

Calendar Events Do Not Appear in a Readable Format on Mobile Device

Sustainable Tallahassee, Account 17696 August 7, 2019

In desktop mode our calendar events are readable and easy to identify in order to choose which event to select.

However, on a mobile device the calendar events are not at all identifiable in order to choose which event to select.

We have many events on our calendar, sometimes 3 or more events on a single day. Our calendar is our second highest accessed web page, and it is a major service we provide to the community.

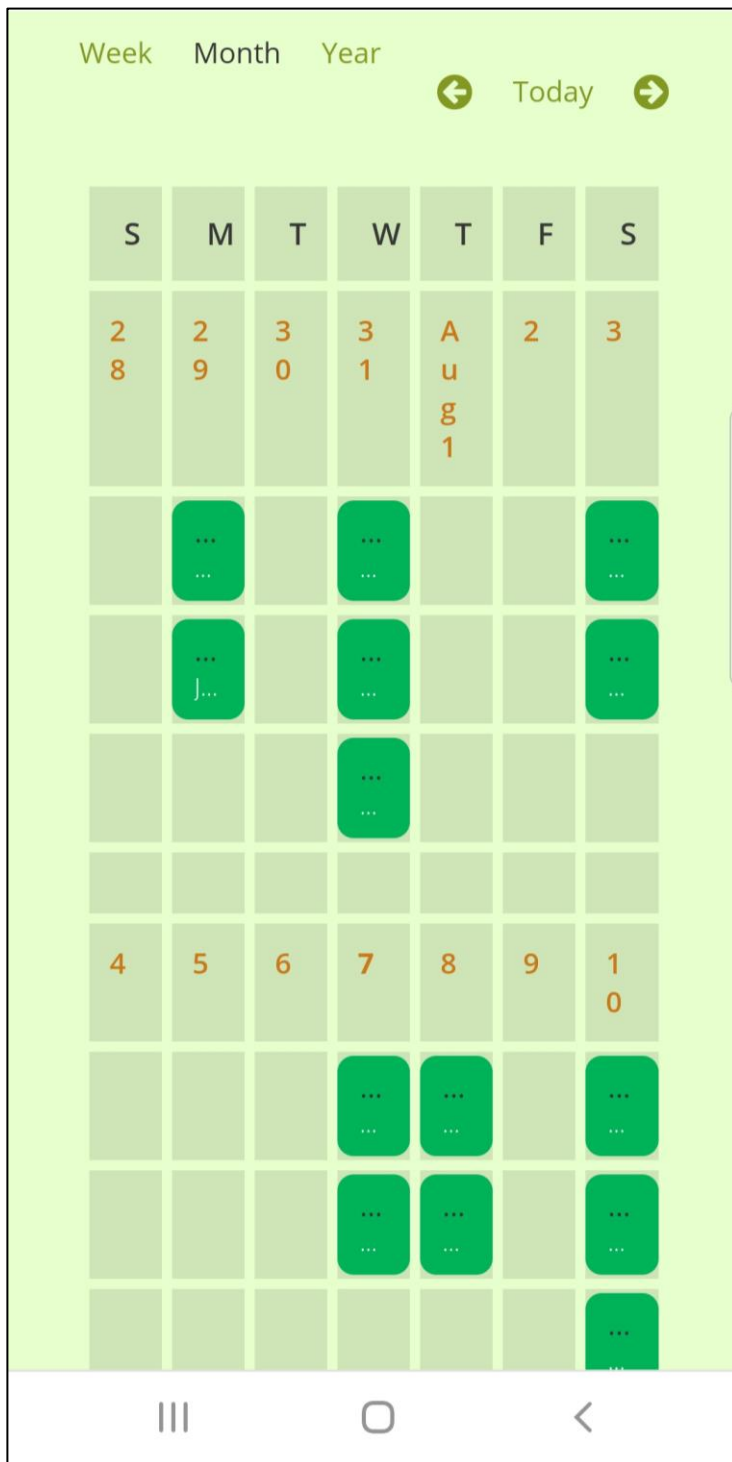

We get numerous complaints from people who only access our site on their mobile devices, because the calendar is entirely useless on their phones.

Below are screen prints to illustrate. Please fix!! This is extremely important. Thank you.

Desktop mode:

Mobile Mode – Vertical view:

Mobile Mode – Horizontal view:

The screenshot shows a mobile calendar interface in horizontal view. The top status bar displays the time as 4:01, a temperature of 76°, and a battery level of 74%. The calendar grid has columns for each day of the week. The dates shown are 28 (Sunday), 29 (Monday), 30 (Tuesday), 31 (Wednesday), Aug 1 (Thursday), 2 (Friday), and 3 (Saturday). Several events are listed in green boxes: '4:30 PM Sustai...' on Monday, '9:00 AM NATIV...' on Wednesday, '8:00 AM The M...' on Saturday, '5:30 PM July's ...' on Monday, '12:00 ... The Gr...' on Wednesday, '10:00 ... French...' on Saturday, and '4:45 PM Sustai...' on Wednesday.

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
28	29	30	31	Aug 1	2	3
	4:30 PM Sustai...		9:00 AM NATIV...			8:00 AM The M...
	5:30 PM July's ...		12:00 ... The Gr...			10:00 ... French...
			4:45 PM Sustai...
