

# Plastic tubing

## PUN-H-3/16-SW-150-CB

Part number: 567955

FESTO

Approved for use in food processing (hydrolysis resistant)

## Data sheet

| Feature                                | values                                                   |
|----------------------------------------|----------------------------------------------------------|
| Outer diameter, inches                 | 3/16                                                     |
| Bending radius relevant for flow rate  | 0.069 Fuß                                                |
| Min. bending radius                    | 0.025 Fuß                                                |
| Temperature dependent working pressure | -14.4 ... 145 Psi                                        |
| Operating medium                       | Compressed air in accordance with ISO8573-1:2010 [7:-:-] |
| Food-safe                              | See Supplementary material information                   |
| Ambient temperature                    | -31 ... 145 °F                                           |
| Product weight according to length     | 0.13 oz/ft                                               |
| Color                                  | Black                                                    |
| Shore hardness                         | D 52 +/-3                                                |
| Materials note                         | Free of copper and PTFE<br>Conforms to RoHS              |
| Materials information for tubing       | TPE-U(PU)                                                |
