About Your Ministerial And Degree Recognition Status

EXTREMELY IMPORTANT Please Read Carefully

It is our responsibility to ensure you receive all the correct information so you can make a well informed decision. Please take the time to read through the reasons why it is important to renew your annual ministerial affiliation fee of **\$80**. You also have the option to renew your IMM affiliation for two years at \$140.

Metaphysical Degrees are determined by the Department of Education in Washington D.C. as non-secular and are thus classified and regarded as religious in nature. They are awarded in regard to professional ministerial work done in relation to teachings, directly or indirectly associated with lessons appearing within the ministry lessons of our university system.

The International Metaphysical Ministry, parent body of the University of Metaphysics and the University of Sedona, has the full legal right to award the diplomas and degrees it offers to its graduates. Graduates have the full legal right to use doctoral titles awarded in conjunction with the ministerial status conferred.

There is no recognized federal accrediting agency for metaphysical degrees because of the separation of church and state. In order to ensure that you are **legally entitled** to use your degree titles after your name, the International Metaphysical Ministry gives your degree(s) their legal status.

If you are not an active Minister or do not intend to have a ministry you will still be required to renew your annual affiliation fee of \$80. This ensures your good standing with the International Metaphysical Ministry, and thus the use of your ministerial degree titles.

You would not be required to submit Minister reports. We would, however, ask that you notify us that you are inactive.

Please also consider that if ever your degree/s were called into question or if we had to produce an official transcript of your student records, we would note on the transcript that you are "not in active current standing with International Metaphysical Ministry". We would still produce your official transcript.

The annual affiliation fee also goes towards administrative costs for keeping your student records. In case you have the need for us to validate your credentials or produce an official transcript, we can do that for you. We keep your student records secure and for an indefinite time. If we lose contact with you for any reason, your student file is relocated to our archives department where it can be easily retrieved.

The choice is entirely yours but we encourage you to keep your affiliation current and in good standing.

If you have any questions regarding any of the above, it will be our pleasure to answer them.

We recognize your contributions influencing the betterment of humanity and appreciate your continued support.

Thank You and Many Blessings.

Michelle-Angela Behr
