

Wednesday Evening, July 19th, 1911.

The better and deeper our understanding of a proposition and the more we can express, the more powerful it becomes in our consciousness, and everything we bring to bear upon it. We sing of the Spoken Word of God. What is the Spoken Work of God? If I should ask you now, what is the Spoken Work of God, what would be your answer? Ans. "I Am, is the Spoken Word of God." That is about the best answer you can give, if you were speaking in the inner consciousness. There must be before the Word becomes a reality to you, there must be an inner consciousness of the Spirit. Jesus is our best example of that one who demonstrated the Power of the Word. He said, "Heaven and Earth shall pass away, but my words shall not pass away." In that instance he was speaking of His within. But in another case He said "The Words that I speak are not mine, but the Father dwelling in me." This would indicate that he had a realization of the Power of God dwelling in Him. Back of this must have been a fuller realization of I Am; of what I Am is. He must have known about the man that God created in the beginning through the Power of His Word. God said, "Let us make man in our image and likeness." If God is the Word of man, he must have put His Word in creation. God is the one source of all, God is Spirit, and it must be that all things that express itself in the universe is God; in other words it is God's Expression. Why then, is not all the words we speak not God's creation? Because we do not speak the truth, and this ignorant state of consciousness crystallizes in its form, and makes a material thought atmosphere about us, and being imbued with the ignorant world, builds up a world based upon ignorance. This becomes a world of consciousness. We fall clear over into the

error side, and forget all about the Spirit, then our words are not true at all.

But just as fast as we have the understanding, we are Spiritual Beings. There is within us a Spiritual mind, a Spiritual body and a Spiritual Voice, yes, I was going to say, a Spiritual tongue and mouth, and all the necessary organs required in speaking words, and when all these Spiritual organs are put into use, man's word will become God's Word. We can then say, "Heaven and earth shall pass away, but my words shall not pass away."

First, we must know the Truth, that I Am is the Truth, that I Am is the spoken Word of God, then speak only the words that you know belong to divine mine. We say, "God gives life, the spoken Word of life." God does not know anything less than life, Omnipresent Life, All Powerful Life, Fullness of Life. Then if we want power of mouth and tongue and larynx, and all these things that make the Word Spirit, carry the idea and speak only these words, the Omnipresence of Life, and never take into our consciousness for a moment there can be any absence of life.

People ask of metaphysicians, "What becomes of people who die," and if insane? enough, they try to describe conditions. God does not know anything about people that are not alive. The Fullness of Life includes, Spirit, Soul and Body, and as a metaphysical proposition, you have nothing to do with any body our any thing but Omnipresent Life. So with Power, God is the spoken Word of Power.

Our men of science tell us that there is in a single 15/1000 of a square inch, enough power to run this universe forty millions of years. I read that in a book the other day. Yet, we look around and think and say, if I only had more Power.

The time is coming when we are going to harness up this power, and do away with the power of steam and electricity. If power is

here in such large quantities, why should we not take advantage of it? The day is coming when we will take advantage of these currents, which is flowing every where. We are told that energy is every where. -- -----We will just set up the battery, and the current is already here to use. That is representative and running parallel with the deeper Power.

See what great possibilities men has, if we will only take hold of them with our minds and train ourselves with the Truth, and we should never speak of anything less than All Power. If there seems to be anything less than that, put it aside. Say, "I am forming within my mind the Words of God." "I am going to be a child of God. God knows me, but I don't know myself." That is a great truth that we have to speak ourselves into expression. You may say part of it is thought, but thought in its plan is speech. It is through the ear that we catch the vibration. You dream of eating, hearing, tasting. What do you do it with? It is the inner force. _____ The imagination plays a great part in this. _____ We can train ourselves along these lines, God's Life, God's Power, God's Peace. If Peace is God's Word we should always speak of peace. Jesus told them to go into the house and speak the Word of Peace. That is the Word of God. If we speak peace to this house of ours, to all the people, nervousness will cease, trembling and discord will be done away with, all these will respond very quickly to the Word of Peace. If you are given to certain states of mind, say "Peace be unto this House." The word of God is peace, and you say it unto this house." Say, "In the name of Jesus Christ peace be unto this house." You may have to speak it several times a day. Remember when the Children of Israel went around Jerusalem they were not discouraged, they went around

several times, before the walls fell down. If we persist in speaking the word it will prevail. "Heaven and earth will pass away, but my Word will not pass away." "Heaven and earth will pass away, but the living true word will prevail.

I know some people who have been speaking words of Truth for 21 years, and those words some of them, have not come into expression until very recently, yet they do not get discouraged. They had faith in the principle, through the Spiritual understanding there was a Spiritual Word, and they persisted in speaking the word day after day. People said "your word will not prevail.", but the Spirit within said "No, speak the words and you will reap the harvest. The harvest is coming, part of it is already here, and those people can see more and more.

A man said to me the other day, "I am down and out, I cant get a position. Wherever I go, they say, 'We want young people, whom we can train.'" I told him "You don't believe in prosperity." He said, "Yes I do, I believe in Prosperity. I have come here several times, and have spoken the words and held the thought." I said, "Everytime you get into a tight place?" -----I ask him what thoughts he had been holding, and he did not give me a single clue to the Spiritual words which he said he had been holding. I told him, "The fact is you have been wondering around on the outside. Your extremity is God's only opportunity. The only way for you to true prosperity comes from the Spirit, every man must do that."

A certain man connected with the financial world, told me that in 20 years 92 per cent of all the business men fail. Only 8 per cent are successful. Why do 92 per cent fail? It is because they are not doing business on the right basis. They are not proclaiming that their business is God's business. If they were, 92 per cent would not fail. Any business man who fails must

be doing business on his own account. Men that fail are evidently 5
not in the Spirit. God's success must be the spoken word of success
for all people, and there must be no other success with it. All
other systems of the world will crumble away. Let us remember that,
and begin our training right now.

This man said to me, "How long will it take me to be
successful, if I am true." I said, "it may be five minutes, five years
or five hundred years. If you are really true to the Word of God,
speak the Word of God with the inner conviction, it may be at once,
you will become to reap. It will be better for you in the end, any
way, than try some artificial way to get prosperity." Then lay hold
of the truth right now. It is like a principle of mathematics.
A man may be doing business, and say, two and two are 6, instead of
four. Can you expect that man will succeed in keeping correct
accounts? Certainly not. Let us begin right now, a foundation for
the whole world. We are the only people that are going to take
possession of the earth. We are told that the law of Jesus Christ
will encompass the whole earth, - to Him every knee will bend. It is
true because it is based upon the principle. The absolute truth
must go forth. It must be among those who are to take possession
of the earth. It does not mean that we are going to drive anybody
else out, but it is true that only the students of Truth will only
live. If you want to be a prince, get into line and be true to
the Spirit.
