**Polygon count for:**

normal 4-sections obstacle - 76736
 destroyed 4-sections obstacle - 70680
 2-sections obstacle - 85118

BARBED WIRE OBSTACLES SET 1

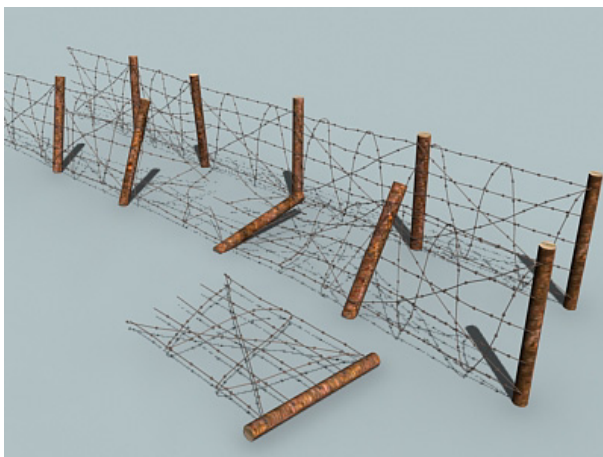

Field multisection wooden barbed wire obstacles. This asset contain two 4-sections obstacles in normal and destroyed conditions, and one 2-sections obstacle. All barriers are forced with Bruno spiral. Take attention how you may work with destroyed variant: originally it is placed to look like a single object, but actually there are three separated objects, which may be placed in different positions to fit your idea about destroyed obstacle. All models are carefully randomized to bring true realism into your scene.

Price \$60**BARBED WIRE OBSTACLES SET 2**

Field wooden barbed wire obstacles. This asset contain two one-section obstacles in normal and old (deformed) conditions, and one hedgehog. All barriers forced with Bruno spiral. All models are carefully randomized to bring true realism into your scene.

Polygon count for:

normal one-section obstacle - 48010
 deformed one-section obstacle - 47056
 hedgehog - 24788

Price \$50**Polygon count for:**

normal fence - 74252
 destroyed fence - 73564
 single section - 11924

BARBED WIRE OBSTACLES SET 3

Barbed wire fence. This asset contain five sections of a fence in normal and destroyed conditions, also as one-section variant to make turns of the fence in easy way. All sections prepared to be attached to each other in endless way. Take attention how you may work with destroyed variant: originally it is placed to look like a single object, but actually there are three separated objects, which may be placed in different positions to fit your idea about destroyed fence. All models are carefully randomized to bring true realism into your scene.

Price \$50

BARBED WIRE OBSTACLES SET 4

Field wooden barbed wire obstacles. This asset contain two one-section obstacles, also known as "rest knife", in normal and destroyed conditions, and one hedgehog. All models are carefully randomized to bring true realism into your scene.

Polygon count for:

normal one-section obstacle - 50000
 destroyed one-section obstacle - 50358
 hedgehog - 24084

Price \$50

BARBED WIRE OBSTACLES SET 5

Street multisection wooden barbed wire obstacles. This asset contain two 2-sections obstacles in normal and destroyed conditions, and one single section obstacle. Take attention how you may work with destroyed variant: originally it is placed to look like a single object, but actually there are two separated objects, which may be placed in different positions to fit your idea about destroyed obstacle. Second moment need your attention: single section obstacle designed as a checkpoint barrier with a warning, that can be

performed on any of three languages: German, English and Russian. Correspondent textures are provided. All models are carefully randomized to bring true realism into your scene.

Polygon count for:

normal two-sections obstacle - 42244
 broken two-section obstacle - 42872
 one-section obstacle - 34556

Price \$50

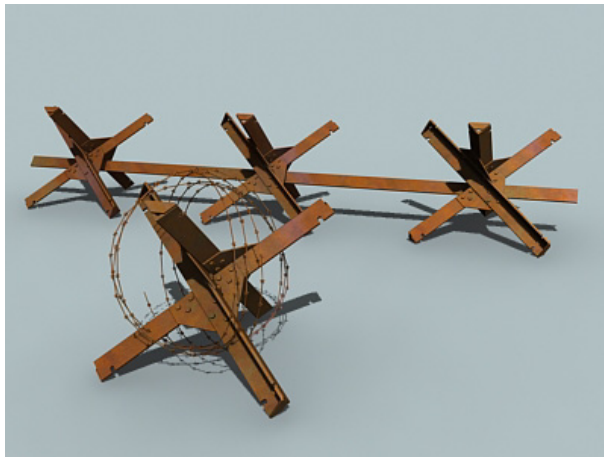

BARBED WIRE OBSTACLES SET 6

Street steel barbed wire obstacles. This asset contain two one-section obstacles in normal and deformed conditions, two Bruno spirals in normal and damaged conditions and one hedgehog. All barriers are forced with Bruno spiral and carefully randomized to bring true realism into your scene.

Polygon count for:

normal one-section obstacle - 28732
 deformed one-section obstacle - 28968
 normal Bruno spiral obstacle - 37366
 damaged Bruno spiral obstacle - 37374
 hedgehog - 17108

Price \$60

BARBED WIRE OBSTACLES SET 7

Anti-tank obstacles. This asset contain tripled anti-tank barrier and single anti-tank hedgehog with barbed wire. The barbed wire is separated object, so you can easy remove it if you won't need it.

Polygon count for:

tripled barrier - 4020

single hedgehog - 1332

hedgehog with barbed wire - 21812

Price **\$40**

Summary price: ~~\$360~~ **\$250**
