

Create UX Content writing samples based on specific scenarios users will encounter on your website or app.

Examples:

Scenario: a user completes a purchase

Response: *Thanks for your purchase - and your support! We wouldn't be here without you.*

Scenario: a user submits a help request using our online form

Response: *Don't worry! We're anxious to help, so please look for an email reply within the next 2-3 hours.*

Scenario: _____

Response: _____
