

Outreach Report
Public Health Week
Monday, April 1st, 2019

Division:
Department Wide

Participating Staff:
Emily Miller, Director of Nursing
Andrea Barnes, Director of Environmental Health
Olivia Roston, Business Services Officer
Tina Nichols, Disease Intervention Specialist

Anticipated Outcome: The anticipated outcome of this event was to collect surveys relative to Accreditation needs. This was a great opportunity to encourage the public to come to our department to meet staff and learn about services we provide.

Description of event: This event took place at our health department. The staff put together a survey for the Healthy Homes grant and handed out buckets to the citizens of Galion who completed the short survey. Services advertised were: Lead Safety, Food Safety, Free Blood Pressure Checks and Free Mosquito dunks.

Location: The Galion City Health Department
Audience: The Galion Community
of Community Members Impacted: unknown
Sponsor: n/a

Outcomes of event: Not many individuals stopped in to pay us a visit during this event. The weather was pleasant.

In what ways can outreach be improved? Better advertisement would have benefited this event.
