Gym candy book essay recommendation

courtesy of Good Reads Realistic Fantasy/313 pages/2007 Gym Candy by Carl Deuker was an amazing book to read. It was an emotional roller coaster from start to finish. The main character was very dynamic. That made the book even more interesting. I recommend you read this book. The main character, Mick Johnson, loves to play football. He's been training and playing football since he was a kid. His father was also a great football player. He made it to the NFL. Mick takes care of his father. Once, he was up against foothill high school. They were fighting for a spot in the playoffs. Mick played really well until the end of the game. It was the last play, and it was one-on-one with a quarterback. He was stopped at the one-yard line. At that moment it makes him very sad. Because of this moment, he went down a bad path. This amazing book had almost everything. He had drama, sports, suspense and action. The only thing missing from the book was humor. In my personal opinion, this book 4.5 stars, because it had almost everything. Book Reflection Club: Our book club team was excellent. It was a very good environment. Everyone contributed to the debate and no one judged anyone else. I liked how we all came to the meeting prepared. I think the form we made the book club was amazing. There was nothing to change. I'd like to meet in every other class. I think the way the students were held accountable was good. We have to keep the blogs. Overall, I liked the way we made the book club team this time. Everyone contributed to the debate and no one judged anyone else. I liked how we all came to the meeting prepared. I think the form we made the book club was amazing. Amazing, Gym Candy has gotten off to a great start and I recommend u start reading this book as fast as you can. He's a boy who likes football, but his life turns upside down. My team just finished Carl Duker's book Gym Candy. The book ended in a unique way that I personally didn't like. Mick started using XTR to do better in his games. Drew, his best friend, was suspicious of him. He saw his bag in the bathroom and asked Mick if anything was wrong. Mick answered awkwardly and Drew still had his curiosity. Later that game, Drew got injured and went to the locker room early. Looked inside micks duffle bag and saw the XTR. He took it home with him, and later, he called Mick. She told him to meet him to face him. Mick brought a gun. Mick was going to kill himself, but his hand was shaking and he shot himself in the wrong place. He went to rehab to get better. We had a great conversation about the book and we were very productive. I had two discussion questions that generated a lot of discussion. My first was if the author were to continue writing this book, what do you think would happen next? This question generated most of the discussion from my two questions. One of my group members disagreed with the others. He said Mick's going to get better and start playing football again. We said it would take a long time to get back into football and probably stop for a long time. The other question was why didn't Drew give the bag to the coach? This question was also a good one; However, it wasn't as good as my other one. We all agreed that he thought Mick was his best friend and wanted to do it personally. This book club discussion was very productive and although I didn't like the ending, I liked the book as a whole. Our team discussed section 2 of the book Gym Candy by Carl Deuker. Mick, the main character, begins to lift the weights seriously. He goes to the gym, Popeyes, and drinks protein powder. He invests \$150 a month in protein powder he can't afford. He works for his father and starts painting his house to pay the cost. One of the best questions we talked about was what do you think Mick's going to ask next? That brought a lot of talk. We all thought of different things. there are many different directions. I thought he could continue to do drugs just because he's so determined to do well in football. Some of the other members of my book club thought they would realize his mistake and stop his addiction. Other Other The question I asked was why do you think Mick turned to drugs, even though he disapproved of it before? We have all come to the same conclusion; However, it took us some thought to understand. We, as a team, found the reason he thought the other team was on drugs, so he thought it was okay for him to do it. I was surprised by the different views I and my other members had. I thought we would have the same thought process for all the questions; however, this did not happen. I've always found myself arguing with the members of my book club. I learned that people can think of things in a very different way. During the conversation, I wondered about what would happen next in the book. I've always seen myself trying to open the book so I can read. I think the real debate went extremely well. We were all so intrigued by the book, and we all wanted to talk about it. We also did a lot of things badly. We kept interrupting each other. We were all so eager to get our opinions out. Welcome to your brand new blog at Loudoun County Public Schools Blogs Sites. Look, Mick, he said, you're going to find out from someone at the gym, so you. You. also learn from me. Those supplements you're taking? They might make you a little bigger, but a little. If you're after serious results, there are other things that produce better results much faster, things that many guys use in the gym. What other things? You know what I'm talking about- gym candy. Runningback Mick Johnson has dreams: dreams of cutting back, finding the hole, breaking into the open, and running free with nothing but green grass in front. He dreams of winning and being the best. But football is a tough sport. It requires strength, grace, speed, speed and knowledge of the game. It takes luck. A crazy bounce can turn a potential victory into a sudden defeat. What elite athlete wouldn't look for an advantage? A way to make it bigger, stronger, faster? This novel explores the dark corners of a young football player's heart as he strives for success under everything blatant -and often unforgivable-stadium lights. Reviewed by: Deuker, Carl Candy Gym. Houghton, 2007 [320p] ISBN 978-0-618-77713-6\$16.00 Revised by Kitchens R Gr. 7-10 Mick Johnson is a promising running back, and his father, a third-round draft pick who was handing his way out of an NFL career, has relentlessly promoted him ever since he could hold a ball. Now a high school varsity player in his first year (he was restrained in kindergarten so he would be a year older and older than his classmates), Mick sees or imagines the competition around every corner, and he's always on the lookout for a way to give himself an advantage. First, are protein drinks and vitamins combined with arduous workouts in the school gym? from there is a better gym with a personal trainer, who introduces him to low doses of steroids. Embarrassed by the side effects of swollen breasts and skin breakouts, Mick gives the pills a rest, but once he feels himself losing speed and stamina, he's up to stacks and eventually injections. Yes, it's the best thing Slsholt High Has ever seen, but he's also trapped in a cycle of self-deception and rage that drives him to the brink of tragedy. Although readers may see Mick's destruction coming from a mile away, those familiar with Deuker's work will know that nothing is as predictable as it seems. I'm sure Coach will catch him. No, Washington state doesn't allow high school players to control drugs. Surely Mick will turn his father's hidden pistol on [End Page 16] a competitor into a moment of rage. No, the gun's going to play very different. His mother's Bible must be the key to his reform. No, in an evil dark twist, The Good Book is as unreliable a narrator as Mick himself. Deuker continues his run as the lead author of ya's provocative sports novels, and what could be better than kicking off the 2007 football season with this riveting title?
