## Lesson Six—The Constant Flow

### The Law of Giving and Receiving

Giving is a fundamental spiritual law. All of the universe is constantly giving. Now, when we say giving, we're not talking about throwing away, we're not talking about being a martyr and we're not talking about bartering. We're talking about giving of oneself, because there is a fundamental law in the universe, stated by Jesus,

*"Give, and it will be given to you. Good measure pressed down, shaken together, running over, for the same measure you give will then the measure you give back" (Luke 6:38).*

When we are involved in getting, we are centering our attention on outer effects, and outer effects are the result of our prior giving. So they are very limited, and there is no power in effects except what we assign to them.

Whereas if we center in on giving, then our attention is taken away from the effects and centered on the inner flow that comes from within each and every one of us, that is greater than any of us can imagine, because the within of us is the unlimited flow of God good, the good that God has prepared for us.

Our need then is to *give up, to give up, to give out, and to give way* to the flow of God's good from within.
