

IT & Security – Retired Courses

IT Security - CWNP Certified Wireless Security Professional (PW0-204) 01: Security Fundamentals, Network Management Tools and Monitoring, & Wireless Protocol
IT Security - CWNP Certified Wireless Security Professional (PW0-204) 02: OS Exploits, Hacking Tools, Unauthorized Access, Attacks, & Legalities
IT Security - CWNP Certified Wireless Security Professional (PW0-204) 03: Security Policies, Risk Assessment, Design Considerations, Monitoring, & Response Procedures
IT Security - CWNP Certified Wireless Security Professional (PW0-204) 04: Encryption, WEP, TKIP, 802.1x, EAP, WPA, 802.11i, VPN, IPsec, SSH2, & Mobile IP
IT Security - CWNP Certified Wireless Security Professional (PW0-204) 05: Segmentation Devices, Security Solutions, RADIUS, & WLAN Authentication
IT Servers - CIW Server Administrator (1D0-450) 01: Introduction, Hardware, OS, Network Configuration, & User Management
IT Servers - CIW Server Administrator (1D0-450) 02: Account Management, User Permissions, & DNS
IT Servers - CIW Server Administrator (1D0-450) 03: SMB Networking, Samba, IIS, Apache Servers, & Common Gateway Interface
IT Servers - CIW Server Administrator (1D0-450) 04: Virtual Servers, SSL, Streaming Media Servers, Email Servers, & FTP Servers
IT Servers - CIW Server Administrator (1D0-450) 05: Telnet, NNTP, Linux Access Control, System Performance, Fault Tolerance, & Server Security
IT Software Development - CIW Site Designer (1D0-520) 01: Design Considerations, Guidelines, XHTML, Images, & Color
IT Software Development - CIW Site Designer (1D0-520) 02: Photoshop CS3, Tables, Formatting Text, & Links
IT Software Development - CIW Site Designer (1D0-520) 03: CSS, Frames, & Using Multimedia on Web Pages
IT Software Development - CIW Site Designer (1D0-520) 04: JavaScript, Java, XML, Server Technologies, Databases, Accessibility, & Dreamweaver Essentials
IT Software Development - CIW Site Designer (1D0-520) 05: Templates, Interactivity, Building Web Forms, CSS, and XHTML with Dreamweaver
IT Software Development - CIW Site Designer (1D0-520) 06: Design Tools, Interactivity, Web Forms, CSS and XHTML with Expression
IT Software Development - CIW Site Designer (1D0-520) 07: Animation Basics, Web Sites, Publishing and Managing with Flash CS3
IT Software Development - CIW Web Foundations (1D0-510) 01: Networking Basics, Hardware Requirements, OSI Model, IP Addressing, & Web Browsers
IT Software Development - CIW Web Foundations (1D0-510) 02: Network Security, Viruses, Search Engines, Web Site Planning, & HTML
IT Software Development - CIW Web Foundations (1D0-510) 03: Graphics, Web Color, Lists, Tables, Forms, Linking, & Frames
IT Software Development - CIW Web Foundations (1D0-510) 04: Advanced Authoring Techniques, E-Commerce, Web Site Administration, Legal and Ethical Issues, & Web Technologies
IT Networking - CWNP Certified Wireless Network Administrator 01: WLAN, Industry Organizations, RF Fundamentals, RF Mathematics, & RF Measurements
IT Networking - CWNP Certified Wireless Network Administrator 02: RF Signal Concepts, RF Antenna Basics, RF Accessories, Spread Spectrum Tech, & Standards
IT Networking - CWNP Certified Wireless Network Administrator 03: IEEE 802.11, CSMA/CD, Channel Access Methods, WLAN Service Sets, & Locating WLANs
IT Networking - CWNP Certified Wireless Network Administrator 04: Access Points, Infrastructure Hardware, PoE, WLAN Client Hardware, Design Models, & Alternate WLAN Architectures

IT Networking - CWNP Certified Wireless Network Administrator 05: Site Surveying, WLAN Vulnerabilities, WLAN Security Solutions, Security Policies, & Troubleshooting WLANs
IT Servers - VMWare Virtual Infrastructure (VCP-310) 01: Virtualization, VMware Products, ESX, Troubleshooting Installations, & Virtual Networking
IT Servers - VMWare Virtual Infrastructure (VCP-310) 02: Storage Area Networks, VMFS, VirtualCenter, Virtual Machines, & VMware Security
IT Servers - VMWare Virtual Infrastructure (VCP-310) 03: Web Access Security, Optimization, DRS, High Availability, Monitoring, Backup, & Restoration
IT Software Training - Adobe Photoshop CS4 01: Navigation, Application Frame, Images, Selection Tools, & Layers
IT Software Training - Adobe Photoshop CS4 02: Images, Filters, Text, Styles, Photo Retouching, & Actions
IT Software Training - Adobe Photoshop CS4 03: Web and Vector Tools, Bridge, Camera Raw, File Formats, Color, & Output
IT Operating Systems - Windows Vista 101 01: Getting Started, Navigating, & Organizing Files
IT Operating Systems - Windows Vista 101 02: IE7, Viewing and Printing Web Pages, & Features
IT Operating Systems - Windows Vista 101 03: Multimedia, Management, & Networking
IT Security - Advanced Windows Exploitation 01: Exploits, Exploit Development, Tools and Metasploit
IT Security - Advanced Windows Exploitation 02: SAINT, CORE IMPACT, Documentation, Risk Analysis, Report Content and Delivery
IT Databases - CIW Database Design Specialist (1D0-541) 01: Relationships, Database Languages and Dictionaries, Database Planning and Normalization
IT Databases - CIW Database Design Specialist (1D0-541) 02: Logical and Physical Database Design and Considerations
IT Databases - CIW Database Design Specialist (1D0-541) 03: SQL, Inserting Data, Filtering, Sorting, DCL, RA, Composite Joins and Transactions
IT Security - Computer Forensics and Electronic Discovery 01: Digital Forensics Incidents, Investigations, Threats, Assessments and Storage
IT Security - Computer Forensics and Electronic Discovery 02: Acquisition, Authentication, Duplication Demo, Assessments
IT Security - Computer Forensics and Electronic Discovery 03: Evidence, Authenticity and Alteration, Forensic Theory, Examination Review, Deviation and Archiving
IT Security - Computer Forensics and Electronic Discovery 04: Duplication, eDiscovery and Cryptography
IT Security - Computer Forensics and Electronic Discovery 05: Passwords, Data Carving, ADS, User Files and Rootkits
IT Software Training - Adobe Dreamweaver CS6 01: Navigation, Website Planning, Design, Formatting, Links and HTML
IT Software Training - Adobe Dreamweaver CS6 02: CSS Fundamentals, HTML Layouts, Tables and Templates
IT Software Training - Adobe Dreamweaver CS6 03: Form Objects, Interactivity, Publishing, Managing Websites and Accessibility
IT Operating Systems - Windows Vista Enterprise (70-622) 01: Deployment, Installation, Post Installation Tasks and Troubleshooting Installation
IT Operating Systems - Windows Vista Enterprise (70-622) 02: Network Protocols and Services, Wireless Connections, Remote Desktop and Application Deployment
IT Operating Systems - Windows Vista Enterprise (70-622) 03: UAC, Firewalls, Windows , Security, Authentication and IE7 Security
IT Operating Systems - Windows Vista Enterprise (70-622) 04: Troubleshooting, Connectivity, Compatibility, Desktop Applications, Management Tools and Windows Updates
IT Servers - Exchange Server 2007 (70-236) 01: Installation, Roles and Server Editions
IT Servers - Exchange Server 2007 (70-236) 02: Administration, Management Console, Windows PowerShell and Email Domains
IT Servers - Exchange Server 2007 (70-236) 03: Email Recipients, Mailboxes, Mail-Enabled Groups, Public Folders and Message Flow
IT Servers - Exchange Server 2007 (70-236) 04: Edge Transport Server, Spam, Transport Rules, Compliance Features and Client Access

IT Servers - Exchange Server 2007 (70-236) 05: Outlook, LCR, CCR, Disaster Recovery, Troubleshooting and Message Tracking
IT Software Training - Adobe Flash CS6 01: Navigation, Interface, Text, Drawing and Creation Tools
IT Software Training - Adobe Flash CS6 02: Symbols, Timeline, Animation, Masks and Layout
IT Software Training - Adobe Flash CS6 03: Storyboards, Copyright, Importing, ActionScript, Publishing, Accessibility and Testing
IT General - IC ³ Global Standard 4 (GS4) 01: Hardware, Ergonomics, OS Basics, File Management, Software Basics and Troubleshooting
IT General - IC ³ Global Standard 4 (GS4) 02: Word Processing, Spreadsheets, Databases, Presentation, Graphics and Video Software
IT General - IC ³ Global Standard 4 (GS4) 03: Web Basics, Networks, Connections, Security, Browsers, Digital Responsibilities and Internet Research
IT General - IC ³ Global Standard 3 (GS3) 01: Computer Basics and Managing Operating Systems
IT General - IC ³ Global Standard 3 (GS3) 02: Applications, Finalizing Documents and Presentations
IT General - IC ³ Global Standard 3 (GS3) 03: Collaborating, Working with E-Mail and Using the Web
IT Software Training - Adobe InDesign CS6 01: Interface, Navigation, Documents and Objects
IT Software Training - Adobe InDesign CS6 02: Color, Spot Color, Type, Layouts, Graphics, Styles and Books
IT Software Training - Adobe InDesign CS6 03: Layers, Effects, Transparency, Tables, Data Merge, Interactive Documents and Printing
IT Software Development - CIW JavaScript Specialist (1D0-635) 01: Introduction, Code Structure, Variables, Identifiers and Functions
IT Software Development - CIW JavaScript Specialist (1D0-635) 02: Controlling Program Flow, JavaScript Objects and Form Objects
IT Software Development - CIW JavaScript Specialist (1D0-635) 03: Cookies, Javascript Security, Frames, AJAX, JavaScript Libraries and Custom Objects
IT Software Development - .NET Framework 2.0 – Web-Based Client Development (70-528) 01: Static Pages, Validation, Error Handling, Localization and Master Pages
IT Software Development - .NET Framework 2.0 – Web-Based Client Development (70-528) 02: User Controls, User Profiles, Authentication, Authorization, Site Map and Dynamic Master Pages
IT Software Development - .NET Framework 2.0 – Web-Based Client Development (70-528) 03: Themes, Templates, SQL Data Source, Data Bound Controls, XML Data Source and Object Data Source
IT Software Development - .NET Framework 2.0 – Web-Based Client Development (70-528) 04: Caching, SQL Dependency, Asynchronous Pages, Web Parts and Mobile Web Pages
IT Software Development - .NET Framework 2.0 – Web-Based Client Development (70-528) 05: Custom Error Pages, Changing Configuration, Deployment Features, IIS and Production Deployment
IT Software Development - MTA .NET (98-372) 01: Introduction, Classes, Inheritance, Casting, Generics, Interfaces and Class Libraries
IT Software Development - MTA .NET (98-372) 02: Global Assembly Cache, Files, Values and Reference Types, Boxing and Unboxing, Application Settings and Handling Events
IT Software Development - MTA .NET (98-372) 03: XML Structure, Security, Common Language Runtime and Exam Review
IT Databases - MTA Database (98-364) 01: Database Tables and Relationships, DML, Database Data Types, Tables and Data
IT Databases - MTA Database (98-364) 02: Filtering Data, Functions, Sorting and Joining Data, OUTER and CROSS JOINS, Duplicates and Result Sets
IT Databases - MTA Database (98-364) 03: Adding and Deleting Data, Views, Functions, Data Normalization and Normal Forms
IT Databases - MTA Database (98-364) 04: Primary Keys, Clustered and Non-Clustered Indexes, Database Security Concepts and Backups
IT Networking - MTA Networking (98-366) 01: Network Connectivity, LANs, WANs, Wireless Networking, Networking Topologies and Access Methods

IT Networking - MTA Networking (98-366) 02: Understanding Switches, Routers and Network Cabling
IT Networking - MTA Networking (98-366) 03: The OSI Model, IP Addressing, Name Resolution, Networking Services and Tools
IT Security - MTA Security (98-367) 01: Security Principles, Threats, Risks, Authentication, Password Policies, User and Group Management
IT Security - MTA Security (98-367) 02: Permission Management, Auditing, Physical Security Solutions, Malware Protection and Encryption
IT Security - MTA Security (98-367) 03: Network Perimeter Security, Network Segmentation, NAP, Network Protocol Security, Wireless Network Security and Protection
IT Servers - MTA Server Administration (98-365) 01: Installing Windows Server, Server Types, Server Roles and Active Directory
IT Servers - MTA Server Administration (98-365) 02: Internal and External Server Storage, RAID, Server Virtualization and Basic Server Administration
IT Servers - MTA Server Administration (98-365) 03: Server Maintenance, Processors, Memory, Performance Baselines, Troubleshooting and Disaster Recovery
IT Software Development - MTA Software Development (98-361) 01: General Software Development, Computer Storage, Data Types, Flow Control, Repetition, Error Handling, Classes and Objects
IT Software Development - MTA Software Development (98-361) 02: Inheritance, Polymorphism, Encapsulation, Application Development and Working with Databases
IT Software Development - MTA Web Development (98-363) 01: Web Page Structure, Page Layout, Web App Structure, Page Life Cycle and Web Communications
IT Software Development - MTA Web Development (98-363) 02: Web Site Configuration, Bugs, Errors, and Exceptions, Web Page Deployment, Web Page Management and Storing Data
IT Software Development - MTA Web Development (98-363) 03: XML, Web Services, Databases, Binding Data to Web, Client-Side Programming and Scripting Technologies
IT Software Development - MTA Web Development (98-363) 04: Web Forms Authentication, Windows Authentication, Data Validation and Exam Review
IT Software Development - MTA Windows Development (98-362) 01: Windows Programming Basics, Windows Forms Applications and Windows Service Application
IT Software Development - MTA Windows Development (98-362) 02: Data Access Consideration and Deploying Windows Applications
IT Operating Systems - MTA Windows Operating System (98-349) 01: Windows OS, Interfaces, Installations, Desktop Features and Configuration
IT Operating Systems - MTA Windows Operating System (98-349) 02: Applications, Configuration Settings, Control Panel, Mobility Solutions, MMC and PowerShell
IT Operating Systems - MTA Windows Operating System (98-349) 03: Malware, File Systems, Libraries, Network Shares, Printers and Device Management
IT Operating Systems - MTA Windows Operating System (98-349) 04: Storage, Troubleshooting, Backup, Restore and Patch Management
IT Networking - CIW Network Technology Associate (1D0-51C) 01: Introduction to Networking, Operating Systems, Network Infrastructure, Data Transmission and Routing Protocols
IT Networking - CIW Network Technology Associate (1D0-51C) 02: Troubleshooting, Internetworking Servers, Understanding DNS, Hardware and OS Maintenance
IT Networking - CIW Network Technology Associate (1D0-51C) 03: Understanding Data Structure, Network Security and Personal Privacy
IT Software Development - Oracle Java Professional (CX-310-019) 01: Java Programs, Variables, References, Branching, Loops, Arrays and Functions
IT Software Development - Oracle Java Professional (CX-310-019) 02: Object-Oriented Programming, Custom Classes, Subclassing, Interfaces and Abstract Classes
IT Software Development - Oracle Java Professional (CX-310-019) 03: UML, Java Integration Technologies, HTML, JavaScript, Java 2 Micro Edition, Applets, GUI Interfaces and Java Server Technologies
IT Security - Penetration Testing Databases 01: SQL Injection, Direct Attacks and Protection

IT Security - Penetration Testing Databases 02: Attack Methods and Tools of the Trade
IT Security - Penetration Testing Networks 01: Sniffers, ARP Poisoning, DNS Spoofing, Breaking SSL, Evading Firewalls and IDS/IPS and Wireless Technologies
IT Security - Penetration Testing Networks 02: War Driving, Auditing Tools, Breaking WEP and WPA, Tools and New Age Protection
IT Security - Penetration Testing Vulnerability 01: Vulnerability Assessments, Vulnerability Assessment Tools and Results
IT Security - Penetration Testing Vulnerability 02: Malware Distribution, Capabilities and Countermeasures in Penetration Testing
IT Software Training - Adobe Photoshop CS6 01: Interface, Image Types and Resolution, Adobe Bridge, Adobe Camera Raw, Image Composition and Color Modes
IT Software Training - Adobe Photoshop CS6 02: Type, Layers, Nondestructive and Destructive Editing, Tools, Color Management and Adjustments
IT Software Training - Adobe Photoshop CS6 03: Shapes, Paths, Selections, Layer Masks, Retouching Tools, Content-Aware Tools and Blur Filters
IT Software Training - MS Project Server 2007 01: Overview, Enterprise Project, Users, Groups, Calendars, Custom Fields and RBS
IT Software Training - MS Project Server 2007 02: Enterprise Resources, Publishing, Project-Related Information and Updating Projects
IT Software Training - MS Project Server 2007 03: Earned Value Analysis, Risks and Issues, Personal Settings, PWA Views, Project Status and EPM Review
IT General - CompTIA Strata IT Fundamentals (FC0-U41) 01: The System Unit, CPU, RAM and Storage Options
IT General - CompTIA Strata IT Fundamentals (FC0-U41) 02: Operating Systems, User Accounts, Windows Basic Training, Software Installation, System Maintenance and Printers
IT General - CompTIA Strata IT Fundamentals (FC0-U41) 03: Video, Multimedia, Wireless, Networking, Internet Access, Security and Green IT
IT Operating Systems - Windows Vista (70-620) 01: Installation, Upgrading, Migration, Post-Installation and Third Party Applications
IT Operating Systems - Windows Vista (70-620) 02: User Account Control, IE, Windows Defender, Windows Firewall, Parental Controls and Windows Update
IT Operating Systems - Windows Vista (70-620) 03: Networking, Wireless, Remote Access, Media, Productivity Applications and Collaboration
IT Operating Systems - Windows Vista (70-620) 04: Mobile Devices and Computing, Optimization, Monitoring Performance, Data Protection and Recovery Tools
IT General - CWNP Certified Wireless Technology Specialist (PW0-070) 01: Wireless Technologies, Regulatory Agencies, Standards, RF Fundamentals, Antennas, Cabling, Physical Layers and Topologies
IT General - CWNP Certified Wireless Technology Specialist (PW0-070) 02: 802.11, Authentication, Association, Infrastructure, Endpoint Hardware, Wireless LAN Controllers and Configuring Access Points
IT General - CWNP Certified Wireless Technology Specialist (PW0-070) 03: Roaming Wireless Networks, OS Clients, Cisco Clients, Wireless LAN Vulnerabilities and Wireless Security Components
IT General - CWNP Certified Wireless Technology Specialist (PW0-070) 04: 802.11i, EAP, Encryption, Security Tools, WCS, Navigator, Site Surveys, Troubleshooting, Spectrum and Protocol Analyzers
IT General - CIW Internet Business Associate (1D0-51A): Internet Business Associate
#N/A
IT Software Development - MTA Windows Development (98-362): An Overview
IT Software Development - MTA Software Development (98-361): An Overview
IT Operating Systems - MTA Windows Operating System (98-349): An Overview
IT Software Training - MS Project Server 2007: An Overview
IT Networking - Cisco CCNP 01: Introduction to CCNP Certification
IT Networking - Cisco CCNP 02: Routing and Switching Basics
IT Networking - Cisco CCNP 03: LAN Switching

IT Networking - Cisco CCNP 04: Layer 2 Security
IT Networking - Cisco CCNP 05: IPv4/IPv6 Overview
IT Networking - Cisco CCNP 06: High Availability IP Services
IT Networking - Cisco CCNP 07: Introduction to Wireless LANs
IT Networking - Cisco CCNP 08: VoIP and Video Technologies
IT Networking - Cisco CCNP 09: Interior Gateway Protocols and Static Routing
IT Networking - Cisco CCNP 10: Exterior Gateway Protocols
IT Networking - Cisco CCNP 11: Advanced IP Services and Router Security
IT Software Training - Adobe Dreamweaver CS5 01: HTML Formatting, Multimedia & XHTML
IT Software Training - Adobe Dreamweaver CS5 02: Using Templates, CSS & Tables
IT Software Training - Adobe Dreamweaver CS5 03: Working with Forms, Interactivity & Publishing
IT Software Training - Adobe Fireworks CS5 01: Formatting, Layers & Symbols
IT Software Training - Adobe Fireworks CS5 02: Templates, Images & Integration
IT Software Training - Adobe Flash CS5 01: Working with Text, Images & Effects
IT Software Training - Adobe Flash CS5 02: Working with Drawing Tools, Audio, Commands & Publishing Options
IT Software Training - Adobe Flash CS5 03: ActionScript, Components & External Elements
IT Software Training - Adobe Illustrator CS5 01: Interface and Drawing Tools
IT Software Training - Adobe Illustrator CS5 02: Typography, Painting & Output Options
IT Software Training - Adobe InDesign CS5 01: Navigation, Layout & Objects
IT Software Training - Adobe InDesign CS5 02: Working with Color, Type, Styles & Graphics
IT Software Training - Adobe InDesign CS5 03: Working with Layers, Effects, Tables & Formulas
IT Software Training - Adobe Photoshop CS5 01: Navigating, Selection Tools & Working with Layers
IT Software Training - Adobe Photoshop CS5 02: Image Formatting, Painting Tools, & Working with Type
IT Software Training - Adobe Premiere Pro CS5 01: Preproduction-Concept, Script, Storyboarding & Schedule
IT Software Training - Adobe Premiere Pro CS5 02: Production-Equipment, Camera, Lighting, Audio & Crew
IT Software Training - Adobe Premiere Pro CS5 03: Post-Production-Managing Files & Finalizing Projects
IT Software Training - MS SharePoint 2010 End User Basics 01: Navigating and Creating Site Collections
IT Software Training - MS SharePoint 2010 End User Basics 02: Lists, Libraries and Integration
IT Software Training - MS SharePoint 2010 (70-667) Configuration 01: Installing, Deploying and Configuring
IT Software Training - MS SharePoint 2010 (70-667) Configuration 02: Applications, Site Collections and Sites
IT Software Training - MS SharePoint 2010 (70-667) Configuration 03: Search, Maintaining, Monitoring, and Managing
IT Software Training - MS SharePoint 2010 (70-667) Configuration 04: Authentication, Performance and Restoration
IT Software Training - MS SharePoint 2010 (70-667) Administration 04: Designing the Architecture, Supporting Services and Network Integration
IT Software Training - MS SharePoint 2010 (70-667) Administration 01: Logical Taxonomy, Server Farm Installation and Configuration
IT Software Training - MS SharePoint 2010 (70-667) Administration 05: Service Applications and Components
IT Software Training - MS SharePoint 2010 (70-667) Administration 03: Security and Account Management
IT Software Training - MS SharePoint 2010 (70-667) Administration 02: Maintenance and Enterprise Content Management
IT Operating Systems - Windows 7 Configuration (70-680) 01: Installation and Deployment
IT Operating Systems - Windows 7 Configuration (70-680) 02: Device Drivers, IE8, Application Compatibility and Restrictions
IT Operating Systems - Windows 7 Configuration (70-680) 03: Networking
IT Operating Systems - Windows 7 Configuration (70-680) 04: Security
IT Operating Systems - Windows 7 Configuration (70-680) 05: Mobility Options, File Management and Recovery
IT Operating Systems - Windows 7 Configuration (70-680) 06: Deployment and Software Configuration

IT Operating Systems - Windows 7 Configuration (70-680) 07: Troubleshooting
IT Operating Systems - Windows 7 Configuration (70-680) 08: System Performance and Storage
IT Operating Systems - Windows 7 Configuration (70-680) 09: Wireless Connections and Security Settings
IT Video Production - Video Production 101 03: File Management, Creating Rough Cuts & Effects
IT Video Production - Video Production 101 04: Audio Editing & Finalizing the Project
IT Video Production - Video Production 101 01: Script Writing, Storyboarding, & Equipment
IT Video Production - Video Production 101 02: Camera Operation, Lighting, Audio & Crew
IT Software Development - HTML5 01: Introduction to HTML 5, Text Markup, & Forms
IT Software Development - HTML5 02: Audio/Video, Canvas, Communication APIs, Webworkers, Geolocation & Storage
IT Servers - Exchange Server 2010 (70-662) 01: Installation, Server Roles and Database Management
IT Servers - Exchange Server 2010 (70-662) 02: Mailbox Configuratjion and Settings
IT Servers - Exchange Server 2010 (70-662) 03: Client Access, OWA, POP3, IMAP and ActiveSync
IT Servers - Exchange Server 2010 (70-662) 04: Federated Sharing, Transport Servers, Connectors and TLS
IT Servers - Exchange Server 2010 (70-662) 05: Anti-Spam and Antivirus, DAG and Restoration
IT Servers - Exchange Server 2010 (70-662) 06: Monitoring and Managing
IT Servers - Exchange Server 2010 (70-663) 01: Active Directory, DNS, Server Roles and Storage
IT Servers - Exchange Server 2010 (70-663) 02: Mailbox and Folder Design, CAS, and RPC
IT Servers - Exchange Server 2010 (70-663) 03: Hub Transport, Edge Server, Federated Sharing, Foreign Connectors and RBAC
IT Servers - Exchange Server 2010 (70-663) 04: Database, CAS and Hub/Edge/High Availability, and Maintience
IT Servers - MCSE 2003 to Server 2008 (70-649): An Overview
IT Servers - MCSA 2003 to Server 2008 (70-648): An Overview
IT Software Training - Adobe Premiere Pro CS6 01: Understanding the Production Process
IT Software Training - Adobe Premiere Pro CS6 02: Getting Started
IT Software Training - Adobe Premiere Pro CS6 03: Editing Projects
IT Software Training - Adobe Premiere Pro CS6 04: Enhancing and Completing Projects
IT Software Training - MS SharePoint Services 3.0 Configuration (70-631) 01: Design Concepts, Site Settings, Master Pages, & Templates
IT Software Training - MS SharePoint Services 3.0 Configuration (70-631) 02: Workflow, Administration, Backup & Restore
IT Software Training - MS SharePoint Services 3.0 Configuration (70-631) 03: Databases, Monitoring, Security, Topology, Scalability, Upgrading, & Uninstalling
IT Software Training - MS Windows Vista and Office 2007 Deployment (70-624) 01: Introduction, Deployment, Migrations, OMPM Tool, & Settings
IT Software Training - MS Windows Vista and Office 2007 Deployment (70-624) 02: Installing ACT, Data Collection Packages, Compatibility, & User State Migration
IT Software Training - MS Windows Vista and Office 2007 Deployment (70-624) 03: Deployment, Preinstallation, Customizing, Imaging, & Automated Installations
IT Software Training - MS Windows Vista and Office 2007 Deployment (70-624) 04: BDD 2007, LTI, ZTI, & SMS 2003
IT Security - Penetration Testing Foundations 01: Overview, Evolving Threats, Methodologies, Test Environments, Footprinting, & DNS
IT Security - Penetration Testing Foundations 03: Port Scanning, Nmap, Banner Grabbing, DNS Enumeration, SNMP & AD Enumeration, and Null Sessions
IT Security - Penetration Testing Foundations 02: Password Cracking, ADS, Steganography, UNIX/Linux, Remote Attacks, & Hacking an Ubuntu Server
IT Servers - CompTIA Server+ (SK0-003) 01: Server Types, Basic Administration, Bus Architectures, External Server Storage, RAID, Processors, & Memory

IT Servers - CompTIA Server+ (SK0-003) 02: High Availability, Installing and Configuring Servers, Peripherals, NOS, Protocols, & Services
IT Servers - CompTIA Server+ (SK0-003) 03: Upgrades, Baselines, Optimization, Physical Security, Backup, Restoration, & Disaster Recovery
IT Servers - CompTIA Server+ (SK0-003) 04: Linux, NOS, Hardware Compatibility, Virtualization, Documentation, & Troubleshooting
IT Servers - CompTIA Server+ (SK0-003) 05: MMC, Command Prompt, System Settings, Server Manager, Event Viewer, & General System Maintenance
IT Software Training - Adobe Flash CS4 01: Navigation, Drawing Tools, Painting Tools and Modifying Objects
IT Software Training - Adobe Flash CS4 02: Layers, Symbols, Animation, Photos, Timeline, Movie Clips, Shape Tweening and Bone Structure
IT Software Training - Adobe Flash CS4 03: Buttons, ActionScript, Video, Filters and Blend Modes
IT Software Training - Adobe Flash CS4 04: Interaction, Dynamically Load, Conditional Statements, Movie Clips, Calculations and Preloaders
IT Servers - ISA Server 2004 (70-350) 01: Installing, Deploying, Securing & Upgrading
IT Servers - ISA Server 2004 (70-350) 02: SecureNAT, Web Proxy Client, Firewall Client, & Troubleshooting Connectivity
IT Servers - ISA Server 2004 (70-350) 03: Network Rules, Web Chaining, Dial-Up, Firewall Policies, Filters & Intrusion Alerts
IT Servers - ISA Server 2004 (70-350) 04: Publishing, SSL, Mail Server Wizard, Web Caching, Remote Access & VPN Technology
IT Servers - ISA Server 2004 (70-350) 05: Monitoring, Logging, Reporting, Enterprise Edition, Load Balancing and CARP
IT Servers - MCSE 2003 to Server 2008 (70-649) 01: Lightweight Directory Services, Rights Management Services, Read-Only Domain Controllers and Federation Services
IT Servers - MCSE 2003 to Server 2008 (70-649) 02: IPv4, IPv6, DHCP, IP Routing and IPsec
IT Servers - MCSE 2003 to Server 2008 (70-649) 03: Windows Update, Performance Monitoring, Network Monitoring and Troubleshooting
IT Servers - MCSE 2003 to Server 2008 (70-649) 04: Deployment, Activation, Hyper-V, High Availability and Configuring Storage
IT Servers - MCSE 2003 to Server 2008 (70-649) 05: Terminal Services, Remote Desktop, Application Availability and TS Load Balancing
IT Servers - MCSE 2003 to Server 2008 (70-649) 06: IIS 7.0, Web Applications, File Transfer Protocol, Simple Mail Transfer Protocol and Web Server Security
IT Servers - Windows Server 2003 Active Directory (70-294) 01: AD Foundations, CIA Model, FSMO, Unique Names, Global Catalog, & Administrative Tools
IT Servers - Windows Server 2003 Active Directory (70-294) 02: DNS Concepts, DNS Zone Types, Installation Requirements, Installation Process, & AD Replica
IT Servers - Windows Server 2003 Active Directory (70-294) 03: Forest and Domain Levels, Trusts, Decommissioning, OU, Users, & Groups
IT Servers - Windows Server 2003 Active Directory (70-294) 04: UPN, Password Policies, Group Policy Objects
IT Servers - Windows Server 2003 Active Directory (70-294) 05: Security Settings, Highly Available DNS, FSMO Rules, & AD Implementation Plan
IT Servers - Windows Server 2003 Active Directory (70-294): An Overview
IT Servers - Windows Server 2003 Administration (70-299) 01: Security Structure, Web Authentication, Implementing Security, Trust Relationships, & Groups
IT Servers - Windows Server 2003 Administration (70-299) 02: Authorization, Managing ACLs, Permissions, Templates, & Policies
IT Servers - Windows Server 2003 Administration (70-299) 03: Client Security, Restricting and Distributing Software, Securing Servers, & Security Setting Analysis
IT Servers - Windows Server 2003 Administration (70-299) 04: PKI, Certificates, Backup, Restoration, Wireless Security, & Managing Updates and Patches

IT Servers - Windows Server 2003 Administration (70-299) 05: IPSec, SSL, & RRAS
IT Servers - Windows Server 2003 Designing (70-297) 01: AD, Domain Implication, Forest Design, DNS, Trusts, Migration, Schemas and Site Infrastructure
IT Servers - Windows Server 2003 Designing (70-297) 02: Site Design, Domain Controllers, GCs and FSMOs, Computer and User Accounts
IT Servers - Windows Server 2003 Designing (70-297) 03: Group Policy, GPO Management, Name Resolution, DNS and WINS Replication
IT Servers - Windows Server 2003 Designing (70-297) 04: Network Infrastructure, IP Addressing, DHCP Design, Change Management and Connectivity
IT Servers - Windows Server 2003 Designing (70-297) 05: Internet Infrastructure, Network Access Design, Remote Access and Wireless Access
IT Servers - Windows Server 2003 Implementation (70-291) 01: Network Infrastructure, TCP/IP, MAC, and IP Addresses, & DHCP
IT Servers - Windows Server 2003 Implementation (70-291) 02: IP Address Troubleshooting, DNS Servers, & Configuring Zones
IT Servers - Windows Server 2003 Implementation (70-291) 03: VPN, Remote Access Policies, IAS, & Troubleshooting Remote Access
IT Servers - Windows Server 2003 Implementation (70-291) 04: IP Routing Protocols, Demand-Dial Routing, VPN, NAT, & Troubleshooting Routing
IT Servers - Windows Server 2003 Implementation (70-291) 05: Security Templates, IPSec, Monitoring, & Troubleshooting Services
IT Servers - Windows Server 2003 Maintenance (70-293) 01: TCP/IP, Network Availability, Network Performance, Planning for Growth and DHCP
IT Servers - Windows Server 2003 Maintenance (70-293) 02: Internet Connectivity, NAT, Security, Clustering, Planning RRAS and Routing Types
IT Servers - Windows Server 2003 Maintenance (70-293) 03: RRAS Advanced Features, IP Troubleshooting, Secure Remote Access, RAS Authentication and IPsec
IT Servers - Windows Server 2003 Maintenance (70-293) 04: DNS, WINS, Security Design and Security Baseline
IT Servers - Windows Server 2003 Maintenance (70-293) 05: Perimeter Security, Securing Public Servers, CAs and Planning for Administration
IT Servers - Windows Server 2003 Networks (70-290) 01: Installation, Upgrading Windows 2000, Hardware Support, & Troubleshooting Hardware
IT Servers - Windows Server 2003 Networks (70-290) 02: Basic Dynamic Volumes, Fault Tolerant Volumes, Managing Volumes, & File Systems
IT Servers - Windows Server 2003 Networks (70-290) 03: Computer Accounts, User Accounts, Account Properties, User Profiles, & Groups
IT Servers - Windows Server 2003 Networks (70-290) 04: NTFS, Printers, Windows Licensing, & Software Update Services
IT Servers - Windows Server 2003 Networks (70-290) 05: Remote Administration, Monitoring Servers, Shadow Copies, Backup, & Disaster Recover
IT Servers - Windows Server 2003 Maintenance (70-293): Planning Network Infrastructure
IT Servers - Windows Server 2003 Security (70-298) 01: Security Policies and Framework, Technical Constraints, Design Principles, & Risk Management
IT Servers - Windows Server 2003 Security (70-298) 02: Network Management Procedures, SUS, Authentication, Files and Folders, Remote Access, & VPN Security
IT Servers - Windows Server 2003 Security (70-298) 03: Network Infrastructure, DNS, Perimeter Security, PKI, & IIS
IT Servers - Windows Server 2003 Security (70-298) 04: Server Baselines, Active Directory Security, Client Security, Wireless Essentials, & Wireless Security
IT Servers - Windows Server 2008 Active Directory (83-640) 01: Installing AD, Server Core, DNS and AD DNS Integration
IT Servers - Windows Server 2008 Active Directory (83-640) 02: Domain Name Resolution, AD and Global Catalog Server

IT Servers - Windows Server 2008 Active Directory (83-640) 03: AD Trusts, RODC, AD and Automation
IT Servers - Windows Server 2008 Active Directory (83-640) 04: Group Policy, Auditing, Account Policies and Virtualization
IT Servers - Windows Server 2008 Active Directory (83-640) 05: AD LDS, RMS, AD FS, Certificate Services, Administering CAs and Certificate Enrollment
IT Servers - Windows Server 2008 Active Directory (83-640) 06: Public Key Archival, Certification Revocation, AD Maintenance, Performance, Diagnostic Tools, Backup and Recovery
IT Servers - Windows Server 2008 Active Directory (70-640) 01: Basic AD and DNS Concepts
IT Servers - Windows Server 2008 Active Directory (70-640) 02: Advanced AD Concepts
IT Servers - Windows Server 2008 Active Directory (70-640) 03: Group Policy Concepts and Virtualization
IT Servers - Windows Server 2008 Active Directory (70-640) 04: AD Role Services
IT Servers - Windows Server 2008 Active Directory (70-640) 05: Public Key Infrastructure and Performance Monitoring
IT Servers - Windows Server 2008 Applications Infrastructure (70-643) 01: Deployment and Virtualization
IT Servers - Windows Server 2008 Applications Infrastructure (70-643) 02: High Availability, Storage Technologies and Terminal Services
IT Servers - Windows Server 2008 Applications Infrastructure (70-643) 03: Terminal Services and IIS
IT Servers - Windows Server 2008 Applications Infrastructure (70-643) 04: Windows Media Server and SharePoint Services
IT Servers - Windows Server 2008 Enterprise Administrator (70-647) 01: Basic Networking Concepts and Enterprise Administrator
IT Servers - Windows Server 2008 Enterprise Administrator (70-647) 02: Remote Access, NAP and Advanced Enterprise Administrator
IT Servers - Windows Server 2008 Enterprise Administrator (70-647) 03: Network Security and Public Key Infrastructure
IT Servers - Windows Server 2008 Enterprise Administrator (70-647) 04: Virtualization, Web and Terminal Services, and Remote Desktop
IT Servers - Windows Server 2008 Enterprise Administrator (70-647) 05: WSUS, User and Data File Management, and High Availability
IT Servers - Windows Server 2008 Network Infrastructure (70-642) 01: Basic Network Structuring
IT Servers - Windows Server 2008 Network Infrastructure (70-642) 02: Routing, Network Infrastructure Security, DNS and Remote Access
IT Servers - Windows Server 2008 Network Infrastructure (70-642) 03: NAP, Wireless Access and File Services
IT Servers - Windows Server 2008 Network Infrastructure (70-642) 04: Backup Services, Monitoring and Troubleshooting
IT Servers - Windows Server 2008 R2 01: Improvements in Active Directory & BranchCache
IT Servers - Windows Server 2008 R2 02: DirectAccess, NPS & DNS
IT Servers - Windows Server 2008 Server Administrator (70-646): An Overview
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 01: Relational Databases, Transact-SQL, SELECT Statements, Operators and Expressions
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 02: Filtering, Writing Good WHERE Clauses, Handling Missing Values and Scalar Functions
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 03: Result Sets, Variables, Control of Flow, CASE and Ranking Functions, Grouping, Summarizing and Retrieving Data
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 04: Combining and Limiting Result Sets, Subqueries, Common Table Expressions and Modifying Data
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 05: OUTPUT Clause, Full-Text Indexes, XML, Views, Functions, Stored Procedures and Advanced Query Techniques
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 06: Databases, Filegroups, Schemas, Database Snapshots and Basic SQL Server Data Types

IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 07: User-Defined Data Types, Tables, XML and Indexing Concepts
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 08: Indexes, Data Integrity, PK, Unique Constraints and Foreign Key Constraints
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 09: Triggers, XML Schemas, Views and Stored Procedures
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 10: User-Defined Functions, Handling Errors, Execution Context, Managed Code and Service Broker
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 11: Installation, Post Install Configuration, Databases, Filegroups and Schemas
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 12: Managing Databases, Disaster Recovery, Backup and Restoring
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 13: Snapshots, Security, Keys, Certificates and Monitoring
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 14: DDL Triggers, Event Notifications, Transferring Data, Jobs, Operators, Security and Alerts
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 15: High Availability, Database Mirroring and Replication
IT Databases - SQL Server 2005 Designing Infrastructure (70-443) 01: Capacity Planning, Hardware and Software, Storage, Multiple Instances, Consolidation and Security Requirements
IT Databases - SQL Server 2005 Designing Infrastructure (70-443) 02: Security, Normalization, Tables, File Groups, Indexes, Views, Naming Conventions and Change Control
IT Databases - SQL Server 2005 Designing Infrastructure (70-443) 03: High Availability, Clustering, Mirroring, Replication, Data Recovery, and Archiving Data
IT Databases - SQL Server 2005 Optimizing & Maintaining (70-444) 01: Automation, Scripts, Maintenance, SSIS, Replication and Reporting Services
IT Databases - SQL Server 2005 Optimizing & Maintaining (70-444) 02: Performance, Monitoring, Profiler and Best Practices
IT Databases - SQL Server 2005 Optimizing & Maintaining (70-444) 03: Optimization, DTA, Troubleshooting and Managing Concurrency
IT Databases - SQL Server 2005 Optimizing & Maintaining (70-444) 04: High Availability and Linked Servers
IT Databases - SQL Server 2008 Implementation & Maintenance (70-432) 01: Installation, Configuration, SQL Server Components, Database Mail and Full-Text Indexing
IT Databases - SQL Server 2008 Implementation & Maintenance (70-432) 02: SQL Agent Operators, Jobs and Alerts, Policy-Based Management, Security, SQL Logins and Triggers
IT Databases - SQL Server 2008 Implementation & Maintenance (70-432) 03: Auditing SQL Instances, Users and Roles, Schemas, Object Permissions, Transparent Data Encryption and Databases
IT Databases - SQL Server 2008 Implementation & Maintenance (70-432) 04: Backups, Restoring, Database Snapshots and Integrity
IT Databases - SQL Server 2008 Implementation & Maintenance (70-432) 05: Maintenance, Importing and Exporting Data, Partitioning, Data Compression and Indexes
IT Databases - SQL Server 2008 Implementation & Maintenance (70-432) 06: Index Options, Metadata, Fragmentation, XML Indexes, Error Logs and Concurrency Problems
IT Databases - SQL Server 2008 Implementation & Maintenance (70-432) 07: High Availability, Clustering, Log Shipping, Replication, Data Collection, Index Tuning, DMVs and MDW
IT Databases - SQL Server 2008 Optimizing & Maintaining (70-444) 01: Designing Database Solutions, Storage, Tempdb, Server Instances and Databases
IT Databases - SQL Server 2008 Optimizing & Maintaining (70-444) 02: FILESTREAM, Full-Text Indexes, Upgrade Planning, Consolidation, Authentication, Key Management and Securing
IT Databases - SQL Server 2008 Optimizing & Maintaining (70-444) 03: Permissions, Schemas, Application Roles, Ownership Chaining, CLR, Service Broker, PBM, Events and Data Encryption

IT Databases - SQL Server 2008 Optimizing & Maintaining (70-444) 04: Clustering, Log Shipping, Design Database Mirroring, High Availability and Replication
IT Databases - SQL Server 2008 Optimizing & Maintaining (70-444) 05: Database Recovery, Backups, Recovery Test Plans and OS Level Monitoring Solutions
IT Databases - SQL Server 2008 Optimizing & Maintaining (70-444) 06: Data Collection, Index Tuning, DMVs, DAC, Data Compression, Heap and Index Maintenance
IT Databases - SQL Server 2008 Optimizing & Maintaining (70-444) 07: Partitioning, Resource Governor, Management, Compression, Automation Strategies, SSIS, Linked Servers and Replication
IT Software Training - MS SharePoint 2007 (70-630) 01: Deployment, Installation, Initial Configuration Tasks and Central Administration
IT Software Training - MS SharePoint 2007 (70-630) 02: Sites, Users, Groups, Authentication, Records, Web Parts and Pages
IT Software Training - MS SharePoint 2007 (70-630) 03: Lists, Libraries, Search, Email and Excel Integration, Business Forms and Tools
IT Software Training - MS SharePoint 2007 (70-630) 04: Central Administration, Shared Services, Web Content Management and Backup
IT Software Training - MS SharePoint 2007 01: Sub Sites, Workspaces, Announcements, Calendar and Contacts
IT Software Training - MS SharePoint 2007 02: Issue Tracking, Tasks, Lists, Libraries, Excel and Access
IT Software Training - MS SharePoint 2007 03: Wikis, Blogs, Forms and Surveys
IT Software Training - Adobe Dreamweaver CS4 01: Navigation, Planning, Web Design 101, Tables, Text, & Images
IT Software Training - Adobe Dreamweaver CS4 02: Links, Productivity Tools, Templates, XHTML, Multimedia, & JavaScript
IT Software Training - Adobe Dreamweaver CS4 03: CSS, AP Elements, Forms, Site Publishing, & Site Collaboration
IT Software Training - Adobe Fireworks CS4 01: Navigation, Fills, Strokes, Text, Layers and Symbols
IT Software Training - Adobe Fireworks CS4 02: Bitmap Graphics, Prototypes, Optimization, Image Slicing and Exporting
IT Software Training - Adobe Illustrator CS4 01: Navigation, Preferences, Workspaces and Tools
IT Software Training - Adobe Illustrator CS4 02: Objects, Type, Color, Saving and Exporting
IT Software Training - Adobe InDesign CS4 01: Navigation, Applications, Workspaces, Layout and Objects
IT Software Training - Adobe InDesign CS4 02: Color, Spot Color, Type Basics, Styles and Graphics
IT Software Training - Adobe InDesign CS4 03: Libraries, Layers, Effects, Tables, Automation, Exporting and Printing
IT Servers - MCSA 2003 to Server 2008 (70-648) 01: Lightweight Directory Services, Rights Management Services, Read-Only Domain Controllers and Federation Services
IT Servers - MCSA 2003 to Server 2008 (70-648) 02: AD Maintenance, Monitoring Performance, Diagnostic Tools, Backup and Recovery
IT Servers - MCSA 2003 to Server 2008 (70-648) 03: Certificate Services, Administering CAs, Certificate Enrollment and Public Key Archival
IT Servers - MCSA 2003 to Server 2008 (70-648) 04: IPv4, IPv6, DHCP, IP Routing and IPsec
IT Servers - MCSA 2003 to Server 2008 (70-648) 05: Remote Network Access, NAP, Network Authentication, Wireless Access and Windows Firewall
IT Servers - MCSA 2003 to Server 2008 (70-648) 06: Windows Update, Performance Monitoring, Network Monitoring and Troubleshooting
IT Networking - Cisco CISSP 01: Telecommunications & Network Security
IT Networking - Cisco CISSP 02: Information Security Governance and Risk Management
IT Networking - Cisco CISSP 03: Software Development Security
IT Networking - Cisco CISSP 04: Cryptography
IT Networking - Cisco CISSP 05: Security Architecture and Design
IT Networking - Cisco CISSP 06: Operations Security
IT Networking - Cisco CISSP 07: Business Continuity and Disaster Recovery Planning

IT Networking - Cisco CISSP 08: Legal, Regulations, Investigations & Compliance
IT Networking - Cisco CISSP 09: Physical (Environmental) Security
IT Networking - Cisco CISSP 10: Access Control
IT Software Training - Adobe Flash CS4 01: Navigation, Drawing Tools, Painting Tools and Modifying Objects
IT Software Training - Adobe Flash CS4 02: Layers, Symbols, Animation, Photos, Timeline, Movie Clips, Shape Tweening and Bone Structure
IT Software Training - Adobe Flash CS4 03: Buttons, ActionScript, Video, Filters and Blend Modes
IT Software Training - Adobe Flash CS4 04: Interaction, Dynamically Load, Conditional Statements, Movie Clips, Calculations and Preloaders
IT Servers - ISA Server 2004 (70-350) 01: Installing, Deploying, Securing & Upgrading
IT Servers - ISA Server 2004 (70-350) 02: SecureNAT, Web Proxy Client, Firewall Client, & Troubleshooting Connectivity
IT Servers - ISA Server 2004 (70-350) 03: Network Rules, Web Chaining, Dial-Up, Firewall Policies, Filters & Intrusion Alerts
IT Servers - ISA Server 2004 (70-350) 04: Publishing, SSL, Mail Server Wizard, Web Caching, Remote Access & VPN Technology
IT Servers - ISA Server 2004 (70-350) 05: Monitoring, Logging, Reporting, Enterprise Edition, Load Balancing and CARP
IT Servers - MCSE 2003 to Server 2008 (70-649) 01: Lightweight Directory Services, Rights Management Services, Read-Only Domain Controllers and Federation Services
IT Servers - MCSE 2003 to Server 2008 (70-649) 02: IPv4, IPv6, DHCP, IP Routing and IPSec
IT Servers - MCSE 2003 to Server 2008 (70-649) 03: Windows Update, Performance Monitoring, Network Monitoring and Troubleshooting
IT Servers - MCSE 2003 to Server 2008 (70-649) 04: Deployment, Activation, Hyper-V, High Availability and Configuring Storage
IT Servers - MCSE 2003 to Server 2008 (70-649) 05: Terminal Services, Remote Desktop, Application Availability and TS Load Balancing
IT Servers - MCSE 2003 to Server 2008 (70-649) 06: IIS 7.0, Web Applications, File Transfer Protocol, Simple Mail Transfer Protocol and Web Server Security
IT Servers - Windows Server 2003 Active Directory (70-294) 01: AD Foundations, CIA Model, FSMO, Unique Names, Global Catalog, & Administrative Tools
IT Servers - Windows Server 2003 Active Directory (70-294) 02: DNS Concepts, DNS Zone Types, Installation Requirements, Installation Process, & AD Replica
IT Servers - Windows Server 2003 Active Directory (70-294) 03: Forest and Domain Levels, Trusts, Decommissioning, OU, Users, & Groups
IT Servers - Windows Server 2003 Active Directory (70-294) 04: UPN, Password Policies, Group Policy Objects
IT Servers - Windows Server 2003 Active Directory (70-294) 05: Security Settings, Highly Available DNS, FSMO Rules, & AD Implementation Plan
IT Servers - Windows Server 2003 Active Directory (70-294): An Overview
IT Servers - Windows Server 2003 Administration (70-299) 01: Security Structure, Web Authentication, Implementing Security, Trust Relationships, & Groups
IT Servers - Windows Server 2003 Administration (70-299) 02: Authorization, Managing ACLs, Permissions, Templates, & Policies
IT Servers - Windows Server 2003 Administration (70-299) 03: Client Security, Restricting and Distributing Software, Securing Servers, & Security Setting Analysis
IT Servers - Windows Server 2003 Administration (70-299) 04: PKI, Certificates, Backup, Restoration, Wireless Security, & Managing Updates and Patches
IT Servers - Windows Server 2003 Administration (70-299) 05: IPSec, SSL, & RRAS
IT Servers - Windows Server 2003 Designing (70-297) 01: AD, Domain Implication, Forest Design, DNS, Trusts, Migration, Schemas and Site Infrastructure
IT Servers - Windows Server 2003 Designing (70-297) 02: Site Design, Domain Controllers, GCs and FSMOs, Computer and User Accounts

IT Servers - Windows Server 2003 Designing (70-297) 03: Group Policy, GPO Management, Name Resolution, DNS and WINS Replication
IT Servers - Windows Server 2003 Designing (70-297) 04: Network Infrastructure, IP Addressing, DHCP Design, Change Management and Connectivity
IT Servers - Windows Server 2003 Designing (70-297) 05: Internet Infrastructure, Network Access Design, Remote Access and Wireless Access
IT Servers - Windows Server 2003 Implementation (70-291) 01: Network Infrastructure, TCP/IP, MAC, and IP Addresses, & DHCP
IT Servers - Windows Server 2003 Implementation (70-291) 02: IP Address Troubleshooting, DNS Servers, & Configuring Zones
IT Servers - Windows Server 2003 Implementation (70-291) 03: VPN, Remote Access Policies, IAS, & Troubleshooting Remote Access
IT Servers - Windows Server 2003 Implementation (70-291) 04: IP Routing Protocols, Demand-Dial Routing, VPN, NAT, & Troubleshooting Routing
IT Servers - Windows Server 2003 Implementation (70-291) 05: Security Templates, IPSec, Monitoring, & Troubleshooting Services
IT Servers - Windows Server 2003 Maintenance (70-293) 01: TCP/IP, Network Availability, Network Performance, Planning for Growth and DHCP
IT Servers - Windows Server 2003 Maintenance (70-293) 02: Internet Connectivity, NAT, Security, Clustering, Planning RRAS and Routing Types
IT Servers - Windows Server 2003 Maintenance (70-293) 03: RRAS Advanced Features, IP Troubleshooting, Secure Remote Access, RAS Authentication and IPsec
IT Servers - Windows Server 2003 Maintenance (70-293) 04: DNS, WINS, Security Design and Security Baseline
IT Servers - Windows Server 2003 Maintenance (70-293) 05: Perimeter Security, Securing Public Servers, CAs and Planning for Administration
IT Servers - Windows Server 2003 Networks (70-290) 01: Installation, Upgrading Windows 2000, Hardware Support, & Troubleshooting Hardware
IT Servers - Windows Server 2003 Networks (70-290) 02: Basic Dynamic Volumes, Fault Tolerant Volumes, Managing Volumes, & File Systems
IT Servers - Windows Server 2003 Networks (70-290) 03: Computer Accounts, User Accounts, Account Properties, User Profiles, & Groups
IT Servers - Windows Server 2003 Networks (70-290) 04: NTFS, Printers, Windows Licensing, & Software Update Services
IT Servers - Windows Server 2003 Networks (70-290) 05: Remote Administration, Monitoring Servers, Shadow Copies, Backup, & Disaster Recover
IT Servers - Windows Server 2003 Maintenance (70-293): Planning Network Infrastructure
IT Servers - Windows Server 2003 Security (70-298) 01: Security Policies and Framework, Technical Constraints, Design Principles, & Risk Management
IT Servers - Windows Server 2003 Security (70-298) 02: Network Management Procedures, SUS, Authentication, Files and Folders, Remote Access, & VPN Security
IT Servers - Windows Server 2003 Security (70-298) 03: Network Infrastructure, DNS, Perimeter Security, PKI, & IIS
IT Servers - Windows Server 2003 Security (70-298) 04: Server Baselines, Active Directory Security, Client Security, Wireless Essentials, & Wireless Security
IT Servers - Windows Server 2008 Active Directory (83-640) 01: Installing AD, Server Core, DNS and AD DNS Integration
IT Servers - Windows Server 2008 Active Directory (83-640) 02: Domain Name Resolution, AD and Global Catalog Server
IT Servers - Windows Server 2008 Active Directory (83-640) 03: AD Trusts, RODC, AD and Automation
IT Servers - Windows Server 2008 Active Directory (83-640) 04: Group Policy, Auditing, Account Policies and Virtualization
IT Servers - Windows Server 2008 Active Directory (83-640) 05: AD LDS, RMS, AD FS, Certificate Services, Administering CAs and Certificate Enrollment

IT Servers - Windows Server 2008 Active Directory (83-640) 06: Public Key Archival, Certification Revocation, AD Maintenance, Performance, Diagnostic Tools, Backup and Recovery
IT Servers - Windows Server 2008 Active Directory (70-640) 01: Basic AD and DNS Concepts
IT Servers - Windows Server 2008 Active Directory (70-640) 02: Advanced AD Concepts
IT Servers - Windows Server 2008 Active Directory (70-640) 03: Group Policy Concepts and Virtualization
IT Servers - Windows Server 2008 Active Directory (70-640) 04: AD Role Services
IT Servers - Windows Server 2008 Active Directory (70-640) 05: Public Key Infrastructure and Performance Monitoring
IT Servers - Windows Server 2008 Applications Infrastructure (70-643) 01: Deployment and Virtualization
IT Servers - Windows Server 2008 Applications Infrastructure (70-643) 02: High Availability, Storage Technologies and Terminal Services
IT Servers - Windows Server 2008 Applications Infrastructure (70-643) 03: Terminal Services and IIS
IT Servers - Windows Server 2008 Applications Infrastructure (70-643) 04: Windows Media Server and SharePoint Services
IT Servers - Windows Server 2008 Enterprise Administrator (70-647) 01: Basic Networking Concepts and Enterprise Administrator
IT Servers - Windows Server 2008 Enterprise Administrator (70-647) 02: Remote Access, NAP and Advanced Enterprise Administrator
IT Servers - Windows Server 2008 Enterprise Administrator (70-647) 03: Network Security and Public Key Infrastructure
IT Servers - Windows Server 2008 Enterprise Administrator (70-647) 04: Virtualization, Web and Terminal Services, and Remote Desktop
IT Servers - Windows Server 2008 Enterprise Administrator (70-647) 05: WSUS, User and Data File Management, and High Availability
IT Servers - Windows Server 2008 Network Infrastructure (70-642) 01: Basic Network Structuring
IT Servers - Windows Server 2008 Network Infrastructure (70-642) 02: Routing, Network Infrastructure Security, DNS and Remote Access
IT Servers - Windows Server 2008 Network Infrastructure (70-642) 03: NAP, Wireless Access and File Services
IT Servers - Windows Server 2008 Network Infrastructure (70-642) 04: Backup Services, Monitoring and Troubleshooting
IT Servers - Windows Server 2008 R2 01: Improvements in Active Directory & BranchCache
IT Servers - Windows Server 2008 R2 02: DirectAccess, NPS & DNS
IT Servers - Windows Server 2008 Server Administrator (70-646): An Overview
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 01: Relational Databases, Transact-SQL, SELECT Statements, Operators and Expressions
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 02: Filtering, Writing Good WHERE Clauses, Handling Missing Values and Scalar Functions
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 03: Result Sets, Variables, Control of Flow, CASE and Ranking Functions, Grouping, Summarizing and Retrieving Data
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 04: Combining and Limiting Result Sets, Subqueries, Common Table Expressions and Modifying Data
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 05: OUTPUT Clause, Full-Text Indexes, XML, Views, Functions, Stored Procedures and Advanced Query Techniques
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 06: Databases, Filegroups, Schemas, Database Snapshots and Basic SQL Server Data Types
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 07: User-Defined Data Types, Tables, XML and Indexing Concepts
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 08: Indexes, Data Integrity, PK, Unique Constraints and Foreign Key Constraints
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 09: Triggers, XML Schemas, Views and Stored Procedures

IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 10: User-Defined Functions, Handling Errors, Execution Context, Managed Code and Service Broker
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 11: Installation, Post Install Configuration, Databases, Filegroups and Schemas
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 12: Managing Databases, Disaster Recovery, Backup and Restoring
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 13: Snapshots, Security, Keys, Certificates and Monitoring
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 14: DDL Triggers, Event Notifications, Transferring Data, Jobs, Operators, Security and Alerts
IT Databases - SQL Server 2005 Implementation & Maintenance (70-431) 15: High Availability, Database Mirroring and Replication
IT Databases - SQL Server 2005 Designing Infrastructure (70-443) 01: Capacity Planning, Hardware and Software, Storage, Multiple Instances, Consolidation and Security Requirements
IT Databases - SQL Server 2005 Designing Infrastructure (70-443) 02: Security, Normalization, Tables, File Groups, Indexes, Views, Naming Conventions and Change Control
IT Databases - SQL Server 2005 Designing Infrastructure (70-443) 03: High Availability, Clustering, Mirroring, Replication, Data Recovery, and Archiving Data
IT Databases - SQL Server 2005 Optimizing & Maintaining (70-444) 01: Automation, Scripts, Maintenance, SSIS, Replication and Reporting Services
IT Databases - SQL Server 2005 Optimizing & Maintaining (70-444) 02: Performance, Monitoring, Profiler and Best Practices
IT Databases - SQL Server 2005 Optimizing & Maintaining (70-444) 03: Optimization, DTA, Troubleshooting and Managing Concurrency
IT Databases - SQL Server 2005 Optimizing & Maintaining (70-444) 04: High Availability and Linked Servers
IT Databases - SQL Server 2008 Implementation & Maintenance (70-432) 01: Installation, Configuration, SQL Server Components, Database Mail and Full-Text Indexing
IT Databases - SQL Server 2008 Implementation & Maintenance (70-432) 02: SQL Agent Operators, Jobs and Alerts, Policy-Based Management, Security, SQL Logins and Triggers
IT Databases - SQL Server 2008 Implementation & Maintenance (70-432) 03: Auditing SQL Instances, Users and Roles, Schemas, Object Permissions, Transparent Data Encryption and Databases
IT Databases - SQL Server 2008 Implementation & Maintenance (70-432) 04: Backups, Restoring, Database Snapshots and Integrity
IT Databases - SQL Server 2008 Implementation & Maintenance (70-432) 05: Maintenance, Importing and Exporting Data, Partitioning, Data Compression and Indexes
IT Databases - SQL Server 2008 Implementation & Maintenance (70-432) 06: Index Options, Metadata, Fragmentation, XML Indexes, Error Logs and Concurrency Problems
IT Databases - SQL Server 2008 Implementation & Maintenance (70-432) 07: High Availability, Clustering, Log Shipping, Replication, Data Collection, Index Tuning, DMVs and MDW
IT Databases - SQL Server 2008 Optimizing & Maintaining (70-444) 01: Designing Database Solutions, Storage, Tempdb, Server Instances and Databases
IT Databases - SQL Server 2008 Optimizing & Maintaining (70-444) 02: FILESTREAM, Full-Text Indexes, Upgrade Planning, Consolidation, Authentication, Key Management and Securing
IT Databases - SQL Server 2008 Optimizing & Maintaining (70-444) 03: Permissions, Schemas, Application Roles, Ownership Chaining, CLR, Service Broker, PBM, Events and Data Encryption
IT Databases - SQL Server 2008 Optimizing & Maintaining (70-444) 04: Clustering, Log Shipping, Design Database Mirroring, High Availability and Replication
IT Databases - SQL Server 2008 Optimizing & Maintaining (70-444) 05: Database Recovery, Backups, Recovery Test Plans and OS Level Monitoring Solutions
IT Databases - SQL Server 2008 Optimizing & Maintaining (70-444) 06: Data Collection, Index Tuning, DMVs, DAC, Data Compression, Heap and Index Maintenance

IT Databases - SQL Server 2008 Optimizing & Maintaining (70-444) 07: Partitioning, Resource Governor, Management, Compression, Automation Strategies, SSIS, Linked Servers and Replication
IT Software Training - MS SharePoint 2007 (70-630) 01: Deployment, Installation, Initial Configuration Tasks and Central Administration
IT Software Training - MS SharePoint 2007 (70-630) 02: Sites, Users, Groups, Authentication, Records, Web Parts and Pages
IT Software Training - MS SharePoint 2007 (70-630) 03: Lists, Libraries, Search, Email and Excel Integration, Business Forms and Tools
IT Software Training - MS SharePoint 2007 (70-630) 04: Central Administration, Shared Services, Web Content Management and Backup
IT Software Training - MS SharePoint 2007 01: Sub Sites, Workspaces, Announcements, Calendar and Contacts
IT Software Training - MS SharePoint 2007 02: Issue Tracking, Tasks, Lists, Libraries, Excel and Access
IT Software Training - MS SharePoint 2007 03: Wikis, Blogs, Forms and Surveys
IT Software Training - Adobe Dreamweaver CS4 01: Navigation, Planning, Web Design 101, Tables, Text, & Images
IT Software Training - Adobe Dreamweaver CS4 02: Links, Productivity Tools, Templates, XHTML, Multimedia, & JavaScript
IT Software Training - Adobe Dreamweaver CS4 03: CSS, AP Elements, Forms, Site Publishing, & Site Collaboration
IT Software Training - Adobe Fireworks CS4 01: Navigation, Fills, Strokes, Text, Layers and Symbols
IT Software Training - Adobe Fireworks CS4 02: Bitmap Graphics, Prototypes, Optimization, Image Slicing and Exporting
IT Software Training - Adobe Illustrator CS4 01: Navigation, Preferences, Workspaces and Tools
IT Software Training - Adobe Illustrator CS4 02: Objects, Type, Color, Saving and Exporting
IT Software Training - Adobe InDesign CS4 01: Navigation, Applications, Workspaces, Layout and Objects
IT Software Training - Adobe InDesign CS4 02: Color, Spot Color, Type Basics, Styles and Graphics
IT Software Training - Adobe InDesign CS4 03: Libraries, Layers, Effects, Tables, Automation, Exporting and Printing
IT Servers - MCSA 2003 to Server 2008 (70-648) 01: Lightweight Directory Services, Rights Management Services, Read-Only Domain Controllers and Federation Services
IT Servers - MCSA 2003 to Server 2008 (70-648) 02: AD Maintenance, Monitoring Performance, Diagnostic Tools, Backup and Recovery
IT Servers - MCSA 2003 to Server 2008 (70-648) 03: Certificate Services, Administering CAs, Certificate Enrollment and Public Key Archival
IT Servers - MCSA 2003 to Server 2008 (70-648) 04: IPv4, IPv6, DHCP, IP Routing and IPsec
IT Servers - MCSA 2003 to Server 2008 (70-648) 05: Remote Network Access, NAP, Network Authentication, Wireless Access and Windows Firewall
IT Servers - MCSA 2003 to Server 2008 (70-648) 06: Windows Update, Performance Monitoring, Network Monitoring and Troubleshooting
