Can’t access Zoom?

First, check with your internal administrator to find out if there is a block/firewall and if it can be removed. If they are unable to remove it, consider if you can attend from home or a different location. You may be able to access the web client of zoom for information on how to do this visit Zoom support

If it is not working due to a firewall issue and you need help troubleshooting, To learn more about testing Zoom, visit this article on the Zoom support page.

Contact us at live@ihhp.com and we will do our best to help you solve the problem.
