LIMITATION OF ARMAMENTS AND DESTRUCTION OF
STOCKS OF ATOMIC WEAPONS

Union of Soviet Socialist Republics: draft resolution

The Security Council (General Assembly),

Recognizes that the cessation of the armaments race would
contribute to the relaxation of tension in international relations
and the strengthening of world peace, and also to the reduction of
the tax burden which that race imposes on the peoples;

Further recognizes that in order to save mankind from the threat
of an annihilating atomic war, immediate steps must be taken to reach
international agreement on the complete prohibition of atomic,
hydrogen and other types of weapons of mass destruction;

Takes into account the demands made by wide circles of
international public opinion with regard to the necessity for the
destruction of stocks of atomic and hydrogen weapons in the
possession of States;

Considers that the destruction of stocks of atomic and hydrogen
weapons would contribute to the relaxation of international tension
and the attainment of the fundamental goal -- the complete and
unconditional prohibition of atomic and hydrogen weapons;
The Security Council (General Assembly)

Decides:

1. To propose to all States, both Members and non-Members of the United Nations that they should pledge themselves, as a first step towards the reduction of armaments and armed forces, not to increase their armaments and armed forces above the level of 1 January 1955 and not to increase their appropriations for military purposes above the level of the appropriations for these purposes in 1955,

2. To propose to all States which possess atomic and hydrogen weapons that they should destroy completely stocks of those weapons in their possession, and use atomic materials solely for peaceful purposes,

3. To institute international control over the observance of this decision.
