The Husky Athletic Fund allows UConn to provide an elite level academic and athletic experience for over 650 student-athletes. The goal of the UConn Athletics Department is to produce exemplary student-athletes who succeed in all facets of life and make us proud to “bleed blue.” Recently, we have made critical steps towards the funding and building of a new sports complex which will house our baseball, softball, and soccer teams. This facility will provide another world class complex to our beloved campus, allowing our student-athletes to continue their pursuit of excellence. This past academic year, UConn set the standard in the American Athletic Conference by having 276 student-athletes selected to the Conference All-Academic Team. Every contribution to this effort makes a profound impact on the lives of our student-athletes, both in the classroom and during competition. Operating a 24-sport program is an effort that would be impossible without The Husky Athletic Fund.
