

Wow! 2020 has been quite a year! Do we have just a little of the COVID blues too? We sure do, but we thought opening The Patch and enjoying some fresh air with our guests might be a great way to lift everyone's spirits a bit.....so after much deliberation and planning, we have decided to open for the 2020 season!

What's New at Libby's Pumpkin Patch this year?

Advance tickets will be available online at Libbyspumpkinpatch.com and our Facebook and Instagram pages. Tickets are non-refundable. Tickets will be sold online to assist in managing crowd levels per hour and to assist in social distancing. Face coverings per the CDC will be required at the entrance, exit, lines, corn maze, and any other situation where 6 feet distance cannot be maintained. You will notice hand sanitizing stations in areas such as the tiny tractor track and the yard games section. Guests will be asked to sanitize their hands before and after play in these areas. High touch surfaces will be wiped down periodically by staff.

Private hayrides appointments/tickets for your family can be purchased online. We can accommodate your party of up to 10 on the hayride. Hayrides appointments will be available on the weekends only.

We will be open on Fridays, Saturdays, and Sundays to assist in spreading out crowd volume.

Unfortunately, we are not able to offer pumpkin ice cream this year or use of the play corn bin. We will also miss face painting. We have high hopes for their return in 2021!

The barn will be closed. There will be no tables and chairs set up for eating. Picnic Park is an area designated for guests to have a picnic on the ground to eat the

food purchased at the vendors. Your household is invited to bring a blanket to sit on to eat “dinner on the ground” as the old timers say it. Spaces will be drawn on the lawn to ensure social distancing.

Pumpkin carving/decorating kits will be sold in advance online. With the purchase of a carving kit, you will receive a sanitized space for your small group of up to 6 people. Leave the cleanup of the pumpkin guts to us!

Walking trail

Check out our new mythical creature themed walking trail at the Patch. This trail traverses the woods on some uneven, rugged terrain. Keep an eye out for some new visitors at The Patch hiding in amongst the trees.

Professional photography

Our photo op stations are designed for quick snapshots to capture family memories. We ask that our guests be respectful of other guests distancing space and desire to quickly use the photo space. To that end, we ask that professional photographers please schedule a time to take photographs. While we cannot offer refunds, we can offer date changes. Please private message us on Facebook for details.
