General Information
How do I download the Canvas Student app on my iOS device?

Download the Canvas Student app on your iOS device for easier accessibility to course content.
The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open App Store

Open your iOS device and tap the App Store icon.

Open Search

In phone devices, tap the Search icon at the bottom of the screen.
In tablet devices, tap the Search field at the top of the App Store.
Search for App

In the search field, type Canvas Student in the search field. Tap the full name when it appears.

Select App

Tap the Get button.
Install App

Install the app per your device’s installation method.

Note: iTunes may ask for your iTunes password to download the app.

Open App

When the app has downloaded and installed onto your iOS device, you can access the app immediately by tapping the Open button.
View App on iOS Home Screen

You can also open the app on your iOS home screen by tapping the **Student** icon.
How do I log in to the Student app on my iOS device with a Canvas URL?

Once you download the Canvas Student app from the iTunes store, you can use the app to log in to your Canvas account.

You can enter your institution's name into the app to locate your account. If the app cannot find your institution by name, you can enter your institution's Canvas URL into the app. If you don't know your Canvas URL, you can log in using a QR code, which does not require knowing your Canvas URL for the mobile app.

If you have multiple accounts and do not want to log in to the app every time, learn how to switch to another user account.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open Canvas Student App

Open your device and tap the Student icon.
Find Institution

Click the Find My School button [1].

If you've previously logged in where you want to use the account, tap the name of the account [2].
Search for Institution Name

Enter the name of your institution or school district. If the full name appears in the search list, tap the name.

Notes:

- If you are an admin and your school does not appear in the search list, please contact your CSM about mobile smart search.
- To log in to a Free For Teacher account, enter Free Canvas Accounts or canvas.instructure.com in the search field.
Enter Canvas URL

If the name of your institution does not appear in the search list, you may need to locate your Canvas account by entering the full Canvas URL in the *Find your school or district* text field.

If you don't know your Canvas URL, tap the **Tap Here for Help** link. Or you can [log in using a QR code](#), which does not require knowing your Canvas URL.
Enter Login Credentials

After you've located an account, you can view the Canvas URL at the top of the screen [1]. Enter your email [2] and password [3]. Tap the Log In button [4].

If you don't know your password, tap the Forgot Password? link [5].

Notes:

• The Canvas email field credential varies according to institution. Some institutions may require a username or account number.
• If your Canvas mobile login page does not show the reset password option, contact your institution if you need to reset your password.
• If your institution requires you to log in to Canvas using their authentication system, you will be redirected to your institution's login page.
View Dashboard

View the Dashboard for your user account.

Learn how to use the Student app.
How do I log in to the Student app on my iOS device with a QR code?

Once you download the Canvas Student app from the iTunes store, you can use the app to log in to your Canvas account. You can generate a unique QR code from your Canvas web browser to quickly log into the app. This method uses your credentials from the QR code to log you into the app. The QR code is located in your account profile (User Navigation Menu).

If you do not want to locate your Canvas URL every time you log in to Canvas, learn how to switch to another user account.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open Canvas Student App

Open your device and tap the Student icon.
Open QR Login

Tap the QR Login link.
View Instructions

You'll find the QR code on the web in your account profile. Click 'QR for Mobile Login' in the list.

Review the instructions for locating the QR code in the web version of Canvas. The QR code is located in your account profile (User Navigation Menu).

When you have located the QR code, click the Next button.
Scan QR Code

Hold your phone up to your computer screen to scan the QR code. Once the code is located, the app will update automatically.

Notes:

- You may have to grant permission for your phone to use your camera.
- The app may take a few minutes to log you in.
View the Dashboard for your user account.

Learn how to use the Student app.
How do I use the Student app on my iOS device?

The Canvas Student app helps you access your courses and groups while you are away from a computer browser. The app provides functionality to view and participate in a course or group, as well as view your course calendars, To-Do items, notifications, Conversations messages, and grades.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Note:
- Not all Canvas features are supported on the app at this time.
- The Canvas Student app uses your device's settings to set the time zone used within the app.
- To change the language displayed in the Student app, select a language in Canvas from a web browser, log out of the Student app, and log in again.

View Courses Page

When you log in to the Canvas Student app, the default landing page is the Dashboard. Learn how to change your landing page.
The Dashboard displays all your current courses and groups, including your favorite courses. The Dashboard can also display overall grades in each course. Learn how to view your Dashboard.

**View Calendar**

The Calendar displays events and assignments for your courses and groups. Learn how to view the calendar.
View To Do List

The To Do list gives a quick view of upcoming course activities that have not yet been completed. Learn how to view the To-Do List.
View Notifications

Notifications gives you an overview of all course notifications such as changes to an assignment due date, newly created assignment, course announcement, or a reply to a subscribed discussion. You can also view specific course notifications within each of your courses. Learn how to view Notifications.
View Inbox

The Inbox displays all Conversations messages in the Canvas Student app. Learn how to view the Inbox.

View New Items Indicator

If there are new items in the To Do list or Messages, a red indicator will appear next to the relevant icon. This indicator lets you know about updates in these areas when you are in another part of the app.
Open User Menu

To open the User Menu, tap the Menu icon.
View User Menu

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>

</tr>
</tbody>
</table>

From the User Menu, you can:

- View your files [1]
- Show grades on the Dashboard [2]
- Overlay a selected color in courses over Dashboard course cards [3]
- Get Help with the Canvas app [4]
- Manage app settings [5]
- Change users [6]
- Log out of the Canvas app [7]

Your User Menu may display other LTI tools that you can access via a mobile browser.
How do I get help with the Student app on my iOS device?

From the Help Menu, you can get help with Canvas directly on your mobile device. Help Menu links may vary across institutions.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open User Menu

On the Dashboard, tap the Menu icon.
Open Help

Tap the Help link.

**Note:** Depending on your institution, the Help link name and icon may vary.
View Help Menu

View the Help links provided to you. Available links may vary according to institution.
How do I switch to another account in the Student app on my iOS device?

If you use Canvas in more than one account (Canvas URL), you can change between accounts on your device without having to log out of the app.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open User Menu

In the Dashboard, tap the Menu icon.
Tap the **Change User** link.

---

**Change User**

[Image of the Canvas interface with the Change User link highlighted]
View Login Page

Previous logins appear in the user list. Tap the user profile you want to open [1]. To remove a profile, tap the Remove icon [2].

To add an account, log in to Canvas [3].
How do I log out of the Student app on my iOS device?

You can easily log out of Canvas when you are finished using the app. You can also switch users in the Canvas Student app.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

**Open User Menu**

On the Dashboard, tap the **Menu** icon.
Log Out

Tap the Log Out link.
App Settings
How do I set a landing page in the Student app on my iOS device?

When you log in to the Canvas Student app, you can choose which page you want to view as your app landing page. By default, the landing page displays the Dashboard.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open User Menu

On the Dashboard, tap the Menu icon.
Open Settings

Tap the Settings link.

Open Landing Page

Tap the Landing Page link.
Set Landing Page

Tap the name of the new page that you want to view when you log in to the app. This change will take effect the next time you log in.
How do I view my user settings in the Student app on my iOS device?

You can manage your personal settings in the Canvas Student app.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

**Note:** To change the language displayed in the Student app, select a language in Canvas from a web browser, log out of the Student app, and log in again.

Open User Menu

On the Dashboard, tap the **Menu** icon.
Open Settings

Tap the Settings link.
View App Settings

You can change the following settings in the app:

- Set your app landing page
- Set available Notification Preferences in the app
- Send a pairing code to an observer
- View your calendar subscription link
- View app legal information

[1] view_app_settings/
[2] view_app_settings/
[3] view_app_settings/
[4] view_app_settings/
[5] view_app_settings/

You can change the following settings in the app:

- Set your app landing page
- Set available Notification Preferences in the app
- Send a pairing code to an observer
- View your calendar subscription link
- View app legal information

You can change the following settings in the app:

- Set your app landing page
- Set available Notification Preferences in the app
- Send a pairing code to an observer
- View your calendar subscription link
- View app legal information
How do I set Notification Preferences in the Student app on my iOS device?

You can set notification preferences in the Canvas Student app to receive updates about your Canvas courses. Once notifications are selected, notifications are sent to you even if you have not opened the Canvas Student app. You can choose to set notifications for specific communication channels, or you can set notifications for all your available channels.

Communication channels in the Canvas Student app match the same notification options within your Notification Preferences in the browser version of Canvas. Any preferences updated in the app will be reflected in the browser version.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open User Menu

On the Dashboard, tap the **Menu** icon.
Open Settings

Tap the Settings link.
Select Communications Channel

All notification communication channels available to you display in the Settings page.
View Email Notifications

The Email Notifications link displays all email addresses added to your account.
Set Notification Preferences

The Email Notifications link displays all email addresses added to your account. Tap the email address where you want to set notifications [1].

Email notifications match the notification types set in the browser version of Canvas. Options include Immediately, Daily, Weekly, or Never.

To change a notification email frequency, tap the notification name [2]. A list will display with the list of frequency options. Tap the name of the desired frequency.
View Other Notification Channels

Any other notification communication channels available to you can be set in the app.

Tap the communication channel you want to view.
Set Notification Preferences

By default, all other communication notifications can either be on or off.

Enabled notifications show the toggle to the right [1] and are sent ASAP.

To disable a notification, tap the slider (toggle will be on the left) [2]. Disabled notifications are never sent.
How do I set a profile picture in the Student app on my iOS device?

If your institution allows profile pictures, you can add a profile picture in the Student app.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Notes:
- Changing your profile picture in the app will also change the profile picture in your browser version of Canvas.
- If you cannot add a profile picture, your institution has restricted this feature.

Open User Menu

On the Dashboard, tap the Menu icon.
Tap Profile Picture

Tap your profile picture.

Choose Photo Type

To take a new photo, tap the Take Photo link [1]. To choose a photo from your device, tap the Choose Photo link [2].
Take Photo

To take a photo, tap the Camera button.
Use Photo

If you want to re-take the photo, tap the **Retake** link [1]. Otherwise tap the **Use Photo** link [2].
Choose Photo

To choose a photo, locate the photo on your device.
Move and Scale

Move and scale your photo so it fits within the picture parameters [1]. Then tap the Choose link [2].
What Student app options can I manage from my iOS device settings?

From your iOS device settings, you can manage access settings, open external tools in Safari, and reset your cache.

Enabling the option to open external tools in Safari will launch the Safari app to view external tools. If this option is not enabled, external tools will open in webview inside the Student app. You may want to enable this option if you are experiencing difficulties with viewing external tools.

Resetting your cache will clear all information on your device that is specific to the app, including login details, some annotated documents, and app settings. You may want to use a cache reset if you experience errors when logging in to the app. Because a cache reset will remove app information from your device, you may want to try resetting your password or uninstalling the app first.

After enabling the Reset Cache on Next Launch option, you must force close and re-launch the Student app for your cache to reset.

Open Settings

On the home screen, tap the Settings icon.
## Open Student App Settings

<table>
<thead>
<tr>
<th>Settings</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dropbox</td>
</tr>
<tr>
<td>GarageBand</td>

<tr>
<td>Polls</td>
</tr>
<tr>
<td><img src="Icon.png" alt="Student" /> Student</td>
</tr>
<tr>
<td><img src="Icon.png" alt="Teacher" /> Teacher</td>
</tr>
<tr>
<td><img src="Icon.png" alt="TestFlight" /> TestFlight</td>
</tr>
</tbody>
</table>

In the Settings menu, tap the **Student** link.
View Student App Settings

1. ALLOW STUDENT TO ACCESS
   - Camera
   - Siri & Search
   - Notifications
     - Banners, Sounds, Badges
   - Cellular Data

2. STUDENT SETTINGS
   - Open external tools in Safari
   - Reset cache on next launch

View the Student app settings menu.

From the Settings menu, you can manage access settings [1] and app settings [2].
Manage Access Settings

<table>
<thead>
<tr>
<th>Setting</th>
<th>Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>Camera</td>
<td>Off</td>
</tr>
<tr>
<td>Siri &amp; Search</td>
<td></td>
</tr>
<tr>
<td>Notifications</td>
<td></td>
</tr>
<tr>
<td>Cellular Data</td>
<td>Off</td>
</tr>
</tbody>
</table>

From the access settings, you can view and manage if the Student app can access your camera [1].

To allow Student app information to display in Search and Siri tools, tap the **Siri & Search** button [2].

To manage Student app notification options, tap the **Notifications** button [3].

You can also manage if the Student app can load with Cellular Data [4].
Open External Tools in Safari

To open external tools in Safari by default, tap the **Open external tools in Safari** button. When this option is enabled, all external tools will launch in the Safari app instead of the Student app.
Reset Cache on Next Launch

To reset your cache, tap the **Reset Cache on Next Launch** button. Resetting your cache will clear all information on your device that is specific to the app, including login details, some annotated documents, and app settings.

**Notes:**

- After enabling the Reset Cache on Next Launch option, you must force close and re-launch the Student app for your cache to reset.
- The Reset Cache on Next Launch will toggle to the Off position after the app has launched.
App Features
How do I use the Dashboard in the Student app on my iOS device?

The Canvas Student app Dashboard displays your active courses. It can also display course invitations and announcements from your institution.

View Dashboard

The Dashboard displays all your current courses and groups.

When viewing courses, you can manage how they display in the Dashboard, including background colors and favorite courses. Learn how to manage courses and groups.
View Course Invitation

If you have been invited to join a course, you can view the course invitation on your Dashboard. To accept the invitation, tap the **Accept** button [1]. To decline the invitation, tap the **Decline** button [2].
If a global announcement has been sent to students at your institution, you can view the announcement on your Dashboard. To read the announcement, tap the announcement [1]. To dismiss the announcement, tap the Close icon [2].
View In-Progress Conference

If a course includes a BigBlueButton Conferences, any conference in progress will display on the Dashboard. To join the conference, tap the name of the conference [1]. To dismiss the conference, tap the Close icon [2].
View Course Grades

You can display your course grades in the dashboard from the User Menu.

Grades are shown according to the grading scheme for the course (percentage, letter grade, etc.).

You can also view your grades within your course.
Open Course or Group

To open a course or group, tap the course or group name.
View Navigation Menu

Within each course or group, you can view the navigation links that are available in the browser version of Canvas.

Note:

- If a course navigation link is hidden in the browser version, you will not be able to access it in the app.
- Not all course navigation links are supported in the Canvas Student app. However, all navigation links are supported in a mobile browser.
View Course Navigation on iPad

iPad functionality mimics the web version of Canvas, allowing Course Navigation to be expanded or collapsed for full-screen course viewing. To expand or collapse the Course Navigation menu, tap the **Expand** icon.
How do I manage Courses and Groups in the Student app on my iOS device?

You can view all your courses and groups in the Canvas Student app. You can change your course favorites and change the colors for your Dashboard course cards and groups.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Note: Changes to your favorite courses will apply to the browser version of Canvas.

View Courses

The app defaults to your favorite courses. Favorite courses mirror the courses customized drop-down menu in the web version of Canvas.

To view all your courses, tap the See All link.
Set Favorites

Changes to your favorite courses will apply to the browser version of Canvas.

To favorite a course, tap the Edit link.
Edit Courses

Tap the star icon next to the course you want to favorite. To remove a favorite, tap the Star icon again. Changes to the favorites page are applied automatically.

Note: The Courses list includes active and concluded courses.
View Course Card Options

You can change the nickname and color associated with your courses. Course colors help associate course items in other areas of the Canvas Student app, such as in the To Do List and Notifications.

To change the nickname or color for a course, tap the **Options** icon.
Edit Nickname

To change the course nickname, tap the **Nickname** field [1].

To save your changes, tap the **Done** link [2].
Choose Course Color

To change the course color, tap the new color for your course [1].

To save your changes, tap the Done link [2].

Note: To view the selected color across your entire course card, you can enable the Color Overlay option in the User Menu.
How do I view the Calendar in the Student app on my iOS device?

You can view your course calendars in the Student app. The Student app calendar only displays events for courses you have favorited from the Dashboard.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Note:

- If you want to view Canvas events in the native iOS calendar, you can also subscribe to the Canvas calendar feed and view Canvas events along with your personal calendars.
- Students cannot sign up for Scheduler appointments or create events in the app.

Open Calendar

On the Dashboard, tap the Calendar icon.
View Calendar

The Calendar page shows all assignments and events for your courses. By default, the calendar displays assignments and events by week. The current date is always selected and indicated by the solid background [1]. Any assignments or events on the current date display below the calendar in an agenda format.

Assignments or events on other dates are indicated by a dot below the date. Multiple dots indicate multiple assignments or events, which can be viewed by tapping the date [2].
Manage Calendars

You can manage the courses that display in the calendar by clicking the Calendars link [1].

If you choose to select specific calendars and not all calendars, the number of selected calendars will display next to the link [2].

View Additional Dates

To view assignments and events for other dates, swipe the week view left or right [1].
You can also expand to the calendar Month view by tapping the name of the month [2] and swiping the month view left or right. To return to the current date, tap the Calendar icon [3].

**View Individual Event or Assignment**

![Calendar](image)

To view the details of an individual assignment or event, tap the name of the assignment or event.

**Add To-Do Item**

![Add icon](image)

To add a new to-do item to your calendar, click the Add icon.
How do I add a Calendar To-Do List item in the Student app on my iOS device?

You can add To-Do List items in the Student App from your Calendar.

**Note:** Currently to-do items only display in the Calendar.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open Calendar

On the Dashboard, tap the **Calendar** icon.

Add Item
Tap the Add icon.

Add Title

In the Title field, create a title for your To-Do item.
Select Course

The To-Do item defaults to your personal calendar. If you want to associate the To-Do item with a course, tap the Course link and select the course.
Select Date

Tap the **Date** field. Select the date and time where you want the to-do item to display on your calendar. Then tap the **Done** link.
Add Description

In the Description field, enter the description for your to-do item.

Save Item

Tap the Done link.
View Item

View your item in the Calendar.

How do I subscribe to the Canvas calendar in the Student app on my iOS device?

You can subscribe to calendar items in all your courses and have them appear in your iPhone calendar. You can only view the calendar, not make edits to it.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

View User Menu

In the Dashboard, tap the Menu icon.
Open Settings

Tap the **Settings** link.
Subscribe to Calendar Feed

Tap the Subscribe to Calendar Feed link.

Subscribe to Feed

Tap the Subscribe button.
View Feed Confirmation

The Calendar “Emily Boone Calendar (Canvas)” has been added

1. View Events
2. Done

To view your calendar, tap the View Events button [1]. To return to your profile, tap the Done button [2].

You can unsubscribe from your calendar feed at any time.
How do I unsubscribe from my Canvas calendar on my iOS device as a student?

You can unsubscribe to calendar items for all your courses.
The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open Settings

On your iOS device, tap the **Settings** icon.
Open Passwords & Accounts

Tap the Passwords & Accounts link.
Open Subscribed Calendars

Tap the Subscribed Calendars link.

Open Canvas Calendar

Tap the name of your Canvas profile calendar.
Delete Account

Tap the **Delete Account** button.

Confirm Delete

Deleting this account will remove its calendars from your iPhone.

Tap the **Delete Account** button.

Tap the **Delete Account** button.
How do I view the Conversations Inbox in the Student app on my iOS device?

Canvas lets you access your Conversations Inbox on your mobile device so you can keep in touch with people in your course at any time.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Note: Unlike the web version of Canvas, you cannot view assignment comments from your instructor in Conversations. However, you can view comments in the assignment.

Open Messages

In the Dashboard, tap the Inbox icon.
If there are new messages, the icon will indicate the number of new messages received. This indicator helps you know when you have new messages when you are in another part of the app.

View Conversations Messages

The Conversations Inbox folder displays all messages you have received and is organized the same way as the browser version of Conversations. Messages are arranged in chronological order—newer messages appear at the top, and older messages appear near the bottom. New messages are indicated with a blue dot.

Swipe the app from top to bottom to quickly refresh your messages.
View Mailbox Filters

You can view different types of messages in the Inbox:

**Unread** [1]: Messages that are unread in the Inbox

**Starred** [2]: Messages that you've starred in the Inbox

**Sent** [3]: Messages that you've sent (you cannot view messages sent to others in any other tab until you receive a reply)

**Archived** [4]: Messages that have been archived

**Note:** Messages cannot be archived in the Canvas Student app.
View Inbox Filter

You can also filter your Inbox by course. Tap the **Filter** link [1], then select the course name whose messages you want to view [2].
View Messages

To view a message, tap the message you want to open.

Emily Boone

Hey Max,

Doug Roberts
Thank you
Of course!

Doug Roberts
Meeting
Definitely!

Canvas Instructor
Thank You
You’re welcome! Please let me know if...
Hey Max,
Do you have time to study for next week’s test? There are a few parts of the chapter that I am having a hard time with.
Emily
Reply
How do I send a message in the Student app on my iOS device?

In the Canvas Student app, you can send conversation messages to multiple people in your courses.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open Messages

In the Dashboard, tap the Inbox icon.
**Compose New Message**

<table>
<thead>
<tr>
<th>All Courses</th>
<th>Filter</th>

<td>10/9/2017</td>
</tr>
</tbody>
</table>

Tap the Add icon.
Tap the **Select a course** link [1] and select the course where you want to send the message [2].
Add Recipient

In the **To** field, tap the **Add** icon.

**Note:** You can only add one user or group of users at a time.
Search by Name

To search by name, type the name of your recipient in the text field.

**Note:** If you cannot remember a recipient’s name, you can search by course filter to select your recipient.

Select Recipient
When the full name of the recipient appears, tap the name.

**Search by Course Filter**

To search by course filter, select to message all users [1], select users by group [2], or message users by section [3].
Select User Group

Tap the recipient's user group [1].

Tap the name of the recipient [2]. You can select all members in a specific user group by tapping the **All Members** option [3].
### Modify Recipients

</tbody>
</table>

**1. Class info**

**Send individual message to each recipient**

**3. What did we discuss in class today?**

In the **Subject** field [1], enter a subject for your message.

If you want to send individual messages to each recipient, tap the **Send individual message to each recipient** toggle [2].

In the **Compose** field [3], type your message.

When you are ready to send your message, tap the **Send** link [4].

**Note:** New messages will not appear in the Inbox until there is a reply to the message. However, if you have an existing Inbox message with a recipient, the message will appear as part of that message thread.
How do I reply to a message in the Conversations Inbox in the Student app on my iOS device?

You can reply to Conversations Inbox messages in your Inbox on your device so you can keep in touch with your course at any time.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open Messages

In the Dashboard, tap the **Inbox** icon.

In the Dashboard, tap the **Inbox** icon.

That sounds great! What time?
In the text field [1], type your message reply.

When you are ready to send your message, tap the Send link [2].

View Reply

View your message reply in the message thread [1].

To reply to the message again, click the Reply link [2].
How do I view Notifications in the Student app on my iOS device?

The Canvas Student app lets you view notification items in your courses. Notifications gives you an overview of all course notifications, such as changes to an assignment due date, newly created assignments, course announcements, or replies to subscribed discussions. You can interact directly with any items that display as notifications.

You can also set Notification Preferences in the app to receive push notifications for Canvas activity on your mobile phone. The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open Notifications

In the Navigation Bar, tap the Notifications icon.
View Notifications

Notifications gives you an overview of all course notifications such as changes to an assignment due date, newly created assignments, course announcements, conference invitations, or a reply to a subscribed discussion.

Each item is color-coordinated according to course or group and displays an icon for its activity type [1]. Items are organized by date [2].
View Notification Item

To view a notification item, tap the name of the item. The app will redirect to the notification's corresponding page.

**Note:** You cannot delete notifications.
How do I use the Rich Content Editor in the Student app on my iOS device?

You can use the Rich Content Editor to edit and format text in the Student app. The Rich Content Editor is available in Announcements and Discussions.

View Rich Content Editor

You can use the Rich Content Editor when editing posts and replies in Announcements and Discussions.

The Rich Content Editor allows you to format text [1], add links [2], or attach images [3]. You may have to swipe your screen to the left or right to view all Rich Content Editor icons.

Format Text

To undo your last action, tap the Undo icon [1]. To redo what was previously undone, tap the Redo icon [2].
To bold text, tap the **Bold** icon [3]. To italicize text, tap the **Italics** icon [4]. To stop using bold or italics formatting, tap the **Bold** or **Italics** icon again.

**Change Text Color**

To change the text color, tap the **Color** icon [1]. Then tap the color you want to use [2].

**Create List**

To format text as a bulleted list, tap the **Bulleted List** icon [1]. To format text as a numbered list, tap the **Numbered List** icon [2].

**Add Link**

To add a link, tap the **Link** icon.
Link to Website URL

Enter the link title in the **Title** field [1] and the link URL in the **URL** field [2]. Then tap the **OK** button [3].

Attach Image

To attach an image, tap the **Image** icon.
Add Attachment

Then tap the Add icon.
Select Attachment Option

You can select from the following image attachment options:

- **Use Camera [1]:** take a picture from your camera.
- **Upload File [2]:** upload a file from your device.
- **Choose From Library [3]:** select an image from your photo library.
- **My Files [4]:** select a file from your personal Canvas files.

View Attachment

- **Done [1]**
- **Attachments [3]**
- **frisbee.jpg [2]**
- **× [2]**

Once you have selected your image, it will display on the Attachments page [1].

To delete the image, tap the Delete icon [2]. To add another image, tap the Add icon [3].
How do I view the To-Do List in the Student app on my iOS device?

The To-Do List gives you a quick view of upcoming graded course activities that you have not yet completed. The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open To-Do List

In the Navigation Bar, tap the To-Do List icon.
View To-Do List

The To-Do List gives you a quick view of upcoming graded assignments, quizzes, and discussions that you have not yet completed. Each item is color-coordinated according to course and displays an icon for its activity type: discussion, quiz, or assignment.

To-do items are organized by due date.

**Note:** Users who are using the student app with an instructor role will see To Do notifications about grading assignments.
View To-Do List Item

To view a to-do item, tap the name of the item. The app will redirect to the item's corresponding page.
Mark Item as Done

To mark a to-do item as done, swipe the item to the left [1]. Then tap the Done button [2].
How do I view my User Files in the Student app on my iOS device?

You can view personal files that you've added to your account on the Canvas Student app.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Learn how to manage your personal files.

View Profile

On the Dashboard, tap the Menu icon.
Open User Files

Tap the Files link.

View User Files

- ancient civilization.jpg, 2.67 MB
- conversation attachments, 5 items
- library and computer.jpg, 6.11 MB
- My Assignment.docx, 153.42 KB
- profile pictures, 10 items
- Submissions, 9 items
User Files displays file folders [1] and file items [2].

File folders show how many file items are within a folder [3]. Individual files show the size of the file [4].

View Files and Folders

To view files within a folder, tap the name of the folder [1].

To view a specific file, tap the name of the file [2]. If your device has an application installed that can display the file, you can view the file in the app.
Search Files

To search for a file, tap the Search field [1]. Then enter the name of the file you want to view.

To open the file, tap the name of the file in the search results [2].

Notes:
- You must type three or more characters for search results to display.
- Search results will not include file folders.
View your file [1]. You can also share your file by tapping the Share icon [2].

To return to the file folder, tap the Back link [3].

Note: Not all file types support sharing.
How do I manage my User Files in the Student app on my iOS device?

You can manage all the personal files in your Canvas account in the Canvas Student app. If necessary, you can manage My Files to clear up space within your course account.

This lesson shows how to edit or delete a file. The steps to edit or delete a file folder are the same.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Notes:
- The Unfiled Folder stores documents, graphics, and any other files from your account that you have posted to different areas of Canvas, such as Discussions. Deleting these items within current courses may create broken links and submissions.
- You cannot delete files that have been submitted as an assignment.
- You cannot move files from one folder to another in the Canvas Student app.

Open Profile

On the Dashboard, tap the Menu icon.
Open My Files

Tap the Files link.

Add Item to Files
Tap the **Add** icon.

**Note:** The Add icon appears in every files window so you can build hierarchal levels of folders and files.

### Add Folder

To create a new folder, tap the **Create Folder** button.

### Save Folder

To create a new folder, type the name of the folder in the text field [1]. Tap the **OK** button [2].
Upload File

Create Folder

Add File

Cancel

To upload a file, tap the Add File button.

View Upload Options

1. Use Camera
2. Record Audio
3. Choose From Library
4. Upload File

Cancel
When uploading a file, you can take a photo from your camera [1], record audio [2], select a photo from your device library [3], or upload a file from your device [4].
How do I add a Canvas widget for the Student App to my iOS device?

The Canvas Student app comes with a widget for quick access to grades. The Canvas Student Grades widget displays the current grade for up to eight courses.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Notes:

- Depending on your iOS device, the steps to install a widget may vary from what is pictured below. If you have questions, please refer to your device instructions on how to install a widget.
- The Student Grades widget will not display grades if multiple users are logged into the Student app.
- Widgets are not available for the Canvas Teacher or Canvas Parent apps.

Open Today View

Swipe right from the Home screen or Lock screen to open the Today View.
Edit Widgets

Tap the Edit button.
Add Grades Widget

Find the Canvas Student Grades widget [1]. To add the widget, tap the Add icon [2].
Edit Widget

Once you have added your widget, it will display with other widgets that have been added to your iOS device. To remove the widget, tap the Remove icon [1]. To move the widget, tap the Move icon [2] and drag and drop the widget to a new location.

To view your widgets, tap the Done link [3].
View Widget

View the Student Grades widget [1].

To view a graded course assignment in the Student app, tap the assignment name [2].

To view more course information in the widget, tap the Show More link [3].
The Recently Graded Assignments section displays the three most recently graded assignments in your courses [1].

The Course Grades section displays your current course grades [2]. To view course grades in the Student app, tap the name of the course [3].

To view your course dashboard, tap the View more link [4].
Course Features
How do I view Announcements in the Student app on my iOS device?

Canvas lets you view Announcements in your Canvas courses.

**Note:** The Course Navigation menu matches the browser version of your Canvas course. If Announcements is not available in Course Navigation, it will also be hidden from view in the app.

Open Course

On the Dashboard, tap the name of the course you'd like to view.
Open Announcements

Tap the Announcements link.

**Note:** You may have to swipe your screen to view the Announcements link.
View Announcements

<table>
<thead>
<tr>

How do I view Conferences in the Student app on my iOS device?

You can use your mobile device to participate in a course conference. This lesson shows how to join a conference and use the Conferences interface on an iOS device. The Conferences interface uses the BigBlueButton web conferencing system.

To use the Conferences interface on an iOS device, you can join a conference from your Safari browser or open Safari from the Student app. You cannot participate in a conference in the Student app. When participating in a conference with an iOS device, you must use iOS 11 or later and the Safari browser.

This guide provides a basic overview of the Conferences interface. To learn more about specific features, view BigBlueButton’s HTML5 user documentation.

Open Conferences

In Course Navigation, tap the Conferences link.
The Conferences page displays all conferences in your course. New conferences, including in-process conferences, display in the New Conferences section [1]. Concluded conferences display in the Concluded Conferences section [2].

To view conference details, tap the name of a conference [3].
View No Conferences

If your course does not have any conferences, the Conferences page displays a **No Conferences** notification.
Open In Progress Conference

To open a conference that has started, tap the name of the conference [1].

Note: If the In Progress label does not display for your conference, the conference has not started [2].
Join Conference

Join an in progress conference, tap the **Join** button.
Join Audio

Before joining a conference, you will be asked how you want to join the conference audio. To use your microphone during the conference, tap the Microphone icon [1]. You will then need to follow the steps below to enable your microphone.

To quickly join the conference as a listener only, tap the Listen Only icon [2]. You will be taken directly to the conference.
Complete Echo Test

To test your microphone, you will need to complete an echo test. Speak a few words and listen for an echo. If you hear an echo, tap the Yes icon [1]. You will be taken directly to the conference.

If you do not hear an echo, tap the No icon [2]. Tapping the No icon will allow you to change your audio settings and retry the echo test.
Change Audio Settings

You can change various audio settings for your device. To change the microphone source, tap the Microphone source drop-down menu [1].

To change the speaker source, tap the Speaker source drop-down menu [2]. To test the speaker volume, tap the Play Sound link [3].

To retry the echo test, tap the Retry button [4].

View Confirmation Message

A confirmation message will display to confirm you have joined the conference.
View Conferences Interface

The Conferences interface includes four different areas that allow you to participate in the conference:

- Presentation Window [1]
- User Menu [2]
- Conference Tools [3]
- Options Menu [4]
The Presentation window displays the conference presentation [1].

You may be able to use the multi-user whiteboard to interact directly in the presentation [2]. If the toolbar is not available in the window, the multi-user whiteboard has not been enabled by your presenter.
Open User Menu

To open the User Menu, tap the Users icon.

View User Menu
All of the users in the conference will display in the Users list [1].

To open the chat, tap the Public Chat link [2]. To view the shared notes, tap the Shared Notes link [3].

To exit the User Menu, tap the Users icon [4].

**View Conference Tools**

The Conferences Interface includes tools to manage the audio and video elements of the conference.

To mute or unmute your microphone, tap the Microphone icon [1].

To leave or join the conference audio, tap the Audio icon [2].

To enable your webcam, tap the Webcam icon [3].
Open Options Menu

To open the Options Menu, tap the **Options** icon.

View Options Menu

1. 🔄 Make fullscreen
2. 🛠 Settings
3. 🛠️ About
4. 🧐 Help
5. 🔼 Hotkeys
6. 🚪 Logout
7. 📑 Close
From the Options Menu, you can:

- Enter or exit fullscreen mode [1]
- Open the Settings menu [2]
- View information about the Conferences tool [3]
- View BigBlueButton tutorial videos [4]
- View Conferences hotkeys [5]
- Log out of the Conferences tool [6]

To close the Options menu, tap the Close link [7].

View Application Settings

From the Settings menu, you can manage additional settings for the Conferences interface. By default, the Settings menu will open to the Application tab [1].

To enable or disable animations for conference audio, tap the Animations button [2].

To enable audio alerts, tap the Audio Alerts for Chat button [3]. To enable popup chat alerts, tap the Popup Alerts for Chat button [4].

To change your language, tap the Application Language menu and select your preferred language [5].
To adjust the font size, tap the Increase or Decrease icon [6].

**View Data Savings Settings**

<table>
<thead>
<tr>
<th>Application</th>
<th>Closed captions</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="data-savings" alt="Data savings" /></td>
<td></td>
</tr>
</tbody>
</table>

**Data savings**

To save your bandwidth adjust what's currently being displayed.

Enable webcams

Enable desktop sharing

To manage data savings, tap the Data Savings tab [1]. Data saving settings can significantly improve the performance of the Conferences interface when using a mobile device.

To enable or disable your webcam, tap the Enable Webcams button [2]. To enable or disable desktop sharing, tap the Enable Desktop Sharing button [3].
Save Settings

To save your changes to the Settings menu, tap the **Save** button.
How do I view Discussions in the Student app on my iOS device?

The Canvas Student app helps you keep track of all course discussions. You can also view newly created discussions or changes to discussions in the Notifications tab.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Notes:

- The Course Navigation menu matches the browser version of your Canvas course. If Discussions is not available in Course Navigation, it will also be hidden from view in the app.
- Viewing rubrics in graded discussions is not supported in the app.

Open Course

On the Dashboard, tap the name of the course you'd like to view.
Open Discussions

Tap the Discussions link.

Note: You may need to swipe your screen to view the Discussions link.
View Discussions

Pinned discussion will always display at the top of the page [1]. For each discussion, you can view the number of total replies [2] and the number of replies you have not read [3].

Discussions with unread posts are indicated by a blue dot [4].

Swipe your device from top to bottom to quickly refresh Discussions.

To view a discussion thread, tap the name of the thread.
View Discussion

**Course Introductions**

10 pts

1. Welcome to US History! This week’s discussion is simply to introduce yourself to class. Please answer the following questions:
   1. What is your name? Do you have a nickname?
   2. What is your favorite food?
   3. What are your hobbies?

   In addition to answering the above questions, reply to 1 of your classmates. Note you must post your answers before you can see anyone else’s replies.

   ![Reply button]

Replies

For each discussion, you can view the title [1] and description [2].
Replies can be viewed below the discussion topic. To view all replies, swipe your device screen.

If any users have replied to each other, you can view the replies within Replies.

To reply to a discussion, tap the Reply link [1]. To mark a user’s reply as read or unread tap the More Options icon [2].
How do I create a discussion in the Student app on my iOS device?

You can create new discussions using the Canvas Student app.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps. **Note:** Creating a discussion is a course permission. If you cannot create a new discussion, this feature has been disabled in your course.

**Open Course**

On the Dashboard, tap the name of the course you'd like to view.
Open Discussions

Tap the **Discussions** link.

**Note:** You may have to swipe your screen to view the Discussions link.

How do I reply to a discussion in the Student app on my iOS device?

You can reply to a discussion or discussion reply within the Canvas Student app.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open Course

On the Dashboard, tap the name of the course you'd like to view.
Open Discussions

Tap the **Discussions** link.

*Note:* You may have to swipe your screen to view the Discussions link.
Open Discussion

To view a discussion thread, tap the name of the thread.
Reply to Discussion

Your assignment is to find at least two news media science articles or videos. These are articles in newspapers, magazines (pop culture or science magazines such as popular science), TV news, etc.

Please respond to this discussion board with links to your chosen articles along with a short description of each. The description should be long enough for us to understand the major topic presented in the article (1-3 sentences).

To reply to the main discussion, tap the Reply button.
Reply to Discussion Reply

In this discussion, please discuss what you read in Chapter 1 of the textbook.

Science in News Media

Your assignment is to find at least two news media science articles or videos. These are articles in newspapers, magazines (pop culture or science magazines such as popular science), TV news, etc. Please respond to this discussion board with links to your chosen articles along with a

To reply to the discussion, tap the Reply icon.
Open Attachments

To add attachments to your reply, tap the Attachment icon.
Add Attachment

[Image: A paperclip icon with a message saying No Attachments. The message says: Add an attachment by tapping the plus at the top right.]

Then tap the Add icon.
Select Attachment Type

1. Record Audio
2. Use Camera
3. Upload File
4. Choose From Library

To record an audio attachment, tap the **Record Audio** button [1]. To take a new photo or video, tap the **Use Camera** button [2]. To upload a file from your device, tap the **Upload File** button [3]. To select an image from your device library, tap the **Choose From Library** button [4].
Record Audio

To record audio, tap the Record button.

Stop Audio

To stop recording, tap the Stop button.
Use Audio

To upload your audio attachment, tap the Upload button [1]. To delete your recording, tap the Delete icon [2].

Use Camera

To take a photo, tap the Photo option [1]. To take a video, tap the Video option [2].
Then tap the **Use Photo** or **Use Video** link [1]. To retake the photo or video, tap the Retake link [2].

**Upload File**

Tap the **Browse** button.
Then select a file to attach.
Choose from Library

Select a photo from a photo gallery on your device.

Verify Attachment

View your attachment on the Attachments page [1]. If you add multiple attachments, you can scroll down the text field to view them.

To remove the attachment, tap the Remove icon [2]. To return to your discussion, tap the Done link [3].
How do I view Course Files in the Student app on my iOS device?

You can view course files with the Canvas Student app. You can also view your personal files.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

**Note:** The Course Navigation menu matches the browser version of your Canvas course. If Files is not available in Course Navigation, it will also be hidden from view in the app.

Open Course

On the Dashboard, tap the name of the course you'd like to view.
Open Files

Files displays file folders [1] and file items [2]. To view file items within a folder, tap the name of the folder. To view a specific file, tap the name of the file.

File folders display how many file items are within a folder [3]. Individual files display the size of the file [4].
Search Files

To search for a file, tap the **Search** field [1]. Then enter the name of the file you want to view.

To open the file, tap the name of the file in the search results [2].

**Notes:**

- You must enter three or more characters for search results to display.
- Search results will not include file folders.
View the course file [1]. You can also share the file by tapping the **Share** icon [2].

**Note:** Not all file types support sharing.
How do I view Course Grades in the Student app on my iOS device?

You can view your course grade in the Canvas Student app. Grades are viewed from the Course Navigation link. However, the Course Navigation menu matches the browser version of your Canvas course. If Grades is not available in Course Navigation, it will also be hidden from view in the app.

If your course is using Multiple Grading Periods, you can filter grades by grading period. If your course is not using Multiple Grading Periods, the Grades page shows all assignments and grades for the entire course. If the Dashboard does not show a total grade, there are no active grading periods in your course.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps. You can also view your grades in the Dashboard and by adding a Canvas widget to your iOS device.

Open Course

In the Dashboard, tap the name of the course you'd like to view.
Open Grades

Tap the Grades link.

**Note:** You may have to swipe your screen to view the Grades link.
View Course Grades

Your total score appears at the top of the page [1]. If your course is using Multiple Grading Periods, you can also filter grades by grading period [2].

If a grade has been awarded for an assignment, the assignment displays the score you have earned [3]. Grades also include labels for late, missing, and unsubmitted assignments [4].
View Assignment Details

To view the details of an assignment including any comments from your instructor, tap the assignment name.
How do I view Modules in the Student app on my iOS device?

The Canvas Student app gives you access to Modules in your courses.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

**Note:** The Course Navigation menu matches the browser version of your Canvas course. If Modules is not available in Course Navigation, it will also be hidden from view in the app.

Open Course

On the Dashboard, tap the name of the course you'd like to view.
Open Modules

Tap the Modules link.

Note: You may have to swipe your screen to view the Modules link.
View Modules

The app displays all the Modules in your course.

If you are a student, each module displays an icon next to the status of the module, which can be completed [1], unlocked [2], or locked [3].

Modules may be locked by prerequisites, or if the module is locked by a date, the date of the module is posted under the module title [4].

Open Module

Introduction to the Laboratory

Locked until February 2, 2018
To view items within a module, tap the name of the module.

View Module Items

![Module Items](image)

The module shows all module items. If your course is designed with prerequisites, they are shown at the top of the page [1]. If your course is designed with requirements, the requirement is shown below the module item [2].

The completion status is shown on the right side of the app; a circle indicates the module item is not complete [3], while a circle with a check mark indicates the module item is completed [4].

Some courses allow you to complete module items in any order.

How do I view Pages in the Student app on my iOS device?

Canvas lets you access Pages from your mobile device.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

**Note:** The Course Navigation menu matches the browser version of your Canvas course. If Pages is not available in Course Navigation, it will also be hidden from view in the app.

Open Course

On the Courses page, tap the name of the course you'd like to view.
Open Pages

Tap the **Pages** link.

**Note:** You may have to swipe up on your screen to view the Pages link.
View Pages

View your course pages.
Open Page

To open a page, tap the page name [1]. To open the course home page, tap the Front Page button [2].
Environment

THE PROBLEM WITH environmentalists, Lynn Margulis used to say, is that they think conservation has something to do with biological reality. A researcher who specialized in cells and microorganisms, Margulis was one of the most important biologists in the last half century—she literally helped to reorder the tree of life, convincing her colleagues that it did not consist of two kingdoms (plants and animals), but five or even six (plants, animals, fungi,
How do I view People in the Student app on my iOS device?

Canvas lets you access People from your mobile device.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

2. Library
3. Files

Use the file picker to attach a file. To take and then attach a camera or video file, tap the Camera icon [1]. To attach a file from your device image library, tap the Library icon [2]. To attach a file from your device files, tap the Files icon [3].

View Comment

View your comment.
How do I view the rubric for my assignment in the Student app on my iOS device?

Your instructor may include a rubric as part of your assignment. A rubric is a set of criteria that your instructor will use to grade your assignment. Before submitting your assignment, you view an assignment rubric to evaluate your own work and make sure your assignment fulfills your instructor’s requirements.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Note: Not all assignments may include a rubric.

Open Course

Tap the name of the course.
Open Assignments

Tap the Assignments link.

Note: You may have to swipe to view the Assignments link.
Open Assignment

Tap the name of the assignment.
Open Submission and Rubric

On the Assignment Details page, tap the Submission & Rubric link.
Open Rubric

Tap the Rubric link.

**Note:** The Rubric tab displays even if your instructor has not attached a rubric to the assignment.
View Rubric

The Rubric tab displays rubric criteria [1], a link to the criterion description [2], and possible criterion ratings [3].

To view additional rubric criteria, swipe up.

View Criterion Description

Understand solving an equation or inequality as a process of answering a question: which values from a specified set, if any, make the equation or inequality true? Use substitution to determine whether a given number in a specified set makes an equation or inequality true.

To view a description for a criterion, tap the criterion's Description link [1].

The criterion description displays in a new page [2]. When you are finished reviewing the criterion description, tap the Done link [3].
How do I upload a file as an assignment submission in the Student app on my iOS device?

You can upload files from your iOS device for an assignment submission. Once you submit your assignment, you can verify your assignment submission. You can also resubmit assignments if your instructor allows.

You can also submit an assignment from a third-party app, such as Google Drive and Dropbox.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Notes:
- Your instructor may restrict certain assignment types, including file uploads, so this option may not be available for your assignment submission.
- If your assignment includes a link to a PDF file, you can add annotations as part of your submission.
- To learn more about File Upload and Media Recording submissions in the Canvas Student app, view the Canvas Media Comparison PDF.

Open Course

On the Dashboard, tap the name of the course you'd like to view.
Open Assignments

Tap the Assignments link.

**Note:** You may have to swipe your screen to view the Assignments link.
Open Assignment

Tap the name of the assignment.
View Assignment Details

Assignment Details page displays information about your assignment, including the assignment's acceptable submission types [1] and accepted file types, if applicable.

You can also leave assignment comments, view attached files, and view the assignment rubric from the Submission & Rubric link [2].
Submit from Assignment Details Page

Tap the **Submit Assignment** button.

Select File Upload

Tap the **File Upload** link.
Select Upload Source

Using the file picker, select the source from which you wish to upload your file.

To take a picture or record a video with your device camera, tap the **Camera** link [1].

To select a file from your device library, tap the **Library** link [2].

To select a file from your device files, tap the **Files** link [3].

To scan a file with your device, tap the **Scanner** link [4].
Submit Assignment

Verify the file you have chosen for submission [1]. Then tap the **Submit** link [2].
How do I submit a media file as an assignment submission in the Student app on my iOS device?

You can upload media files from your iOS device for an assignment submission. Once you submit your assignment, you can verify your assignment submission. You can also resubmit assignments if your instructor allows.

You can also submit an assignment from a third-party app, such as Google Drive and Dropbox.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Notes:

- Your instructor may restrict certain assignment types, including media file uploads, so this option may not be available for your assignment submission.
- To learn more about File Upload and Media Recording submissions in the Canvas Student app, view the Canvas Media Comparison PDF.

Open Course

On the Dashboard, tap the name of the course you'd like to view.
Open Assignments

Tap the Assignments link.

Note: You may have to swipe your screen to view the Assignments link.
Open Assignment

Tap the name of the assignment.
View Assignment Details

The Assignment Details page displays information about your assignment, including the assignment's acceptable submission types [1] and accepted file types, if applicable.

You can also leave assignment comments, view attached files, and view the assignment rubric from the Submission & Rubric link [2].
Submit from Assignment Details Page

Tap the Submit Assignment button.

Select Media Recording

Tap the Media Recording link.
Select Media Source

Using the file picker, select the source from which you wish to upload your media file.

To record an audio submission using your device, tap the Audio link [1].

To record a video submission using your device, tap the Camera link [2].

To select a media file you have already recorded from your device library, tap the Library link [3].

To select a media file from your device files, tap the Files link [4].

To scan a media file with your device, tap the Scanner link [5].
Record Audio File

Tap the Record icon to begin recording [1]. While recording, the stopwatch at the top of the screen displays the length of your recording [2]. To stop recording, tap the Stop icon [3].

Preview Audio File

When you have stopped recording, you can preview your audio file.
Submit Audio File

1. Delete
2. Send

To delete your file and start again, tap the **Delete** button [1]. To submit your audio recording as your assignment submission, tap the **Send** button [2].

Record Video File

Tap the **Record** icon to begin recording [1]. While recording, the stopwatch at the top of the screen displays the length of your recording [2]. To stop recording, tap the **Stop** icon [3].
Preview Video File

When you have stopped recording, you can preview your video file.
Submit Video File

To delete your file and start again, tap the Retake button [1]. To submit your video recording as your assignment submission, tap the Use Video button [2].
How do I enter a website URL as an assignment submission in the Student app on my iOS device?

You can enter a website URL as an assignment submission from your iOS device. Once you submit your assignment, you can verify your assignment submission. You can also resubmit assignments if your instructor allows.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Note: Your instructor may restrict certain assignment types, including URLs, so this option may not be available for your assignment submission.

Open Course

On the Dashboard, tap the name of the course you'd like to view.
Open Assignments

Tap the Assignments link.

Note: You may have to swipe your screen to view the Assignments link.
Open Assignment

Tap the name of the assignment.
View Assignment Details

The Assignment Details page displays information about your assignment, including the assignment's acceptable submission types [1] and accepted file types [2].

You can also leave assignment comments, view attached files, and view the assignment rubric from the Submission & Rubric link [3].
Submit from Assignment Details Page

Tap the **Submit Assignment** button.
Select Website URL

Tap the **Website URL** link.
Enter URL

1. https://youtu.be/BuhrHclfW8o
2. Preview

Type or paste the website URL in the website textbox [1].

You can preview the link in the Preview field [2].

When you are ready to submit the assignment, tap the Submit link [3].
How do I submit a text entry assignment in the Student app on my iOS device?

If your instructor has allowed a text entry assignment submission, you can type or copy and paste text as an assignment submission using your iOS device. Once you submit your assignment, you can verify your assignment submission. You can also resubmit assignments if your instructor allows.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open Course

On the Dashboard, tap the name of the course you'd like to view.
Open Assignments

Tap the Assignments link.

**Note:** You may have to swipe your screen to view the Assignments link.
Open Assignment

Tap the name of the assignment.
View Assignment Details

The Assignment Details page displays information about your assignment, including the assignment's acceptable submission types [1] and accepted file types [2].

You can also leave assignment comments, view attached files, and view the assignment rubric from the Submission & Rubric link [3].
Submit from Assignment Details Page

Tap the **Submit Assignment** button.
Select Text Entry

Tap the **Text Entry** link.
Enter Text

Type or paste your text in the Enter Submission field.

Submit Text Entry

When you are ready to submit your entered text, tap the Submit link.
How do I submit a Canvas Studio assignment in the Student app on my iOS device?

You can submit Canvas Studio assignments from your iOS device. Once you submit your assignment, you can verify your assignment submission. You can also resubmit assignments if your instructor allows.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Note: Your instructor may restrict certain assignment types, including Canvas Studio uploads. Additionally, your institution may not have enabled Canvas Studio, so this option may not be available for your assignment submission.

Open Course

On the Dashboard, tap the name of the course you'd like to view.
Open Assignments

Tap the Assignments link.

Note: You may have to swipe your screen to view the Assignments link.

Submission & Rubric

Submit Assignment

Tap the Submit Assignment button.
Select Studio

Tap the Studio link.
The Canvas Studio LTI tool opens to the My Uploads page in the app [1]. You can select media displayed on the My Uploads page [2], upload new media [3], or search for your Studio media [4].
Select Studio Media

Once you have located the media you wish to use, tap the media tile.

Select Embed Options

- Standard Embed
- Embed Options
  - Allow Comments
  - Display Download Option
By default, comments are enabled. To disable commenting on your Studio submission, tap the **Allow Comments** option [1].

To allow others to download your Studio media, tap the **Display Download Option** option [2].

---

**Submit Studio Assignment**

To submit your selected media, tap the **Embed** button.
How do I submit a PDF assignment with annotations in the Student app on my iOS device?

Canvas allows you to add annotations to PDF files for assignment submissions. Available annotations include highlight, underline, squiggly, strikeout, free text, and drawing.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open Course

On the Dashboard, tap the name of the course you'd like to view.
Open Assignments

Tap the Assignments link.

Note: You may have to swipe your screen to view the Assignments link.
Open Assignment

Tap the assignment you want to open.
Open Link

Tap the file link in the assignment's Description field.
Edit PDF

Tap the Edit icon.
Use the toolbar to select your annotation tools.

To add highlight, underline, squiggle, or strikethrough text annotations, tap the **Text Formatting** icon [1].

To type text or add a comment, tap the **Free Text** icon [2].

To add color annotations, tap the **Pen** icon [3].

To highlight text, tap the **Highlight** icon [4].

To free-draw shape annotations, tap the **Drawing** icon [5].

To erase changes, tap the **Eraser** icon [6].

To draw arrows, lines, or shape annotations, tap the **Line** icon [7].

To add a link as an annotation, tap the **Link** icon [8].

To undo or redo an annotation, tap the **Arrow** icons [9].

To close the toolbar, tap the **Close** icon [10].
To move the toolbar, tap and hold the drag handle [11], and move it to the new location. The toolbar can be relocated to either side of the screen.

**Use Text Annotation Tool**

To view the text annotation options, tap and hold the Text Formatting icon [1].

The Text Format option allows you to highlight [2], underline [3], squiggle [4], and strikethrough [5] text.
Change Text Annotation Color

To change the text annotation tool color, tap the color icon [1], then tap to select a color [2]. To dismiss the menu and add annotations, swipe down on the menu [3].
Use Free Text Annotation Tool

To view the text annotation options, tap and hold the Free Text icon [1]. You can select to add text [2] or add comments [3].
Select Free Text Formatting

To format your text annotations, tap the color icon [1]. You can preview your formatting options in the Sample field [2]. You can adjust the font size [3] and color [4]. To dismiss the options and add annotations, swipe down on the menu [5].
Use Pen Annotation Tool

You can draw thin lines, bold lines, and shapes. Tap the Pen icon.
Select Pen Formatting

To format your pen annotations, tap the color icon [1]. You can preview your formatting options in the Sample field [2]. You can adjust the pen thickness [3] and color [4]. For more color options, tap the Color menu [5].

To dismiss the options and add annotations, swipe down on the menu [6].
Use Highlight Annotation Tool

You can highlight text. Tap the **Highlight** icon.
Select Highlight Formatting

To format your highlight annotations, tap the color icon [1]. You can preview your formatting options in the Sample field [2]. You can adjust the highlight thickness [3] and color [4]. For more color options, tap the Color menu [5].

To dismiss the options and add annotations, swipe down on the menu [6].
Use Free-Draw Annotation Tool

You can free-draw lines and shapes. Tap the Free-Draw icon.
Select Free-Draw Formatting

To format your free-draw annotations, tap the color icon [1]. You can preview your formatting options in the Sample field [2]. You can adjust the free-draw thickness [3] and color [4]. For more color options, tap the Color menu [5].

To dismiss the options and add annotations, swipe down on the menu [6].
Use Line Annotation Tool

To view the line annotation options, tap and hold the Line icon [1]. You can draw arrows [2], lines [3], and shapes [4].
Select Line Formatting

To format your line annotations, tap the color icon [1]. You can preview your formatting options in the Sample field [2]. You can adjust the line thickness [3] and color [4]. For more color options, tap the Color menu [5].

To dismiss the options and add annotations, swipe down on the menu [6].
Use Link Annotation Tool

You can add links as annotations. Tap the Link icon [1]. Then tap and drag to select the area where you wish to add your link [2].
Create Links

To link the selected area to another page in the same document, tap the **Link to Page** option [1]. Enter a page number [2] or tap to select a page [3].

To add a website link to the selected area, tap the **Link to Website** option [4]. Enter a URL in the Website Address field [5]. Preview your content in the Website Preview window [6].
Close Annotations

When you are finished adding annotations, tap the **Close** icon [1] or tap the **Edit** icon [2].
Open Share Menu

Tap the **Share** icon [1] and then tap the **Student** button [2].
Add Submission Comments

Type your assignment comments in the Comments field.
Submit Assignment

Tap the **Submit** link.
How do I submit an assignment from a third-party app to the Student app on my iOS device?

Canvas makes it easy to submit assignments on your mobile device by linking them from third-party apps, such as Google Drive, Dropbox, and Microsoft OneDrive.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Notes:

• Before uploading an assignment to the Canvas Student app:
  • the assignment must already be uploaded to the third-party app.
  • the third-party app must be installed on your iOS device.
• To learn more about File Upload submissions in the Canvas Student app, view the Canvas Media Comparison PDF.

Open Third-party App

On your iOS device, tap to open the third-party app.
Submit from Dropbox App

Locate the file you wish to submit as a Canvas assignment [1]. Tap the **Options** icon next to the file name [2].
Export Dropbox File

Tap the Export link.
Tap the Open In... link [1]. Then tap the Submit Assignment link [2].
Submit from Google Drive App

Locate the file you wish to submit as a Canvas assignment [1]. Then tap the Options icon next to the file name [2].
Tap the **Open in** link [1]. Once the file is prepared for export, tap the **Submit Assignment** link [2].
Submit from Microsoft OneDrive App

Tap the name of the file you wish to submit as a Canvas assignment [1]. Then tap the Share icon [2].
Send a Copy to Canvas

Tap the **Send a Copy** link [1]. Then tap the **Submit Assignment** link [2].
Select Course

Tap the Course menu [1]. The Course list displays a list of your current Canvas courses. Select the course where you will submit your assignment by tapping the name of a course [2]. Your selected course displays a check icon [3].
Select Assignment

Tap the Assignment menu [1]. The Assignment list displays an alphabetical list of all assignments in your course. Select the assignment for your submission by tapping the name of the assignment [2]. Your selected assignment displays a Check icon [3].

**Note:** The assignment list displays all assignments in a course, including locked assignments.
Add Submission Comment

To include a comment with your assignment submission, tap the **Comments...** field.
Submit Assignment

To submit your assignment, tap the Submit button.
You can verify your assignment submission from the assignment's Assignment Details page in the Canvas Student app.

**Note:** If you attempted to submit a file to a locked assignment, the Assignment Details page does not display a submission success notification and instead displays assignment availability dates.
How do I verify my assignments were submitted in the Student app on my iOS device?

You can view your assignment type submission to verify it was submitted correctly.
The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open Course

On the Dashboard, tap the name of the course you'd like to view.
Open Assignments

Tap the Assignments link.

Note: You may have to swipe your screen to view the Assignments link.
Open Assignment

Tap the name of the assignment.

View Assignment Details Page

The assignment details page displays a submitted timestamp when an assignment is successfully submitted.
Open Submission and Rubric

Successfully submitted!
Your submission is now waiting to be graded.

Submission & Rubric

To view your submission, scroll and then tap the Submission and Rubric link.
The Submission page displays your most recent submission [1]. To view older submissions, tap the arrow icon [2], then select a submission from the list [3].
Turn In Assignment

If you do not have any assignment submissions, you can turn in your assignment by tapping the Submit Assignment button.
How do I resubmit an assignment in the Student app on my iOS device?

If your instructor allows you to resubmit assignments, you can resubmit an assignment. The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open Course

On the Dashboard, tap the name of the course you’d like to view.
Open Assignments

Tap the Assignments link.

Note: You may need to swipe your screen to view the Assignments link.
Open Assignment

Tap the name of the assignment.

View Assignment Submission Details

The Assignment Details page displays your submission details.
Resubmit Assignment

Tap the Resubmit Assignment button.
How do I add annotations to a submission in the Student app on my iOS device?

You may be able to add annotations to an assignment submission. Canvas DocViewer is a tool that allows annotations in online assignment submissions. Annotations made in Canvas Student can be viewed by your instructor when grading your submission.

If a file is not compatible with DocViewer, the document previewer will still display the file, but DocViewer markup and commenting will not be available.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Notes:

- Files over 100 MB and password-protected files will not be converted by DocViewer.
- It may take up to ten minutes after an assignment is submitted for the Student app to display a document that supports DocViewer.

Open Submission

From the Assignment Details page, tap the Submission & Rubric link.
Annote File

Tap the **Annotate** icon.
Select an annotation tool by tapping the annotation icon [1]. When selected, the icon will include a white background. To stop using an annotation tool, tap the annotation icon again.

To undo the last action made, tap the **Undo** button [2].

If a submission includes more than one page, view the additional pages by swiping up on your screen.
Add Point Annotation

To leave a point annotation, tap the **Point** annotation icon [1].

Tap the area where you want to add the annotation [2].

Add Comment

Point annotations immediately require a comment. In the **Reply** field [1], type the comment for the point annotation. Tap the **Send** icon [2].
To delete your comment, tap the Delete icon [1]. To return to the submission, tap the Done link [2].

Modify Point Annotation

To move the annotation, tap and hold the annotation icon in the document [1]. Drag the annotation to the new area.

To view and modify your annotation comment, tap the Comments button [2].

To delete the annotation, tap the Delete icon [3]. Deleting an annotation will also delete any associated comments.
Add Highlight Annotation

To highlight text within the document, tap the Highlight icon [1]. To select the highlight color, tap the Color icon [2].

To add a highlight annotation, tap and drag within the submission [3].

Modify Highlight Annotation

To modify the annotation, tap and hold the annotation.

To add a comment to the highlight annotation, tap the Comments button [1]. To style the annotation, tap the Style button [2].

To delete a highlight annotation, tap the Delete icon [3]. Deleting an annotation will also delete any associated comments.
Add Text Annotation

To add text directly in the submission, tap the **Free text** icon [1]. To select the text color, tap the **Color** icon [2].

Then tap the area where you want to add the annotation.

In the text field [1], enter the text you want to add for the annotation. To change the size of the text, tap the **Point** link [2].

When you are done, tap the **Done** link [3].
Modify Text Annotation

To modify the annotation, tap the annotation text box [1].

To move the annotation, tap and hold the annotation outline in the document. Drag the annotation to the new area.

To add comments to the annotation, tap the Comments button [2].

To change the text size or color, tap the Inspector button [3].

To edit the annotated text, tap the Edit button [4].

To delete a text annotation, tap the Delete icon [5]. Deleting an annotation will also delete any associated comments.
Add Strikeout Text Annotation

To indicate that text should be deleted, tap the **Strikeout** icon [1]. To select the strikeout color, tap the **Color** icon [2].

Tap and drag to strikeout text within the submission. A line will appear, striking through the text [3].

**Note:** Depending on your screen size, you may have to tap the Options icon to view the Strikeout icon.
Modify Strikeout Text Annotation

To modify the annotation, tap the annotation [1].

To add a comment, tap the Comments button [2].

To style the strikeout as a solid line or a highlighted background, or to change the strikeout color or annotation opacity, tap the Style button [3].

To delete a strikeout annotation, tap the Delete icon [4].
Add Draw Annotation

To make freehand drawings and annotations, tap the **Draw** icon [1]. To select the drawing color, tap the **Color** icon [2].

Tap and drag to start a drawing. Free-form lines will appear indicating the drawing area [3]. You can add multiple strokes to a drawn annotation.

**Note:** Depending on your screen size, you may have to tap the Options icon to view the Draw icon.
Modify Draw Annotation

To modify the annotation, ensure the annotation type is not selected [1]. Then tap the annotation [2]. A blue outline will display around the annotation drawing [3]. To move the annotation, tap and hold the draw annotation outline in the document. Drag the annotation to the new area.

To add a comment to your drawn annotation, tap the Comments button [4].

To delete a drawing at any time, tap the Delete icon [5]. Deleting an annotation will also delete any associated comments.
Add Area Annotation

To leave an area annotation, tap the **Area** icon [1]. To select the area annotation color, tap the **Color** icon [2].

Tap and drag the rectangle around an area of the submission. A box will appear indicating the area for the annotation.
Modify Area Annotation

To modify the annotation, ensure the annotation type is not selected [1]. Then tap the annotation in the document [2]. A blue outline will display around the annotation area [3].

To move the annotation, tap and hold the area annotation outline in the document. Drag the annotation to the new area.

To add a comment to the annotation, tap the Comments button [4].

To change the color for the annotation, tap the Inspector button [5].

To delete the annotation, tap the Delete icon [6]. Deleting an annotation will also delete any associated comments.
How do I view assignment comments from my instructor in the Student app on my iOS device?

You can view comments from your instructor as part of your submitted assignment.
You can also make a comment in your assignment.
The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open Course

On the Dashboard, tap the name of the course you’d like to view.
Open Assignments

Tap the Assignments link.

Note: You may have to swipe your screen to view the Assignments link.
Open Assignment

Tap the name of the assignment.
View Assignment Details

The Assignment Details page includes a time stamp indicating when you submitted your assignment [1] as well as the grade you received [2].

Open Submission and Rubric

Tap the Submission & Rubric link.
The Submission details page displays your most recent submission.
View Annotations

If your instructor has left annotations in your document submission, they display in the Submissions details page [1].

Annotations may include comments. Tap the annotation [2], then tap the Comments link [3].
View Annotation Comments

Comments display on the Comments page [1].

To reply to a comment, type in the Reply field [2], then tap the Send button [3]. When done, tap the Done link [4].
View Submission Comments

Tap the **Comments** tab [1].

Any comments from your instructor display in the window [2]. Your instructor may also leave media comments [3]. To play a media comment, tap the **Play** icon [4].

Your instructor can also leave document attachments on your assignment submission [5].

You can also [make comment](#) on your submission [6].
Your instructor may also choose to leave comments in your assignment rubric. To view rubric comments, tap the Rubric tab [1]. Comments display below rubric criterion ratings [2].
Admin Features
How do I act as a user in the Student app on my iOS device?

Acting a user allows admins to login as the user without a password. You can take any action as though you are the user but the audit logs will show that you performed the tasks while acting as a user. Only admins with the correct permissions can act as other users.

You can act as a user from the User Menu. Make sure you have the user’s ID associated with the correct Canvas URL.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Note: When acting as a user, language preferences do not apply and will always be shown in the default language.

Open User Menu

To open the User Menu, tap the Menu icon.
Open Masquerade Feature

Tap the Act as User link.

Note: If the Act as User link is not available in your User Menu, you do not have the permission to perform this action.
In the User ID field [1], enter the Canvas ID number for the user. The domain will already be populated for you [2]. Then tap the Act as User button [3].

**Note:** The user’s Canvas ID can be found as part of the user’s URL in the web version of Canvas. Make sure you have the user’s ID associated with the correct Canvas URL.
View App as User

View the Student app as the user. A magenta border [1] and the user’s Profile icon [2] will display on every page while you are acting as the user.

Stop Acting as User

To stop acting as user, tap the user's Profile icon.
To confirm and return to your account, tap the **OK** button.
How do I streamline Canvas Student app login for iOS devices at my institution?

You can simplify the Canvas Student app login process by configuring your Mobile Device Management (MDM) provider. Students may be directed to your institution's Canvas login page, or you can configure direct login access for students.

Canvas supports authentication with a variety Mobile Device Management (MDM). Authentication must be configured in your MDM interface.

**Note:** The information in this lesson only affects iOS devices. Student using Android devices will not notice any changes to their login screen.

Specify Host for Login

You can configure your institution MDM to display a direct link to your institution's Canvas login page in the Canvas Student app.

To specify a host in your institution's MDM profile configuration, enter the following in your MDM configuration field.

```xml
<dict>
  <key>enableLogin</key>
  <true/>
  <key>host</key>
  <string>institution URL</string>
</dict>
```

Institution Specific Data

You must enter your institution URL in the authentication string. For example, if your institution url is [https://canvas.instructure.com](https://canvas.instructure.com), enter `canvas.instructure.com`. 
When students open the Canvas Student app on their iOS device, a Log In button displays.

When students tap the Log In button, they are directed to the specified host configuration login page.

**Specify Direct Login**

Alternatively, you can configure your institution MDM to automatically log in student users from the Canvas Student app login page.

To enable direct login for student users in your institution's MDM profile configuration, enter the following:

```
<dict>
  <key>enableLogin</key>
  <true/>
  <key>users</key>
  <array>
  </array>
```

<dict>
  <key>host</key>
  <string>institution URL</string>
  <key>username</key>
  <string>student username</string>
  <key>password</key>
  <string>student password</string>
</dict>

Institution Specific Data

To correctly configure Direct Login for students at your institution, you must specify the following data for each MDM profile.

- **Institution URL**: enter your institution URL. For example, if your institution url is https://canvas.instructure.com, enter canvas.instructure.com.
- **Student Username**: enter student usernames for whom you wish to set up direct login.
- **Student Password**: enter student passwords for whom you wish to set up direct login.

Configuring Direct Login for Multiple Students

To configure Direct Login for multiple MDM profiles, the above string must be configured in each profile.

To configure Direct Login for multiple students in one MDM profile, add a host, username, password string for each student in the profile. This configuration might look like this:

<dict>
  <key>enableLogin</key>
  <true/>
  <key>users</key>
  <array>
    <dict>
      <key>host</key>
      <string>institution URL</string>
    </dict>
  </array>
</dict>
<key>username</key>
<string>student username1</string>
</dict>

View Student Direct Login

When MDM direct login is configured, the Canvas Student app displays a Previous Logins section.

When a student taps their name, they are directly logged in to the Canvas Student app, where they can access their Canvas courses.
