

2025

PAST, PRESENT, AND FUTURE OF THROMBOSIS MEDICINE

OCTOBER 25, 2025
TORONTO AIRPORT HILTON

2025 Agenda

8:30 – 8:45	Opening Remarks, Message from the President
8:45 – 9:30	Thrombosis Morning report
9:30 – 10:00	History of thrombosis and antithrombotic therapy
10:00 – 10:20	Warfarin for stroke prevention in AF: What's old is new
10:20 – 10:40	Thrombosis and anticoagulation in cirrhosis
10:40 - 11:00	BREAK
11:00 – 12:00	Rapid Fire 1. To add or not add ASA in mechanical valves? 2. Catheter-directed thrombolysis for extensive DVT 3. Antithrombotic management post venous stenting 4. Assessment of breakthrough VTE 5. Is TXA pro-thrombotic?
12:00 – 12:30	Workshop session #1
12:30 – 1:30	LUNCH
1:30 – 2:15	Debate: Intermediate risk PE: should you admit?
2:15 – 2:35	Anticoagulation for AF in end stage renal disease
2:35 – 2:55	Anticoagulation for VTE in end stage renal disease
2:55 – 3:15	BREAK
3:15 – 3:45	Factor XI inhibitors: what do we know and what's next?
3:45 – 4:05	Anticoagulation after ischemic stroke and intracranial hemorrhage
4:05 – 4:25	SVT in pregnancy: gaps and insights
4:25 – 5:00	Workshop session #2

2025

PAST, PRESENT, AND FUTURE OF THROMBOSIS MEDICINE

OCTOBER 25, 2025
TORONTO AIRPORT HILTON

Workshop topics

1. Primary prevention of cancer-associated thrombosis
2. Antepartum and post-partum thromboprophylaxis in pregnancy
3. Role of antiplatelet therapy in addition to anticoagulants in AF
4. Management of cerebral vein thrombosis
5. Reversal of DOACs for major bleeding or urgent surgeries
6. Anticoagulation choices in the elderly
7. Pulmonary Embolism Response Teams (PERT): experiences in getting started and their use
8. Diagnosis of antiphospholipid syndrome
9. Management of post thrombotic syndrome
