Backyard Art Collage

Activity Supplies
- Paper/Cardstock
- White Glue
- Collected Plant Parts

Helpful Tips
- When collecting plant parts for your collage, make sure you only collect what you plan to use and try not to take too much from one plant.
- Make sure to ask permission before taking any plant parts from neighbors’ plants.
- Since this is “living art,” your collage will wilt. Once you finish, take a photo or draw a picture of your creation to make it last longer.

Activity Steps

1. Take a moment to brainstorm what kind of bug collage you would like to create. Try to plan for some of the materials you might want to collect. Need some inspiration? Check out the collages created by artist Raku Inoue pictured below.

2. Once you have all your materials, it’s time to create! Arrange your materials and use glue to secure them in place.
