

# UNICITY UNIMATE

Elevate Today. With a nutrient-rich bioactive ingredient blend, Unimate offers a daily source of peace, productivity, and happiness.

## Why would I want to use it?

- 🧠 Supports healthy cognitive function and a good mood\*
- 🧠 Helps to maintain endurance and stamina\*
- 🧠 Slows down the body's absorption of fat and enhance metabolism\*
- 🧠 Promotes healthy digestion\*
- 🧠 Contains highest quality Yerba Mate extract, purified in Switzerland to improve efficacy
- 🧠 Great source of chlorogenic acids, matesaponins, antioxidants, vitamins, and minerals

*\*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.*

## How do I use it?

Mix one sachet of Unimate with 8-10 ounces of water

Shake or stir vigorously until dissolved

Drink hot or cold

Try with lemon, cinnamon, or coconut oil

Take one packet daily

## How does it work?

### To support healthy cognitive function and a good mood

Chlorogenic acids and the other secondary metabolites regulate gene expression in the brain and have a lid-lifting, perception changing effect on the human brain. Unimate alters our perception so we can see what truly is possible.

The genes involved in pro-inflammatory processes of the brain due to stress, exercise, and other external factors are down-regulated to healthy levels by the ingredients in Unimate. As a result, the brain starts firing on all cylinders and delivers the proper signals the brain needs to help it survive and thrive.

Unimate contains chlorogenic acid, an ingredient that is also found in drinks like coffee and green tea. Chlorogenic acid affects your sense of well-being, which may be one reason why people feel better after their cup of coffee or green tea.

Because of the unique concentrating and purifying process Unimate goes through, it contains much more chlorogenic acids than other sources; 100 times more chlorogenic acid than a cup of green tea, 60 times more chlorogenic acids than a cup of coffee, and 375 times more chlorogenic acids than yerba mate powder!

### To help maintain endurance and stamina

Unimate also contains theobromine, which naturally occurs in chocolate. Theobromine is said to work as a stimulant, but its relatively mild effects mean you'll get the boost without the crash. Rather than a quick burst of energy, Unimate delivers hours of sustained endurance.

Dark chocolate contains around three times more theobromine than milk chocolate. Unimate, however, contains three times the theobromine found in dark chocolate!

## NUTRITION FACTS

### Supplement Facts

Serving Size 1 packet (4.45 g)  
Servings Per Container 21 packets

Amount Per Serving	% DV
--------------------	------

UniMate 3 g (Green Mate Leaf Extract) Powder	†
---	---

† Percent Daily Value not established.

**OTHER INGREDIENTS:** Natural Flavors, Citric Acid, and Stevia Extract.

### UNIMATE™

Our Proprietary Yerba Mate extract contains 10 times more beneficial chlorogenic acid than a cup of coffee. Also contains helpful and naturally-occurring levels of theobromine, caffeine, and triterpene saponins.
