• ABOUT THIS PROGRAM

In this 2-cassette program you will learn:

- * How to meet and overcome any seemingly insurmountable challenge in your life.
- * What to do when you have reached a point where **nothing** seems to work—including prayer.
- * How you can be led to a healing by soul growth and increased spiritual understanding.

The early signs of spastic dysphonia, a speaking disorder without any remedial hope until recently, began to reveal itself in 1974. As the years passed, so did Joel Baehr's ability to speak. How long would people keep coming to his Sunday lectures? Without the income from these Sunday morning services, his center ministry could not continue. Anyone who has had his livelihood threatened by some seemingly uncontrollable force can empathize with Joel. He finally had to make the decision within himself to quit doing that which he loved most. Then came the questions: What could he do now? How could he make a living? Could he support his wife and children?

The dynamically important part of Joel's lesson for you is how he handled and overcame the "Goliath" that seemed bound to keep him intimidated and in bondage.
