**EMT STUDENT
HIPAA AWARENESS TRAINING,
CONFIDENTIALITY AGREEMENT**

HIPAA Awareness Training

- HIPAA stands for the “Health Insurance Portability and Accountability Act.” As of April 2003, this Act established legal protections for the Protected Health Information (“PHI”) of patients. As a “covered entity” under HIPAA, one of our many responsibilities is to provide the required awareness training for employees and others who may come into contact with a patient’s medical information.
- Please note that the definition of Protected Health Information (“PHI”) includes patient information whether it exists in (1) spoken, (2) written, or (3) electronic form (such as on a computer screen). PHI can be as simple as a patient’s name, and the fact that he or she is a patient.
- Family, friends, acquaintances, co-workers, and the like deserve the right to privacy just like any other patient. You should not use or share patient information for curiosity or personal reasons.
- What should I do if I accidentally see or hear a patient’s PHI? Simply keep that information to yourself. You should be aware that the law contains fines and penalties for inappropriate disclosures by persons who are deemed to be a “covered entity.”

Confidentiality Agreement

As an EMT Student at Memorial Hospital, I have read and understand the above “HIPAA Awareness Training.” I recognize the extreme importance of confidentiality with respect to the Protected Health Information (“PHI”) of patients, as well as to Memorial Hospital operations. I acknowledge that I will adhere to the provisions of the Health Insurance Portability and Accountability Act (HIPAA) and any other federal or state laws regarding confidentiality. I understand that for those persons who are “covered entities,” violations of confidentiality may result in legal action pursuant to HIPAA and other applicable state and federal laws.

All patient information (including personal, financial, and health information), as well as all information regarding Memorial Hospital operations, whether business, financial, or legal, is confidential. Any inappropriate viewing, discussion, or disclosure of this information, even to friends or family, may constitute a violation of state and federal law, and of Memorial Hospital policy. This information is privileged and confidential regardless of format: electronic, paper, overheard, or observed.
