Ownership:

Nonprofit, 501 (C)(6)

The Commission's action was based upon its review of the institution's application for initial accreditation, the on-site visit team report (visit conducted September 24-25, 2018) , and the institution's response to that report, received October 29, 2018.

The Accrediting Commission commends the institution for its efforts toward meeting the Standards for Accreditation reflected in the on-site evaluation team report. Further, the Commission found that the areas of weakness cited in the team report were substantively addressed in the institution's response to that report and expresses its confidence that the institution will continue to review, monitor, and enhance its operations to assure the high quality of education and training toward which we all strive.

Toward that end, the Commission directed the institution to provide a follow-up report for staff review, as follows:

1. The institution provided the Commission with documentation outlining a robust curriculum review plan, which included student and faculty input. This review, according to the team report response, is scheduled to occur every two years, beginning in January 2019.

Therefore, the institution is directed to provide a narrative update and supporting documentation to show implementation of the new process and progress achieved in February, 2019.

A copy of this report, **including the attached staff report cover sheet**, must be emailed to **staffreports@accet.org** for receipt at the ACCET office no later than **March 15, 2019**.

As a reminder, please be advised that late submission and receipt of documents and reports are subject to significant late fees in accordance with Commission policy. These fees are outlined in ACCET Document 10, which can be found at www.accet.org.

The institution is reminded to update its website to accurately reflect its new accredited status. Similarly, the institution must post Document 49.1 – Notice to Students: ACCET Complaint Procedure, at its facility.

ACCET accreditation status involves a number of operational review and approval processes prior to implementation and, similarly, reporting requirements pertinent to specific triggering events. These are outlined in ACCET Document 14 – ACCET Reporting Requirements, which can be found on the ACCET website (www.accet.org) under Documents and Forms, and copies of which should be distributed to all affected staff at the institution to ensure compliance with these essential requirements. In addition, institutions are restricted during the 12 month period following a grant of initial accreditation from making substantive changes such as the addition of new programs, major program revisions, previously unevaluated instructional delivery methods (e.g., distance learning), additional locations, relocation out of the general market area, etc. The application of this policy can be waived, in whole or in part, only upon approval of a special consideration requested by the institution from the Accrediting Commission prior to making application for such proposed changes.

Additionally, institutions are required to notify ACCET at all times immediately following the consummation of any change of ownership of 10% or greater or following a change in control of the institution.

The appropriate state and federal education officials will be notified of this action by copy of this letter, as applicable. The institution is advised to visit the ACCET website at www.accet.org for timely updates and for downloading the most current information, policy documents, and forms.

If we can be of further assistance to you as a newly accredited member institution, please do not hesitate to contact me or any of the staff at your earliest opportunity. Accreditation represents *A Partnership for Quality*® that is unique and important and, toward that end, we look forward to working together with you.

Sincerely,

William V. Larkin, Ed.D.
