GROUT-IN-PLACE-PIPE

Company	Product	Diameter Range (in)
Danby	Panel Lok	36+
National Liner	3 - S	36+
Sekisui SPR Americas	SPR	32 - 217

SPRAYED-IN-PLACE-PIPE

Company	Product	Pipe Diameter (In.)	Type Pipe	Insitu/ New Pipe
3M	Scotchkote 269	4-12	water	insitu
AP/M	Permacast PL-8000	30-120	metal, concrete, clay, brick culverts, sewer pipe	insitu
Permaform	(centrifugally- cast-concrete)			
IPR	Eco-Cast	36-120	culverts, storm drains, DOT	
Quadex LLC	Quadex Lining System	30+	CMP, concrete, brick, stone	fully structural pipe- in-pipe
Sprayroq	SprayWall	36+	concrete, metal, culverts, storm drains, DOT, clay, brick, sewer, stormwater	
The Strong Co.	Storm Seal	18-120	metal, concrete, clay, brick	insitu
Warren Environmental			metal, concrete	

SPIRAL WOUND PIPE

Company	Product	Diameter Range (in)
Contech	SPR PE	30-118
Engineered Solutions		
Danby	Panel Lok	36+
Sekisui SPR Americas	SPR EX	8 - 42
	SPR TF	36 - 80
	SPR	32 - 217

UV-LIGHT CURED-IN-PLACE-PIPE

Company	Product	Diameter Range (in)
C.I.P.P. Corp.	BKP Berolina	up to 36
Layne Inliner	Inliner STX	6-48
Reline America	Alphaliner	6-60

FOLDED PIPE

Company	Product	Pipe Type	Diameter Range (in)	Pre-Heating
American Pipe & Plastics	AM-LINER [®]	PVC	6-12	Yes
Insituform	InsituGuard	HDPE	4-48	No
IPEX USA LLC	Liner	PVC	6-30	Yes
Miller Pipeline	EX Method	PVC	6-12	Yes

SLIPLINING

Company	Model	Diameter (in)	Pipe Material	Available Lengths
Advanced Drainage Systems (ADS)	N-12 HDPE	4-60	high density polyethylene	13', 20'
	SaniTite HP	12-60	polypropylene	13', 20'
	HP Storm	12-60	polyethylene	13', 20'
Contech Engineered Solutions	A2 Liner	12-36	PVC resin (12454)	12.5', 14', 22'
	DuroMaxx	30-120	steel reinforced polyethylene;	14', 24'
	ULTRA FLO	18-102	aluminized steel type 2, aluminum	10'-48'
	CMP	6-144	polymer pre-coated	10'-48'
	ALSP	5'-40'	aluminum structural slate	4.5' plate lengths
	Tunnel Liner Plate	4'-15'	steel or aluminum	18" plate lengths
	Other	8'-102'	other plate & bridge products	
HOBAS Pipe USA	CCFRPM	18-126	centrifugally cast, fiberglass-reinforced polymer mortar	20' standard, shorter available
ISCO	Snap-Tite	6-63	HDPE	2'-50'
Underground Solutions Inc.	Fusible PVC Pipe	4-36	PVC	20', 30', 40'
United Pipeline Systems	Tite Liner	4-54+	HDPE	1,000'
US Composite Pipe South	Flowtite	4-156	filament wound fiberglass-reinforced plastic mortar	10'-40'

GROUT

Company	Product	Viscosity	Application
Avanti Intl.	AV-100 Chemical Grout	1-2 cP in solution	Sewer joint sealing, service lateral connections, soil stabilization, hazardous waste containment, controls groundwater in mines, tunnels & subways.
	AV-202* Multigrout	3200-6000 cP in solution	Seals leaks in large cracks or joints in concrete, dams, structures, manholes & pipe penetrations.
	Ultrafine*	water/cement ratio of 0.6/1 by weight	Pumice-based cement increases compressive strength of soils, soil stabilization, forms low-permeability grout curtains, seal seeping mines, dams & tunnels.
	AV-118 Duriflex	1-2 cP in solution	Sewer joint sealing, service lateral connections, soil stabilization, hazardous waste containment, controls groundwater in mines, tunnels & subways.
	AV-160 SuperGel	1-2 cP in solution	Sewer joint sealing, service lateral connections, soil stabilization, controls groundwater in mines, tunnels & subways.
	AV-248-LV *Flexseal LV	150-250 cP	Flexible hydrophobic withstands wet/dry cycles, seals leaks in fine to medium moving cracks and joints in concrete structures.
	AV-248 Flexseal	550-830 cP	Flexible hydrophobic withstands wet/dry cycles, seals leaks in medium to large moving cracks & joints in concrete structures.
	AV-275* SoilGrout	100-120 cP	Fills voids outside a structure or joints & cracks in concrete structures, soil stabilizer.
	AV-315* MicroFoam	50-200 cP	Seals leaks in fine cracks or joints in concrete retaining walls, parking structures, tunnels & mines.
	AV-330* Safeguard	350-750 cP	Seals leaks in medium to fine cracks or joints in subways and tunnels, tie-backs & slurry walls, manhole & pipe penetrations.
	AV-333* Injectaflex	350-750 cP	Seals leaks in medium to fine cracks or joints in concrete structures, subways, manholes, pipe penetrations.
	AV-350 Multigel	275-450 cP	Soil stabilization around manholes, pipe joints, service laterals, tunnels, dams.
* Certified for use with potable water			
Prime Resins	Prime Flex 900 XLV*	250-350 cps	Sealing leaks in extremely tight hairline cracks.
	Prime Flex 900 MV	650-700 cps	Sealing active leaks in concrete (cold joints, cracks, failed water stop). Tough and flexible. No catalyst or accelerator needed.
	Prime Flex 910	35-50 cps	Soil stabilization; curtain wall grouting; sea wall leak sealing. Hydrophobic, forms watertight, rock hard mass.
	Prime Flex 920*	120 cps	Soil stabilization, permeation grouting, void filling, gushing leak sealing, below-grade curtain grouting. Hydrophobic.
	Prime Flex 940*	450-600 csp	Sealing active leaks in joints and cracks. Hydrophobic flexible foam.
	Hydro Gel SX*	440-550 cps (20 cps at 8:1)	Sealing leaks; point repair grouting. Hydrophilic; for wet, below-grade environments such as manholes.
	Prime Flex 985 (LX20*)	270-280 cps	Rigid polyurethane foam. Fills voids in/around structures; fills abandoned underground storage tanks and pipes.
	AR 800*	1-15 cps in solution	Soil stabilization, sealing joints and leaks in potable water pipes and waste water pipes. Hydrophilic, acrylate (acrylamide-free), elastomeric gel, primarily for geotech uses. Wide window of variable set time-field adjustable. Excellent penetration in sandy/silty soils. For void fill when expansive pressure is not desired.

Prime Resins	AR 870	2-7 cps in solution	Sealing leaks in concrete; sealing wastewater lateral joints and leaks; controlling water in tunneling ops, elevator pits, below-grade structures.
	Precision Lift 4.0/4.75	270-280 cps	Compaction grouting, slab lifting. Hydro insensitive, polyurethane structural foam.
	Rock Grout 9200	190-200 cps	Soil stabilization, compaction grouting. Fast-reacting. Creates dense, hard fill material required for anchoring and binding aggregate.
	Prime Permeation Grout	35-50 cps	Soil stabilization, curtain wall grouting, sea wall leak sealing. Hydrophobic.
	VF 3.5	270-280 cps	Soil stabilization, void filling, slab lifting. Hydro insensitive.
*Independently tested and verified to meet NSF/ANSI Standard 61 for contact with potable water.			
Sealing Systems	Aqua Seal	440 cps "B" side 200 cps "A"	Aqua Seal is an extremely reactive two side component hydrophobic polyurethane water stop system that can be injected into flowing water.

GROUTING EQUIPMENT

Test & Seal Packers

Company	Model	Pipe Diameter (in)	Type
Logiball	2001 J Series	6-21	round pipe (vcp, acp, concrete, pvc)
	CMP Series	4-144	round pipe collapsible
	Elliptical series	(14 x 23+)	mainline test & seal packers
	Box Culvert series	up to 120	test & seal grouting packers for elliptical concrete pipe
	Flexible Push/Pull	4-10	custom made packers for box culverts
CUES	Low Void	6-18	flexible packers w/3-5ft grouting span
	Collapsible	24-96	round

Test & Seal Lateral Packers

Company	Model	Mainline Pipe Diameter	Lateral Diameter
Logiball	2001L series	6"-30"	4"-6"; 30'
CUES	Logiball	6"-30"	3"-8"

INTERNAL JOINT SEALS

Company	Product	Seal Application Size (in)	Seal Operating Pressures (psi)
Cretex Specialty Products	Internal Manhole	20-48	
	Chimney Seal	24-48	
	Internal Pipe Joint Seal	32-120	
	External Manhole Joint Seal	18-218	300 psi internal 150 psi external
LMK Technologies	CIPMH	up to 36	
	Miller Pipeline	18-216	150 psi external 300 psi internal

MANHOLES

Company	Coating	Inserts	Liners	Inverts
AP/M Permaform	Yes	Yes
No-Dig manhole solutions since 1975 provided through world-wide network of highly trained applicators; PERMAFORM, PERMACAST, CON SM SHIELD and COR+GARD offer the "hole" solution.				
Containment Solutions	No	Yes
Non-corrosive fiberglass manhole rehab liners slide into existing manholes to save time and money. Manhole bases with adhesive channels also available.				
Cretex Specialty Products	Yes	No
Leading manufacturer of mechanical internal and external manhole frame-chimney seals, internal joint seals, PRO-RING, external joint wraps, lid plugs, gaskets, inflow dishes and more.				
Danby	No	Yes
Cast-in-place new and rehab manholes using corrosion-resistant PVC liner with cementitious grout for storm and wastewater structures for over 28 years.				
HOBAS Pipe USA	No	Yes
Segmental sections are utilized to rehabilitate manhole shafts. The corrosion resistance and high strength composite make liner insertion quick and easy. Manhole T-base systems are available.				

MANHOLES (continued)

Company	Coating	Inserts	Liners	Inverts
Infrastructure Repair Systems.....	Yes.....	No.....	No.....	No.....
<i>Infragard, a durable topcoat and Chim Coat; a flexible mastic, trowel-on 100% solid epoxy rehab material.</i>				
Linabond.....	No.....	No.....	Yes.....	No.....
LMK Technologies.....	No.....	No.....	Yes.....	No.....
<i>A stretchable, one-size fits most CIPP lining is designed to structurally renew manholes while eliminating inflow at its source. CIPMH can be installed as a chimney seal or full-depth manhole lining.</i>				
Miller Pipeline.....	No.....	Yes.....	No.....	No.....
Perma-Liner.....	No.....	No.....	Yes.....	No.....
Press-Seal Gasket.....	No.....	Yes.....	Yes.....	No.....
Quadex LLC (member of the Vortex family).....	Yes.....	No.....	Yes.....	No.....
<i>Since 1991, Quadex has been manufacturing and delivering the highest-quality geopolymer, hybrid cements and patching materials for the manhole/sewer infrastructure rehab market.</i>				
Raven Lining Systems.....	Yes.....	No.....	Yes.....	No.....
<i>Raven Lining Systems offers products that are solvent free 100% solids, ultra high-build epoxy coating for new and rehabilitated water/wastewater infrastructures.</i>				
Reliner/Duran.....	No.....	No.....	No.....	Yes.....
Sealing Systems.....	Yes.....	No.....	No.....	No.....
<i>Sealing Systems manufactures a variety of manhole rehab products: manhole inserts, coatings (external and internal) and chemical grout.</i>				
Sauereisen.....	Yes.....	No.....	No.....	No.....
<i>Sauereisen manufactures an array of cements, calcium aluminate, 100% solids epoxies, urethanes and polyurethane grouts for stopping water inflow and preventing corrosion in wastewater manholes.</i>				
SpectraShield Liner Systems.....	Yes.....	No.....	No.....	No.....
<i>Systematic layering of polymer resins stops infiltration, prevents corrosion, and has a 10-year warranty.</i>				
Sprayroq Inc.....	Yes.....	No.....	Yes.....	Yes.....
<i>Structural polyurethane that is self-priming, and provides infiltration control and fast return to service.</i>				
Standard Cement Materials.....	Yes.....	No.....	Yes.....	Yes.....
<i>Standard Cement Materials manufactures and installs cementitious liners and epoxy coatings in manholes, lift stations and wet wells as a certified MBE.</i>				
The Strong Company.....	Yes.....	No.....	No.....	No.....
<i>Manhole rehab solution since 1989. The fast, cost-effective solution for stopping infiltration, restoring structural integrity and protecting against corrosion.</i>				
Terre Hill Composites.....	No.....	No.....	Yes.....	No.....
Warren Environmental.....	Yes.....	No.....	No.....	No.....
<i>Warren Environmental is a blender of specialty non toxic epoxy systems for the lining and rehabilitation of manholes, pipes and other potable and wastewater structures.</i>

PIPE REAMING

Company	Description
Nowak Pipe Reaming	Replace existing non-metallic pipe with HDPE or restrained joint PVC, non-disruptively, with up to double diameter size increases in any soil condition, rock, and non-reinforced concrete encasement included, using an appropriately sized directional drill.
