The Sub-Committee deems it necessary:

1. As a first step towards putting an end to the armaments race, to adopt as a basis the draft General Assembly (Security Council) resolution, submitted by the Soviet Union, on "Limitation of armaments and destruction of stocks of atomic weapons" (annexed hereto);

2. To submit to the General Assembly (Security Council) for consideration a proposal to convene in 1955 a world conference on the general reduction of armaments and the prohibition of atomic weapons, to be attended by States both Members and non-Members of the United Nations.
ANNEX (previously published as DG/SC.1/12/Rev.1)

LIMITATION OF ARMAMENTS AND DESTRUCTION OF STOCKS OF ATOMIC WEAPONS

The Security Council (General Assembly),

Recognizes that the cessation of the armaments race would contribute to the relaxation of tension in international relations and the strengthening of world peace, and also to the reduction of the tax burden which that race imposes on the peoples;

Further recognizes that in order to save mankind from the threat of an annihilating atomic war, immediate steps must be taken to reach international agreement on the complete prohibition of atomic, hydrogen and other types of weapons of mass destruction;

Takes into account the demands made by wide circles of international public opinion with regard to the necessity for the destruction of stocks of atomic and hydrogen weapons in the possession of States;

Considers that the destruction of stocks of atomic and hydrogen weapons would contribute to the relaxation of international tension and the attainment of the fundamental goal -- the complete and unconditional prohibition of atomic and hydrogen weapons;
The Security Council (General Assembly)

Decides:

1. To propose to all States, both Members and non-Members of the United Nations that they should pledge themselves, as a first step towards the reduction of armaments and armed forces, not to increase their armaments and armed forces above the level of 1 January 1955 and not to increase their appropriations for military purposes above the level of the appropriations for these purposes in 1955,

2. To propose to all States which possess atomic and hydrogen weapons that they should destroy completely stocks of those weapons in their possession, and use atomic materials solely for peaceful purposes,

3. To institute international control over the observance of this decision.
