Pakistan: draft resolution

The Conference of Non-Nuclear-Weapon States,

Believing that freedom of access to scientific institutions and nuclear establishments engaged in research and development of the peaceful uses of nuclear energy, as well as access to scientific and technological information in the nuclear field among the non-nuclear-weapon States and between the non-nuclear-weapon States and the nuclear-weapon States, leads to the promotion of nuclear technology,

Realizing that technical assistance rendered by nuclear-weapon States and such non-nuclear-weapon States as have advanced in the field of nuclear technology through bilateral or multilateral channels, to those non-nuclear-weapon States which are less advanced, helps them to acquire the benefits of nuclear technology,

Considering the importance of strengthening all possible measures to prevent the proliferation of nuclear weapons,

Urges all nuclear-weapon States and those non-nuclear-weapon States which are in a position to do so, to provide access on a non-discriminatory basis to their scientific institutions and nuclear establishments engaged in research and development of the peaceful uses of nuclear energy;

Urges further nuclear-weapon States and those non-nuclear-weapon States which are in a position to do so, not to provide (a) source or fissionable material, or (b) equipment and material especially designed or prepared for the processing, use or production of special fissionable material, to any recipient non-nuclear-weapon State, unless such recipient State has accepted safeguards as set forth in an agreement to be negotiated and concluded with the IAEA individually, or collectively, as a member of a multilateral arrangement, in accordance with the Statute and safeguards system of the Agency as evolved from time to time.
