The Conference,

(a) Having discussed the subject of "safeguards against the diversion of source or special fissionable material from peaceful to military uses, and safeguards against industrial espionage",

(b) Recalling the responsibility conferred on the International Atomic Energy Agency for the application of such safeguards under article III of the Treaty on the Non-Proliferation of Nuclear Weapons,

(c) Also recalling the preamble to this Treaty in which the Parties express their support for efforts to further the application, within the framework of the IAEA safeguards system, of the principle of safeguarding effectively the flow of source and special fissionable materials by use of instruments and other techniques at certain strategic points,

1. Expresses the hope that the Agency will take into account the views expressed at the Conference on the application of the safeguards envisaged in the Treaty on the Non-Proliferation of Nuclear Weapons;

2. Requests the Secretary-General, to that end, to transmit to IAEA the records and other documents of the Conference relating to the subject, including the proposals and suggestions submitted;

3. Requests those States members of IAEA which are in a position to do so to grant the Agency such assistance as may be considered necessary in improving the system of safeguards in accordance with the above-mentioned provision of the Treaty on the Non-Proliferation of Nuclear Weapons.
