

```
private static dynamic LoadObject(string url)
{
    object result;
    var client = new WebClient();
    client.Headers.Add(HttpRequestHeader.Accept, "application/json");
    client.Headers.Add("APIKey", apiKey);

    var stream = client.OpenRead(url);
    using (var reader = new StreamReader(stream))
    {
        var str = reader.ReadToEnd();
        result = JsonConvert.DeserializeObject<dynamic>(str);
    }
    return result as dynamic;
}
```

WebException was unhandled

An unhandled exception of type 'System.Net.WebException' occurred in System.dll

Additional information: The remote server returned an error: (403) Forbidden.

Troubleshooting tips:

- Check the Status property of the exception to determine why the request failed.
- Check the Response property of the exception to determine why the request failed.
- Get general help for this exception.
