

MOBILE USABILITY TEST	U1	U2	U3	U4	U5	TOTAL	POSSIBLE SOLUTIONS & NEXT STEPS	NOTES
Errors - Record and prioritize most critical errors based on your error classification.								
[Error Rating 1] Finding the bell symbol for activating 'Weather Alert' took very long	Red	Yellow	Green	Blue		2	Make the bell clearer, maybe by changing its tinting color for it	
[Error Rating 1] Clicked 'hamburger menu' button when looking for paragliding sites					Green	1	Add understandable and clear symbols to the main functions at the bottom row to make it clearer	Tester didn't read text of main functions
[Error Rating 1] Spedal for 'GIG' or 'Contact Local' is not visible for iOS/iPad					Green	2	Find another and better symbol that's clearer for GIG	
Observations - What are people doing, thinking and feeling? Use active verbs.								
Observation 1: Intuitively navigating through onboarding screens					Green	4		
Observation 2: Click on search symbol (Home + Map screen) to look for paragliding sites					Green	1	Leave alone if it's another possibility of looking for paragliding sites (instead of choosing a site on the map) but it's not implemented in prototype	
Observation 3: Want to scroll pictures to look at paragliding site tabs					Green	1	Leave (will be available in finished and fully coded app)	
Observation 4: Want to zoom in and zoom out GoogleMap and WhatsApp Map					Green	1		
Observation 5: Would like to browse through tab navigation menu (site info & weather)					Green	1	Leave (but tab navigation menu will be active in finished app)	
Observation 6: Finding the heart symbol for 'Favorites' very easily and quickly					Green	1		
Observation 7: Understood they have to choose a time span for activating weather alert					Green	1		
Observation 8: Start looking for 'Contact a Local' at paragliding site map					Green	1	Leave alone if it's another possibility of finding a local additionally to via Extra Features	
Observation 9: Find 'Contact a Local' via paragliding site map on the info screen					Green	1	Leave alone if it's another possibility of finding a local additionally to via Extra Features	
Observation 10: Find 'Contact a Local' via 'Extra Features'					Green	1		
Negative Quotes - Any negative comments? Record them here.								
I would expect receiving alerts via the app and not WhatsApp or something else					Green	1	Overthink function and alert notification text; add possibility of adjusting alert settings for user benefits	
"Oh, app is weird" what? What does that mean? Why can't I scroll here?					Green	2	Add possibility of scrolling to see Google & Facebook signs below keyboard OR add an additional screen from which shows the signs options	
The app's navigation menu structure isn't always straight. Would be difficult to design.					Green	1	Overthink structure; improve it if it doesn't add any extra steps for the user	
"Welcome, IT" at the home screen would only make sense if I could click on my name and manage profile options					Green	1	Either omit the "Welcome, IT" or add a link to profile options	
Help offered on the bottom of the main screen isn't necessary; it's better in the hamburger menu					Green	1	Don't "lead help" at main screen	
I would like to see more tabs about paragliding sites					Green	1	Add more tabs; make paragliding site tabs more visible in prototype	
Only "Welcome" on onboarding screens; it takes up too much space					Green	1	Maybe only show a smaller logo which says "Paragliding"	
I would like to check my favorites list when having added a favorite paragliding site					Green	1	Leave (function is designed but not implemented in prototype; access via 'heart' at paragliding site map main page)	
Positive Quotes - Any positive comments? Record them here.								
The app's structure is as I'd expect it to be					Green	1	That means the tester finds his way through it - leave main structure mainly as it is	
Overall, I think it's very intuitive to use					Green	1	Great, the users can navigate quickly and intuitively through the app	
Weather alert is a great idea!					Green	1	Good to hear this function will be helpful	
When will this app be released?					Green	1	The paragliders definitely need an app like this. Find someone who can code and publish the app
