The Regenerated Human Will

Saul's Early Ministry

Acts 9:19b-30; 11:25, 26.

Saul represents the convert's
will. The conversion of the
will is accomplished by intro-
ducing to the reason new
ideas and facts relating to
the subject that dominates
the mind. Saul was a

religious fanatic, at least²
he would have been so con-
sidered in this day. In his day
religion was more important
than it is now. Then every
one had a religion of some
kind, a nonbeliever was unthinkable.
There were sects a plenty, even

3
among the Jews, but there were
no atheists. Atheism is the
outgrowth of materialism - sci=
entifically taught. It's only
since the birth of modern science
and its theories of spontaneous
evolution of man from pro=
toplasm that skepticism has

had any standing in the world, &
Before that it did not
occur to men that ~~there~~
~~could be~~ the universe
could have been created with-
out an intelligent creator.

Strip the atom to give its source
to be electricity, electronic

Man is made of atoms in
his physical expression.

Strip the aggregation of atoms
composing man's body and it
clearer it is logical to
assume would be found

What is found at the center of a⁶
single atom, electrons, energy,
spirit.

Science, with all its skepticism
of god, ~~but~~ says that the energy
in atoms can be released and
marvelous energies exploited.

By the same rule the atoms of
man's organism should be released
and miraculous power be man-
ifested. Jesus understood how to
release the hidden life of the
cells and thereby surmount his body
until it merged into its original

source, the luminiferous ether,
when it now exists.
