the Previous button [2].
Find Courses in Courses List

The second stop of the tour shows you where to find your courses or subjects using the Courses link in Global Navigation.

Contact Instructor

The third item on the Canvas Welcome Tour shows how to contact your instructor by using the Canvas Inbox.
Download App & Find Help

The last tour item, shows you how to view courses and groups by downloading the Canvas Student App for iOS and Android. This step also shows how to find more information using the Help menu. Learn more about the Help menu.

To complete the tour, click the Done button.

Note: Depending on your institution, the Help menu and links within the Help menu may not display or may display differently.
How do I use the Global Navigation Menu as a student?

The Global Navigation Menu is located on the left side of every page in Canvas. Global Navigation links provide quick access to frequently used Canvas features. These links provide access to all your courses collectively. Default links include the Dashboard, Courses, Groups, Calendar, Inbox, User Account, and the Help menu.

Depending on your institution account settings, other links may appear in the Global Navigation Menu.

Note: Your instructor may choose to display a different font for one or more of your courses. When viewing those courses, the Global Navigation Menu displays in the same font.

View Account

To view your user information, click the Account link. A menu will expand and display links to access your user settings, notification settings, personal files, and ePortfolios (if enabled). If your institution has enabled Profiles, you can access your profile.

You can also use the Account link to log out of Canvas.
The Dashboard is the landing page after you log in to Canvas. The Dashboard can be toggled to a course view, list view, or recent activity view and shows notifications for all current Canvas courses.
View Courses

Welcome to your courses! To customize the list of courses, click on the "All Courses" link and star the courses to display.

To view your courses, click the Courses link [1]. The Courses menu displays your list of favorite courses, or, if you haven't selected any favorite courses, the menu displays current courses where you are enrolled. If a course includes term dates, the name of the term will appear as part of the course listing.

To view a course, click the name of the course [2]. To customize your courses list or view all your Canvas courses, click the All Courses link [3].
If you are enrolled in Groups, view your groups in the Groups link [1]. A menu will expand and display all groups in current courses where you are enrolled.

To view a group, click the name of the group [2]. To view all your groups, click the All Groups link [3].

**Note:** Groups cannot be customized in the drop-down menu.
To view your Calendar, click the Calendar link.
To view your Conversations Inbox, click the Inbox link. Conversations is the Canvas messaging system where you can communicate with other users in your courses. The number of new messages are shown as part of the Inbox icon.
View History

To view your recent Canvas course page view history, click the History link. Recent History displays up to three weeks of your Canvas course page view history.
View Help

To get help with Canvas, click the Help link. Select the help option that is relevant to your needs.

Note: Depending on your institution settings, the Help menu may display different options.
Collapse Global Navigation Menu

To expand or collapse the Global Navigation menu, click the arrow icon.

The Global Navigation Menu will be automatically collapsed for tablet screens.
How do I use the Dashboard as a student?

The Dashboard is the first thing you will see when you log into Canvas. The Dashboard helps you see what is happening in all your current courses.

You can return to your User Dashboard at any time by clicking the Dashboard link in Global Navigation.

Open Dashboard

In Global Navigation, click the Dashboard link.
View Dashboard

The Dashboard is your landing page in Canvas. Depending on your institution, your Dashboard may default to one of three views: Card View, List View, or Recent Activity View.

- **Card View**: displays course cards for quick access to all your favorite courses (the same courses display in the Courses link from the Global Navigation Menu)
- **List View**: displays all course to-do items in an agenda view
- **Recent Activity View**: displays all recent activity for all courses
View Global Announcement

Classes Start August 17th
Reminder for teachers, parents, and students: Classes start on August 17th.
This is a message for Documentation Canvas

The Dashboard may also include global announcements, which are announcements created by your institution. To remove the announcement from your dashboard, click the Remove icon.

View Dismissed Announcement

You can view dismissed announcements by going to Account and selecting Global Announcements from the menu.

If you dismiss a global announcement, you can view dismissed announcements on the Global Announcements page.
Change Dashboard View

To change your Dashboard view, click the Options menu and select your preferred viewing option.
View Dashboard Sidebar

When set to Card View or Recent Activity View, the Dashboard also includes a sidebar. The sidebar includes a To Do list, upcoming assignments, links to recent feedback, and buttons for creating a course or viewing grades. Learn more about using the sidebar.
How do I view my favorite courses in the Card View Dashboard as a student?

The Card View Dashboard displays course cards for all your favorite active courses. Course Cards can help you organize your courses by adding a nickname or customizing the color, which is synced with the color shown for the course in the Calendar. Depending on your institution's preference, the Card View may be your default Dashboard.

The Card View Dashboard also includes the Dashboard sidebar, which includes items in your To-Do list and includes a link to the global Grades page.

You can change your Dashboard view at any time using the Dashboard Options icon.

Favorited courses are removed from the Card View Dashboard when the course is concluded. Concluded courses that were previously favorited are still shown as favorited in the Courses list.

View Course Cards

By default, active course cards are automatically added by Canvas and display up to 20 courses.
Dashboard courses are ordered alphabetically by course name and your role in the course; nicknames and course codes do not apply to course ordering. Courses with instructor roles are listed first, followed by TA roles and student roles.

**Note:** If you want to remove the default course card setting, you can customize the course list and manually select your favorite courses to display in the Dashboard. When you favorite at least one course, the Dashboard will only display favorited courses. Canvas will also continue to automatically favorite new published course enrollments.

**View Card Details**

Course cards show an overview of course information including the course name, course code, and term [1].

Each card can include up to four tabs [2], which represent the four main Canvas features for student course activity: Announcements, Assignments, Discussions, and Files. These tabs mimic visibility and order in Course Navigation, so for instance, if an instructor hides the Announcements link, the Announcements tab will not display on the course card.

An unread icon on the Discussions or Announcements tab indicates that there is a new discussion or announcement in the course [3]. The number in the icon indicates the number of new items.
Create Nickname

If one of your courses includes a long or confusing name, you can create a nickname for your course. Most courses are created using Student Information Systems (SIS) that generate course names based on terms, departments, and section numbers, and courses with similar names may be hard to distinguish.

Course nicknames appear in the Dashboard, Course Navigation Menu, course breadcrumbs, and notification emails.

A course nickname does not affect the course name at the account or course level; it only changes the name of the course for the individual user who created the nickname.

If you need to know the original name of the course, you can hover over the nickname and the original name will appear. Additionally, the course code is not affected and always displays on the course card for course reference.

Notes:

- This feature does not currently apply to the global Grades page and Dashboard sidebar elements such as the To Do list.
- Course nicknames are limited to 59 characters.
Manage Nickname

To add a nickname, click the More Options icon [1], then type the name in the nickname field [2]. Click the Apply button [3].

To remove a nickname, open the card options and remove the nickname. The Nickname field will display the original name of the course.
Change Course Color

Course cards can help you organize your courses by customizing the color, which is synced with the color shown for the course in the Calendar. To change the color, click the card's More Options icon [1], then select a new color. The check mark indicates the selected color [2], and the hex color code displays in the text field [3]. If you want to use a color not shown in the window, you can enter the color’s hex code directly in the text field. The hex field will display a warning icon if the hex code is not valid. Additionally, any variation of white is not accepted as a course color.

Click the Apply button [4].

Note: If you change the color for a course in the Calendar, the color also updates in the Dashboard.
Move Course Cards

You can also move a course card to another location in the Dashboard or remove a card from the Dashboard. Click the Options menu [1] and select the Move tab [2]. Depending on the placement of the existing card, you can move the card to the top of the Dashboard, ahead or behind a specific card, or to the bottom of the Dashboard [3].

Once a dashboard card has been reordered, new courses added to the Dashboard always display at the end of all existing courses.

To remove the course card from the Dashboard, click the Unfavorite option [4].

Note: The Unfavorite option only displays if you previously selected favorite courses.
Drag and Drop Course Cards

You can also manually drag and drop a course card to another location in the Dashboard. Click on a course card and drag it to the desired location.
Some courses may include an image for the course behind the course color [1]. By default, course cards with an image include a color overlay. To remove the color overlay from all course cards that contain an image, click the Options icon [2] and then deselect the Color Overlay option [3].

When the Color Overlay is removed, the course color will display as a circle behind the card’s More Options icon.
How do I use the to-do list for all my courses in the List View Dashboard as a student?

The List View Dashboard displays all course To Do items in an agenda view to help you easily manage tasks across all of your courses. The To Do list contains graded as well as any non-graded To Do items your instructor designates for a course To Do list. You can also add and view your own To-Do items in the Dashboard. The List View Dashboard also displays calendar events and course announcements.

Notes:
- The List View Dashboard does not account for course favorites and displays all items based on date, course ID, due date, and due time.
- To-do items can also be viewed in the Card View Dashboard and the Recent Activity Dashboard.

Open List View

To open Dashboard List View, click the Options icon [1] and select the List View option [2].

Note: Depending on your institution's settings, your dashboard may default to List View.
**View List View**

The List View Dashboard defaults to the current date [1].

To view previous and future dates, scroll up and down the page [2].

To quickly return to the current day’s To Dos, click the **Today** button [3].

To quickly access prior items with new activity, click the **New Activity** button [4].
When multiple courses include To Do items on a single date, courses are listed by Course Name and items are listed by due time [1].

Graded items display the point value for the graded item [2].

To Do items include icons that represent the item type:

- Peer Review [3]
- Calendar Event [4]
- Announcement [5]
- Assignment [6]
- Page [7]
- Discussion [8]
- Quiz [9]
Open Item

To access a To Do item, click the item name [1].

To view the home page for a course, click the name of the course [2].

- **Replies** [3]: an announcement or discussion has new replies
- **Feedback** [4]: a graded item has new instructor feedback via submission comments (does not display if feedback is only via DocViewer annotations)

Once a graded item is past the due date, the item displays a Missing indicator [5] and a Missing label [6].

Missing items submitted after the due date display a Late label [7].

If your instructor has reassigned an assignment to you, the item displays a Redo label [8]. You must [resubmit your assignment](#).
Mark Item as Complete

Graded items are automatically marked as completed once they are submitted. Non-graded items must be manually marked as completed.

To manually mark an item as complete, click the checkbox for the item [1]. When you manually mark an item, the item's status will update when you refresh the page.

Completed To Do items remain in the To Do list for you to view at any time. To view information about completed To Do items, click the Show completed item link [2]. The completed items display a completed checkbox [3]. To view completed item information, click the item name [4]. The next time you refresh the page, the completed items will once again be hidden within the completed link.
To view a list of graded past-due items across all your courses, click the Alert Menu button [1]. The Alert menu helps you see what opportunities are available to you to improve your course grades.

To view new alert items, click the New link [2]. You can dismiss new alert items by clicking the Remove icon [3]. Dismissing a new alert item does not affect its status or mark it as completed.

To view dismissed alert items, click the Dismissed link [4].
View Grades

To view your current course grades, click the Gradebook icon [1]. The My Grades menu displays your current course grades [2]. Click the course name link to view the Grades page for your course [3].

Note: If one of your courses uses grading periods, the grade displayed is the grade for the current grading period.
View To Do Items

You can add your own To-Do items to the Dashboard. Items associated with a course display as part of the course items and arranged by due date [1]. General to-do items always display below all courses [2]. To-do items can be edited at any time by clicking the Edit icon [3].

To add a To-Do item, click the Add Item icon [4].

Note: You can also use the Calendar to add to-do items, which will also display in the List View Dashboard.
Change Dashboard

To change the Dashboard view at any time, click the Options menu.
How do I add a to-do item in the List View Dashboard as a student?

You can create to-do items that display in the List View Dashboard agenda. When you create a to-do item, the new item displays your profile picture to differentiate it from other to-do list items. Any to-do item you create also displays in the Course Card Dashboard View sidebar and Global Activity Stream Dashboard sidebar.

You can also create to-do items from the calendar.

Add To-do Item

Click the Add To Do button.
Add To-do Details

In the To Do sidebar **Title** field [1], type a name for the to-do item.

The **Date** field defaults to the current date [2], and the Time field defaults to 11:59pm [3]. To change the date and/or time when you want to complete the item, modify the date or time appropriately.

Items default as general to-do items, but you can associate the item with a course by selecting a course from the **Course** drop-down menu [4].

In the **Details** field [5], any other details about your to-do item.

**Save To-do**

Click the **Save** button.

How do I view global activity for all my courses in the Recent Activity Dashboard as a student?

The Recent Activity Dashboard shows you important recent activities from all of your courses including announcements, discussions, assignments, and conversations. This stream is similar to the Course Activity Stream for an individual course.

The following activities will cause notifications for each course to appear in the Recent Activity Dashboard:

- New Announcements
- Replies to Announcements
- New Discussions
- New Discussion Posts
- New Assignments
- Assignments, Quizzes, or Discussions Changed from Ungraded to Graded
- Due Date Changes to Assignments, Quizzes, and Discussions
- New Graded Assignments
- New Peer Review Assignments
- New Conversation Messages

The Recent Activity Dashboard also includes the Dashboard sidebar, which includes items in your To-Do list and includes a link to the global Grades page.

You can change your Dashboard view at any time using the Dashboard Options icon.

Notes:

- Notifications in the Recent Activity Dashboard will not display for activity in Files, Collaborations, Grades, Pages, or Conferences; ungraded quizzes and surveys; or edits to Discussions.
- Edits to Quizzes and Assignments will only display in the Recent Activity Dashboard when the Notify users that this content has changed button has been selected in a course.
- To receive notifications for Discussions, you must actively post in the discussions at least once every two weeks. If you stop participating in a discussion after two weeks, Canvas will no longer display discussion notifications.
Open Dashboard

In Global Navigation, click the **Dashboard** link.
Open Global Activity Stream

Click the Options icon [1] and then click the Recent Activity link [2].

View Global Activity

The Global Activity Stream contains recent notifications from all of your courses, including announcements, discussions, assignments, and conversations. This activity stream helps you see all recent activity in your courses and easily ask questions and post to discussion forums. Unlike course cards, the activity stream does not mimic the visibility of Course Navigation links.
Activities are indicated by activity type and display an icon [1] for the activity. Each activity also includes the name of its associated course [2].

New activity in your account is indicated by an unread icon [3]. Discussions and Announcements indicate new activity items published in a course, and Conversations indicate a new message received from a user in a course. Recent Activity items remain for four weeks.

**Expand and Collapse Notifications**

You can view the details of each activity by hovering in the notification area and clicking the Show More link [1]. To collapse recent activity, click the Show Less link [2].

How do I view the Global Announcements page as a student?

You can view current and recent global announcements on the Global Announcements page. Global announcements are announcements created by an admin user at your institution and display on the Dashboard to all applicable user roles. The Global Announcements page displays global announcements that are currently active, announcements that you dismissed from the dashboard, and announcements from the past four months.

Open Global Announcements

In the Global Navigation menu, click the Account link [1], then click the Global Announcements link [2].
View Current Announcements

To view currently active announcements, click the **Current** tab.

There are five announcement types for global announcements:

- A blue announcement with an *i* icon indicates an information announcement type.
- A red announcement with an exclamation icon indicates an error announcement type.
- An orange announcement with an exclamation icon indicates a warning announcement type.
- A blue announcement with a question icon indicates a question announcement type.
- A blue announcement with a calendar icon indicates a calendar announcement type.
View Recent Announcements

To view announcements from the past four months, click the Recent tab.

View Dismissed Announcement

When you dismiss a global announcement, Canvas displays a message notifying you that you can view the announcement on the Global Announcements page. To view the announcement, click the View button.
How do I use the To Do list and sidebar in the Dashboard as a student?

In the Card View Dashboard and the Recent Activity Dashboard, the sidebar contains a To Do list and other sections that help you know what assignments and events are coming up in all of your courses. The sidebar includes specific items for instructor and student roles. If you are enrolled in Canvas courses with more than one user role, your sidebar may show items for both roles.

The sidebar is similar to the sidebar that displays in your Course Home Page, but the course sidebar only includes items for the specific course. Depending on the setup of your Course Home Page, the sidebar in a course may contain additional sections than shown in the sidebar.

**Note:** You can also view items on the To Do list from the [List View Dashboard](#).

Open Dashboard

In Global Navigation, click the **Dashboard** link.
View Sidebar Course Items

The sidebar shows various action items in all your courses. Each item is associated with a specific course. All items from all your active courses display in the sidebar—not just favorited courses in the Dashboard.

For course identification, each sidebar item displays the course code, or short name, for the course [1]. The course code is located directly below the full course name.

Course nicknames can be set in place of sidebar course codes that are long or otherwise confusing to remember which courses they represent. If you have created a nickname for a course, the nickname displays in the sidebar instead of the course code [2]. However, the original course code always displays in the course card.
The sidebar helps you see what you need to do next and what feedback you’ve received across all your courses. However, assignments that are not graded or do not require an online submission only display until the due date.

The **To Do** section shows up to seven items with due dates or event dates in the upcoming weeks, including ungraded quizzes, assignments that do not require a Canvas submission, and course announcements [1]. Each item in the To Do list displays the assignment name, the course name, the number of points, and the due date for the assignment. Once the due date has passed, items remain in this section for four weeks.

The **Recent Feedback** section shows assignments with feedback from your instructor during the last four weeks [2].

The **View Grades** button links to the [Dashboard Grades](#) page and displays grades for all active courses [3].
Manage Sidebar Items

Each section item displays an icon to differentiate between different assignment types and other items in the To Do list [1]. If a section contains more items than can be shown, you can view all to-do items using the Show All link [2]. This link directs you to the List View Dashboard.

To remove a To Do item, click the remove icon [3].

Note: Assignments submitted through Canvas disappear automatically from the To Do list; no-submission assignments (submitted on paper/in class) can only be removed from the list manually.

Courses are organized into All Courses [1], Past Enrollments [2], Future Enrollments [3], and Groups [4]. Courses and groups are sorted alphabetically by course or group name.
View All Courses

All Courses are courses that are part of the current semester or term. However, depending on access settings for a course, My Courses can also display courses that have not yet started or are unpublished.

Active courses that are available to you are listed in blue text [1]. These courses have been published and include a link to the course. To open a course, click the name of the course. Courses that are within the current term dates but are not yet available are listed in black text [2]. These courses have not been published.

You can also view any nicknames you have created for courses [3].

If a course includes a term date [4], the term date displays next to the course name.

Each course includes your enrollment status [5]. Statuses can be student, teacher, TA, observer, designer, or a custom role as created by your institution.

In the All Courses section, you can customize the courses list and mark courses as favorites [6]. Favorite courses display in the Card View Dashboard.

**Future Enrollments** are courses that will be made available as part of an upcoming term or specific course start date. Future courses may be published or unpublished. However, some institutions may restrict you from viewing published courses before the start date.

If a future course includes a link [1], you can view course content but cannot fully participate in the course until the start date. Participation includes submitting assignments and replying to discussions.

If a future course does not include a link [2], the course cannot be viewed until the start date.

**Note:** Some institutions may not allow future enrollments to display in the Courses page.

If you are enrolled in groups, the Groups section displays any groups within your current courses. You can view all your groups in your [groups list](#).
How do I customize my Courses list as a student?

When you are enrolled in more than one Canvas course, you can customize the active courses you want to show in your Course list. Courses you want to show in the Courses drop-down menu are called favorite courses. You can favorite any published course that appears in the My Courses section on the course list page. Course favorites also display in the Card View Dashboard.

When no courses are favorited, the courses list automatically displays up to 20 courses alphabetically in the drop-down menu. However, once you have selected at least one course as a favorite, only your favorite courses will appear in the Courses list.

Note: Courses are always listed alphabetically; you cannot reorder your courses manually.

Notes:

- After you have manually favorited at least one course, Canvas automatically favorites any new published course enrollments for you.
- You can only favorite active courses.

View Unpublished Courses

If a course is unpublished and you are allowed to view unpublished courses before the course participation dates, you cannot favorite the course. If you hover over a star icon for an unpublished course, you can view a message indicating that the course cannot be added as a favorite.

Depending on course configuration, you may still be able to view your past enrollments after courses have concluded. However, favorited courses are not automatically removed as a favorite. If a past enrollment course still shows as a favorite, you can unfavorite the course by toggling the star icon.
How do I view my institution's Public Course Index as a student?

The Public Course Index allows all users within an institution to publicly view the institution's course index in a catalog format. You can view a link to the Public Course Index on the My Courses page.

**Note:** The Public Course Index is currently an account opt-in feature. If you cannot see the courses link, your institution has not enabled this feature.

Open Courses

In Global Navigation, click the **Courses** link [1], then click the **All Courses** link [2].
Browse More Courses

In the My Courses page sidebar, click the **Browse More Courses** link.

View All Courses

You can view all courses that have been included in the public course index, with the most recently created courses shown first.

You can view the name of the course [1] and a description, if any [2].
Search Courses

You can search for courses in several different ways. In the Name field [1], you can type the name of a course.

You can also search for courses by status. If you want to view only public courses, click the Public courses only checkbox [2]. If you want to view only open enrollment courses, click the Open enrollment courses only checkbox [3]. Open enrollment courses are courses that you can join at any time.

When you are finished selecting your search options, click the Search button [4].
To view a course, click the name of the course [1]. If a course lets students self-enroll, you can join the course at any time by clicking the Join this Course button [2]. However, you can view the course first and enroll in the course home page.
How do I view my recent page view history in Canvas as a student?

As a student, you can view a list of your recent Canvas course page views from the History link in Global Navigation. The Recent History list displays page view history within the most recent three weeks.

Note: Recent history is not supported in the Canvas beta and test environments.

Open History

In Global Navigation, click the History link.
Recent History displays a list of course content and content areas you have viewed within the last three weeks. Page views are listed in chronological order with the most recent page view listed first. List items display the following information:

- **Activity Icon** [1]: the Canvas feature or course activity type
- **Course Link** [2]: the name of the course content area or content item name
- **Course Name** [3]: the name of the course in which you viewed the item; if set, the course nickname displays.
- **Viewed Date** [4]: the date and time when you viewed the page; if the page view occurred within the last 24 hours, a time stamp of [n] hours ago displays.
View Recent History Icons

The following icons display in Recent History:

- **Home [1]**: viewed a course home page
- **Announcements [2]**: viewed a course or group Announcements page or a course or group announcement
- **Assignments [3]**: viewed a course Assignments Index page or an assignment
- **Pages/Collaborations [4]**: viewed a course or group Pages Index page, Collaborations page, course or group page, or course or group collaboration
- **Conferences [5]**: viewed a course or group Conferences page
- **Discussions [6]**: viewed a course or group Discussions page or a course or group discussion
- **Files [7]**: viewed a course, group, or user Files page or a course, group, or user file

- **Outcomes [10]**: viewed a course Outcomes page
- **People [11]**: viewed a course People page
- **Quizzes [12]**: viewed a course Quizzes page or a quiz
- **External Tools (LTI) [13]**: viewed an external tool from Course Navigation or opened an LTI in the course
How do I get help with Canvas as a student?

You can get help with Canvas by using the Help menu. The Help menu generates a list of resources to help you with Canvas. Canvas displays links according to roles in all enrollments; for instance, if you are a student who had one course with an instructor-based role, the Help menu will show you links available to students and instructors.

This lesson outlines the default help links that may be included in the Help menu for your institution. However, your institution may customize the Canvas Help menu to hide default links and create custom links as resources.

Note: Depending on your institution, the Help menu may not be available.

Open Help

At the bottom of Global Navigation, click the Help link.

Note: Depending on your institution, the Help link name and icon may vary.
View Default Links

Depending on your user role, there are seven default links for help or feedback:

- **Search the Canvas Guides** [1]: Search the Canvas Guides for information about features inside of Canvas
- **COVID-19 Canvas Resources** [2]: Users can view resources for teaching and learning online
- **Conference Guides for Remote Classrooms** [3]: Users can view and search guides and resources for using Conferences in remote classrooms and online learning
- **Report a Problem** [4]: Submit problems with Canvas to our support team
- **Ask your Instructor a Question** [5]: Ask your instructor questions about course material or send them a message
- **Ask the Community** [6]: Exchange ideas and solutions regarding Canvas functionality with Canvas experts and your Canvas peers
- **Submit a Feature Idea** [7]: Submit ideas about how to make Canvas better
- **Show Welcome Tour** [8]: Learn more about Canvas by viewing the Welcome Tour
View Custom Links

Your institution may reorder or remove the default links.

Your institution may remove or modify which link displays as the featured link [1] and which link displays the New label [2].

Lastly, your institution can include custom links in the Help menu [3]. Custom links may include pages to phone numbers, support information, and other resources.

The Report a Problem link helps you report problems in Canvas.

You may find a faster response to your question by searching the Canvas Guides. But if you can't find an answer, you can submit a ticket and get support help.
Submit Ticket

In the subject field [1], create a subject for your ticket.

In the description field [2], describe the problem you are experiencing in Canvas. Please be as detailed as possible to help troubleshoot the problem. If you submit tickets frequently, you may prefer to use a screencasting program to create an online link to an image or create a video walkthrough. However, if you're not comfortable using online links, you can submit attachments later if necessary; once you submit the ticket, you'll receive an email from the support team. You can reply to the email with any attachment as needed.

In the drop-down menu [3], select the statement that best describes how the problem is affecting you:

- Just a casual question, comment, idea, suggestion
- I need some help but it's not urgent
- Something's broken but I can work around it for now
- I can't get things done until I hear back from you
- EXTREMELY CRITICAL EMERGENCY

When you're done, click the Submit Ticket button [4].
Depending on your institution's support schedule, you'll receive a reply as soon as possible.

When you are finished accessing Canvas, you can log out of your account.

Log Out

In Global Navigation, click the Account link [1], then click the Logout button [2].
Why can't I access my Course as a student?

Sometimes there are a few reasons why you cannot access your courses.

- If you are self-enrolling in a course using a join code or URL, you may not have completed the registration process. Check your email for information from your instructor as to how to enroll in your course.
- If your institution enrolled you in your course, your enrollment may not have been set up properly. Please contact your instructor(s) for assistance.
- Each course is associated with a specific participation date. Depending on the date associated with the course, you may not yet be able to view your course.
- Courses must be published by your institution before you can access them. If a course is not accessible to you in your course list, it may not be published.
- Access to concluded courses may be restricted by your institution.
- Confirm your browser is up to date. Outdated browsers cannot support Canvas courses.
How do I create a new course from the Dashboard as a student?

If allowed by your institution, you can create a new course from your Canvas Dashboard. New courses are created as course shells which can host course content and enrollments for your institution. If enabled by your institution, you may be able to select a sub-account for your new course. If this feature is not enabled, your new course will be added to your institution's Manually-Created Courses sub-account.

When you create a course from the Dashboard, you are automatically added to the course as an instructor. No other enrollments exist in the course, though you may be able to add users to a new course. Additionally, new courses do not contain course content unless your institution is using a course template.

Alternatively, you can create a new course to use as a sandbox. A sandbox is a course without student enrollments where you can create, modify, and preview course content and structure without student interference. You can then share or import your sandbox content into live courses.

**Note:** If you are not able to start a course as shown in these instructions, your institution has disabled this feature. For assistance creating a new course, contact your Canvas Admin.
In the Global Navigation Menu, click the **Dashboard** link.
Manage View Setting

You can only create new courses from the Card View or Recent Activity view of the Dashboard.

To change your Dashboard view, click the **Options** icon [1]. The click the **Card View** option [2] or **Recent Activity** option [3].
Create New Course

In the Dashboard sidebar, click the **Start a New Course** button. You may need to scroll down to see this button.

**Note:** If you do not see this button in Canvas, your institution has disabled this feature.
Add Course Details

In the Which account will this course be associated with? drop-down menu, select the account where you want the course to be organized [1]. You can only select accounts that contain courses where you have active enrollments. If this drop-down menu does not display, your institution has restricted the option for students to select accounts for new courses.

In the Course Name field [2], enter the name for your course. A course code is automatically created based on the first string of connected characters in the course name. If allowed by your institution, the course code can be changed in Course Settings.

To create the course, click the Create button [3]. To cancel course creation, click the Cancel button [4].

Note: Course content license and course visibility options are set to private by default. These options can be changed in Course Settings.
View the new course. Depending on your institution's preference, you can use either the Course Setup Checklist or the Canvas Course Setup Tutorial to populate your course.
Grades
How do I view my grades in a current course?

The Grades page in a course displays all current grades for all course assignments. You can also view scoring details, comments, and rubrics. If your instructor is using multiple grading periods, you can also filter grades by grading period.

If you have any courses that have concluded and are able to access their content, you can view those grades from any active course. You can also view concluded course grades from the Global Navigation Menu.

Note: Some details in the Grades page, such as scoring details and the total grade, may be restricted in your course.

Open Course

In Global Navigation, click the Courses link [1], then click the name of the course [2].
Open Grades

In Course Navigation, click the Grades link.
View Grades

From the grades page you can select the **Course** for which you want to view grades [1]. By default, grades are sorted chronologically by assignment due date. In the **Arrange by** menu [2], you can also sort by module, assignment name, or assignment group. To see the specified grades, click the **Apply** button [3]. Assignments that are not part of a module will be shown at the end of the assignments list in alphabetical order. However, if modules or assignment groups aren't used in your course, they won't be included as sorting options.

You can view the name of the assignment [4], the assignment due date [5], the assignment status [6], the score you earned [7], and the total point value of the assignment [8]. You may also be able to view whether the assignment includes scoring details, comments, or rubrics [9].

You may see various **grade icons** in the score column [10] indicating the type of assignment you submitted. These assignments have not been graded by your instructor. Once the assignment is graded, the icon will be replaced by your score.

The grades page also lets you create hypothetical or **What-If grades**. You can click any score field and approximate your grade for both graded assignments (if want to submit an assignment) and ungraded assignments.

To print your grades, click the **Print Grades** button [11].
View Grading Periods

If grading periods are enabled in your course, you can view your grades according to grading period [1]. By default the Grades page displays the current grading period. If an assignment does not include a due date, it will display as a part of the last grading period. To view grades for another course, click the Course drop-down menu [2]. To see the specified grading period and course, click the Apply button [3].

If your course includes weighted assignment groups, assignment groups may vary in the sidebar depending on which grading period you are viewing. An assignment group displays if the group has at least one assignment due in the selected grading period.

When grading periods are weighted and you select the All Grading Periods option, the sidebar displays the weights of each grading period.

View Late Assignment

Your instructor may enforce an automatic late policy in your course. Any assignments that are submitted after the due date are marked as late. The late policy automatically deducts a percentage of the grade from the total score. Late assignments display the Late icon in the Status column of the gradebook [1]. To view submission details for a late assignment, click the submission name [2].

If there are comments in your assignment, the assignment displays a comment icon [1]. To view comments, click the icon. Comments will be organized chronologically [2]. To close comments, click the Close link [3].

**View Scoring Details**

If you can view scoring details, click the Check Mark icon [1]. You can view the grade distribution for the assignment and view the mean, high, and low scores [2].

The graph’s horizontal line extends from 0 to the assignment’s highest possible score [3]. The white box extends from the lowest to the highest student scores. Your score appears as a blue square on this plot.

You will only see scoring details if more than five other students have submitted that assignment in the course. If you do not see the scoring details, then fewer than five students have submitted the assignment.

To close scoring details, click the Close link [4].
An assignment may also include a Rubric icon [1], which means the assignment included a rubric for grading purposes. To view your results, click the icon. View your score based on the rubric [2]. To close the rubric, click the Close Rubric link [3].

**Note:** The total rubric score may be restricted by your instructor.

The Grades page will list the assignment groups included in your course [1]. Assignment groups allow instructors to organize assignments, discussions, and quizzes into groups and apply specific grading rules or weights to those groups. You can view the percentage score for each group [2] and the points you've earned versus the total points possible [3].

**Note:** Assignment group percentages may be restricted by your instructor.
The grade summary shows your total grade [1], allows you to view any saved *what-if scores* [2], and allows you to show or hide all scoring details, comments, and rubrics shown in the Grades page [3].

Depending on the grade calculation for your course, your total grade may display as a point value or as a percentage.

**Note:** Your instructor may restrict you from viewing your total grade [4].
View Current and Total Grades

The current grade is calculated by adding up the graded assignments according to their weight in the course grading scheme. This grade is calculated with the Calculate based only on graded assignments checkbox [1] selected in the sidebar.

The total grade is calculated by adding all the assignments according to their weight in the course grading scheme (both graded and ungraded assignments). To view the total grade, deselect the sidebar checkbox [2]. The grade at the top of the sidebar will reflect your total grade.

Note: If your instructor has restricted you from viewing the current and/or total grades, selecting or deselecting the sidebar checkbox still affects individual assignments. You may be able to see small changes with assignment shading indicating that a grade may be dropped from the course.
The sidebar shows the information about how your grades are calculated.

If your assignment groups are weighted, the sidebar will show the breakdown of weighted assignment groups [1].

Assignment groups will always display as a percentage. If your instructor allows you to view total grades, you can see a breakdown in the points you’ve earned versus the total points possible [2].

**Note:** Your instructor may restrict you from viewing your grade totals in assignment group percentages [3].

If your course does not use assignment groups, your total grade can be displayed in points or percentage. If your total grade is displayed in points, you can view your overall grade percentage. Again, your instructor may restrict you from viewing your total grade.

**Note:** Your instructor may restrict you from viewing grade totals.

**Change Gradebook**

If you have more than one course, you can use the course drop-down menu [1] to view grades in other courses.

If your Grades page shows Assignments and Learning Mastery headings [2], you can also view your standards-based scores in the Learning Mastery link.
How do I view my Learning Mastery scores in the Grades page?

Learning Mastery scores are used by your instructor to measure performance based on classroom standards, or outcomes. Outcome scores may be tied to assignments and other items throughout Canvas.

If your Grades page shows Assignments and Learning Mastery tabs on the Grades page, you can view standards-based scores in the Learning Mastery tab.

Open Grades

In Course Navigation, click the Grades link.
Open Learning Mastery Link

On the Grades page, click the Learning Mastery link.

View Outcomes Overview

In the Learning Mastery tab, you can view overall details about the outcomes available in your course. Grades will show you the name of each outcome group [1], as well as the outcome summary [2]. The outcome summary displays the number of outcomes you have mastered on the left, while the the total number of outcomes within the group are shown on the right.

Click the down arrow [3] or the name of the outcome group to expand the overall achievement for the entire outcome group.

Click the Print Grades button [4] to print your outcomes results.
Expand Outcome Group

You can expand each outcome to view all outcomes within the group. You can use the expand and collapse icons [1] to expand and collapse all outcome groups at once. You can also expand outcome groups individually by clicking the name of an outcome group [2] or the down arrow [3].
View Outcomes

When an outcome group is expanded, each outcome is displayed with the outcome name [1]. To view more information about an outcome, hover over the information icon [2].

Each outcome also displays an icon indicating mastery [3].

To view information about outcome alignments, click the arrow icon [4].
View Outcome Information

The information window displays the assessment of the outcome.
You can view the date for the most recent assessment of the outcome [1] and the assessed mastery level [2].
You can also view the calculation method for the outcome [3] and an example of the calculation method [4].

View Alignments
Alignments are the assignments and other Canvas items that are linked to an outcome. These alignments show what course assignments you participated in to earn your score. Not all items may be aligned to an outcome.

To view alignments for an outcome, click the arrow icon.

Each outcome displays a link for each aligned item [1], as well as your assessed mastery level for each aligned item [2].

Change Gradebook
To view the standard Assignments grades page for your course, click the Assignments link [1]. You can toggle between assignments and outcome scores at any time.

If you have more than one course, you can view grades by selecting another course name in the grades course drop-down menu [2].
How do I use the icons and colors in the Grades page?

There are different icons on the Grades page. Depending on the type of assignment submission, grading rules, and comments, you will see different icons.

- **Document Icon** [1]: File upload submitted, not graded
- **Discussion Icon** [2]: Graded discussion submitted, but not graded
- **Quiz icon** [3]: Quiz submitted, not fully graded (contains questions that must be manually graded, or an auto-submitted quiz score has been deleted and needs to be reassigned); can also display if a quiz has been edited and includes major changes that affect the quiz score, such as deleting questions or deleting quiz answers, and requires a grader to manually resolve
- **Text Icon** [4]: Text entry submitted, not graded
- **Link Icon** [5]: A URL has been submitted, not graded
- **Media Icon** [6]: Media recording submitted, not graded
Visibility Icon [7]: Score is hidden while instructor is grading; you will not be able to view your grade, submission comments, or quiz responses until your instructor posts grades for the assignment.

Note: Some external tool assignments may display a dash instead of a submission icon after you submit the assignment.

How do I approximate my assignment scores using the What-If Grades feature?

As a student, you can view your grades based on What-If scores so that you know how grades will be affected by upcoming or resubmitted assignments. You can test scores for an assignment that already includes a score, or an assignment that has yet to be graded.

Notes:

• What-If scores simulate updates to your current and final grades. Depending on the grade calculation for your course, your grades may display as a point value or as a percentage.
• Your instructor may restrict you from viewing your current and/or final grades.

Open Grades

In Course Navigation, click the Grades link.
View Current or Total Grade

View your existing grades to see how approximating scores will affect your grade.

If available, your current grade is displayed in the sidebar [1]. The current grade is calculated by adding up the graded assignments according to their weight in the course grading scheme and applies when the Calculate based only on graded assignments checkbox [2] is selected in the sidebar. This checkbox is selected in the sidebar by default.

If you want to view your total grade, deselect the sidebar checkbox. Your grade will be calculated based on both graded and ungraded assignments.
View Grading Periods

If your instructor is using grading periods, the grades page defaults to the current grading period. To change grading periods, click the **Grading Period** drop-down menu [1]. Click the **Apply** button [2].

How do I use the Inbox as a student?

The Inbox is split into two panels and displays messages chronologically. You can view and reply to conversations and sort them by course or inbox type. The Inbox itself does not have any file size limits; however, attachments added to a conversation are included in the sender's personal files.

Learn more about the Inbox.

Notes:

- If you right-click or option-click on the Inbox link, you can open your Inbox in a new browser tab to keep it handy while you are doing other tasks in Canvas.
- Users display in conversations once they have an active enrollment in the course, and users cannot join a course unless it is published.
- Once a course has concluded, you cannot message users in that course.

Open Inbox

In Global Navigation, click the Inbox link.
If the Inbox link includes a numbered indicator, the indicator shows how many unread messages you have in your Inbox. Once you read the new messages, the indicator will disappear.

**View Toolbar**

The toolbar includes global message options. To load conversations, filter your messages by course or group [1] and type [2]. Filtering by type lets you filter messages by Inbox, Unread, Starred, Sent, Archived, and Submission Comments. You can compose a message at any time using the compose icon [3].

You can also search for conversations by user in the **Search by user** field [4].

Once you have selected a conversation, you can use the other options in the toolbar to:

1. **Reply** to a conversation
2. Reply-all to a conversation
3. **Archive** a conversation
4. **Delete** a conversation
5. **Forward**, mark a conversation as read or unread, and **star** conversations
View Inbox Panels

Conversations for your selected course and Inbox filter appear in the left Inbox panel.

The Inbox is organized chronologically from newest to oldest with the newest conversations appearing on top [1] and the older conversations at the bottom.

You can manually mark a conversation as read or unread by hovering over the conversation and clicking the circle to the left of the conversation [2]. To star a conversation, hover over the conversation and click the star to the right of the conversation [3].

**View Conversation Thread**

When you select a conversation [1], all messages in the conversations thread appear in the right Inbox panel [2].

**Manage Conversation Thread**

Within each conversation, you can reply, reply-all, forward, or delete the entire conversation thread [1]. You can also hover over an individual message and use the same commands within the individual message [2].
Select Multiple Conversations

To select multiple messages to archive, delete, mark as read, mark as unread, or star, click the check box for each message [1]. You can also press the command key (Mac) or the control key (Windows) while clicking each message you want to select. In the Inbox toolbar [2], click the desired option.

To select all messages, click the command + A keys (Mac) or the control + A keys (Windows).

To select a range of messages, click the first message you want to select, hold down the Shift key, and then click the last message you want to select. All messages between the first and the last messages will be selected.

**Note:** You can also click the message check box or use the same keyboard command to deselect a message.
How do I find my unread messages in the Inbox as a student?

You can view all unread messages in your Inbox. You can also filter messages to show only unread messages.

If you want to mark a conversation as unread, click the read indicator [1]. The message will now show the unread indicator [2].
Mark Multiple Messages

You can mark multiple conversations as unread or read by pressing the command key (Mac) or the control key (Windows) while clicking multiple messages, or by selecting the message checkbox [1].

Locate and click the settings icon and choose the **Mark as unread** link [2].

If you select multiple unread messages, you will see **Mark as read** link [3].
Select Unread Conversations

To view only unread messages, open the Inbox drop-down menu [1]. Select the Unread link [2].
How do I filter conversations as a student?

You can filter the conversations in your Inbox for easier organization, especially if you are enrolled in multiple courses. Filtering conversations allows you to selectively view conversation messages by course, inbox, or user.

Open Inbox

In Global Navigation, click the Inbox link.
Filter by Course

You can filter your inbox by types of courses. Your Inbox may contain the following options:

- Current courses in your Favorites menu [1]
- Other courses that you haven’t favorited [2]
- Concluded courses [3]
- Current or concluded groups [4]

**Note:** You cannot send messages to users in concluded courses.

Filter by Inbox

You can also filter by Inbox type. By default, the Inbox displays all messages.
View Unread Messages

The **Unread** filter displays all unread conversations in your Inbox. Learn how to view and manage unread messages.

View Starred Messages

The **Starred** filter displays all starred messages in your Inbox. Starred messages are marked as important so you can locate them later. Learn how to star a message.
View Sent Messages

The Sent filter displays all your sent messages, both to individual users or multiple users.

**Note:** The Sent filter only includes sent messages from the first user to send a message in a conversation thread. Replies from recipients of the original message will appear in their Inboxes, but not in their Sent filters.

View Archived Conversations

The Archived filter displays all archived conversations. Learn how to [archive a conversation](#).

**Note:** Sent messages cannot be archived. Additionally, archived messages do not include [deleted messages](#), which are completely removed from the Inbox.
View Submission Comments

The Submission Comments filter displays all comments associated with course assignments and feedback. Learn how to reply to submission comments.

Filter by User

To filter by user, type the name of a user in the filter field [1], or browse for the course, group, or user by selecting the Address Book icon [2].
How do I star a conversation as a student?

Starring conversations allows you to see important messages at a glance.

Open Inbox

In Global Navigation, click the Inbox link.
Star and Unstar Conversations

To create a starred message, click the star icon. If you want to remove the star, click the star icon again.
View Starred Conversations

To view only starred conversations, click the Inbox drop-down menu [1]. In the drop-down menu, select the Starred link [2].

How do I send a message to a user in a course in the Inbox as a student?

In the Inbox, you can send a message to one user or multiple users in a course.

If your recipient list contains more than 100 users, your message will automatically be sent as individual messages to each user. As the sender, you will also be included in the total recipient count.

Learn more about the Inbox.

Notes:

• Currently you cannot message users in multiple courses.
• You can also send a message to yourself, but messages can only be viewed in the Sent messages folder.
• Users display in the Inbox once they have an active enrollment in the course, and users cannot join a course unless it is published.
• You cannot send messages to users in concluded courses.
In Global Navigation, click the **Inbox** link.

**Compose Message**

Click the **Compose** icon.

**Select Course**

In the Courses drop-down menu, select the course where you want to send your message. You can filter your courses by current favorite courses [1], more courses [2], or course groups [3].
Add User

To add a user, you can search for the user in the To field [1] or you can use the Course Roster [2].

Search for User

To search for a user, type the user's name in the To field. Canvas will automatically populate matching names. If multiple names appear, use the arrow key to select the user's name. Then press the Enter key. The user's name will appear in the To field, highlighted in light blue.

If you accidentally select the wrong user, press the Delete key (on a MAC keyboard) or the Backspace key (on a PC keyboard) to remove the user.

You can also hover over a user's name and click the white x to remove the user from the list.

☐ Send an individual message to each recipient

To send a message to multiple users, type the names of the users in the To field.

Note: If you have a long list of recipients, the To field will only show 5 lines before scrolling is enabled. If you select the Send individual messages checkbox, individual messages for all recipients will be created.
Use Course Roster

To select a user from the course roster, click the Address Book icon next to the To field [1]. From the address book, locate the user’s role [2] and then select the user’s name [3]. Names are arranged by last name.

To navigate back to the course roster, use the arrow icon [4].
Add Multiple Users

To send a message to multiple users in the course roster, press the command key (Mac) or the control key (Windows) and click the name of each user you'd like to add to your message. Pressing the keyboard key will keep the roster window open.
Send Message

In the subject line field [1], enter a subject line for your message.

If you are sending your message to multiple users, but you do not want each user to see who else was included in the message, click the **Send an individual message to each recipient** checkbox [2]. If your message includes over 100 recipients (including you as the sender), this checkbox will be selected by default.

In the message field [3], type your message. All content is sent in plain text. Note that if you include a URL in your message, the URL will automatically become a clickable link after you send the message.

If you want to include an attachment or media file, click the attachment or media file icons [4].

When you are finished, click the **Send** button [5].
How do I send a message to a user in a group in the Inbox as a student?

In the Inbox, you can send a message to one user or multiple users in a group.

If your recipient list contains more than 100 users, your message will automatically be sent as individual messages to each user. As the sender, you will also be included in the total recipient count.

Learn more about the Inbox.

Note:

- Currently you cannot message users in multiple groups.
- Once a course has concluded, you cannot message groups in that course.

Open Inbox

In Global Navigation, click the Inbox link.
Compose Message

Click the Compose icon.

Select Group

In the Courses drop-down menu, select the Groups option [1] and select the name of the group [2]. You can also search for a group by typing the group name in the Groups search field [3].

Note: Groups are organized in alphabetical order and display after courses in the drop-down menu.
Add Users

To add a user, you can search for the user in the To field [1] or you can use the Group Roster [2].

Search for Users

To search for a user, type the user's name in the To field. Canvas will automatically populate matching names. If multiple names appear, use the arrow key to select the user's name. Then press the Enter key. The user's name will appear in the To field, highlighted in light blue. To send a message to multiple users, type the names of additional users in the To field.

If you accidentally select the wrong user, press the Delete key (on a Mac keyboard) or the Backspace key (on a PC keyboard) to remove the user.
You can also hover over a user's name and click the white x to remove the user from the list.

Use Group Roster

To select a user from the group roster, click the Address Book icon next to the To field [1]. From the address book, locate and select the user's name [2]. Names are arranged by last name.

Note: To send a message to multiple users in the course roster, press the command key (Mac) or the control key (Windows) and click the name of each user you'd like to add to your message. Pressing the keyboard key will keep the roster window open.
In the subject line field [1], enter a subject line for your message.

If you are sending your message to multiple users, but you do not want each user to see who else was included in the message, click the Send an individual message to each recipient checkbox [2]. If your message includes over 100 recipients (including you as the sender), this checkbox will be selected by default.

In the message field [3], type your message. All content is sent in plain text. Note that if you include a URL in your message, the URL will automatically become a clickable link after you send the message.

If you want to include an attachment or media file, click the attachment or media file icons [4].

When you are finished, click the Send button [5].
How do I send a message to all course users in the Inbox as a student?

You may be able to use the Inbox to send a message to all users in a course, all users in a specific role, or all users in a group. If your recipient list contains more than 100 users, your message will automatically be sent as individual messages to each user. As the sender, you will also be included in the total recipient count.

Learn more about the Inbox.

Notes:

• Messaging all users is a course permission. If you cannot send a message to all users, your institution has restricted this feature.
• Once your course has concluded, you cannot send a message to all users.
• Users display in the Inbox once they have an active enrollment in the course, and users cannot join a course unless it is published.

How do I view Modules as a student?

Some instructors will use modules to organize the course. Modules control the entire flow of the course, along with its content.

Note: Your instructor may choose to hide the Modules link in Course Navigation. If the Modules link is not available, you can still access Module items through other areas of Canvas, such as the Syllabus or Course Home Page. Alternatively, your instructor may choose to hide all Course Navigation links except for Modules. If other Course Navigation links are not available, your instructor wants you to navigate the course using Modules.

Open Modules

In Course Navigation, click the Modules link.
View Modules

In Modules, you can view all the modules in your course. Modules are organized by order of progression.

Modules house the content items within each module.

To expand or collapse all modules, click the Expand All/Collapse All button [1].

To expand or collapse individual modules, click the module Expand or Collapse arrows [2].

If you choose to collapse or expand one or more modules, the Modules Index Page retains the state of each module.

Notes:

- The Collapse All button displays if one or more modules are expanded. The Expand All button displays if all modules are collapsed.
- The Modules page supports keyboard shortcuts. To view a window with a list of keyboard navigation shortcuts, press the Shift+Question Mark keys simultaneously on your keyboard.
Your instructor may lock a module until a specified date. Locked modules display a Locked icon [1] and an unlock date [2].

Topics this module include: Getting to know you, what does biology mean to you?, what is the scientific method?

Locked until mastery path is processed for "Biomes"

Modules can be filled with different types of content. Each module item also includes an icon with its type:

- **Page** [1]: a page of content to read
- **Discussion** [2]: a course discussion
- **Quiz** [3]: a course quiz
- **Assignment** [4]: a course assignment
- **Link or External Tool** [5]: an external link or tool to view outside of the course
- **File** [6]: a file to download or view
View Requirements

If a module includes requirements, the header shows whether you are supposed to complete all requirements or select one requirement [1].

Next to the module item, you can view the type of requirement necessary to complete the module item [2]. You must complete all required module items before you can progress to the next module. Some modules may require you to complete the module items in order.

Depending on the module item type, requirements include up to five options:

- **View**: You must view the item.
- **Mark as done**: You must mark the module item as done before you can progress to the next item.
- **Contribute**: You must post a reply to the discussion topic or contribute content to a page.
- **Submit**: You must submit the assignment, graded discussion, or quiz.
- **Score at least X**: You must submit the assignment with a minimum of the shown score.
Module items can also be used to show progression through a module. Modules and/or module items that are not available to you are grayed out.

For any module icon, you can hover over the icon and view the message for the requirement.

Icon meanings may change depending on if your course is using requirements:

- **Orange dash icon** [1]: when next to a module item, the module item is overdue. When next to the module heading, the module requirements have not been met.
- **Green check mark** [2]: the module item has been completed. For requirements, this icon means the module requirement has been met.
- **Blue info icon** [3]: the module item has been submitted, but has not yet been graded.
- **Options label** [4]: the module item requires you to choose an assignment path before additional module items can be displayed.
- **White circle** [5]: the module item has not been started.
- **Lock icon** [6]: the module is locked until a future date. For prerequisites, this icon means the previous module has not been completed so it cannot be viewed.
• **Lock message** [7]: the module may contain additional information that cannot be accessed until the name of the assignment in the message is graded.

**View Individual Module Item**

Each module contains module items. Each item includes the module item name [1]. Items will display the due date (if any) [2], and the number of points the assignment is worth [3]. If a To-Do date was added to a non-graded item, the date will display next to the module item [4].

**Note:** If your instructor has placed an unpublished quiz in the module, you will not be able to see the points possible or the quiz questions until the quiz has been published.
To begin a module, click the first item in the module.

Navigate Module

You can advance through module items or return to previous modules using the progression bar at the bottom of the page. To advance to the next module item, click the Next button [1]. To return to a previous module item, click the Previous button [2].

You can view the name of the next or previous module item by hovering over the Next or Previous button, respectively.

Note: If your instructor has enabled MasteryPaths for your course and an assignment is processing, the Next button in the modules progression bar indicates that you should refresh the page. This change notifies you about progressing to the next module item.
How do I mark a module item as done for a module requirement?

Your instructor may require you to mark a module page or assignment as completed before you can progress to the next item in the module.

Marking a content page as done means that you understand the course material in the content page and are ready to progress to the next item. Additionally, when you mark a content page as done, its associated to-do item is removed from the to-do list and the item displays as complete in the Dashboard List View.

Note: You may be able to mark online or external tool submission assignments as done. However, you must still submit the assignment for your instructor to grade.

How do I view course content offline as an HTML file as a student?

If your institution has enabled offline content, you can view your course offline as an HTML file. You can download the HTML file from the Modules page and view any content available in each module. Currently HTML files can only be generated in the browser version of Canvas and are only supported on a computer.

HTML offline content is for offline viewing only; you cannot interact with course content directly, such as completing an assignment or viewing any submissions. In the HTML file, you can view assignment details, availability dates, and point values. Discussions and quizzes only include the description. All discussion replies (graded or ungraded) are considered submissions and must be viewed online. Additionally, you can view any embedded media files in the HTML file. If a link can only be accessed online, the link includes an external icon identifying the content as online only.

Content items within modules are available if you have permission to view them. However, content items locked by modules or by date are not included in offline content and show that the content is not available.

Offline downloads include all content from the course at the time of the download. You will need to download the course each time you want to view updated course content. After the initial download, the export page shows the history of each download, and the Modules page shows the last time the content was exported.

User Guidelines

When exporting course content, you may not reproduce or communicate any of the content in the course, including exported files, without your institution's prior written permission. Please be aware of your institution's online user agreement guidelines.

Notes:

- If your Course Home Page is set to Modules, you can export course content from the Course Home Page.
- Offline content cannot be downloaded once a course is concluded.
- If your course does not allow access to the Modules page, or if your course Modules page does not display the Export Course Content button, offline content is not available in your course. However, your institution may allow you to export course content as an ePub file.

Developing the idea

In June 1776, the Second Continental Congress decided that they needed to declare independence in one fashion or another. They agreed to take a three week recess and appointed the "Committee of Five" which included John Adams, Roger Sherman, Benjamin Franklin, Robert R. Livingston, and Thomas Jefferson. After the committee discussed the general direction that the document would take, they asked Jefferson to write the first draft.

People and Groups
How do I use the People page in a course as a student?

People shows all the users enrolled in the course.

Note: The Section column may be hidden in your course.

Open People

In Course Navigation, click the People link.
View People

In People, students can:

1. View all the users participating in the course, including the ones whose course enrollment is pending.
2. Use the search bar to find a specific person.
3. Use the drop-down menu to filter users by role. The filter will also display the number of users in each type of role [e.g. student, TA].
4. Use the Options drop-down menu to view user groups or registered services in the course.
Search Users

To search for a specific user, start to type the user's name in the search field [1]. Possible results will be listed below [2].

Filter Users by Role

Use the Roles drop-down menu to view the number of users for each role type.

How do I view my course analytics as a student?

If you have permission from your institution, you can view your own analytics in an active course. Analytics show your activity and communication within the course.

Notes:

- Viewing Analytics is a course permission. If you cannot view Analytics, your institution has restricted this feature.
- If the analytics displayed in your course are different that what is displayed in this lesson, your course is using New Analytics. For more information on using New Analytics, please view the New Analytics Guide.
- Students cannot view analytics in concluded courses.

View Analytics Graphs
By default, analytics are shown in a graph format. These are four types of graphs: Activity by Date, Communication, Submissions, and Grades.

View Activity by Date

The Activity by Date graph shows all your course activity. The x-axis represents the course dates, while the y-axis represents the number of page views. Dark blue bars represent participation in the course. If a date only includes page views, the bar only displays as light blue.

The graph changes the bar display according to the length of time. Activity that is less than six months old displays bars as daily activity, at six months bars are displayed as weekly activity, and at approximately a year bars are displayed as monthly activity.

To view the details of the bar graph, hover over the specific bar you want to view. The weekly view shows the first and last date for the week; the monthly view shows the month and the year. Browser window size, zoom level, and screen resolution may also change how the bars display.

The following user actions will generate analytics course participation:

- Collaborations: loads a collaboration to view/edit the document
- Conferences: joins a web conference
- Discussions/Announcements: posts a new comment to a discussion or an announcement
- Quizzes: submits a quiz
- Quizzes: starts taking a quiz
- Assignments: submits an assignment
- Pages: creates a wiki page
View Communication

The Communication graph shows the conversations that have taken place with your instructor(s) through the Canvas Inbox. The x-axis represents the user type; orange message icons show when you sent a message to an instructor, and blue message icons show when an instructor sent a message to you. The y-axis represents the interaction date.

To view the details of the bar graph, hover over the specific bar you want to view. You can view the date of the communication and how many messages were sent. A message is an individual message passed from one user to the other; in message threads, each message is individually counted. In group conversations, interactions are counted as long as you were one of the recipients. Notifications are not included in analytics unless you acted on the notification and generated a new message that passes through the Canvas Inbox. Announcements are not included in communication analytics.
View Submissions

The Submissions graph shows the status of each of your assignment submissions. The x-axis represents each assignment, while the y-axis represents the submission date. A green circle indicates an assignment that was submitted on time. A yellow triangle indicates an assignment that was submitted late. A red square indicates an assignment that is missing (not submitted). The diamond indicates the due date and the bar extends to the submission date. A white circle with a black outline indicates an assignment with a future due date.

If a submission includes a due date, the submission may include horizontal line. The line indicates when the assignment was submitted, while the shape indicates the actual due date. If a submission was submitted before the due date, the horizontal line is green; if it was submitted after the due date, the horizontal line is yellow. Submissions without a horizontal line either have no due date, or the assignment was submitted on the due date.

To view the details of the bar graph, hover over the specific bar you want to view. Current and past assignments include the assignment title, the due date (if any), the submission date, and the score. Future assignments include the assignment title, due date (if any), and the score.

Note: The Submissions chart does not include information about assignments that do not require a submission (e.g., not graded, on paper assignments) or excused assignments.
The Grades graph shows the median, high, and low scores for each of your assignments. The x-axis represents each assignment, while the y-axis represents the number of points for an assignment. The vertical black line extends from the highest score to the lowest score [1]. The gray box extends from the 75th percentile to 25th percentile [2]. The horizontal black line shows the median score for the assignment [3].

Each assignment score is indicated by the same shapes found in the Submissions graph. A green circle indicates an assignment with a score at or above the course median. A yellow triangle indicates an assignment with a score slightly below the median. A red square indicates an assignment with a score below the median or at the bottom of the score range.

To view assignment names and details, hover your cursor over the graph [4].

View Analytics Tables
To view analytics without hovering over graph columns, you can view all data in a table format. To switch to the table format, click the Analytics icon. The icon will switch from the left side to the right, indicating the current analytics view.

Groups listed under the Previous Groups heading are groups that are part of courses that have concluded. Students cannot view group material nor interact with the group after the course is concluded.

**Note:** Some institutions may not allow previous groups to display in the Courses page.
How do I join a group as a student?

You can sign up for a group in your course if your instructor has enabled the self sign-up option.

**Note:** If your instructor has disabled the People link in Course Navigation, you cannot join a group.

Open People

In Course Navigation, click the **People** link.

View Groups

To access your User Groups, click the **Groups** tab [1].
You can also access your User Groups through the Options menu. Click the Options icon [2] and click the View User Groups link [3].

**Join Group**

Next to the name of an available group, click the Join link.

**Verify Group Sign Up**

A message appears at the top of your browser verifying you signed up for the group.
How do I leave a group as a student?

If you are able to join a group in your course, you can leave the group at any time. You cannot leave groups that are not self sign-up groups.

When a course is concluded, all associated groups will be shown as previous groups in your groups list.

Open People

In Course Navigation, click the People link.

View Groups

Click the Groups tab.
You can also access your User Groups through the Settings menu. Click the **Options** icon [1] and click the **View User Groups** link [2].

**Leave Group**

Next to the name of an available group, click the **Leave** link.
Verify Group Removal

A message appears at the top of your browser verifying you left the group.
How do I create a group as a student?

As a student, you can create your own Student Groups for study groups, discuss an assignment, etc. You can be part of more than one student group.

Note: If you cannot see the People tab in your course, or if you cannot see the Add Group button, your instructor has restricted this feature.

Open People

In Course Navigation, click the People link.

View Groups
Click the **Groups** tab.

You can also access your User Groups through the **Settings** menu. Click the **Options** icon and click the **View User Groups** link.

**Add Group**

Click the **Add Group** button.
Choose Group Membership Option

Name the group by typing in the group name field [1].

Determine who can join the group by clicking the Joining drop-down menu [2].

**Course Members are Free to Join**

If you want anyone in the course to join your group, choose the Course members are free to join option.
Membership by Invitation Only

If you want to create a group with only specific people in your course, choose the Membership by invitation only option.

Invite Users

Invite users to join the group by clicking the checkbox next to each user's name. Users are listed alphabetically by last name.

Notes about invitations and group membership:

- If you set the group membership option so that anyone can join, but you choose to select only a few of the students to invite to the group, the remaining students who were not invited can see the group in the student group list and can join the student group later.
- If you set the group membership option as invitation only, students who were not invited will not be able to see the group in the student group list. If you want to add a new user to an invitation-only group at a later time, contact your instructor for assistance.
Save Group

Click the Submit button to create a new group.

View Group

The new group you created will now appear in your course groups.
Edit Group Details

If you need to change the details of your group later, such as renaming the group you created, click the Edit Group [1] button.

To switch between groups you have created, click the Switch Groups [2] link.
How do I upload a file to a group?

You can share files with members of your group.

Notes:
- Canvas does not support file uploads larger than 5 GB.
- All files added to the group will be accessible to all group members.

Open Files

In Group Navigation, click the Files link.
View Files

Once you click the Files navigation link, you will see where all the files are located for the group.

Add Files

Click the Upload button to add new files to the group.
Choose File to Upload

Find the file you want to upload to the group. Click the Open button once to upload the file.
View Group Files

Once you upload the file you selected, it will show up in the Files section of the group navigation. This way all the group members will be able to access the file.
How do I start a collaboration in a group?

You can create collaborations within your groups. Canvas defaults to using Google Docs. Google Docs allows you to add up to 50 users per collaboration, and all users can view and edit a document at the same time.

Depending on your institution's preference, you may be able to create a Google Drive collaboration or create a Microsoft Office 365 collaboration in groups as well.

How do I close a discussion for comments in a group?

Students can close discussions for comments if they meet the following conditions:

1. They are the creator of the discussion.
2. There are no replies to the discussion.

Note: Once a discussion is closed for comments, only instructors can re-open it.

Open Discussions

In Group Navigation, click the Discussions link.

Profile and User Settings
How do I edit my profile in my user account as a student?

Some institutions may enable a feature in Canvas called Profiles. Profiles allows you to update your name, preferred contact methods, and any personal links for your account. Your profile information can be viewed by all users in your courses.

**Note:** If you do not see the Profiles tab in your user navigation menu, this feature has not been enabled for your institution.

Open Profile

In Global Navigation, click the **Account** link [1], then click the **Profile** link [2].
Click the Edit Profile button.
Edit Profile Picture

To upload a profile picture, click the profile picture icon.

Note: Profile pictures are a separate permission from profiles. If you do not see a placeholder picture, your institution has not enabled this feature.

Edit Name and Title

If you are allowed to change your name, type your name in the name field [1]. Type your title in the title field [2].
Add Contact Methods

Contact

Check the contact methods you'd like to be visible to others on your profile.

Manage Registered Services

If you have connected to any web services, click the checkbox underneath the web service to indicate how you wish to be contacted via that service [1]. To add additional services, click the Manage Registered Services link. Please note that any selected services will not be shared with other course/group members unless you have previously selected the sharing checkbox in the Manage Registered Services page.

The Discussion icon [2] automatically appears as a contact method for Admins so users can contact them through Canvas Conversations. It cannot be selected by any other users.

Note: As created in your user profile, email addresses do not appear as a contact method and are only used for Canvas notifications. Canvas users should contact each other via Conversations.

Edit Bio

Type your biography in the bio field. You can add hobbies and interesting facts about yourself.
Edit Links

To add personal links to your profile, such as personal websites, blogs, or portfolios, enter the title of the link in the title field [1]. Type the URL in the URL field [2]. Click the remove icon to delete the link [3]. Click the Add another link button to add another link [4].

Save Profile

Click the Save Profile button.
How do I add a profile picture in my user account as a student?

If your institution has enabled profile pictures, you can add and change profile pictures in your account. If you do not see a placeholder picture in your user settings, your institution has not enabled this feature.

There are three ways you can select a profile picture to use throughout Canvas:

- **Upload a Picture** from your computer
- **Take a Picture** using your computer’s camera (not supported when using Safari or Internet Explorer)
- **Import from an existing Gravatar account** (this feature may be restricted by your institution and only G-rated images are supported)

Tips for profile pictures:

- Please choose an appropriate picture to represent yourself. Your institution has the right to remove pictures that are not appropriate for a classroom setting.
- Images should be square in size to prevent your picture from being resized or distorted.
- Files can be any type (.jpg, .png, .gif) or size as long as you have room in your personal files to store the file. Canvas recommends that your profile picture be as small as possible.
- Your personal files quota is enforced when uploading a profile picture. If you do not have enough storage space in your personal files, you will not be able to upload your profile picture. Create more space by removing some files in your personal files.

How do I change the settings in my user account as a student?

Depending on how your Canvas account was created, you may be able to make changes to your name, **pronouns**, default email, **language**, **time zone**, and **password**.

- Setting a chosen language will override any default language settings across your institution; however, any language set in a course will override your user language.
- Your institution may take care of updating or changing your password by using the password associated with your login credentials for Canvas.
- Users associated with a SIS ID cannot delete their own account.

**Note:** Some settings may not be available to you. If you are not able to edit your user settings, you will need to contact your institution to change this information.

Open User Settings

In Global Navigation, click the **Account** link [1], then click the **Settings** link [2].
Click the **Edit Settings** button.
Change Settings

If enabled, edit the appropriate settings:

- **Full Name** [1] is used for the Gradebook and Grades pages, Chat, People, and SIS imports.
- **Display Name** [2] is how other users will see your name in Announcements, Conferences, Conversations, and Discussions.
- **Sortable Name** [3] defaults to your last name, first name and appears in sorted lists so admins can search for it.
- **Pronouns** [4] display after your name in various areas throughout Canvas.
- **Default Email** [5] can be set when you have multiple Notification email addresses associated with your account.
- **Language** [6] can be set to your native language and is the language you want to use in Canvas (does not apply if an instructor sets a specific language for a course).
- **Time Zone** [7] can be set to where you are located and displays assignments in your local time.
- **Password** [8] is the combination of characters you choose to use to log in to your Canvas account.

**Note:** Some settings may not be available to you. If you are not able to edit your user settings, you will need to contact your institution to change this information.
Update Settings

Click the Update Settings button.
How do I change the language preference in my user account as a student?

English is Canvas' language default, but you can choose to view the Canvas interface in another language.

Notes:

• Instructors have the option to change the language preference for their courses. If you enroll in a course where the instructor has made this change (most often for a foreign language course), the course language will override the language in your user settings.
• If you change your language or locale preferences, the Calendar week start date may also change. Certain languages or locales change the Calendar week start date to Monday.

How do I select personal pronouns in my user account as a student?

If enabled by your institution, you can select personal pronouns to add to your user account. Personal pronouns display after your name in various areas in Canvas, including:

- Comment Fields
- Discussions
- Inbox
- People Page (Course and Groups)
- User Navigation Menu
- User Profile Page
- User Settings Page

Notes:

- If you cannot view pronouns in your User Settings, your institution has not enabled this feature.
- LTI tools, such as New Quizzes and Analytics, do not currently support displaying pronouns.

Notes:
- If the Pronouns drop-down menu does not display in your User Settings, your institution has not enabled this feature.
- Pronoun options are managed by your institution. You cannot add pronoun options.

Update Settings

Click the Update Settings button.
You can view your personal pronouns in your User Settings [1]. Your personal pronouns will also display after your name in many areas throughout Canvas [2].
How do I set a time zone in my user account as a student?

All dates and times throughout your Canvas courses are displayed according to a course's respective time zone. However, you can set your own time zone for your user account and have your local time zone display throughout Canvas. Displaying dates in your local time may help you stay up to date on assignments and due dates, especially if your course time zone differs significantly from where you reside.

Note: If you set a time zone in your user settings, you can always view the course time zone by hovering over any date and time in your course. The text will show both the local time and course time.

Open User Settings

In Global Navigation, click the Account link [1], then click the Settings link [2].

How do I change my login password as a student?

You may be able to change your password in your profile settings.

If you do not have access to change your password, your password is controlled through your institution. Contact your institution to learn how to change your password.

If you can change your password, there are no password reset intervals, so you can change your password as little or as often as you want. However, you can keep strong passwords effective by changing them often. Here are some good password guidelines:

- Use at least eight characters (the more the better), but most people will find anything more than about 15 characters difficult to remember.
- Use a random mixture of characters, upper and lower case, numbers, punctuation, spaces and symbols.
- Don’t use a word found in a dictionary, English or foreign.

Note: If you forget your password, you may be able to reset it. Learn how to reset your password.

How do I add contact methods to receive Canvas notifications as a student?

In Canvas you can add contact methods to receive notifications. Contact methods allow you to select how you want to be notified when various events occur within a course. Notifications are applied to all courses in Canvas. Canvas supports notification through email, Slack, and various web services.

Once you add contact methods, you can set your own Notification Settings to select how often you want to be notified of course events.

Canvas does not send notifications to communication channels that have bounced, which means the channel can no longer attempt to generate or send a notification. Bounces can occur from invalid addresses (caused by address typos, changed addresses, etc.) or blocked servers.

In User Settings, Canvas may display the following icons to indicate a contact method's status:

- **Warning** [1]: indicates a bounced contact method. To correct the error, you can remove then re-add the contact method to your profile.
- **Check Mark** [2]: notifies you of an unconfirmed email address.

How do I add an additional email address as a contact method in Canvas as a student?

When you create a contact method in Canvas, you can use that contact method as a way to receive Canvas notifications. By default, notifications are sent to the email address used to create your Canvas account. However, you can add an additional email address if you do not want to use your existing email address or want to use an additional email for notifications.

Learn how to set notification settings.

Open User Settings

In Global Navigation, click the Account link [1], then click the Settings link [2].

How do I manage my Canvas notification settings as a student?

Canvas includes a set of default notification settings you can receive for your courses. However, you can change the default settings by setting your own notification settings. These settings only apply to you; they are not used to control how course updates are sent to other users. To learn more about each notification, default settings, and notification triggers, view the Canvas Notifications PDF.

Notifications are sent as one of four delivery types: notify me right away, daily summary, weekly summary, or don't send. If you change a setting, the change is made immediately to your account.

Notification settings apply to all of your courses unless you set notification settings for individual courses.

You may be able to reply directly to email notifications outside of Canvas. Replies are updated in the Canvas Inbox. However, please be aware that attachments added as part of an external reply are not included with the message shown in Canvas.

Notes:

- Notifications are sent to Canvas contact methods as specified in your account. You cannot receive notifications if your contact methods are unconfirmed. If you are not receiving Canvas notifications, please confirm your Canvas contact methods.
- The Canvas Student app supports setting notification settings. However, managing settings inside the app will override settings in the browser version of Canvas.
- You may be able to select notification settings for an individual course. Learn more about managing notifications for a single course.
Open Notifications

In Global Navigation, click the **Account** link [1], then click the **Notifications** link [2].
View Account Notification Settings

On the Notification Settings page, you can manage notification settings for your Canvas account and/or manage notification settings for individual courses using the Settings for dropdown menu.

By default, the Settings for dropdown displays the Account option [1]. Account-level notification settings apply to all of your Canvas courses, however, any course-specific notification settings override account notification settings [2].

View the account-level notification types [3] and your listed contact methods [4].

To view details for a notification, hover over the notification name.
Manage Notification Settings

Each notification is set to a default setting. To change a notification for a contact method, locate the notification and click the icon for the contact method [1].

To receive a notification right away, select the Notify immediately option [2]. These notifications may be delayed by up to one hour in case an instructor makes additional changes, which prevents you from being spammed by multiple notifications in a short amount of time.

To receive a daily notification, select the Daily summary option [3].

To receive a weekly notification, select the Weekly summary option [4]. The date and time of your weekly notifications are posted at the bottom of the notifications page.

If you do not want to receive a notification, select the Notifications off option [5].

Unsupported notification types display the Unsupported icon [6]. Unsupported notification types cannot be enabled.

Notes:
- Each set notification setting will automatically apply to all of your courses. However, if you manage notification settings for a single course, notifications for that course must continue to be managed in the course.
• Twitter notification settings do not support daily summary or weekly summary options.
• Unregistered contact methods will appear in notification settings but will not receive notifications until you confirm the registration.

How do I manage notifications for a single course as a student?

This lesson shows how to manage notification settings from your account Notifications page. You can also access course notifications by clicking the View Course Notifications button from the Course Home Page. Course notification settings only apply to the course in which they are set. To receive course notifications, you must first set your Canvas notification settings.

Note: Once a notification setting is changed in your course, the course notification setting will override settings set in your Account Settings. You must continue to manage that notification type within your course.

Open Notifications

In Global Navigation, click the Account link [1], then click the Notifications link [2].
Open Course Notification Settings

You can manage notification settings for your Canvas account and/or for individual courses.

To manage notification settings for an individual course, click the Settings for drop-down menu [1]. Then click the course name [2].
Open Notifications from Course Home Page

Alternatively, you can access course notifications from the Course Home Page by clicking the View Course Notifications button.
View Course Notification Settings

A banner displays reminding you that course-level notifications override any account-level notifications you may have set [1].

To enable or disable all notifications for the course, click the Enable Notifications toggle [2].

View the course-level notification types [3] and your listed contact methods [4].

Each notification has a default delivery frequency setting. To view the current notification delivery frequency for a notification type and contact method, hover over the notification icon [5].

To manage notification frequency for a course notification, locate the notification and contact method. Then click the notification icon [1]. You can select one of four delivery frequency types:

- **Notify immediately** [2]: receive these notifications right away for this course. *These notifications may be delayed by up to one hour in case an instructor makes additional changes, which prevents you from being spammed by multiple notifications in a short amount of time.*
- **Daily summary** [3]: receive a daily summary for this notification type.
- **Weekly summary** [4]: receive a weekly summary for this notification type.
- **Notifications off** [5]: no notifications sent for this notification type.

View Course Notifications Status

You can view your course notification status on your course home page. The View Course Notifications button icon displays if course notifications are enabled [1] or disabled [2].
How do I merge my user account with an account using the same email address as a student?

If you have an email address registered in two Canvas accounts, you can merge these accounts. Merging accounts combines the logins, contact methods, and enrollments for the two accounts.

The icon to complete this process will only appear in User Settings if there are two or more email addresses on the account and the email address that appears on both accounts has been registered.

In order to complete this process, you must have the Canvas username and password for both accounts.

Notes:
- If you cannot merge accounts, this option has not been enabled by your institution.
- Merging user accounts cannot be undone.

How do I change my default email address in my user account as a student?

Your default email address is used as your main contact method in Canvas and is added when creating your Canvas account. Email addresses are used to create Canvas notifications; they are not used as a contact method for other Canvas users.

If you add another email address as a contact method, you can change your default email address in Canvas.

Open User Settings

In Global Navigation, click the Account link [1], then click the Settings link [2].
View Email Addresses

In the Ways to Contact sidebar, under Email Addresses, you can tell what email address is your default by the star icon next to the email address.

Choose Default Email Address

To choose a new default email address, hover over the email address and a faint star icon will appear. Click the star icon.
How do I reset my password as a student?

If you created your own Canvas account, you can reset your password through a link in the password request email.

If your login credentials were provided to you by your institution, you may not be able to reset your Canvas password on your own. Additionally, if you log in to Canvas using your institution's authentication system, you may need to reset your password using your institution's website. If you request a password reset and the email does not have a password reset link, it will include your Canvas email address and the institution that provided you with your password. To change or verify your password, contact the system administrators at your institution.

Notes:

- A password reset email may take up to five minutes to arrive in your email inbox.
- Password reset emails expire after two hours.
- If you can log in to Canvas and want to change your password, please visit the How do I change my login password as a student? lesson.

Email Errors

If you enter your email address and never get a password reset email, review the following password tips.

- Have you typed your email address correctly? Sometimes email addresses can be misspelled.
- Are you accessing the correct Canvas URL? You will not get the reset email if you are trying to reset your password on a site where you are not enrolled (such as canvas.instructure.com instead of myinstitution.instructure.com).
- Is your Canvas email sponsored by your institution? If your email address is part of a campus firewall system that blocks emails from mass senders, you won't be able to receive the email. Contact your institution's IT department for assistance.
- Are you the owner of your email address? If your email address is owned by someone else and you can't receive email for that address, you won't be able to get the reset email. Contact the owner of the email address for assistance.
Reset Password

In a new browser window, open to your Canvas login page. Click the **Forgot Password?** link.

**Note:** If your login screen does not show the password reset link, contact your institution for assistance.
Request Password

Enter the login information associated with your Canvas account and click the Request Password button.

**Note:** The password reset field verifies password reset information by user login. Depending on your institution, login information may vary.

View Password Recovery Notification

Your password recovery instructions will be sent to jessica.doe.canvas@gmail.com. This may take up to 30 minutes. Make sure to check your spam box.

A notification displays stating that it may take up to 30 minutes to send password recovery instructions to your email and you may need to check your spam folder to locate the email.
Check Email

Return to your email account and sign in. Open the Forgot Password email. (If the email is not in your Inbox, check your Spam folder.)

If your user login is associated with multiple email addresses, password reset instructions will be sent to each address.

How do I view course content offline as an ePub file as a student?

If one or more of your courses have enabled ePub exports, you can view your course offline as an ePub file. You can download the ePub file and upload it into any eReader software for viewing, such as iBooks or Azardi.

ePub content is for offline viewing only; you cannot interact with course content directly, such as completing an assignment or viewing any submissions. In an ePub file, you can view assignment details, availability dates, and point values. Discussions include the discussion topic. All discussion replies (graded or ungraded) are considered submissions and must be viewed online. Additionally, you can view any embedded media files in the ePub. Any files that aren't supported in the ePub format, such as file attachments or PDFs, can be downloaded to be viewed in the file’s native environment.

Currently ePub files and any associated files can only be generated in the browser version of Canvas, but the files can be transferred for viewing on any supported device.

Depending on the course setup, the ePub may be organized by modules or content type (assignments, discussions, quizzes, etc.). When viewing by module, only items you have access to view in each module will be included in the ePub file. Locked modules list either their prerequisites or the unlock date, as well as the items that are contained within that module (though not the actual content of those items themselves).

Notes:

- You cannot download ePub files for concluded courses.
- If you can view the Download Course Content button but cannot download an ePub file for a specific course, the feature has not been enabled for that course.
- If your account does not display the Download Course Content button, your institution may only allow you to export content offline as an HTML file in Modules.

How do I generate a pairing code for an observer as a student?

As a student, you can generate a pairing code to link an observer to your Canvas account. You must create a separate pairing code for each observer who wants to link to your account. For more information on pairing codes, view the Pairing Codes - Frequently Asked Questions PDF.

An observer may be your parent, guardian, mentor, counselor, or another individual who needs to view your Canvas courses. Linked observers can view and participate in certain elements of your Canvas courses. For more information on the observer role, view the Observer Visibility and Participation PDF.

Note: If you are an observer and want to generate a pairing code for a student, you will need to log in to the student’s Canvas account and follow the steps in this lesson. After you have copied the pairing code, you can link to the student by entering the code in your User Settings.

Open User Settings

In Global Navigation, click the Account link [1], then click the Settings link [2].
Pair with Observer

Click the Pair with Observer button.

**Note:** If the Pair with Observer button doesn't display in your User Settings, please contact your institution for assistance with pairing with an observer.

**Copy Pairing Code**

**Pair with Observer**

Share the following pairing code with an observer to allow them to connect with you. This code will expire in seven days, or after one use.

EcYkrK
Copy the six-digit alphanumeric pairing code [1]. You will need to share the code with the observer who will link to your account. The pairing code will expire after seven days or its first use.

To close the window, click the OK button [2].

Note: Pairing codes are case sensitive.
How do I add a text (SMS) contact method in Canvas as a student?

If your institution allows, you may be able to add a text or SMS communication channel to receive Multi-Factor Authentication codes (if enabled for your account) on your cell phone. Text or SMS channels appear under the Other Contacts sidebar heading.

SMS notifications are currently available for cellular numbers registered in Afghanistan, Argentina, Australia, Austria, Belgium, Bolivia, Brazil, Canada, Chile, China, Colombia, Costa Rica, Denmark, Dominican Republic, El Salvador, Finland, France, Germany, Guatemala, Honduras, Hong Kong, Hungary, Iceland, India, Indonesia, Ireland, Israel, Italy, Japan, Kazakhstan, Kenya, Luxembourg, Malaysia, Mexico, Netherlands, New Zealand, Norway, Oman, Pakistan, Panama, Paraguay, Philippines, Poland, Qatar, Russia, Rwanda, Saudi Arabia, Singapore, South Africa, South Korea, Spain, Sweden, Switzerland, Taiwan, Thailand, Trinidad and Tobago, United Arab Emirates, United Kingdom, United States of America, Uruguay, Venezuela, and Vietnam.

Notes:

- Standard text message rates may apply.
- SMS is only used for Multi-Factor Authentication (if enabled for your account).
- If notifications are not enabled by your institution or are not available in your country, you can use the Canvas Student app and receive push notifications.
Open User Settings

In Global Navigation, click the **Account** link [1], then click the **Settings** link [2].
Add Contact Method

In the Other Contacts section, click the Add Contact Method link.
If you are in the United States, enter your 10-digit cell phone number [1], and select your cell phone carrier [2]. The SMS Email field [3] will auto-populate your SMS email address.

Click the Register SMS button [4].

Note: SMS is only used for Multi-Factor Authentication (if enabled for your account).
Register SMS: International

If you're located outside the United States, you may be able to select your country or region [1] and enter your cell number [2]. To register your number, click the Register SMS button [3].

Notes:

- International SMS must be enabled by your institution. If you cannot select a country, this feature is not available to you.
- SMS is only used for Multi-Factor Authentication (if enabled for your account).
Confirm SMS Number

Check your cell phone for a confirmation code from canvas. Enter the code into the text field [1]. To resend the confirmation again, click the **Re-Send Confirmation** link [2]. Click the **Confirm** button [3].

How do I set up multi-factor authentication for my user account as a student?

Your institution may enable multi-factor authentication for your user account. Multi-factor authentication adds security to your account by verifying you are the user accessing your account. Multi-factor authentication may be optional or required.

You must have a mobile device to set up multi-factor authentication for your user account. Your device must be able to send text (SMS) messages, or if you have a smartphone, you can download the Google Authenticator app for iPhone or Android.

**Note:** This lesson shows how to set up multi-factor authentication if it is an optional setting in your user account. However, if multi-factor authentication is **required** by your institution, you will be shown the multi-factor authentication page directly after you log in to Canvas.

Open User Settings

In Global Navigation, click the **Account** link [1], then click the **Settings** link [2].
Set Up Multi-Factor Authentication

Click the Set Up Multi-Factor Authentication button.

Verify via Google Authenticator

To verify multi-factor authentication with Google Authenticator, download the app for your device (iPhone or Android) [1]. Use the app to scan the QR code and generate a code. Enter the code in the Verification Code field [3].

If you want multi-factor authentication to remember the computer you are using to log in to Canvas, click the Remember this computer checkbox [4].
Click the Verify button [5].

**Verify via Text Message**

Multi-factor Authentication

You are required to set up multi-factor authentication.

Multi-factor authentication increases security by requiring that you have something in your physical possession, in addition to knowing your password, in order to log in to Canvas. This can be a device that can generate verification codes, or a phone that can receive text messages. The Google Authenticator app for iPhone or Android can be configured by scanning the QR Code below. Other tokens can be configured by entering the secret key found on the authenticator. Once you have configured multi-factor authentication, it is recommended that you go to your profile page and print out a set of back-up codes, in case your normal multi-factor device is unavailable.

Send text messages to 1234567890@tmomail.net

Please enter the verification code shown by your token.

Verification Code: 

[ ] Remember this computer

To verify multi-factor authentication via text message, any existing SMS notification type displays in the drop-down menu [1]. This is the number where your multi-factor verification code will be sent. To select a new text (SMS) number, select the drop-down menu and enter the option to add a new phone number. You will need to know the phone number and mobile carrier (provider).

Once you have set up your new phone number, or selected an existing phone number, click the Send button [2]. Your mobile device will receive a verification code. Enter the code in the Verification Code field [3].

If you want multi-factor authentication to remember the computer you are using to log in to Canvas, click the Remember this computer checkbox [4].

Click the Verify button [5].
Manage Multi-Factor Authentication

Once multi-factor authentication is enabled, your User Settings page may display additional options to manage your authentication.

You can choose to create multi-factor authentication codes to use as backup in case your authentication device is not available [1]. This option is available to all users with multi-factor authentication.

If multi-factor authentication is *optional* for your account, you can also choose to reconfigure authentication [2] or disable authentication [3].
How do I manage API access tokens as a student?

You can manage API access tokens from your User Settings. Access tokens provide access to Canvas resources through the Canvas API. Access tokens can be generated automatically for third-party applications or created manually.

Using the Canvas API allows the access token holder to access the same Canvas resources that you can access. For example, third-party applications, including devices you have used to open the Canvas Student app, are authorized to access Canvas on your behalf. For more information on using the Canvas API, view the Canvas API documentation.

Open User Settings

In Global Navigation, click the Account link [1], then click the Settings link [2].
Third-party applications with access tokens and user-generated access tokens are listed in the Approved Integrations section [1].

For each access token, you can view the name [2], purpose [3], expiration date [4], and date of last use [5].

**Note:** Mobile access tokens are generated for you when you log in to a Canvas mobile app and never expire. To remove access for a mobile application, the access token must be deleted.

Generate an Access Token

Access tokens are what allow third-party applications to access Canvas resources on your behalf. These tokens are normally created automatically for applications as needed, but if you’re developing a new or limited project you can just generate the token from here.

- **Purpose:** Enter a description for your access token in the Purpose field [1].
- **Expires:** Select an expiration date by clicking the Calendar icon [2]. To generate a token with no expiration, leave the Expires field empty.

To generate a new access token, click the **Generate Token** button [3].

How do I view a QR code to log in to the Canvas mobile apps as a student?

You can view a Canvas login QR code in your Canvas web browser. You can scan this QR code with your mobile device to log in to the Canvas Student app without entering your institution URL and user credentials.

While you would most likely use the QR code to access the Canvas Student app, the code can also be used to log in to the Teacher app or Parent app if you have been assigned an instructor or observer role in a course.

Notes:

- If you cannot view QR codes, your institution has not enabled this feature.
- QR codes should be kept as confidential as passwords.
- No other users should be in the surrounding area to capture the QR code.
- Codes should also never be generated while sharing a screen via a screen sharing service.

Open QR Code

In Global Navigation, click the Account link [1], then click the QR for Mobile Login link [2].
Note: If you cannot view the QR for Mobile Login link, your institution has not enabled this feature.

Confirmed QR Code Display

Sharing a QR code can give others immediate access to your account through the Canvas mobile applications.

Please make sure no one is able to capture the image on your screen from your surroundings or from a screen sharing service.

Click "Proceed" to continue.

Click "Cancel" if you don't want the code displayed.

To display your mobile login QR code, click the Proceed button.
View your QR code. The QR code can be scanned from the login page of the Student app from an Android device or an iOS device.

**Note:** Mobile login QR codes expire 10 minutes after they are generated.
What feature settings can I enable in my user account as a student?

Canvas is continually creating new features to improve your user experience. The majority of improvements will be made available as part of our regular release cycle. However, some features may affect your personal interaction with Canvas. Learn more about User Feature Settings and how to enable them in the [manage new features](#) lesson.

Auto Show Closed Captions

- **Auto Show Closed Captions**
  
  Automatically show closed captions in the user's current language (if available) when playing canvas media.

*By default, this feature is set to Off.*

The **Auto Show Closed Captions** feature setting allows you to enable captions added to videos by default for your Canvas account.

**Note:** Videos embedded from third-party tools, such as Youtube, are not supported. Additionally, embedded Canvas Studio videos are not yet supported.

Disable Alert Notification Timeouts

- **Disable Alert Notification Timeouts**

  Enabling this feature gets rid of the timeout for alert notifications that pop up, giving the user as much time as they need to read the notification over and dismiss it when they are finished.

*By default this feature is set to Off.*

The **Disable Alert Notification Timeouts** feature setting prevents alert notification pop-ups from timing out. When this feature setting is enabled, alert notifications in Canvas display until you manually dismiss the alert.
Disable Celebration Animations

By default this feature is set to Off.

The Disable Celebration Animations setting allows you to turn off all celebration animations. The Celebration feature must be enabled by a Canvas admin at your institution. If this feature is not enabled, the Disable Celebration Animations setting will not display in your user Feature Settings. Learn how to manage celebrations.

Disable Keyboard Shortcuts

By default this feature is set to Off.

The Disable Keyboard Shortcuts feature setting allows you to disable keyboard shortcuts in Modules, Discussions, the Gradebook, and SpeedGrader. Other areas of Canvas will be updated at a future date.

This setting allows users who rely on screen readers or keyboard navigation to control their experience in Canvas with keyboard shortcuts.

High Contrast UI

By default this feature is set to Off.

High Contrast UI enhances the color contrast of the UI (text, buttons, etc.), making those items more distinct and easier to identify. Note: Institution branding will be disabled.
The **High Contrast UI** feature setting allows you to view Canvas using high contrast styles. This feature enhances the color contrast of the user interface (text, buttons, etc.) so they are more distinct and easier to identify in Canvas. However, institutional branding is not supported when this feature is enabled, so you will not be able to view the institution's logo or other elements.

You can also enable **High Contrast UI** from your User Navigation Menu.

**Microsoft Immersive Reader**

- Microsoft Immersive Reader
  
  Enables the Microsoft Immersive Reader button in supported areas of Canvas. The button may still be enabled in a course regardless of this setting if the account administrator has turned it on for all users.

*By default this feature is set to Off.*

The Microsoft Immersive Reader enhances accessibility and comprehension for any reader. When enabled, the course home page, assignments, pages, and syllabus display an Immersive Reader button.

Microsoft Immersive Reader is available for you to enable individually, regardless of the preference set at the account level. However, if the feature is on for the entire account, the account preference overrides your user preference, and your user setting has no effect.

To learn more about this feature, see the [Microsoft Immersive Reader website](#).

**Underline Links**

- Underline Links
  
  Underline Links displays hyperlinks in navigation menus, the Dashboard, and page sidebars as underlined text. This feature option does not apply to user-generated content links in the Rich Content Editor, which always underlines links for all users.

*By default this feature is set to Off.*
The **Underline Links** feature setting allows you to view Canvas interface links as underlined text. When enabled, this feature underlines hyperlinks in navigation menus, the Dashboard, and page sidebars. This feature setting does not apply to user-generated content links in the Rich Content Editor, which always underlines links for all users.

**CSV Separator Preferences**

You can set how you want to view separators in CSV export files, depending on your locale or preference.

*Separator settings are managed through one of three feature settings in User Settings. These settings only apply to compatible spreadsheet exports.*

**Autodetect Field Separators in Compatible Spreadsheet Exports**

> Autodetect field separators in compatible spreadsheet exports
> 
> Attempt to detect an appropriate field separator in compatible spreadsheet exports based on the number format for your language.

The **Autodetect field separators** feature setting attempts to determine the appropriate field separator as indicated by the language set in the user’s account. For languages where the decimal separator is a dot, (e.g. 1,234.56), autodetection will choose a comma as the field separator. For languages where the decimal separator is a comma, (e.g. 1.234,56), autodetection will choose a semicolon as the field separator. For all other cases, autodetection will choose a comma as the field separator as a default.

**Note:** This feature is automatically disabled if the Use semicolons to separate fields setting is enabled.

**Include Byte-Order Mark in Compatible Spreadsheet Exports**

> Include Byte-Order Mark in compatible spreadsheet exports
> 
> Optionally include a byte-order mark in compatible spreadsheet exports so they can be imported into Excel for users in some locales.

The **Include Byte-Order Mark** feature setting generates a specific set of three characters at the beginning of the CSV file. These characters, known as a byte-order mark, help some versions of Microsoft Excel understand that the CSV file is a UTF-8 encoded file. It also tells some localized versions of Excel that they should treat the incoming CSV file as if it were semicolon-separated.
by default. Because some versions of Excel do not understand or honor the byte-order mark, this feature allows all users to disable generation of this byte-order mark.

**Use Semicolons to Separate Fields in Compatible Spreadsheet Exports**

- **Use semicolons to separate fields in compatible spreadsheet exports**
  - Use semicolons instead of commas to separate fields in compatible spreadsheet exports so they can be imported into Excel for users in some locales.

The **Use semicolons to separate fields** feature setting generates CSV files with semicolons as the field separators instead of the default comma. When disabled, this feature falls back to behavior determined by the state of the Autodetect field separators setting.

**Note:** This feature is automatically disabled if the Autodetect Field Separators setting is enabled.

Features may also include a beta tag [2], which means the feature is available for use in your production environment but is still being tested for usability and accessibility behavior. The first dates you may see are called availability dates. Sometimes your instructor only wants you to submit a quiz during a specified date range, so the available dates are the range of time that the quiz is accessible to you.

1. If the quiz does not have a date listed, the quiz is open; you can complete the quiz at any time during your course.
2. If the quiz says **Available until** [date], you can complete the quiz until the specified date.
3. If the quiz says **Not Available Until** [date], the quiz is locked until until the specified date.
4. If the quiz says **Closed**, the quiz cannot accept quiz submissions.

If you start a quiz but do not submit it, Quizzes includes an autosubmit feature that will submit the quiz for you on the **Available until** quiz date. If a quiz does not include an Available until date, the quiz will autosubmit on the last day of the course.

**Note:** If a date does not include a time, the listed date defaults to 12 am. Therefore, the last day for the quiz is the full day before the listed date. For instance, if a quiz is Available until August 22, you can access the quiz until August 21 at 11:59 pm, which in this example is the same date as the Due date.
View Due Dates

The second set of dates are the Due dates [1] for each respective quiz. Any quizzes submitted after the due date are marked as late; some instructors may deduct points for late submissions. Again, not all quizzes may include a Due date.

You can still submit late quizzes before the quiz Available until date (otherwise the quiz will be autosubmitted for you).

*Please be aware that the Due date may be before or on the Available date.*

Due dates also include a time [2]. If your instructor does not set a specific time, the quiz due time defaults to 11:59 pm and submissions will be late if submitted after 11:59:59 pm.

  - **1 Attempt**  
  - **Allowed Attempts**: 2

**Instructions**

Please take this quiz following module 2. This is not an open-book quiz.

[Take the Quiz]

When a quiz is open to you to take at any time, you can view the due date, points, and questions for the quiz.

You can also view additional details:
- **Time Limit [1]**: the length of time you have to complete the quiz. If your quiz has a time limit, you must complete the entire quiz within that time in one sitting. If you navigate away from the quiz, the timer will keep running. You will also be kicked out of the quiz when the time limit has been reached.

- **Instructions [2]**: any instructions that your instructor has about the quiz.

In the example above, the quiz is due by September 15. However, if you were to miss the due date, you could still take the quiz for late credit before the last day of the course.

To **take the quiz**, click the **Take the Quiz** button.

**Notes:**

- If you start a quiz that has a due date, but do not finish the quiz by the due date (as indicated in your local time zone), Canvas will automatically submit the quiz on the due date.

- Quiz details do not show the due date in relation to the current time. For example, if a quiz has a due date of 11:59 pm and you begin the quiz at 11:30 pm, you will only have 30 minutes to complete the quiz before it is marked late. The same time restriction applies if you are taking a timed quiz. For example, if the Time Limit was set to 60 minutes but you begin the quiz at 11:30 pm, you still only have 30 minutes to complete the quiz before it is marked late. Canvas will notify you regarding any time restrictions when you begin the quiz.

[Take the Quiz]
When a quiz is open to you during availability dates, you can view all available quiz information in addition to the specific dates the quiz is available to you. Availability dates may include a first available date (open date), last available date (locked or closed), or both dates to create an overall date range. The Due date may be before or on the last available date (if one is set).

In the example above, the quiz is available to you starting April 8 at 12 am and is due by April 9 at 11:59 pm. However, if you were to miss the due date, you could still take the quiz until April 10 at 11:59 pm for late credit. If you do not submit the quiz by the last available date of April 10 at 11:59 pm (as indicated in your local time zone), Canvas will automatically submit the quiz on the last available date. On April 11 at 12 am, the quiz will not be available to you.

**Note:** Quiz details do not show due and availability dates in relation to the current time. For example, if a quiz has an Until date of 11:59 pm and you begin the quiz at 11:30 pm, you will only have 30 minutes to complete the quiz. The same time restriction applies if you are taking a timed quiz. For example, if the Time Limit was set to 60 minutes but you begin the quiz at 11:30 pm, you still only have 30 minutes to complete the quiz. Declaration of Independence Quiz

Due Aug 25 at 1:59pm    Points 10    Questions 5
Available May 19 at 12am - Aug 25 at 11:59pm 3 months
Time Limit 60 Minutes

Instructions

This practice quiz is to determine your understanding of the Declaration of Independence. Write what you think each section or statement means. You have 1 attempt and 60 minutes to complete the quiz.

To begin the quiz, click the Take the Quiz button.
Complete the quiz per your instructor’s instructions. Quizzes will either have all the questions on one page, or each question will be shown one at a time.

There are several different question types in Canvas that your professors may choose to employ, from True/False to Essay format. Questions can vary by question type. Each question will show in the top right corner the point value of the question. Each question will be divided from others by a box surrounding the question and answers.

You can use other areas in the quiz to help you navigate and complete quiz questions, including the sidebar and the flagging questions feature.
At any point during the quiz, you can view a summary of your quiz. Questions you’ve answered will be faded out and identified by a checkmark icon [1], while unanswered questions will be bolded and identified by a question mark icon [2].

You can also view the due date for the quiz [3]. In the sidebar, the quiz due date refers to the autosubmit date, which can be a specified Until date or the last day of the course. *This is not the due date set for when the quiz will be marked late.*

You’ll also see a timer showing your progress on the quiz. For untimed quizzes [4], the quiz shows as the elapsed time. If you are taking a timed quiz [5], the timer shows the running time and counts down until time expires.

You can flag the questions you want to go back to by clicking the flag by the question [1]. The flag will change color to yellow to remind you to finish the question. The yellow flag will also appear in the question overview in the sidebar [2].

View Quiz Warning Notifications

If you are taking a timed quiz, or you are taking a quiz close to the due date or lock date and time, Canvas generates warning messages to help you manage your time in the quiz. Canvas will also warn you if you lose the connection to the internet during the quiz.

View Due Date Warning

If you are taking a quiz with a set due date, you will see a warning popup banner as to how many minutes remain before the quiz will be marked late. Warnings appear 30 minutes prior, five minutes prior, and one minute prior.
View Time Restriction Warning

If you start a quiz near the time it will be due, you will see a warning popup banner. Use the sidebar to view the time the quiz is due and how many minutes are remaining. In this sense, the quiz due date refers to the autosubmit date, which is either a specified lock (Available until) date or the last day of the course. Warnings appear 30 minutes prior, five minutes prior, one minute prior, and 10 seconds prior.

View Quiz Logout Warning

If at any time you get logged out of Canvas while taking a quiz, you will see a warning pop-up banner. To resume your quiz, click the Login button.

Pause Quiz

If your browser allows you to leave the quiz, you can pause the quiz by leaving the quiz page. When you are ready to resume the quiz, the quiz will resume where you left off.

Note: If you leave a timed quiz, the timer will keep running and the quiz will be automatically submitted when time runs out.
Submit Quiz

Canvas will save your quiz as you go through it. When you are finished, [submit your quiz](#) and view the [quiz results](#) to find out your score.

View Auto Submit Warning

If you do not submit a timed quiz before the time runs out, Canvas displays a pop-up box telling you that your quiz time has expired. The quiz automatically submits after the ten-second count down [1], or you can click the Ok, fine button or Close icon to submit your quiz [2].
How do I take a quiz in New Quizzes?

You can take a New Quizzes quiz on the Quizzes page in Canvas. Depending on how your instructor set up the quiz, questions may be shown all on one page or one at a time. If you are unable to finish a quiz, you may be able to resume it at a later time.

Note: If the quiz you are accessing displays differently, your instructor may have used the Classic Quizzes tool to create the quiz. Functionality may differ between these quiz types. For help with taking a quiz, please see How do I take a quiz?

Rich Content Editor
How do I add and modify text in the Rich Content Editor as a student?

Several features in Canvas support the Rich Content Editor, including Announcements, Assignments, Discussions, Pages, and Quizzes.

You can type text and you can copy and paste text from other sources into the Rich Content Editor. The Rich Content Editor also includes several formatting tools that allow you to modify your text.

The Rich Content Editor supports keyboard shortcuts for copying and pasting text.

Copy and Paste Using a PC
- Copy (Ctrl+C) and Paste (Ctrl+V)
- Copy (Ctrl+C) and Paste-without-formatting (Ctrl+Shift+V)

Copy and Paste Using a Mac
- Copy (Command+C) and Paste (Command+V)
- Copy (Command+C) and Paste-without-formatting (Command+Option+Shift+V)

Note: Your instructor may choose to display a different font for your course. This font will display when entering text the Rich Content Editor.

View Rich Content Editor
When creating or editing an announcement, assignment, discussion, or page, the Rich Content Editor opens by default.

You can add and format content using the menu bar [1] or toolbar [2].

### Open Keyboard Shortcuts

The Rich Content Editor supports keyboard shortcuts. To view a window with a list of keyboard navigation shortcuts, click the **Keyboard** icon or press **Alt+F8** (on a PC keyboard) or **Option+Fn+F8** (on a Mac keyboard) simultaneously on your keyboard.

### Resize Editor Window

You can also [resize the editor window or open the editor in fullscreen view](#).
Enter Text

To remove text formatting, select the text [1], then click the Clear Formatting icon [2].

Note: To view the Clear Formatting icon, you may have to click the Options icon [3].
Change Font Size

Select the text you wish to modify [1]. Then click the Font Size drop-down menu [2], and select the font size you want to use [3]. You can choose from 8, 10, 12, 14, 18, 24, or 36pt sized fonts.

Change Text Style

Select the text you wish to modify [1]. Then click the Paragraph drop-down menu [2], and select the text style you want to use [3]. Choose from Heading 2, Heading 3, Heading 4, Preformatted, and Paragraph styles.
Note: By default, the primary heading for the announcement, assignment, discussion, page, or quiz is the same as the title or name you enter when creating the item.

If we think only of ourselves, forget about other people, then our minds occupy very small area. Inside that small area, even tiny problem appears very big. But the moment you develop a sense of concern for others, you realize that, just like ourselves, they also want happiness; they also want satisfaction. When you have this sense of concern, your mind automatically widens. At this point, your own problems, even big problems, will not be so significant. The result? Big increase in peace of mind. So, if you think only of yourself, only your own happiness, the result is actually less happiness. You get more anxiety, more fear.

I love friends, I want more friends. I love smiles. That is a fact. How to develop smiles? There are a variety of smiles. Some smiles are sarcastic. Some smiles are artificial-diplomatic smiles. These smiles do not produce satisfaction, but rather fear or suspicion. But a genuine smile gives us hope, freshness. If we want a genuine smile, then first we must produce the basis for a smile to come.

In daily practice, reflect on the benefits of love, compassion and kindness, then reflect on the disadvantages of anger. Such continuous contemplation, the growing appreciation of love, has the effect of reducing our inclination towards hatred and increasing our respect for love. By this means even anger can be diminished.

To exit fullscreen view, click the View menu [1] and select the Fullscreen option [2]. You can also exit fullscreen by pressing the Esc key on your keyboard.
How do I insert a table using the Rich Content Editor as a student?

In the Rich Content Editor, you can use the table editor to insert, format, edit, and delete a table.

How do I use the HTML view in the Rich Content Editor as a student?

You can embed HTML in the Rich Content Editor. When creating custom HTML coding in Canvas, you may discover that certain HTML codes do not work upon saving. This is because Canvas will only support certain HTML elements for security reasons. This also applies to content copied and pasted from an external source. Below is a link to a list of HTML tags that are permissible in Canvas. HTML tags that are not on this list may be stripped out of the Rich Content Editor when you save your work. View the Canvas HTML Editor Allowlist PDF for more information.

The HTML Editor in the Rich Content Editor can display HTML in either a pretty HTML editor with numbered lines and syntax highlighting or a raw HTML editor that displays HTML as raw text.

Several features in Canvas support the Rich Content Editor, including Announcements, Assignments, Discussions, Pages, and Quizzes.

Note: The Rich Content Editor saves the last used HTML editor state (raw or pretty). This persists across browser tabs and windows.

Open Rich Content Editor

Open the Rich Content Editor when using one of the Canvas features which support the Editor.
Note: The Rich Content Editor supports keyboard shortcuts. To view the Keyboard Shortcuts menu, click the Keyboard icon or press ALT+F8 (PC keyboard) or ALT+FN+F8 (Mac keyboard).

Open HTML Editor

Click the HTML Editor icon.

Note: When in HTML view, you can click the HTML Editor icon to return to the Rich Content Editor.
The HTML editor displays the pretty HTML editor by default. The pretty HTML editor displays line numbers and syntax highlighting.

Enter content in the HTML editor or edit existing content using HTML.

**View Raw HTML Editor**

To switch to the Raw HTML Editor and edit your HTML in plain text, click the [Raw HTML Editor](http://www.archives.gov/exhibits/charters/declaration_history.html) link.
Edit Raw HTML

Edit your HTML in plain text without line numbers or syntax highlighting. To switch back to the Pretty HTML Editor, click the Pretty HTML Editor link.

How do I upload and embed a media file from my computer in the Rich Content Editor as a student?

Using the Rich Content Editor, you can upload and embed media files from your computer. Several features in Canvas support the Rich Content Editor, including Announcements, Assignments, Discussions, Pages, and Quizzes.

Canvas allows you to upload supported media types.

Canvas converts files up to 500 MB. If a file exceeds the 500 MB limit, you can host the file through an external source such as YouTube and embed it using the Rich Content Editor. To learn more about available options for using media files in Canvas, view the Canvas Media Comparison PDF.

Canvas videos also support caption files. Once you upload a video, learn how to add captions to a video.

Note: Media uploaded in the Rich Content Editor is saved in the Uploaded Media folder in your User Files or Group Files, depending on where it is recorded. If media is uploaded for an assignment submission, the media file is stored in your User Files.

Open Rich Content Editor

Open the Rich Content Editor when using one of the Canvas features which support the Editor.
Note: The Rich Content Editor supports keyboard shortcuts. To view the Keyboard Shortcuts menu, click the Keyboard icon or press **ALT+F8** (PC keyboard) or **ALT+FN+F8** (Mac keyboard).

How do I record media using the Rich Content Editor as a student?

You can use the Rich Content Editor to record video and audio media. You can record media for any length of time, but shorter media recordings are recommended. If your media is longer than 15 minutes, you may want to consider recording and uploading using an external provider. Longer media recordings require more time to render and may be interrupted without a stable internet connection.

Several features in Canvas support the Rich Content Editor, including Announcements, Assignments, Discussions, Pages, and Quizzes.

Canvas videos also support caption files. Once you record and save your video, learn how to add captions to a video.

Notes:

- The Safari browser does not support recording media. Please use Chrome or Firefox to record media from the Rich Content Editor.
- Media recorded in the Rich Content Editor is saved in the Uploaded Media folder in your User Files or Group Files, depending on where it is recorded. If media is recorded for an assignment submission, the media file is stored in your User Files.

How do I select content from an external app in the Rich Content Editor as a student?

You can use the Rich Content Editor to embed content and links from external apps that have been set up in your course. Several features in Canvas support the Rich Content Editor, including Announcements, Assignments, Discussions, Pages, and Quizzes.

Embedding and linking options vary depending on the app you’re using. For specific instructions for embedding and linking to external app content, please refer to the app vendor’s user guides.

Open Rich Content Editor

Open the Rich Content Editor when creating or editing an announcement, assignment submission, discussion, page, or quiz response.

Note: The Rich Content Editor supports keyboard shortcuts. To view the Keyboard Shortcuts menu, click the Keyboard icon or press ALT+F8 (PC keyboard) or ALT+FN+F8 (Mac keyboard).
Select Embed Location

To embed app content in the Rich Content Editor, click to place your cursor in the location in the Rich Content Editor where you want the app content to appear [1].

To link text to content from an app, select the text for the linked content [2].

Open Apps

You can view a list of external tools from the menubar. Click the Tools link [1]. Navigate to the Apps option [2], then select the View All option [3].

Alternatively, you can view your apps from the toolbar. In the toolbar, click the App icon [4].

Note: To view the App icon, you may have to click the Options icon [5].
View Recently Used Apps

If you have previously used an external app from the Rich Content Editor, you can quickly open recently used apps.

To view recently used apps, click the App icon [1]. Then select the app you want to open [2].

To view all apps, click the View All link [3].

How do I use the Math Editor in the Rich Content Editor as a student?

Canvas has an integrated tool for math and science formulas based on LaTeX, the industry standard for academic publication. The LaTeX Math Editor is built into the Rich Content Editor. Several features in Canvas support the Rich Content Editor, including Announcements, Assignments, Discussions, Pages, and Quizzes. Canvas also includes the option to create equations and expressions with its graphical point-and-click editor.

The Math Editor can be used for basic mathematical formatting for introductory math courses or for more advanced mathematical text for higher-level math courses. Both students and instructors have access to the editor.

For more help, download the following PDF files:

- Basic equations
- Advanced equations
- Chemistry formulas, equations, and scientific notation

Notes:

- To have characters #, $, %, &, ^, _, {, and } appear in the Rich Content Editor, when your equation is inserted, you must use Advanced View and type a backslash (\) before the character. The ~ character can be inserted through Advanced View by typing \~. The $ character can be inserted through Basic View by typing \$.

Open Rich Content Editor
Open the Rich Content Editor when using one of the Canvas features which support the Editor.

**Note:** The Rich Content Editor supports keyboard shortcuts. To view the Keyboard Shortcuts menu, click the Keyboard icon or press **ALT+F8** (PC keyboard) or **ALT+FN+F8** (Mac keyboard).

### Open Math Editor

To open the Math Editor, click the **Insert Math Equation** icon [1].

You can also access the Math Editor from the Rich Content Editor menubar. Click the **Insert** link [2], then select the **Equation** option [3].

**Note:** To view the Insert Math Equation icon, you may need to click the **Options** icon [4].
Create Basic Math Equation

Use the toolbars here, or Switch View to Advanced to type/paste in LaTeX.

Note: You can click the Switch View to Advanced link to type or copy and paste in LaTeX. In Advanced View, do not use:

```
\begin
Unknown macro: {equation}
\end```

to avoid receiving an error.
Insert Equation

Use the toolbars here, or Switch View to Advanced to type/paste in LaTeX.

\[
x_1 = 1, \ x_2 = 1, \ x_n = x_{n-1} + x_{n-2} \ (n > 2)
\]

How do I create a hyperlink or embed a file from Google Drive into the Rich Content Editor as a student?

If your course has enabled Google Apps, you can create a document, slide presentation, or spreadsheet using Google Drive and then embed that document anywhere you can use the Rich Content Editor in Canvas. Several features in Canvas support the Rich Content Editor, including Announcements, Assignments, Discussions, Pages, and Quizzes. When embedded, Google slide presentations default to presentation mode.

In Google, you can link or embed files. When files are linked in the Rich Content Editor, the link displays the exact name of the file. Please ensure your file names are correct before linking a file. For embedded files, any time you edit the Google file, the edits also display in Canvas.

**Note:** If you cannot view the Google Drive option in the Rich Content Editor LTI Tools menu, you can still include your file by creating a hyperlink or publishing your Google content to the web and pasting the embed code in the HTML editor.

Open Rich Content Editor

To view all apps, click the **View All** link [3].
Open Google

Click the Google link [1].

You can also filter menu options using the Search field [2].

**Note:** If the Google link does not display, the LTI may not be enabled in your course. You can still include your file by creating a hyperlink or publishing your Google content to the web and pasting the embed code in the HTML editor.
Locate File

Locate and click the file(s) you want to link.

Embed or Link File

To embed the file, click the Embed button [1]. The Rich Content Editor will display a placeholder image for the file.

To link the file, click the Link button [2]. The Rich Content Editor will display a link with the name of the file.

How do I create a hyperlink from Microsoft Office 365 in the Rich Content Editor as a student?

If your course has enabled Microsoft Office 365, you can create a document, slide presentation, or spreadsheet in your OneDrive and then create a hyperlink to that document anywhere you can use the Rich Content Editor in Canvas. Several features in Canvas support the Rich Content Editor, including Announcements, Assignments, Discussions, Pages, and Quizzes.

When files are linked in the Rich Content Editor, the link displays the exact name of the file. Please ensure your file names are correct before linking a file.

Notes:

- If you cannot view the Microsoft Office 365 option in the Rich Content Editor LTI Tools menu, you can still include your file by creating a hyperlink or publishing your Microsoft Office 365 content to the web and pasting the embed code in the HTML editor.
- PDF files added through Microsoft Office 365 that cannot be previewed in Sharepoint are not supported to preview in Canvas. To preview the PDF files, you will need to add them to course files and link to them in the Rich Content Editor.
Note: The Rich Content Editor supports keyboard shortcuts. To view the Keyboard Shortcuts menu, click the Keyboard icon or press ALT+F8 (PC keyboard) or ALT+FN+F8 (Mac keyboard).

How do I use the Accessibility Checker in the Rich Content Editor as a student?

The Rich Content Editor includes an accessibility tool that checks common accessibility errors within the editor. You can use the Accessibility Checker to design course content while considering accessibility attributes. This tool only verifies content created within the Rich Content Editor. You may use other accessibility tools to verify additional content in Canvas.

All accessibility components retain the parameters set by your institution’s Theme Editor template. The Accessibility Checker verifies the following accessibility rules:

- **Adjacent links:** Adjacent links with the same URL should be a single link. This rule verifies link errors where the link text may include spaces and break the link into multiple links.
- **Heading paragraphs:** Headings should not contain more than 120 characters.
- **Image alt text:** Images should include an alt attribute describing the image content.
- **Image alt filename:** Image filenames should not be used as the alt attribute describing the image content. Currently, files uploaded directly to Canvas create a redirect that does not properly verify image filenames.
- **Image alt length:** Alt attribute text should contain fewer than 120 characters.
- **Large text contrast:** Text larger than 18pt (or bold 14pt) should display a minimum contrast ratio of 3:1.
- **Lists:** Lists should be formatted as lists.
- **Sequential headings:** Heading levels should not be skipped (e.g. H2 to H4). However, the tool does not check if the first header starts with H2 or whether the headings are sequential with the rest of the content in the page. Tables do not begin with H1, which is designated for the page title.
- **Small text contrast:** Text smaller than 18pt (or bold 14pt) should display a minimum contrast ratio of 4.5:1.
- **Table captions:** Tables should include a caption describing the contents of the table.
- **Table header scope:** Table headers should specify scope and the appropriate structure.
- **Table header:** Tables should include at least one header.

Notes:

- For text contrast, the Accessibility Checker verifies color using the same calculations as the WebAIM tool and verifies against Theme Editor templates without High Contrast Styles. However, High Contrast Styles must be enabled for verification if a link color is overwritten manually in the Rich Content Editor.
- If the Accessibility Checker Notifications feature preview is enabled for your course, any accessibility issues detected within the Rich Content Editor display an indicator.
