## SPECIAL OPERATORS TRANSITION FOUNDATION

The Special Operators Transition Foundation (SOTF) is a 501(c)3 nonprofit that is dedicated to providing the best service to civilian career transition support to our nation's finest service members; the men and women of the military's Special Operations units and select intelligence organizations. These service members not only represent the tip of the spear defending our nation, but also the tip of the spear in terms of talent, bravery and dedication.

No time in our recent history highlighted this bravery, dedication and talent more than the response to the attacks of 9/11. Within hours of the attacks, men and women of the Special Operations and intelligence communities began to mobilize to those who supported the attacks and hold them accountable for their actions. These operators went to battle from the backs of helicopters, planes and even horse in the efforts against the attackers and they continued to be the tip of the spear for the 20 years of the war in Afghanistan.

As we near the 20th anniversary of the 9/11 attacks, the SOTF is honored to be invited to the New York Athletic Club to pay tribute to the victims, honor the heroes who responded and fought over the last 20 years, and hear their perspectives of the security situation and future of Afghanistan. We invite you to join us on September 15th, 2021 where these Special Operators, will provide a unique into this part of history.

**SEPTEMBER 15TH**

NEW YORK ATHLETIC CLUB  
LEGION ROOM  
6:00 PM

Please join us for a charity fundraiser, networking reception and panel discussion with current US Special Operators, at the **New York Athletic Club**. The evening will feature rarely heard stories from those who were at the tip of the spear of America's military response to the Taliban attacks. These former and current operators will also provide their perspectives of the future of Afghanistan as the United States moves to end its war by the 20 year anniversary of the attacks. We will follow the Afghanistan discussion with a meet and greet session with current special operators who are looking to find careers in the greater New York area.

"The Special Operators Transition Foundation was instrumental in preparing me for life outside of the Army. I had been in the military so long and I had little knowledge about working in the private sector, let alone finding employment. With the help and mentorship of Veterans who had made successful transitions, industry experts, consultants, and peers, I was able to find my own post military path. I would not have been able to do this without the support of the Special Operators Transition Foundation"

## HIRING PARTNER IMPACT:

"These men are the best of the best. Their unique skillset and expertise combined with their network of connections makes them invaluable. Most of all it has challenged my way of thinking too. It makes me proud to do my small part to foster Aussie and US mateship."
