

L3Harris International Users Conference & Training Symposium

September 11 - 15, 2023

Tentative Agenda

Monday, September 11

7:00 am – 3:00 pm **Registration Open, Foyer Bon Secour Bay, 2nd floor**

8:00 am – 1:30 pm **Golf Activity, *Magnolia Grove, Robert Trent Jones Golf Trail***

Transportation is provided for all off site events. Shuttles depart from Fathom Street Entrance of the Hotel

2:00 pm – 5:30 pm **Technical Training- Cybersecurity, An Organized And Adaptable Approach**
Bon Secour Bay 3

Trainer: *Shane Turner, Manager Systems Engineering*

Description: Public Safety agencies work in highly integrated environments as agencies and organizations are closely linked together to provide seamless support across all areas of public safety. It is the same for Land Mobile radio networks. LMR networks are interconnected information systems with devices and applications providing critical voice and data in a highly 'joint' world. In this highly connected world, privacy and security are paramount. How do you start? How do you guide your cybersecurity activities to manage this increasing security risk? How do you harden your system to protect the confidentiality, integrity, and availability (CIA) of your information.

Take-away: Key takeaways from this session:

- The NIST 'Cybersecurity Framework' is one path to help prevent a "hit or miss" approach to protecting your system and privacy.
- Cyber threats are mutable and increasingly sophisticated, and this demands that you establish and constantly evaluating the controls you deploy in your system.
- Chose suppliers who develop products using a secure development lifecycle.

6:30 pm – 9:00 pm **Opening Reception & Cookout – *At the Renaissance Mobile Riverview Plaza, Fathom Patio***

Tuesday, September 12

7:00 am – 8:00 am **Breakfast, Bon Secour Bay 3- *Meal Provided***

7:30 am – 9:00 am **Registration Open- Foyer, Bon Secour Bay , 2nd floor**

8:00 am – 8:30 am **General Session- Bon Secour Bay Ballroom 1&2**

- Present Colors
- Welcome to Mobile, AL
- Introductions of Board of Directors: Jayne Leighton, L3Harris
- State of the Business: Dirk Young, Board of Directors, Treasurer
- Minutes- Josh Franklin, Williams Communications, Board Secretary

8:30 am – 10:30 am **Users Talking to Users- Bon Secour Bay Ballroom 1&2**

10:30 am – 10:45 am	Break- <i>Foyer Bon Secour Bay</i>
10:45 am – 12:00 pm	L3Harris Responses- Panel Discussion- <i>Bon Secour Bay Ballroo 1&2</i>
12:00 pm – 1:00 pm	Lunch, <i>Bon Secour Bay 3- Meal Provided</i>
1:00 pm – 2:00 pm	Keynote Speaker, <i>Bon Secour Bay Ballroom 1&2</i>
2:00 pm – 2:30 pm	Break- <i>Foyer Bon Secour Bay</i>
2:30 pm – 5:00 pm	Vendor Showcase/ Exhibit Hall, <i>Grand Bay Ballroom, 2nd floor</i>
6:15 pm – 9:00 pm	Off Site Dinner - <i>Meal Provided</i>

Transportation is provided for all off site events. Shuttles depart from main lobby entrance of the Hotel

Wednesday, September 13

7:00 am – 8:00 am	Breakfast, <i>Bon Secour Bay 3- Meal Provided</i>
7:30 am – 11:00 am	Registration Open , <i>Foyer Bon Secour Bay</i>
8:00 am – 8:30 am	General Session/ Elections, <i>Bon Secour Bay Ballroom 1&2</i>
8:30 am – 11:45 am	L3Harris Breakouts, <i>on first floor</i>

Session 1

Stay Connected: Enhancing the XL Family of Devices, *Riverboat*

Presenters: *Don Griffis: Principal Product Manager for XL Portables, Austin Lamicella: Sr Product Manager for XLP Software, JP Baker – Product Manager for MCPTT, XL Virtual, Rob Wall - Lead Product Manager for Mobiles*

In this session, the L3Harris Product team will provide the latest updates on our XL Family. This includes new software updates, new features/capabilities, XL Virtual announcement, updated accessories, and future roadmap ahead.

Session 2

Open – Adaptable – Unstoppable: Infrastructure you can count on, *Clipper*

Presenters: *Jeremy Elder: Director of Product Management for Systems Infrastructure and Devices, Andrew Hernandez: Lead Product Manager for VIDA Systems*

During this session, the L3Harris Product team will share the latest new capabilities for our VIDA System as well as the System Release roadmap going forward. The team will also provide the latest updates for our new Two47 Base Station family.

Session 3

Solutions that work for you: How to expand your eco-system with the MCA, *Windjammer*

Presenters: *Brittany Martin – MCA Manager, Jason Burt – Public Safety Market Manager, Rob Butts - Professional Communications Market Manager*

During this session, the L3Harris Product team will give an overview of the Mission Critical Alliance ecosystem and discuss the various solutions provided by the MCA.

Session 4

Best practices: Get the most out of your P25 System, *Schooner*

Presenters: *John Casler – Product Manager for Cyber Security and Managed Services, Rebecca Frye– Product Manager for Managed Services*

During this session, the L3Harris Managed Services team will explain how lifecycle management will keep your system cyber secure and finely tuned with the latest managed service offerings.

11:45 pm – 2:30 pm **Offsite Visit to Gulf Coast Emergency Response Academy, *Lunch Provided***
Transportation is provided for all off site events. Shuttles depart from Fathom Street Entrance of the Hotel

1:30 pm – 4:45 pm **L3Harris Breakouts Continued**

6:30 pm – 8:30 pm **Dinner- *On Your Own***

Thursday, September 14

7:00 am – 8:00 am **Breakfast, Bon Secour Bay 3- *Meal Provided***

8:00 am – 8:30 am **General Session / Election Results and Close, Bon Secour Bay Ballroom 1&2**

8:30 am – 5:30 pm **Technical Training Session I -ISSI Gateway, Riverboat, 1st floor**

Trainer: *Robert Canody, L3Harris Technical Trainer*

Course Description: This training session will provide an overview of how to configure the Inter-RF Subsystem Interface (ISSI) using the Unified Administration System (UAS). Course topics include configuring the UAS for local and foreign ISSI gateways, creating an ISSI Region, establishing System Assigned ID (SAID) ranges for foreign talk groups and users, determining shared users and talk groups available to foreign systems, and creating foreign user permission templates. Upon completion of this training, participants will be able to:

- Describe the P25 Standard ISSI Functions and system terminology
- Describe the requirements for implementation of the ISSI Gateway
- Describe the L3Harris ISSI Gateway Capabilities
- Draw a basic diagram of the ISSI gateway interconnections and major components
- Discuss the ISSI configuration options and how interoperability is accomplished
- Explain local and foreign radio registration process
- Describe the Call process for a Radio User Roaming from RFSS 1 to RFSS 2 (and RFSS 2 to RFSS 1) for Wide Area calling on two different P25 networks
- Describe the steps required to configure the ISSI using the Unified Administration System (UAS)
 - Configure the ISSI Gateway for Voice End User Properties
 - Create and Configure for Foreign Talk Groups
 - Create and Configure for Foreign End Users
 - Configure Talk Groups and Voice End Users for Roaming
 - Establish a SAID range for foreign Talkgroups and Users
 - Create an ISSI region, within the UAS, for home users that may roam to other systems.
 - Describe the administrative tools the ISSI provides and how they are accessed.

8:30 am – 4:00 pm **Technical Training Session II- Radio Programming with RPM 2**
Windjammer, 1st floor

Trainer: *Lewis Padgett, L3Harris Technical Trainer*

Course Description: This training will focus on how to create a radio personality for XL model radios. We will discuss the required sets needed to create P25 Trunked, P25 Conventional and BeOn radio systems in Radio Personality Manager 2. We will also explore the different options that are available in programming to include Voice Annunciation, User Profiles and LTE network configurations to ensure you and your users get the most out of your investment. Upon completion of this training, participants will be able to:

- Describe the basic process for creating a new P25 trunked radio personality in RPM2.

- Identify which sets are required to create P25 trunked, P25 Conventional radio systems and which sets are optional.
- Recognize the different options that are programmable for XL model radios.
- Configure an XL radio to communicate on FirstNet or a commercial LTE network using BeOn.
- Describe the process to add Voice Annunciation and User Profiles to a radio personality.

Friday, September 15

7:30 am – 8:30 am

Breakfast Provided, Bon Secour Bay 3

8:30 am – 4:00 pm

Technical Training Session II -Radio Programming with RPM 2
Continued, Windjammer, 1st Floor
