Switzerland: draft resolution

The Conference of Non-Nuclear-Weapon States,

(a) Recognizing the importance and urgency of halting all nuclear-weapon tests by
the rapid conclusion of a comprehensive test ban treaty,

(b) Aware that, with further technological progress, important benefits may be
derived from the peaceful uses of nuclear explosives,

(c) Bearing in mind the discrimination and different treatment of States inherent in
the present situation, allowing nuclear-weapon States to conduct without international
interference any project in the field of nuclear explosions, the only internationally
formalized limitation being the rules of the Partial Test Ban Treaty, while other States
would be able to obtain the benefits from nuclear explosions for peaceful purposes only
in an indirect way under the rules of Article V of the Non-Proliferation Treaty,

(d) Convinced therefore of the need on the one hand to obtain, as rapidly as
possible, a comprehensive test ban treaty, prohibiting in principle all nuclear explosions,
on the other hand to create, in a separate international instrument, a régime, aiming at
managing and controlling, internationally, all explosions for peaceful purposes as
exceptions from the general prohibition under the comprehensive test ban,

(e) Noting the Joint Memorandum on a comprehensive test ban treaty presented on
26 August 1968 to the Conference of the Eighteen-Nation Committee on Disarmament by the
dellegations of Brazil, Burma, Ethiopia, India, Mexico, Nigeria, Sweden and the United
Arab Republic.

Endorses the opinion expressed in that document that the question of nuclear explosions
for peaceful purposes is also closely linked with a comprehensive test ban, this aspect of
the matter underlining the urgency of a universal and comprehensive solution of the problem
of nuclear explosions for peaceful purposes compatible with a comprehensive test ban treaty.
