- Full spectrum of superfood extracts
- Digestive enzymes to support gut health
- Gluten-free

BIOTRANSFORMED NUTRIENTS

The fermentation of friendly micro-organisms transforms vitamins and minerals into highly complex foods in which the nutrients (as in all fermented foods) are bound together into a matrix containing lipids, proteins, beta glucans and a wide variety of phytonutrients that are beneficial to the body.

For Evolv Daily, this blend of nutrients is combined with probiotics, digestive enzymes, superfood extracts, and the proprietary immune support of Evolv Immūn to provide the most advanced, all-in-one “gut healthy” supplement available to support optimal health and performance.
