How do I download the Canvas Student app on my iOS device?

Download the Canvas Student app on your iOS device for easier accessibility to course content.
The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open App Store

Open your iOS device and tap the App Store icon.

Open Search

In phone devices, tap the Search icon at the bottom of the screen.
In tablet devices, tap the Search field at the top of the App Store.
Search for App

In the search field, type Canvas Student in the search field. Tap the full name when it appears.

Select App

Tap the Get button.
Install App

Tap the Install button.

Note: iTunes may ask for your iTunes password to download the app.
Open App

When the app has downloaded and installed onto your iOS device, you can access the app immediately by tapping the Open button.

View App on iOS Home Screen

You can also open the app on your iOS home screen by tapping the Student icon.
How do I log in to the Student app on my iOS device?

Once you download the Canvas Student app from the iTunes store, you can use the app to log in to your Canvas account.

The Canvas Student app will ask you for the name of your institution to find your Canvas account. If the app cannot find your institution, you can use your institution's Canvas URL to log in.

If you do not want to locate your Canvas URL every time you log in to Canvas, learn how to switch to another user account.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open Canvas Student App

Open your device and tap the Student icon.
Find Your School

To find your institution, tap the **Find my school** button [1].

If you have previously logged into the app, you may be able to log into the app using a previous login. To use a previous login, tap your username [2].

To get help with logging into the Student app, tap the **Help** icon [3].
Find Institution

What's your school's name?

utah

Midwives College of Utah
Utah Education Network
Utah Electronic High School

Enter the name of your institution or school district. When the full name appears in the search list, tap the name.

Notes:

- If you are an admin and your school does not appear in the search list, please contact your CSM about mobile smart search.
- To log in to a Free For Teacher account, enter Free Canvas Accounts or canvas.instructure.com in the search field.
Locate Canvas URL

If the name of your institution does not appear in the search list, you may need to locate your Canvas account by entering a Canvas URL. If you don't know your Canvas URL, tap the Tap here for help link in the search results.
Enter Canvas URL

You can also log in using your Canvas URL. Enter your institution's Canvas URL in the search field [1]. Then tap the Go button on your keyboard [2].

Note: If you are trying to access a Canvas Network course, enter the Canvas Network URL, learn.instructure.com.
Enter Login Credentials

After you've located an account, you can view the Canvas URL at the top of the screen [1]. Enter your email [2] and password [3]. Tap the Log In button [4].

If you don't know your password, tap the Forgot password? link [5].

Notes:

- The Canvas email field credential varies according to institution. Some institutions may require a username or account number.
- If your Canvas mobile login page does not show the reset password option, contact your institution if you need to reset your password.
- If your institution requires you to log in to Canvas using their authentication system, you will be redirected to your institution's login page.
View Dashboard

View the Dashboard for your account.
How do I use the Student app on my iOS device?

The Canvas Student app helps students access their courses while they are away from a computer browser. The app displays your profile, Calendar, To-Do items, Notifications, and Messages, as well as functionality to access and complete a course.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Note:

• Not all Canvas features are supported on the app at this time.
• The Canvas Student app uses your device's settings to set the time zone used within the app.

View Courses Page

When you log in to the Canvas Student app, the default landing page is the Dashboard. Learn how to change your landing page.
If you have been invited to join a course, you can view the course invitation on your Dashboard. To accept the invitation, tap the **Accept** button [1]. To decline the invitation, tap the **Decline** button [2].
If a global announcement has been sent to students at your institution, you can view the announcement on your Dashboard. To read the announcement tap the announcement [1]. To dismiss the announcement, tap the Close icon [2].
Open User Menu

To open your User Menu, tap the Menu icon.
View User Menu

Max Johnson
max.johnson.canvas@gmail.com

Files
Show Grades
Help
Change User
Log Out

From the User Menu, you can:

- Manage app settings [1]
- View your files [2]
- Show grades on the Dashboard [3]
- Get Help with the Canvas app [4]
- Change users [5]
- Log out of the Canvas app [6]
View Courses and Groups

To view your Dashboard, tap the Dashboard icon. The Dashboard displays all your current courses and groups, including your favorite courses. The Dashboard can also display overall grades in each course. Learn how to view courses and groups.
View Calendar

To view your calendar, tap the Calendar icon. The calendar displays events and assignments for your courses and groups. Learn how to view the calendar.
To view your To Do list, tap the To Do icon. The To Do list gives a quick view of upcoming course activities that have not yet been completed.

The To Do List gives you a quick view of upcoming course activities that you have not yet completed. Each item is color-coordinated according to course and displays an icon for its activity type: assignment, discussion, or quiz [1].

Tapping an activity item [2] takes you to its corresponding page, so you could complete an assignment directly.

**Note:** Users with instructor roles will see To Do notifications about grading assignments.
Hide To Do Item

To hide a To Do item, swipe the item to the left. Then tap the Done link.
View Notifications

To view Notifications, tap the Notifications icon.

Notifications gives you an overview of all course notifications such as changes to an assignment due date, newly created assignment, course announcement, or a reply to a subscribed discussion.

Like the To Do List, items in Notifications are color-coordinated by course and display activity type icons, including an icon for announcements. Tapping a notification item displays its corresponding page.

You can also view specific course notifications within each of your courses.
View Messages

To view your inbox, tap the Inbox icon. The inbox displays all Conversations messages in the Student app. Learn how to view Messages.

View New Items Indicator

If there are new items in the To Do list or Messages, a red indicator will appear next to the relevant icon. This indicator lets you know about updates in these areas when you are in another part of the app.
How do I log out of the Student app on my iOS device?

You can easily log out of Canvas when you are finished using the app.

You can also switch users in the Canvas Student app.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open Profile

In the Dashboard, tap the Menu icon.

Tap the Log Out link.
How do I get help with the Student app on my iOS device?

You can reference the Canvas Guides and get help directly on your mobile device.

This lesson outlines the five default help links that may be included in the Help menu for your institution. However, your institution may customize the Help menu to hide default links and create custom links as resources.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Log Out

Tap the Help link.
Report a Problem

If you encounter a problem in the Canvas Student app, tap the Report a Problem button.

Create Subject

The Canvas Student app automatically creates a message that includes your Canvas URL and the version of the Canvas Student app you are using.

In the Subject field, you can create a subject line.
Choose Impact Level

In the Impact field, tap the Choose One link.

Tap the text phrase that best fits how the problem is affecting you.
Send Message

Compose your message in the text field [1], then tap the Send link [2].

Request a Feature

If you have a feature you'd like to see in the Canvas Student app, tap the Request a Feature button.
Create Subject

The Canvas Student app automatically creates a message to the mobile team.

In the Subject field, you can create a subject line.

Choose Impact Level

In the Impact field, tap the Choose One link.
<table>
<thead>
<tr>
<th>Request a Feature</th>
<th>Impact Level</th>
</tr>

<td>Casual question or suggestion</td>
<td></td>
</tr>
</tbody>
</table>

- I need help but it's not urgent
- Something is broken but I can work around it
- I can't get things done until I hear back from you
- Extremely critical emergency

Tap the **Casual question or suggestion** option.

**Send Message**

- **Subject**: Great Idea
- **Impact**: Casual question or suggestion

Compose your message in the text field [1], then tap the **Send** link [2].
How do I switch to another account in the Student app on my iOS device?

If you use Canvas in more than one account (Canvas URL), you can change between accounts on your device without having to log out of the app.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open User Menu

In the Dashboard, tap the Menu icon.
Change User

Tap the Change User option.
Previous logins appear in the user list. Tap the user profile you want to open [1]. To remove a profile, tap the Remove icon [2].

To add an account, tap the Find my School button [3] and log in to Canvas.

To get help with logging into an account, tap the Help icon [4].
App Settings
How do I set a landing page in the Student app on my iOS device?

When you log in to the Canvas Student app, you can choose which page you want to view as your app landing page. By default, the landing page displays the Dashboard.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open Profile

On the Dashboard, tap the Menu icon.

You can change the following settings in the app:

- View information about your account [1]: user bio, Canvas legal, and [calendar subscription link](#)
- Set a specific app page as the [landing page](#) [2] for when you log in to the app
- Set [Notification Preferences](#) in the app [3]
- Enable push notifications [4]
How do I set Notification Preferences in the Student app on my iOS device?

You can set notification preferences in the Canvas Student app to receive updates about your Canvas courses. Selected updates are push notifications, meaning notifications are sent to you even if you have not opened the Canvas Student app. You can choose to set notifications for specific contact methods, or you can set notifications for all devices.

Contact methods in the Canvas Student app are the same methods added to your Profile and User Settings in the browser version of Canvas.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps. **Note:** Because mobile notifications are currently limited, mobile preferences override preferences in the browser version of Canvas. Additionally, daily and weekly notifications are not currently available in the app.

What Student app options can I manage from my iOS device settings?

From your iOS device settings, you can manage access settings, open external tools in Safari, and reset your cache.

Enabling the option to open external tools in Safari will launch the Safari app to view external tools. If this option is not enabled, external tools will open in webview inside the Student app. You may want to enable this option if you are experiencing difficulties with viewing external tools.

Resetting your cache will clear all information on your device that is specific to the app, including login details, some annotated documents, and app settings. You may want to use a cache reset if you experience errors when logging in to the app. Because a cache reset will remove app information from your device, you may want to try resetting your password or uninstalling the app first.

After enabling the Reset Cache on Next Launch option, you must force close and re-launch the Student app for your cache to reset.

Open Settings

On the home screen, tap the Settings icon.
Open Student App Settings

<table>
<thead>
<tr>
<th>Settings</th>

<td></td>
</tr>
</tbody>
</table>

In the Settings menu, tap the **Student** link.
View Student App Settings

View the Student app settings menu.

From the Settings menu, you can manage access settings [1] and app settings [2]. From the access settings, you can manage which device tools that the Student app can access. From the app settings, you can open external tools in Safari by default and reset your app cache.
Manage Access Settings

From the access settings, you can view and manage if the Student app can access your device location [1], photos [2], microphone [3], and camera [4].

To allow Student app information to display in Search and Siri tools, tap the Siri & Search button [5].

To manage Student app notification options, tap the Notifications button [6].
Open External Tools in Safari

To open external tools in Safari by default, tap the **Open external tools in Safari** button. When this option is enabled, all external tools will launch in the Safari app instead of the Student app.
Reset Cache on Next Launch

To reset your cache, tap the **Reset Cache on Next Launch** button. Resetting your cache will clear all information on your device that is specific to the app, including login details, some annotated documents, and app settings.

**Notes:**

- After enabling the Reset Cache on Next Launch option, you must force close and re-launch the Student app for your cache to reset.
- The Reset Cache on Next Launch will toggle to the Off position after the app has launched.
App Features
How do I view the Calendar in the Student app on my iOS device?

You can view up to 10 calendars from your courses in the app.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Note:

- If you want to view Canvas events in the native iOS calendar, you can also subscribe to the Canvas calendar feed and view Canvas events along with your personal calendars.
- Students cannot sign up for Scheduler appointments or create events in the app.

Open Calendar

On the Dashboard, tap the Calendar icon.
View Monthly Calendar

The calendar displays an overview of the current month for favorited courses. The current day of the month is highlighted in blue text [1]. The calendar displays a blue dot for any dates that contain an assignment or event [2].

For an overview of another month, swipe the calendar up or down.

View Calendar Settings

To return to the current month view, tap the Calendar icon [1]. To refresh the calendar, click the Refresh icon [2].
View Daily Calendar

To display calendar events for a specific date, click a date in the month view.

The daily list view shows the assignment type [1] and the name of the assignment or event [2].
For an overview of another day, use the date arrows [3] or swipe the calendar to the left or right.

To return to the current day, tap the Calendar icon [4].

View Landscape Mode (Tablet Devices)

In tablet devices, the Calendar supports landscape mode, which allows you to view the monthly calendar and the daily calendar concurrently. When viewing in landscape mode, the date being viewed in the monthly calendar is highlighted in red.
How do I subscribe to the Canvas calendar on my iOS device?

You can subscribe to calendar items in all your courses and have them appear in your iPhone calendar. You can only view the calendar, not make edits to it.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Deleting this account will remove its calendars from your iPhone.

Delete Account

Cancel
Tap the **Delete Account** button.
How do I view Conversations messages in the Student app on my iOS device?

Canvas lets you access your conversations on your mobile device so you can keep in touch with people in your course at any time.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps. 

Note: Unlike the web version of Canvas, you cannot view assignment comments from your instructor in Conversations. However, you can view comments in the assignment.

Open Messages

In the Dashboard, tap the Inbox icon.
If there are new messages, the icon will indicate the number of new messages received. This indicator helps you know when you have new messages when you are in another part of the app.

**View Conversations Messages**

The Conversations folder displays all messages you have received and is organized the same way as the browser version of Conversations. Messages are arranged in chronological order—newer messages appear at the top, and older messages appear near the bottom. New messages are indicated with a blue dot.

Swipe the app from top to bottom to quickly refresh your messages.
View Mailbox Filters

You can view different types of messages in the Inbox:

**Unread** [1]: Messages that are unread in the Inbox

**Starred** [2]: Messages that you've starred in the Inbox

**Sent** [3]: Messages that you've sent (you cannot view messages sent to others in any other tab until you receive a reply)

**Archived** [4]: Messages that have been archived

**Note:** Messages cannot be archived in the Canvas Student app.
View Inbox Filter

You can also filter your Inbox by course. Tap the Filter link [1], then select the course name whose messages you want to view [2].

Hey Max,
Do you have time to study for next week’s test? There are a few parts of the chapter that I am having a hard time with.
Emily
Reply
How do I send a message in the Student app on my iOS device?

In the Canvas Student app, you can send conversation messages to multiple people in your courses.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open Messages

In the Dashboard, tap the Inbox icon.
Compose New Message

Tap the Add icon.
Select Course

Tap the **Select a course** link [1] and select the course where you want to send the message [2].
Add Recipient

In the To field, tap the Add icon.

Note: You can only add one user or group of users at a time.
Search by Name

To search by name, type the name of your recipient in the text field.

Note: If you cannot remember a recipient's name, you can search by course filter to select your recipient.

Select Recipient

Introduction to the Solar Sys... Cancel

Introduction to the Solar Sys... Cancel

Introduction to the Solar Sys... Cancel

Introduction to the Solar Sys... Cancel
When the full name of the recipient appears, tap the name.

Search by Course Filter

To search by course filter, select to message all users [1], select users by group [2], or message users by section [3].
Select User Group

Tap the recipient's user group [1].

Tap the name of the recipient [2]. You can select all members in a specific user group by tapping the All Members option [3].
Modify Recipients

If you need to remove a recipient, tap the remove icon.

Attach File

To attach a file to the message, tap the Attach icon.
Select Attachment

To select your attachment file, tap the **Add** icon [1]. Then select how you would like to attach a file [2].

**Note:** To learn more about media attachments, view the [Canvas Media Comparison PDF](#).

View Attachment

Once you have added your attachment, it can be viewed on the Attachments page [1]. To delete your attachment, tap the **Delete** icon [2].
To add another attachment, tap the Add icon [3]. To return to your message, tap the Done link [4].

Send Message

In the Subject field [1], enter a subject for your message.

If you want to send individual messages to each recipient, tap the Send individual message to each recipient toggle [2].

In the Compose field [3], type your message.

When you are ready to send your message, tap the Send link [4].

Note: New messages will not appear in the Inbox until there is a reply to the message. However, if you have an existing Inbox message with a recipient, the message will appear as part of that message thread.
How do I reply to a message in the Student app on my iOS device?

You can reply to Conversations messages in your Inbox on your device so you can keep in touch with your course at any time.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open Messages

In the Dashboard, tap the Inbox icon.
Open Message

Tap the message where you want to reply.
Reply to Message

Study Group

That sounds great! What time?
In the text field [1], type your message reply.

When you are ready to send your message, tap the Send link [2].

View Reply

View your message reply in the message thread [1].

To reply to the message again, click the Reply link [2].
How do I view Notifications in the Student app on my iOS device?

The Canvas Student app lets you view notification items in your courses. Notifications gives you an overview of all course notifications, such as changes to an assignment due date, newly created assignments, course announcements, or replies to subscribed discussions. You can interact directly with any items that display as notifications.

You can also set Notification Preferences in the app to receive push notifications for Canvas activity on your mobile phone.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open Notifications

In the Navigation Bar, tap the Notifications icon.
Notifications gives you an overview of all course notifications such as changes to an assignment due date, newly created assignments, course announcements, conference invitations, or a reply to a subscribed discussion.

Each item is color-coordinated according to course or group and displays an icon for its activity type [1]. Items are organized by date [2].
View Notification Item

To view a notification item, tap the name of the item. The app will redirect to the notification's corresponding page.

Note: You cannot delete notifications.
How do I use the Rich Content Editor in the Student app on my iOS device?

You can use the Rich Content Editor to edit and format text in the Student app. The Rich Content Editor is available in Announcements and Discussions.

View Rich Content Editor

You can use the Rich Content Editor when editing posts and replies in Announcements and Discussions.

The Rich Content Editor allows you to format text [1], add links [2], or attach images [3]. You may have to swipe your screen to the left or right to view all Rich Content Editor icons.

Format Text

To undo your last action, tap the **Undo** icon [1]. To redo what was previously undone, tap the **Redo** icon [2].
To bold text, tap the **Bold** icon [3]. To italicize text, tap the **Italics** icon [4]. To stop using bold or italics formatting, tap the **Bold** or **Italics** icon again.

**Change Text Color**

To change the text color, tap the **Color** icon [1]. Then tap the color you want to use [2].

**Create List**

To format text as a bulleted list, tap the **Bulleted List** icon [1]. To format text as a numbered list, tap the **Numbered List** icon [2].

**Add Link**

To add a link, tap the **Link** icon.
Link to Website URL

Enter the link title in the Title field [1] and the link URL in the URL field [2]. Then tap the OK button [3].

Attach Image

To attach an image, tap the Image icon.
Add Attachment

Then tap the Add icon.
Select Attachment Option

You can select from the following image attachment options:

- **Use Camera** [1]: take a picture from your camera.
- **Upload File** [2]: upload a file from your device.
- **Choose From Library** [3]: select an image from your photo library.
- **My Files** [4]: select a file from your personal Canvas files.

View Attachment

Once you have selected your image, it will display on the **Attachments** page [1].

To delete the image, tap the **Delete** icon [2]. To add another image, tap the **Add** icon [3].
How do I view the To-Do List in the Student app on my iOS device?

The To-Do List gives you a quick view of upcoming course activities that you have not yet completed. The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open To-Do List

In the Navigation Bar, tap the To-Do List icon.
View To-Do List

The To-Do List gives you a quick view of upcoming course activities that you have not yet completed. Each item is color-coordinated according to course and displays an icon for its activity type: discussion, quiz, or assignment.

To-do items are organized by due date.
View To-Do List Item

To view a to-do item, tap the name of the item. The app will redirect to the item's corresponding page.
Mark Item as Done

To mark a to-do item as done, swipe the item to the left [1]. Then tap the Done button [2].
How do I view my User Files in the Student app on my iOS device?

You can view personal files that you’ve added to your account on the Canvas Student app.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Learn how to [manage your personal files](#).

View Profile

On the Dashboard, tap the **Menu** icon.
Open User Files

Max Johnson
max.johnson.canvas@gmail.com

Files
Show Grades
Help
Change User
Log Out

Tap the Files link.
**View User Files**

User Files displays file folders [1] and file items [2].

File folders show how many file items are within a folder [3]. Individual files show the size of the file [4].
View Files and Folders

To view files within a folder, tap the name of the folder [1].

To view a specific file, tap the name of the file [2]. If your device has an application installed that can display the file, you can view the file in the app.
Search Files

To search for a file, tap the Search field [1]. Then enter the name of the file you want to view.

To open the file, tap the name of the file in the search results [2].

Notes:

- You must type three or more characters for search results to display.
- Search results will not include file folders.
View your file [1]. You can also share your file by tapping the Share icon [2].

To return to the file folder, tap the Back link [3].

Note: Not all file types support sharing.
How do I manage my User Files in the Student app on my iOS device?

You can manage all the personal files in your Canvas account in the Canvas Student app. If necessary, you can manage My Files to clear up space within your course account.

This lesson shows how to edit or delete a file. The steps to edit or delete a file folder are the same.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Notes:
- The Unfiled Folder stores documents, graphics, and any other files from your account that you have posted to different areas of Canvas, such as Discussions. Deleting these items within current courses may create broken links and submissions.
- You cannot delete files that have been submitted as an assignment.
- You cannot move files from one folder to another in the Canvas Student app.

Open Profile

On the Dashboard, tap the Menu icon.
Open My Files

Tap the Files link.
Add Item to Files

Tap the Add icon.

Note: The Add icon appears in every files window so you can build hierarchal levels of folders and files.
Add Folder

To create a new folder, tap the **Create Folder** button.

Save Folder

To create a new folder, type the name of the folder in the text field [1]. Tap the **OK** button [2].
Upload File

Create Folder

Add File

Cancel

To upload a file, tap the Add File button.

View Upload Options

1. Use Camera
2. Record Audio
3. Choose From Library
4. Upload File

Cancel
When uploading a file, you can take a photo from your camera [1], record audio [2], select a photo from your device library [3], or upload a file from your device [4].
How do I add a Canvas widget to my iOS device?

The Canvas Student app comes with a widget for quick access to grades.

The Canvas Student Grades widget displays the current grade for up to eight courses.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Notes:

- Depending on your iOS device, the steps to install a widget may vary from what is pictured below. If you have questions, please refer to your device instructions on how to install a widget.
- The Student Grades widget will not display grades if multiple users are logged into the Student app.
- Widgets are not available for the Canvas Teacher or Canvas Parent apps.

Open Today View

Swipe right from the Home screen or Lock screen to open the Today View.
Edit Widgets

Tap the Edit button.
Add Grades Widget

Find the Canvas Student Grades widget [1]. To add the widget, tap the Add icon [2].
Edit Widget

Add Widgets
Get timely information from your favorite apps, at a glance. Add and organize your widgets below.

- Weather
- Calendar
- Canvas Student Grades

Once you have added your widget, it will display with other widgets that have been added to your iOS device. To remove the widget, tap the Remove icon [1]. To move the widget, tap the Move icon [2] and drag and drop the widget to a new location.

To view your widgets, tap the Done link [3].
View the Student Grades widget [1]. To display more courses in the widget, tap the Show More link [2].

To view course grades in the Student app, tap the name of the course [3].
How do I view Courses and Groups in the Student app on my iOS device?

You can view all your active courses and groups in the Canvas Student app.

Learn how to view Grades in the Dashboard.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

View Courses and Groups

Unless otherwise changed as the landing page, the app defaults to the Dashboard and displays your groups and favorite courses.
Set Favorites

To favorite a course, tap the Edit link.
### Select Courses

<table>
<thead>

</tr>
</tbody>
</table>

Tap the star next to the course you want to favorite.

**Note:** Changes to your favorite courses will also apply to the browser version of Canvas.
Edit Course Details

You can change the nickname and color associated with your courses. Course colors help associate course items in other areas of the Canvas Student app, such as in the To Do List and Notifications.

To change the nickname or color for a course, tap the Options icon.
Choose Course Color

To change the course nickname, tap the **Nickname** field [1]. To change the course color, tap the new color for your course [2].

To save your changes, tap the **Done** link [3].
Open Course

To open a course, tap the course name.
View Course Navigation

Within each course, you will be able to view the course navigation links that are available in the browser version of Canvas.

**Note:**

- If a course navigation link is hidden in the browser version, you will not be able to access it in the app.
- Not all course navigation links are supported in the Canvas Student app. However, all navigation links are supported in a mobile browser.
View Course Navigation on iPad

iPad functionality mimics the web version of Canvas, allowing Course Navigation to be expanded or collapsed for full-screen course viewing. To expand or collapse the Course Navigation menu, tap the Expand icon.
How do I view Announcements in the Student app on my iOS device?

Canvas lets you view Announcements in your Canvas courses.

Note: The Course Navigation menu matches the browser version of your Canvas course. If Announcements is not available in Course Navigation, it will also be hidden from view in the app.

Open Course

On the Dashboard, tap the name of the course you'd like to view.
Open Announcements

Tap the Announcements link.

**Note:** You may have to swipe your screen to view the Announcements link.
View Announcements

Announcements displays all the announcements in your course. Announcements are ordered with the most recent at the top.
Open Announcement

To view an announcement, tap the announcement you want to read.
View Announcement

Classroom Change

Andy Admin
Feb 21 at 2:07 PM

Due to a scheduling conflict, your Thursday lecture will take place in room 224 of the Orson Spencer Hall. Thank you for your understanding.

Sincerely,

Your Administration

View the announcement.
How do I reply to an announcement in the Student app on my iOS device?

You can reply to announcements through your course. You can also reply to announcements through the Notifications tab.
The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open Course

On the Dashboard, tap the name of the course you'd like to view.
Tap the Announcements link.
Open Announcement

To view an announcement, tap the announcement you want to read.
Open Reply

No Class Friday

Doug Roberts
Jan 31 at 3:12 PM

Class will be canceled this Friday, due to a family emergency. Please submit your required assignments. See you on Monday!

Tap the Reply button.
Create Reply

Enter your message in the text field [1]. To format your reply, use the Rich Content Editor [2].

To send your reply, tap the Done link [3].

Add Link

To add a link to your reply, tap the Link icon.
Add Link Details

Add your link title in the **Title** field [1] and the link URL in the **URL** field [2]. Then tap the **OK** button [3].

                            expectations |

To view the Assignment rubric and grade details, tap the Grade tab.
View Late Penalty

If your assignment includes a late penalty, you can view the penalty in the Grade tab [1]. The Final Grade will reflect your score minus the penalty [2].
How do I submit assignments in the Student app on my iOS device?

There are five types of assignments you can submit on your mobile device. Once you submit your assignment, you can verify your assignment submission. You can also resubmit assignments if your instructor allows.

You can also submit an assignment from a third-party app, such as Google Drive and Dropbox.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Notes:

- Your instructor may restrict certain assignment types, so not all types may be available for your assignment submission.
- If your assignment includes a link to a PDF file, you can add annotations as part of your submission.
- To learn more about File Upload and Media Recording submissions in the Canvas Student app, view the Canvas Media Comparison PDF.

Open Course

On the Dashboard, tap the name of the course you'd like to view.
Open Assignments

Tap the Assignments link.

Note: You may have to swipe your screen to view the Assignments link.
Open Assignment

Lab Notebook - Scientific Measures and Scientific Method
Due: Feb 8, 2018 at 7:29 PM

In this course we will use Collaborations to establish an electronic Lab Notebook for each group.

Tap the Submission tab.
View Assignment Rubric

Before submitting the assignment, if you want to view the assignment rubric, tap the **Grade** tab.

Turn In Assignment

Tap the **Turn in** link.
Select Submission Type

Tap the submission type you would like to use for the assignment. There are five types of submissions:

1. File upload
2. Arc
3. Media recording
4. Text entry
5. Online URL

Note: Your instructor will decide which submission type options are available for an assignment, so not all types will be available.
Submit a File Upload

To submit a file upload, tap the File upload link.
Import from Camera

To import a file from your camera, tap the Media icon.

1. Take Photo or Video...

2. Choose from Library...

To create a file by taking a photo or video, tap the Take Photo or Video... link [1]. To select an existing photo on your iOS device, tap the Choose from Library... link [2].
Upload from Third-party App

You have no files available for upload. To add files from other apps, find a file in another app, then find the "Open In" button to open it in Canvas. You can also tap and hold on attachments in the Mail app to open them in Canvas.

You can also upload existing files from third-party applications such as Google Drive and Dropbox. Swipe to the left to read the instructions about how to upload files from external apps into Canvas.
Select File

The selected file will appear in your Files menu. Swipe to the left to locate the file [1].

If necessary, you can remove the file and import a new one by tapping the Delete icon [2].
Submit File

Tap the **Upload** icon [1]. The Canvas Student app highlights the file with a yellow box. Tap the **Submit** link [2].
Submit Arc Video

To submit an Arc video, tap the Arc button.
Choose Video

To choose a video for submission, tap the video thumbnail [1]. To search for videos in Arc, tap the Search icon [2]. To upload a video in Arc, tap the Upload button [3].

Submit Video

Confirm Submission
Are you sure you want to submit this Arc video for this assignment?

https://arcdoc.instructuremedia.co...

Cancel  Submit
Tap the Submit button.

Submit Media Recording

Choose a submission type

- File upload
- Arc
- Media recording
- Text entry
- Online URL

Cancel

To submit a media recording, tap the Media recording button.
Choose Media Type

1. Record video
2. Choose video
3. Record audio

For media recordings, you can choose one of three options:

1. Record video
2. Choose video
3. Record audio
Record Video

To record a new video, tap the **Record** button. Tap the button again to end the recording.

**Note:** Canvas may ask permission to access your microphone.
Use Video

Tap the Play button [1] to replay the video. If you want to re-record the video, tap the Retake button [2]. When you are finished, tap the Use Video button [3].
Choose Video

To choose a video, select a video from the videos on your device.

Record Audio

To record audio, tap the Record button.
Stop Audio

To stop recording, tap the Stop button.

Use Audio

To replay the audio, tap the Play button [1]. To re-record the audio, press the Record button [2]. When you are finished, tap the Use link [3].
Submit a Text Entry

To submit a text entry, tap the **Text entry** button.
Create Text Entry

Type your text entry into the text field [1]. Tap the Post link [2].
Submit Online URL

To submit an Online URL, tap the Online URL button.
Enter URL

Type a URL in the URL field.
Submit URL

The app generates a preview of the URL to confirm [1]. Tap the Submit button [2].
How do I submit an assignment from a third-party app to the Student app on my iOS device?

Canvas makes it easy to submit assignments on your mobile device by linking them from third-party apps, such as Google Drive and Dropbox.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

**Note:** Before uploading an assignment to the Canvas Student app:

- The assignment must already be uploaded to the third-party app.
- The third-party app must be installed on your iOS device.
- To learn more about File Upload submissions in the Canvas Student app, view the Canvas Media Comparison PDF.

Open Third-party App

On your iOS device, tap the name of the third-party app.
Open File

Locate the file you want to submit [1]. Then tap the Options icon for the file [2].
Open File in Student App

To open the file in the Student app, tap the Open in link.
Copy to Student App

Tap the Copy to Student icon.

Confirm File

File received
'assignment.docx' is now ready to submit to assignments

Tap the OK button.
Open Course

On the Dashboard, tap the name of the course you'd like to view.
Open Assignments

Tap the Assignments link.
Open Assignment

Tap the name of the assignment.

Open Submission

Tap the Submission tab.
View Assignment Rubric

Before submitting the assignment, if you want to view the assignment rubric, tap the Grade tab.

Turn In Assignment

Tap the Turn in link.
Submit File Upload

Choose a submission type

- File upload
- Media recording
- Text entry
- Online URL
- Cancel

Tap the File Upload button.
Select File

The shared file appears in your Files menu. Swipe to the left to locate the file [1].

If necessary, you can remove the file to import a new one by tapping the **Delete** icon [2].
Submit File

To select the file, tap and hold the file thumbnail or tap the **Upload** icon [1]. When selected, the file will be highlighted [2]. Tap the **Submit** link [3].
How do I submit a PDF assignment with annotations in the Student app on my iOS device?

Canvas allows you to add annotations to PDF files for assignment submissions. Available annotations include highlight, underline, squiggly, strikeout, free text, and drawing.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open Course

On the Dashboard, tap the name of the course you'd like to view.
Open Assignments

Tap the Assignments link.

Note: You may have to swipe your screen to view the Assignments link.
Open Assignment

Tap the assignment you want to open.
Open Link

History Reading Assignment

Due: May 25, 2018 at 11:59 PM

After selecting and reading a book from the approved class list, complete the following worksheet.

[History Reading Assignment.pdf]

Tap the file link.
Edit PDF

Tap the **Edit** icon.

View Toolbar

On the toolbar you can manage your annotations.

To add highlight, underline, squiggle, or strikethrough annotations, tap and hold the **Text Formatting** icon [1].

To type text or add a comment, tap and hold the **Free Text** icon [2].

To add thin drawing, bold drawing, arrow, line, or shape annotations, tap and hold the **Drawing** icon [3].

To undo changes, tap the **Undo** icon [4].
To move the toolbar, tap and hold the drag handle [5], and move it to the new location. The toolbar can be relocated to either side of the screen.

**Use Text Format Options**

The Text Format option allows you to highlight [1], underline [2], squiggle [3], and strikethrough [4] text.

**Use Free Text Options**

The Free Text option allows you to add text [1] or add comments [2].

**Use Drawing Options**
The Drawing option allows you to draw thin lines [1], bold lines [2], arrows [3], and lines [4]. Tap the arrow to view additional shape drawing options [5].

Close Annotations

When you are finished adding annotations, tap the Close icon.

Open Share Menu

Tap the Share icon.
Submit Assignment

Tap the Submit Assignment button.

Select Assignment Details

How do I schedule a reminder for an assignment in the Student app on my iOS device?

On iOS devices, you can schedule notifications for upcoming assignments. You can schedule reminders 5 minutes, 1 hour, 1 day, or 3 days before the due date. When the reminder time arrives, the app will reopen the assignment to the details page.

Reminders cannot be set for past assignments or assignments that do not have a due date.

This lesson shows how to open an assignment through a course, but you can also schedule reminders by opening assignments in the To Do list.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Open Course

On the Dashboard, tap the name of the course you'd like to view.
Open Assignments

Tap the Assignments link.

Note: You may have to swipe your screen to view the Assignments link.

Tap the name of an upcoming assignment.
### Set Reminder

1. In the menu bar, tap the Reminder icon.

2. Debunking the Paranormal

   **Due: Mar 8, 2018 at 10:59 AM**

   This assignment asks you to use science to try and prove the existence of paranormal phenomena. Full assignment and rubric available at this [Link](#).

---

*Canvas Student iOS Guide Updated 2019-05-11*
Tap the time period when you'd like to receive the notification as related to the due date. You can choose to be reminded 5 minutes, 1 hour, 1 day, or 3 days before the due date.

When the reminder time arrives, the Canvas Student app will reopen the assignment.
How do I add annotations to a submission in the Student app on my iOS device?

You may be able to add annotations to an assignment submission. Canvas DocViewer is a tool that allows annotations in online assignment submissions. Annotations made in Canvas Student can be viewed by your instructor when grading your submission.

If a file is not compatible with DocViewer, the document previewer will still display the file, but DocViewer markup and commenting will not be available.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Notes:

- Files over 100 MB and password-protected files will not be converted by DocViewer.
- It may take up to ten minutes after an assignment is submitted for the Student app to display a document that supports DocViewer.

Open Submission

Tap the name of the submission.
Tap the **Annotate** icon.
View Annotation Tools

Select an annotation tool by tapping the annotation icon [1]. When selected, the icon will include a white background. To stop using an annotation tool, tap the annotation icon again.

To undo the last action made, tap the Undo button [2].

If a submission includes more than one page, view the additional pages by swiping up on your screen.
Add Point Annotation

To leave a point annotation, tap the Point annotation icon [1].

Tap the area where you want to add the annotation [2].

Add Comment

Point annotations immediately require a comment. In the Reply field [1], type the comment for the point annotation. Tap the Send icon [2].
To delete your comment, tap the **Delete** icon [1]. To return to the submission, tap the **Done** link [2].

**Modify Point Annotation**

To move the annotation, tap and hold the annotation icon in the document [1]. Drag the annotation to the new area.

To view and modify your annotation comment, tap the **Comments** button [2].

To delete the annotation, tap the **Delete** icon [3]. Deleting an annotation will also delete any associated comments.
Add Highlight Annotation

To highlight text within the document, tap the Highlight icon [1]. To select the highlight color, tap the Color icon [2].

To add a highlight annotation, tap and drag within the submission [3].

Modify Highlight Annotation

To modify the annotation, tap and hold the annotation.

To add a comment to the highlight annotation, tap the Comments button [1]. To style the annotation, tap the Style button [2].

To delete a highlight annotation, tap the Delete icon [3]. Deleting an annotation will also delete any associated comments.
Add Text Annotation

To add text directly in the submission, tap the Free text icon [1]. To select the text color, tap the Color icon [2]. Then tap the area where you want to add the annotation.

In the text field [1], enter the text you want to add for the annotation. To change the size of the text, tap the Point link [2]. When you are done, tap the Done link [3].
Modify Text Annotation

To modify the annotation, tap the annotation text box [1].

To move the annotation, tap and hold the annotation outline in the document. Drag the annotation to the new area.

To add comments to the annotation, tap the Comments button [2].

To change the text size or color, tap the Inspector button [3].

To edit the annotated text, tap the Edit button [4].

To delete a text annotation, tap the Delete icon [5]. Deleting an annotation will also delete any associated comments.
Add Strikeout Text Annotation

To indicate that text should be deleted, tap the **Strikeout** icon [1]. To select the strikeout color, tap the **Color** icon [2].

Tap and drag to strikeout text within the submission. A line will appear, striking through the text [3].

**Note:** Depending on your screen size, you may have to tap the Options icon to view the Strikeout icon.
Modify Strikeout Text Annotation

To modify the annotation, tap the annotation [1].

To add a comment, tap the Comments button [2].

To style the strikeout as a solid line or a highlighted background, or to change the strikeout color or annotation opacity, tap the Style button [3].

To delete a strikeout annotation, tap the Delete icon [4].
Add Draw Annotation

To make freehand drawings and annotations, tap the **Draw** icon [1]. To select the drawing color, tap the **Color** icon [2].

Tap and drag to start a drawing. Free-form lines will appear indicating the drawing area [3]. You can add multiple strokes to a drawn annotation.

**Note:** Depending on your screen size, you may have to tap the Options icon to view the Draw icon.
Modify Draw Annotation

To modify the annotation, ensure the annotation type is not selected [1]. Then tap the annotation [2]. A blue outline will display around the annotation drawing [3]. To move the annotation, tap and hold the draw annotation outline in the document. Drag the annotation to the new area.

To add a comment to your drawn annotation, tap the Comments button [4].

To delete a drawing at any time, tap the Delete icon [5]. Deleting an annotation will also delete any associated comments.
Add Area Annotation

To leave an area annotation, tap the **Area** icon [1]. To select the area annotation color, tap the **Color** icon [2].

Tap and drag the rectangle around an area of the submission. A box will appear indicating the area for the annotation.
Modify Area Annotation

To modify the annotation, ensure the annotation type is not selected [1]. Then tap the annotation in the document [2]. A blue outline will display around the annotation area [3].

To move the annotation, tap and hold the area annotation outline in the document. Drag the annotation to the new area.

To add a comment to the annotation, tap the **Comments** button [4].

To change the color for the annotation, tap the **Inspector** button [5].

To delete the annotation, tap the **Delete** icon [6]. Deleting an annotation will also delete any associated comments.
How do I view Conferences as a student on my iOS device?

You can use your mobile device to participate in a course conference. This lesson shows how to join a conference and use the Conferences interface on an iOS device. The Conferences interface uses the BigBlueButton web conferencing system.

To use the Conferences interface on an iOS device, you can join a conference from your Safari browser or open Safari from the Student app. You cannot participate in a conference in the Student app. When participating in a conference with an iOS device, you must use iOS 11 or later and the Safari browser.

This guide provides a basic overview of the Conferences interface. To learn more about specific features, view BigBlueButton's HTML5 user documentation.

Open Conferences

In Course Navigation, tap the Conferences link.
Open in Safari

Conferences is not currently supported.

Open in Safari

Tap the Open in Safari link.
Open Conference

From a mobile browser, open the conference by tapping the Join button.

**Note:** If the Join button does not display for your conference, the conference has not been started.
Join Audio

Before joining a conference, you will be asked how you want to join the conference audio. To use your microphone during the conference, tap the Microphone icon [1]. You will then need to follow the steps below to enable your microphone.

To quickly join the conference as a listener only, tap the Listen Only icon [2]. You will be taken directly to the conference.
Complete Echo Test

To test your microphone, you will need to complete an echo test. Speak a few words and listen for an echo. If you hear an echo, tap the Yes icon [1]. You will be taken directly to the conference.

If you do not hear an echo, tap the No icon [2]. Tapping the No icon will allow you to change your audio settings and retry the echo test.
You can change various audio settings for your device. To change the microphone source, tap the [*Microphone source* drop-down menu](#) [1].

To change the speaker source, tap the [*Speaker source* drop-down menu](#) [2]. To test the speaker volume, tap the [*Play Sound* link](#) [3].

To retry the echo test, tap the *Retry* button [4].

**View Confirmation Message**

A confirmation message will display to confirm you have joined the conference.
View Conferences Interface

The Conferences interface includes four different areas that allow you to participate in the conference:

- Presentation Window [1]
- User Menu [2]
- Conference Tools [3]
- Options Menu [4]
The Presentation window displays the conference presentation [1].

You may be able to use the multi-user whiteboard to interact directly in the presentation [2]. If the toolbar is not available in the window, the multi-user whiteboard has not been enabled by your presenter.
Open User Menu

To open the User Menu, tap the Users icon.

View User Menu
All of the users in the conference will display in the Users list [1].

To open the chat, tap the Public Chat link [2]. To view the shared notes, tap the Shared Notes link [3].

To exit the User Menu, tap the Users icon [4].

**View Conference Tools**

The Conferences Interface includes tools to manage the audio and video elements of the conference.

To mute or unmute your microphone, tap the Microphone icon [1].

To leave or join the conference audio, tap the Audio icon [2].

To enable your webcam, tap the Webcam icon [3].
Open Options Menu

To open the Options Menu, tap the Options icon.

View Options Menu

1. Make fullscreen
2. Settings
3. About
4. Help
5. Hotkeys
6. Logout
7. Close
From the Options Menu, you can:

- Enter or exit fullscreen mode [1]
- Open the Settings menu [2]
- View information about the Conferences tool [3]
- View BigBlueButton tutorial videos [4]
- View Conferences hotkeys [5]
- Log out of the Conferences tool [6]

To close the Options menu, tap the Close link [7].

View Application Settings

From the Settings menu, you can manage additional settings for the Conferences interface. By default, the Settings menu will open to the Application tab [1].

To enable or disable animations for conference audio, tap the Animations button [2].

To enable audio alerts, tap the Audio Alerts for Chat button [3]. To enable popup chat alerts, tap the Popup Alerts for Chat button [4].

To change your language, tap the Application Language menu and select your preferred language [5].
To adjust the font size, tap the **Increase** or **Decrease** icon [6].

**View Data Savings Settings**

To save your bandwidth adjust what's currently being displayed.

<table>
<thead>
<tr>
<th>Application</th>
<th>Closed captions</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="Data savings" /></td>
<td></td>
</tr>
</tbody>
</table>

To manage data savings, tap the **Data Savings** tab [1]. Data saving settings can significantly improve the performance of the Conferences interface when using a mobile device.

To enable or disable your webcam, tap the **Enable Webcams** button [2]. To enable or disable desktop sharing, tap the **Enable Desktop Sharing** button [3].
Save Settings

To save your changes to the Settings menu, tap the Save button.
How do I create a discussion in the Student app on my iOS device?

You can create new discussions using the Canvas Student app.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

**Note:** Creating a discussion is a course permission. If you cannot create a new discussion, this feature has been disabled in your course.

Open Course

On the Dashboard, tap the name of the course you'd like to view.
Open Discussions

Tap the **Discussions** link.

**Note:** You may have to swipe your screen to view the Discussions link.
Add Discussion

View your new discussion.
How do I view Discussions in the Student app on my iOS device?

The Canvas Student app helps you keep track of all course discussions. You can also view newly created discussions or changes to discussions in the Notifications tab.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Notes:

• The Course Navigation menu matches the browser version of your Canvas course. If Discussions is not available in Course Navigation, it will also be hidden from view in the app.
• Viewing rubrics in graded discussions is not supported in the app.

Open Course

On the Dashboard, tap the name of the course you'd like to view.
Open Discussions

Tap the Discussions link.

Note: You may need to swipe your screen to view the Discussions link.
View Discussions

Pinned discussion will always display at the top of the page [1]. For each discussion, you can view the number of total replies [2] and the number of replies you have not read [3].

Discussions with unread posts are indicated by a blue dot [4].

Swipe your device from top to bottom to quickly refresh Discussions.

To view a discussion thread, tap the name of the thread.
For each discussion, you can view the title [1] and description [2].

To add attachments to your reply, tap the Attachment icon.
Add Attachment

Then tap the **Add** icon.
Select Attachment Type

1. Record Audio
2. Use Camera
3. Upload File
4. Choose From Library

To record an audio attachment, tap the Record Audio button [1]. To take a new photo or video, tap the Use Camera button [2]. To upload a file from your device, tap the Upload File button [3]. To select an image from your device library, tap the Choose From Library button [4].
Record Audio

To record audio, tap the **Record** button.

Stop Audio

To stop recording, tap the **Stop** button.
Use Audio

To upload your audio attachment, tap the Upload button [1]. To delete your recording, tap the Delete icon [2].

Use Camera

To take a photo, tap the Photo option [1]. To take a video, tap the Video option [2].
Then tap the **Use Photo** or **Use Video** link [1]. To retake the photo or video, tap the **Retake** link [2].

**Upload File**

Tap the **Browse** button.
Then select a file to attach.
Choose from Library

Select a photo from a photo gallery on your device.

Verify Attachment

View your attachment on the Attachments page [1]. If you add multiple attachments, you can scroll down the text field to view them.

To remove the attachment, tap the Remove icon [2]. To return to your discussion, tap the Done link [3].
How do I view Course Files in the Student app on my iOS device?

You can view course files with the Canvas Student app. You can also view your personal files.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

**Note:** The Course Navigation menu matches the browser version of your Canvas course. If Files is not available in Course Navigation, it will also be hidden from view in the app.

Open Course

On the Dashboard, tap the name of the course you'd like to view.
Open Files

Tap the Files link.

**Note:** You may have to swipe your screen to view the Files link.
View Files

Files displays file folders [1] and file items [2]. To view file items within a folder, tap the name of the folder. To view a specific file, tap the name of the file.

File folders display how many file items are within a folder [3]. Individual files display the size of the file [4].
Search Files

To search for a file, tap the Search field [1]. Then enter the name of the file you want to view.

To open the file, tap the name of the file in the search results [2].

Notes:
- You must enter three or more characters for search results to display.
- Search results will not include file folders.
View the course file [1]. You can also share the file by tapping the Share icon [2].

Note: Not all file types support sharing.
How do I view grades in the Student app on my iOS device?

You can view your grades in the Canvas Student app.

Grades can also be viewed as a Course Navigation link. However, the Course Navigation menu matches the browser version of your Canvas course. If Grades is not available in Course Navigation, it will also be hidden from view in the app.

If your course is using Multiple Grading Periods, you can filter grades by grading period. If your course is not using Multiple Grading Periods, the Grades page shows all assignments and grades for the entire course. If the Dashboard does not show a total grade, there are no active grading periods in your course.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps. You can also view your grades by adding a Canvas widget to your iOS device.

View Assignment Details

To view the details of an assignment including any comments from your instructor, tap the assignment name.
How do I view Modules in the Student app on my iOS device?

The Canvas Student app gives you access to Modules in your courses.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

**Note:**

- The Course Navigation menu matches the browser version of your Canvas course. If Modules is not available in Course Navigation, it will also be hidden from view in the app.
- All module prerequisites are supported in the Canvas Student app except for the Mark as Done feature, which shows the requirement in mobile modules as "must view".

Open Course

On the Dashboard, tap the name of the course you'd like to view.
Open Modules

Tap the Modules link.

Note: You may have to swipe your screen to view the Modules link.
View Modules

The app displays all the Modules in your course.

If you are a student, each module displays an icon next to the status of the module, which can be completed [1], unlocked [2], or locked [3].

Modules may be locked by prerequisites, or if the module is locked by a date, the date of the module is posted under the module title [4].

Open Module
To view items within a module, tap the name of the module.

View Module Items

The module shows all module items. If your course is designed with prerequisites, they are shown at the top of the page [1]. If your course is designed with requirements, the requirement is shown below the module item [2].

The completion status is shown on the right side of the app; a circle indicates the module item is not complete [3], while a circle with a check mark indicates the module item is completed [4].

Some courses allow you to complete module items in any order.
Open Module Item

To open a module item, tap the name of the item.
View Module Item

General Class Question and Answer...
Graded discussion. 10 points possible.

Please post any questions you have about class here.

View the module item.

You can advance through module items or return to previous modules using the progression bar at the bottom of the page. To advance to the next module item, click the Next link [1]. To return to a previous module item, click the Previous link [2].
How do I view Pages in the Student app on my iOS device?

Canvas lets you access Pages from your mobile device.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

**Note:** The Course Navigation menu matches the browser version of your Canvas course. If Pages is not available in Course Navigation, it will also be hidden from view in the app.

Open Course

On the Courses page, tap the name of the course you'd like to view.
Open Pages

Tap the **Pages** link.

**Note:** You may have to swipe up on your screen to view the Pages link.
View Pages

View your course pages.
Open Page

To open a page, tap the page name [1]. To open the course home page, tap the Front Page button [2].
Environment

THE PROBLEM WITH environmentalists, Lynn Margulis used to say, is that they think conservation has something to do with biological reality. A researcher who specialized in cells and microorganisms, Margulis was one of the most important biologists in the last half century—she literally helped to reorder the tree of life, convincing her colleagues that it did not consist of two kingdoms (plants and animals), but five or even six (plants, animals, fungi, ...
How do I choose an assignment group in a module in the Student app on my iOS device?

If your Modules page asks you to choose an assignment group, you need to choose which assignment(s) you want to select before you can progress to the next assignment.

Open Course

In the Dashboard, tap the name of the course you'd like to view.
Open Modules

In Course Navigation, tap the Modules link.

Note: You may have to swipe your screen to view the Modules link.
Open Module

Tap the name of the module you would like to view.

Choose Assignment Option

Choose option

Locked until "Identify the Fallacy" is graded

Group Assignment 1: Lab Assignment Project (Individual Grading, Peer Review)
Tap the Choose option link.

Select Assignment

![Assignment selection interface]

View the assignment options by tapping the tabs [1]. To view an assignment description, tap the assignment name [2]. Locate the assignment you want to select and tap the Select button [3].

**Note:** Once you select an assignment, you cannot select a different assignment.

How do I take a quiz in the Student app on my iOS device?

You can take a quiz on your mobile device.

This lesson shows native quiz viewing in the Canvas Student app. Quizzes can be viewed natively for an enhanced user experience, with the exception of quizzes that contain Fill-in-Multiple-Blanks or Formula questions. Additionally, the Canvas Student app does not support one-question-at-a-time quizzes, quizzes with passcode restrictions, or quizzes with IP address restrictions. Quizzes that contain question types not supported by the mobile app will be redirected to the web version of Canvas.

You can easily skip to another question or flag a question in the app. For timed quizzes, the app allows you to turn the timer on and off.

When you are finished, you may be able to view your quiz results in the browser version of Canvas.

If you cannot find your quiz in the Quizzes page, your instructor may have assigned a Quizzes.Next assessment.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Note: The Course Navigation menu matches the browser version of your Canvas course. If Quizzes is not available in Course Navigation, it will also be hidden from view in the app.
Open Course

On the Courses page, tap the name of the course you'd like to view.
Open Quizzes

Tap the Quizzes link.
View Quizzes

View your quizzes.

Each quiz displays its title [1], due date and time [2], point total [3], and question total [4].

Cell Biology Quiz

Due Date: Apr 26, 2019 at 11:59:00 PM
Points: 4
Questions: 4
Time Limit: 
Allowed Attempts: 1

Tap the Take Quiz button. (If your quiz included several pages of details, swipe to the last page.)

If your quiz is a timed quiz, you can hide/show the timer in the quiz by tapping the time icon.
View Web Version

If your quiz does not support native viewing in the app, you will be asked to log in to Canvas and be redirected to the browser view. Swipe your screen to the right to tap the Take the Quiz button.
Complete Quiz Questions

1. A pound of gold weighs more than a pound of feathers
   - True [1]
   - False

2. A tub holds 5000 liters of water. The tub is filled with 4000 liters of water. An object with a volume of 1100 liters, a mass of 60 kilograms, and a height of 120 cm is dropped into the tub.
   Given these parameters, the water in the tub will not overflow.

To complete the question, tap the answer choice [1], enter an answer in the text box, or upload a file (depending on the question type).

To flag a question, tap the flag icon for that question [2]. To unflag the question, tap the flag again.
View Flagged Questions

To view all your flagged questions through the quiz, tap the flag icon at the top of the page. A menu will appear showing all flagged and completed questions. Tap the name of a question to view the question.
Submit Quiz

6. Which pair represents the same measurement:
   - 10 mL
   - 0.01 L

7. Do you like the metric system?
   - Meh.

When you are finished with your quiz, tap the Submit button.

Submit Answers

Are you sure you want to submit your answers?

Cancel  Submit

To confirm your submission, tap the Submit link.
Confirm Submission

How do I view the Syllabus in the Student app on my iOS device?

Canvas lets you access the Syllabus and course assignment list from your mobile device.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Note: The Course Navigation menu matches the browser version of your Canvas course. If the Syllabus is not available in Course Navigation, it will also be hidden from view in the app.

Open Course

On the Dashboard, tap the name of the course you'd like to view.
Open Syllabus

Tap the Syllabus link.
View Syllabus

This course is a short 5 week review course that covers US History from 1775 to 1791, including the Declaration of Independence, Revolution, Articles of Confederation and the Constitution, and the Bill of Rights. My name is Aren Jurel and I will be your instructor for this course.

The table below contains all the due dates for the course. Throughout the course, you will be engaged in peer interactions on discussion boards and peer reviews, collaborative work in teams, groups, and circles, watching videos, writing, and completing quizzes. The variety of

View your course syllabus [1].

To view your assignments, tap the Assignments tab [2].
View the Assignments list. The Assignments list includes course assignments [1], discussions [2], quizzes [3], events [4], and LTI assignments [5]. Items in the Assignments list are organized by date.

To open an assignment or event, tap the name of the item [6].
Admin Features
How do I act as a user in the Student app on my iOS device?

Acting a user allows admins to login as the user without a password. You can take any action as though you are the user but the audit logs will show that you performed the tasks while acting as a user. Only admins with the correct permissions can act as other users.

You can act as a user from the User Menu. Make sure you have the user’s ID associated with the correct Canvas URL.

The images in this lesson are shown for a phone display, but unless otherwise noted, tablet displays mirror the same steps.

Note: When acting as a user, language preferences do not apply and will always be shown in the default language.

Open User Menu

To open the User Menu, tap the Menu icon.
Open Masquerade Feature

Tap the Act as User link.

**Note:** If the Act as User link is not available in your User Menu, you do not have the permission to perform this action.
Enter User ID

"Act as" is essentially logging in as this user without a password. You will be able to take any action as if you were this user, and from other users' points of view, as if this user performed them. However, audit logs record that you were the one who performed the actions on behalf of this user.

In the **User ID** field [1], enter the Canvas ID number for the user. The domain will already be populated for you [2]. Then tap the **Act as User** button [3].

**Note:** The user's Canvas ID can be found as part of the user's URL in the web version of Canvas. Make sure you have the user's ID associated with the correct Canvas URL.
View App as User

View the Student app as the user. A magenta border [1] and the user’s Profile icon [2] will display on every page while you are acting as the user.

Stop Acting as User

To stop acting as user, tap the user’s Profile icon.
To confirm and return to your account, tap the OK button.
