# AlixPartners

[AlixPartners](#) is proud to maintain one globally integrated Discovery team operating throughout our offices in Europe, Asia and the Americas. We manage nearly a dozen highly scalable and secure Discovery data centers around the world, and our overseas offices are staffed with a mix of US-trained and local professionals, who are fluent in regional cultures, languages, and Discovery best practices. Our globally unified team utilizes the same training, technologies, and workflows across all of our offices, which ensures that the high quality of our deliverable in Shanghai or Munich is identical to that of London or Washington, DC.

We are highly proficient using a variety of data analytics, collection, processing and review platforms, and have significant experience utilizing technology assisted review and various forms of analytics to conduct large-scale reviews rapidly and cost effectively. We have been involved in hundreds of cross-border investigations, and AlixPartners' professionals have testified as expert witnesses on some of the most historic, high-stakes matters.

We have built a legacy of pursuing the highest standards of excellence in all areas of our business. We have achieved this by remaining focused on our clients *When it really matters*.

## NightOwlDiscovery®

A leader in Corporate Discovery Management, [NightOwl Discovery](#) helps companies in the most demanding industries reach their discovery, compliance, investigations and data analytics objectives. NightOwl helps enterprise customers maximize investments in people, process and technology. NightOwl provides a comprehensive and global discovery offering that spans the entire EDRM, including services in information governance, legal hold notification and preservation, collection, processing, hosting, production, advanced analytics and AI, managed review, and US/ EMEA /APAC data centers. Being a full-service discovery company, NightOwl also handles elements such as workflow planning, training and education for in-house and outside counsel, and interfacing with corporate IT resources.
