DISARMAMENT COMMISSION

Note by the Secretariat

The report of the Independent Commission on Disarmament and Security Issues reproduced in document A/CN.10/38 bears the title "Common Security - a blueprint for survival". It should be noted, however, that the title of the original report published by the Independent Commission on Disarmament and Security Issues was "Common Security - a programme for disarmament". The correct title (that of the original report) will henceforth be used in relevant documents when referring to document A/CN.10/38.
