On a cold windy day my
brother Gene and ~~I~~ went on
a journey. We went up and
down mountains, through
swamps, and through
sand storms in the desert.
While we were walking
on the mountains we
saw a big hole filled
with water and food.

In the swamps we found
rubber on the top of the water,
and in the desert we
found blue, red, purple, and
skin color paint. Once
we got to Africa we forme
d the rubber into little

Men with big muscles.
We painted them with
the pink paint, Then we

decided to make mus-
cle men Part 2. We
Painted them pink blue
Purple and red,
And that is how we
discovered Muscle men
part I and part II.
