How do I use it?

Mix one sachet of Matcha with 8-10 ounces of water

Shake or stir vigorously until dissolved

Serve with ice if desired

How does it work?

Ceremonial-grade Chi-Oka Matcha delivers results

Because the tea is delivered in a form of powder, not steeped, the plant is actually being eaten. You are consuming 100% of all nutrient content.

Cleanse and Restore

The abundance of chlorophyll in Matcha, providing its jade green color, delivers antioxidants, to carry oxygen to your cells and support your immune system.*

Boost Metabolism

Contains high amounts of catechins, including EGCG and Resveratrol, a class of polyphenols that support your cells while contributing to a healthy metabolism.*

Reduce Fatigue

Naturally occurring caffeine and theophylline in Matcha stimulates wakefulness and supports long lasting mental clarity and energy, making it a healthier alternative to typical energy drinks and coffee.*

Calms the Mind

Derived from Camellia Sinesis, one of the few plants naturally producing high levels of L-theanine, which has been shown to have a calming effect on the brain waves without causing drowsiness.*

Supports Weight Loss Goals

The low glycemic index, 2 grams of hunger-calming dietary fiber, along with the mere 20 calories per serving can support you in your weight loss goals.*
