

## ENERGY WITHOUT ADRENAL FATIGUE

Adenosine Triphosphate (ATP) is called the “unit of currency” for energy transfer between cells.

- ElevATP® supports the body in boosting “clean energy” at the cellular level (see back page for details)
- Green Tea Extract for superior antioxidant support
- Contains Evolv Immun™ (Acemannan Aloe vera extract)
- Provides electrolyte replenishment
- Natural lemonade flavor
- No artificial dyes, flavors or sweeteners
- Only 15 calories per serving

Most energy drinks create “dirty energy” by overstimulating your adrenal glands, spiking your blood sugar, and/or building up lactic acid and free radical damage (oxidative stress). This dirty energy can result in adrenal fatigue. Evolv Fuel lets you enjoy clean energy without artificial stimulants:

### REAL PEOPLE, REAL RESULTS

“I have two young kids, and I think Evolv Fuel is one of the main reasons I can keep up with them all day!”

Michele O., MN

### ACEMANNAN'S SYNERGISTIC IMPACT

While the active ingredients in Evolv Fuel have their own validated health benefits, it is the synergistic effect of combining them with Evolv Immūn (our proprietary Acemannan Aloe vera extract) that helps achieve such phenomenal “2 + 2 = 8” results.

## ADDITIONAL INFORMATION

Adenosine Triphosphate (ATP) is referred to as the “energy currency” between cells. ElevATP™ is a proprietary ingredient from natural sources that was shown in a study to increase blood ATP levels as much as 64% with no increase in lactic acid or free radicals (oxidative stress).

ElevATP® is the winner of the 2018 Sports Nutrition Ingredient of the Year.

In 2005, it was discovered that only specifically-sized fractions of Acemannan (the bioactive super-molecule found in Aloe vera inner leaf gel) were small enough to be absorbed directly into the blood stream. Slightly larger fractions actually facilitated the plant’s amazing immunomodulatory (immune balancing) effect.

Evolv Immūn contains a proprietary concentration of these immune balancing Acemannan fractions, offering powerful integrative and synergistic health support.
