

Operation Socrates

A Pathway from the Military to Teaching

What We Do

Operation Socrates is a nonprofit that provides free mentorship and guidance for active duty military and veterans, transitioning into the profession of teaching. Operation Socrates links candidates to veteran friendly collegiate education programs, education based veteran service organizations, and K-12 school districts who want to hire diverse teachers.

Why We Do It

Recruiting, educating, and training military service-members and veterans offers a solution to the growing demand for teachers across the country, notably more diverse teachers of various backgrounds and life experiences.
