

Kentucky Firefighter's Association

Office of the President

Rick Bobo

August 22, 2022

Fire Departments and Private Sector Partners,

It is the time of year again to begin working on the 2023 Kentucky Firefighter's Association Conference Catalog which supports the KFA Annual Conference. The 2023 conference will be held in Louisville July 29 – August 1, 2023. We are asking for your support in this endeavor.

This year we are changing the format of the catalog to better fit the needs of the fire service throughout the Commonwealth.

There have been many issues that have impacted the budgets of fire departments including hiring practices, Covid 19, and operational issues. With that in mind, we are opening the book up to include hiring ads for departments, recruitment and retention opportunities, health and wellness announcements, and best practices advertisements. This is your opportunity to shine and bring your message to the many fire departments across the state.

We are thankful for and cannot forget the many people that support the fire service and offer their participation in the catalog in support of the conference. This year we will welcome our private sector business partners to participate in this opportunity as well! There will be ample space in the catalog and multiple options for size and esthetics to meet everyone's advertising and/or messaging needs.

Attached is the form that you can fill out electronically or please follow the link below to complete the process!

Thanks in advance for your support!

Rick Bobo
